To the Benefits Committee
Verso Paper Company Pension Plan for Hourly Employees
Memphis, Tennessee

We were engaged to audit the accompanying statements of net assets available for benefits of Verso Paper Company Pension Plan for Hourly Employees as of December 31, 2010 and 2009 and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 5, which was certified by the custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2010 and 2009 and for the years then ended; that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and we do not, express an opinion on the accompanying financial statements and the supplemental schedule taken as a whole. The form and content of the information included in the financial statements and the supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VERSO PAPER COMPANY PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements
December 31, 2010 and 2009

Note 1 - Description of Plan

The following description of Verso Paper Company Pension Plan for Hourly Employees provides only general information. Readers should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Verso Paper Company Pension Plan for Hourly Employees (the "Plan") is a non-contributory defined benefit pension plan covering full time and part time employees of Verso Paper Company (the "Company") who have attained the age of twenty-one (21) and completed one year of service in the following classifications: Hourly Union Free and OPEIU Local 442 of the Androscoggin Mill in Jay, Maine; USW Local 274 of the Sartell Mill in Sartell, Minnesota; and USW Local 1-1188, USW Local 4-0261, IBEW Local 1777, IAM & AW Lodge 1821, and OPEIU Local 555 of the Bucksport Mill in Bucksport, Maine. The Plan was established on August 1, 2006, for the benefit of eligible employees, retired employees, and/or their beneficiaries. Employees who were participants in the International Paper Retirement Plan as of August 1, 2006, became participants in the Plan as of August 1, 2006. The Plan is maintained under collective bargaining agreements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

In June 2009, the Company offered a Voluntary Early Retirement Program (VERP) to participants who were born prior to October 1, 1949 and employed as of June 29, 2009, at either the Androscoggin Mill or the Sartell Mill, with at least five (5) years of vesting service as of September 30, 2009. Hourly employees, who applied and were accepted into the VERP, received three additional years of credited service. In addition, any reduction in benefits for early commencement was waived.

Contributions

Contributions by the Company are based upon actuarial computations.

Pension benefits

Benefits become vested after a participant has five years of vesting service or after attainment of age sixty-five (65). Distributions are paid in the form of monthly annuity payments as defined in the Plan Agreement. If the present value of the vested benefit is less than \$5,000, then the benefit will automatically be paid in a single lump sum payment. The amount of a participant's normal retirement benefit is computed based upon the participant's years of credited service and age. The Plan permits reduced benefits for those participants electing early retirement.

With respect to any participant who became a participant as of August 1, 2006, the plan administrator shall credit the participant with the credited service earned under the retirement plan of International Paper Company as of July 31, 2006, and offset the benefit computed under the Plan by the amount of the participant's accrued normal retirement benefit under the retirement plan of International Paper Company as of July 31, 2006.

Notes to Financial Statements (Continued)
December 31, 2010 and 2009

Note 1 - Description of Plan (continued)

Death and disability benefits

If an active participant dies, the participant's surviving spouse is entitled to a death benefit as defined in the Plan Agreement. Active participants who become totally disabled receive annual benefits as defined in the Plan Agreement.

Plan termination

Although it has not expressed any intent to do so, the Company has the right to modify or terminate the Plan at any time subject to the provisions of ERISA and the Plan Agreement. In the event of termination, the Plan provides that all affected participants' interests will become fully vested and nonforfeitable.

Note 2 - Summary of significant accounting policies

Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. The accumulated plan benefits are based upon the participants' estimated monthly benefits which are based upon date of retirement and years of credited service, as detailed in the Plan Agreement. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent enrolled actuary, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

Benefit payments

Benefit payments to participants and beneficiaries are recorded upon distribution.

Notes to Financial Statements (Continued)
December 31, 2010 and 2009

Note 2 - Summary of significant accounting policies (continued)

Events occurring after reporting date

Management has evaluated events and transactions that have occurred between December 31, 2010 and October 3, 2011, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions which affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to the 2009 financial statements in order to conform to the 2010 presentation.

Note 3 - Funding policy

The Company's funding policy is to make annual contributions to the Plan in the amounts that are estimated to fully provide all accrued benefits by the time each participant retires and to meet the minimum funding requirements of ERISA. The Company's contributions are to be made in cash no later than the earlier of the date permitted by law for meeting the minimum funding standards or the date for making tax deductible contributions. Based upon the January 1, 2010, actuarial valuation, the minimum contribution required by the Company was \$8,547,985 for the year ended December 31, 2010. Based upon the January 1, 2009, actuarial valuation, the minimum contribution required by the Company was \$5,940,820 for the year ended December 30, 2009. Actual contributions by the Company totaled \$9,131,531 for 2010 and \$6,231,295 for 2009.

Although it has not expressed the intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the Plan Agreement. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2010 that ceiling was \$4,500 per month for straight life annuity options.

Increase due to early retirement option	1,272,000
Benefits paid during the year	<u>(251,436)</u>
Actuarial present value of accumulated plan benefits as of January 1, 2010	<u>\$ 32,191,526</u>

The more significant methods and assumptions used by the actuaries in their valuation are as follows:

Actuarial cost method - projected unit credit cost method
Asset valuation - Market value of assets on valuation date plus contributions receivable
Interest rate - 6.73% effective rate for 2010, 8.12% effective rate for 2009
Normal retirement age - 65
Early retirement age - 55 with 10 years of credited service, benefit formula
Basis of accumulated plan benefits - credited years of service, benefit formula
Mortality rates - 2010 annuitant and non-annuitant table (static) for 2010 (2009 annuitant and non-annuitant table (static) for 2009)

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 5 - Investments

The custodian of the Plan's investments has supplied the plan administrator with certifications as to the completeness and accuracy of all information presented in the accompanying financial statements and the supplemental schedule pertaining to investments, investment income (loss), and reportable transactions as of December 31, 2010 and 2009, and for the years then ended.

The fair value of the individual investments which represent five percent (5%) or more of the Plan's net assets available for benefits as of December 31, 2010 and 2009 is as follows:

	<u>2010</u>	<u>2009</u>
All Pro Diversified Bond Fund	\$ 12,610,033	\$ 10,459,134
All Pro International Equity Strategy Fund	5,318,359	3,817,215
All Pro Large Cap Growth Fund	4,401,672	3,109,158
All Pro Large Cap Value Fund	4,181,543	3,039,786

During 2010 and 2009, the Plan's investments (including investments bought, sold and held during the year) appreciated in value as follows:

	<u>2010</u>	<u>2009</u>
Pooled separate accounts	\$ 3,108,316	\$ 3,338,290
Insurance company general account	<u>40,674</u>	<u>36,318</u>
	<u>\$ 3,148,990</u>	<u>\$ 3,374,608</u>

Note 6 - Fair value measurements

Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides a common definition of fair value and establishes the framework for measuring fair value. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also established a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value, and describes three levels of inputs that may be used to measure fair value.

Level 1: Quoted prices for identical assets in active markets that the Plan has the ability to access as of the measurement date.

VERSO PAPER COMPANY PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements (Continued)
December 31, 2010 and 2009

Note 6 - Fair value measurements (continued)

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect management's own assumptions about the assumptions that market participants would use in pricing an asset.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010 and 2009.

Pooled separate accounts: Valued at the net asset value of units held by the Plan at year end.

Insurance company general account: Fair value is determined by Nationwide Life Insurance Company based upon the credited rate communicated to the Plan. The credited rate changes periodically based upon returns of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

Note 7 - Related party transactions

Plan investments represent interests in certain pooled separate accounts and a fixed income fund managed by Nationwide Life Insurance Company of America. Nationwide Life Insurance Company of America is the custodian for the Plan and, therefore, these investments and related investment transactions qualify as party-in-interest transactions. Fees paid to the custodian totaled \$208,139 in 2010 and \$139,434 in 2009.

The Company provides the Plan with certain management and administrative services for which no fees are charged.

Note 8 - Tax status

The Plan has received a determination letter from the Internal Revenue Service dated November 6, 2008, stating that the Plan qualifies under the applicable sections of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. The Plan, which has been amended since receiving the determination letter, is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has evaluated the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to IRS examinations for years prior to December 31, 2007.

Notes to Financial Statements (Continued)
December 31, 2010 and 2009

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Plan Name	<u>Verso Paper Company Pension Plan for Hourly Employees</u>	EIN:	<u>56-2597634</u>
Plan Sponsor's Name	<u>Verso Paper Holdings LLC</u>	PN:	<u>003</u>

Describe the at-risk assumptions for the assumed form of payment.

Assumed Form of Payment: Life annuity at assumed retirement age

Assumed Retirement Age:

- employees currently eligible to retire assumed to retire at the earlier of the next valuation date or as valued using the not-at-risk assumption
- remaining employees who will be eligible to retire within eleven years assumed to retire at the earlier of the next valuation date following attainment of both age 55 and 10 years of vesting service (but not prior to the next valuation date) or as valued using the not-at-risk assumption

Attachment to 2010 Form 5500
Schedule SB, line 22 - Description of Weighted Average Retirement Age

Plan Name <u>Verso Paper Company Pension Plan for Hourly Employees</u>	EIN: <u>56-2597634</u>
Plan Sponsor's Name <u>Verso Paper Holdings LLC</u>	PN: <u>003</u>

The weighted average retirement age is equal to the normal retirement age of 63.

List the rate of retirement at each age and describe the methodology used to compute the weighted average retirement age, including a description of the weight applied at each potential retirement age.

For employees who, as of 8/1/2006, had attained age 55 with at least 10 years of service: 55-1%;56-1%;57-1%;58-1%;59-1%;60-1%;61-10%;62-50%;63-30%;64-20%;65-80%;66-50%;67-50%;68-50%;69-50%;70-100% (average age=62.7)

For all other employees:

62-20%;63-10%;64-10%;65-80%;66-50%;67-50%;68-50%;69-50%;70-100% (average age=64.4)

Methodology:

- 1) at each age the number expected to retire is the number of lives at the beginning of the year times the rate at that age
- 2) the number of lives at the next age is the number at the prior age less the number expected to retire
- 3) the product of age and number expected to retire at each age is totaled
- 4) the value in 3) divided by the initial number of lives is the average weighted retirement age for the class
- 5) the overall average retirement age is the weighted average of the two classes

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Name	<u>Verso Paper Company Pension Plan for Hourly Employees</u>	EIN:	<u>56-2597634</u>
Plan Sponsor's Name	<u>Verso Paper Holdings LLC</u>	PN:	<u>003</u>

Describe the at-risk assumptions for the assumed form of payment.

Assumed Form of Payment: Life annuity at assumed retirement age

Assumed Retirement Age:

- employees currently eligible to retire assumed to retire at the earlier of the next valuation date or as valued using the not-at-risk assumption
- remaining employees who will be eligible to retire within eleven years assumed to retire at the earlier of the next valuation date following attainment of both age 55 and 10 years of vesting service (but not prior to the next valuation date) or as valued using the not-at-risk assumption

Schedule SB, line 22 - Description of Weighted Average Retirement Age

Plan Name	<u>Verso Paper Company Pension Plan for Hourly Employees</u>	EIN:	<u>56-2597634</u>
Plan Sponsor's Name	<u>Verso Paper Holdings LLC</u>	PN:	<u>003</u>

The weighted average retirement age is equal to the normal retirement age of 63 .

List the rate of retirement at each age and describe the methodology used to compute the weighted average retirement age, including a description of the weight applied at each potential retirement age.

For employees who, as of 8/1/2006, had attained age 55 with at least 10 years of service: 55-1%;56-1%;57-1%;58-1%;59-1%;60-1%;61-10%;62-50%;63-30%;64-20%;65-80%;66-50%;67-50%;68-50%;69-50%;70-100% (average age=62.7)

For all other employees:

62-20%;63-10%;64-10%;65-80%;66-50%;67-50%;68-50%;69-50%;70-100% (average age=64.4)

Methodology:

- 1) at each age the number expected to retire is the number of lives at the beginning of the year times the rate at that age
- 2) the number of lives at the next age is the number at the prior age less the number expected to retire
- 3) the product of age and number expected to retire at each age is totaled
- 4) the value in 3) divided by the initial number of lives is the average weighted retirement age for the class
- 5) the overall average retirement age is the weighted average of the two classes
