Independent Auditor's Report

The Board of Directors
Western Extrusions Corporation

We were engaged to audit the statements of net assets available for benefits of Western Extrusions Retirement and Savings Plan ("Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule H, Line 4(i) – schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan's investment assets, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that Fidelity holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from Fidelity as of December 31, 2010 and 2009 and for the year ended December, 31, 2010 that the information provided to the Plan Administrator by Fidelity is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by Fidelity, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WESTERN EXTRUSIONS RETIREMENT AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

1. Description of Plan

The following description of the Western Extrusions Retirement and Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Western Extrusions Corporation ("Company") who have at least six months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year participants may elect to defer a portion of their pretax compensation subject to certain maximum limitations imposed by the Internal Revenue Code ("IRC"). The maximum contribution amount per individual was $16,500 for 2010. The Company may, at its sole discretion, make matching contributions to the Plan for any Plan year. Only participants who have made a contribution election for the Plan year, and who are employed with the Company on the last day of the Plan year, shall be eligible to receive a matching contribution. The amount of the matching contribution for each and every participant shall be between zero percent and 100 percent as determined at the sole discretion of the Company. The Company did not make a matching contribution for 2010.

Effective January 1, 2002, employees who are eligible to make elective deferrals under the Plan who have attained age fifty before the close of the Plan year shall be eligible to make "catch-up" contributions in accordance with the IRC. The maximum "catch-up" contribution was $5,500 for 2010.

Participant's accounts - Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is vested twenty percent per year after two years of service and is 100 percent vested after six years of credited service.

Investment options - Upon enrollment in the Plan, a participant may direct employee contributions and Company matching contributions in any of the investment options available under the Plan.

1. Description of Plan (continued)

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund to the participant notes fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, currently 5.25 percent to 10.25 percent. Principal and interest is paid ratably through periodic payroll deductions with the term not to exceed five years.

Payment of benefits - On termination of service, a participant may receive a lump-sum amount equal to the value of their account.

Forfeited accounts – Forfeited, non-vested accounts can be used to reduce employer contributions or reallocated to participant accounts. Forfeited accounts totaled $254 in 2009. There were no forfeited accounts in 2010.

2. Summary of Significant Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 10 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net increase in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefits are recorded when paid by the Plan.

3. Administration of Plan Assets

The Plan assets were held and managed by and Reliance Trust Company ("Reliance") for the period January 1, 2009 through February 2, 2009, when at such time, the assets were transferred to Fidelity Management Trust Company ("Fidelity"), which held and managed the Plan's assets for the remainder of 2009 and the year ended December 31, 2010. Fidelity and Reliance invests cash, interest and dividend income as directed by the participants of the Plan.

4. Excess Contributions Payable

During the year ended December 31, 2010, the Plan failed certain of its nondiscrimination tests. As a result, refunds of excess contributions are required to be paid out to participants in order for the Plan to meet compliance testing requirements. Accruals were made for the excess contributions amounting to $45,872 and $11,758 for the years ending December 31, 2010 and 2009, respectively. Refunds to the participants were made in the subsequent year in which these excess contributions occurred.

5. Certified Information

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the information certified by Fidelity except for comparing such information certified by Fidelity to information included in the Plan's financial statements and supplemental schedule.

The following table presents the fair value of the Plan's investments that were certified by Fidelity at December 31, 2010 and 2009 that represent more than five percent of the Plan's net assets:

5. Certified Information (continued)

	2010	2009
Money market funds:		
Goldman Sachs Financial Square Prime	$ *	$ 1,049,518
Fidelity Retire Money Market	774,103	*
Mutual funds:

Other investments	1,920,317	1,144,902
Total investments at fair value	$ 5,679,623	$ 5,264,883

* - Investment balance is less than five percent of the Plan's assets and therefore included in other investments.

The following additional information for the year ended December 31, 2010 and December 31, 2009 was certified by Fidelity as complete and accurate:

	2010	2009
Notes receivable from participants	$ 247,936	$ 263,301
Statement of changes in net assets available for benefits:		
Net increase in fair value of investments	$ 455,124	
Dividends and interest	122,888	
Participant loan interest	15,174	

6. Party-In-Interest Transactions

Parties-in-interest are defined under DOL Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. As such, transactions conducted by Fidelity qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

8. Tax Status

The Plan obtained its latest determination letter dated April 1, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, is qualified under Section 401(a) of the IRC, and therefore, the Plan is exempt from taxation. The Plan Administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

10. Fair Value Measurements

FASB Accounting Standards Codification Topic 820, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. The Plan's level 1 assets include investments in money market funds and equity mutual funds.

10. Fair Value Measurements (continued)

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets in active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. The Plan does not have any level 2 assets.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The Plan has no level 3 investments.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009. Common stocks, corporate bonds and U.S. government securities are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009, respectively:

10. Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 774,103	$ -	$ -	$ 774,103
Equity mutual funds	4,905,520	-	-	4,905,520
Total investments at fair value	$ 5,679,623	$ -	$ -	$ 5,679,623

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 1,049,518	$ -	$ -	$ 1,049,518
Equity mutual funds	4,215,365	-	-	4,215,365
Total investments at fair value	$ 5,264,883	$ -	$ -	$ 5,264,883

11. Market Risks

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for Plan benefits.

12. Reclassifications

Certain reclassifications have been made to the 2009 financial statements to correspond to the current year's presentation.

13. Subsequent Events

Management has evaluated subsequent events through October 6, 2011, the date the financial statements were available to be issued.

14. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 at December 31, 2010 and 2009:

Independent Auditor's Report

The Board of Directors
Western Extrusions Corporation

We were engaged to audit the statements of net assets available for benefits of Western Extrusions Retirement and Savings Plan ("Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule H, Line 4(i) – schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan's investment assets, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that Fidelity holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from Fidelity as of December 31, 2010 and 2009 and for the year ended December, 31, 2010 that the information provided to the Plan Administrator by Fidelity is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by Fidelity, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WESTERN EXTRUSIONS RETIREMENT AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

1. Description of Plan

The following description of the Western Extrusions Retirement and Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Western Extrusions Corporation ("Company") who have at least six months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year participants may elect to defer a portion of their pretax compensation subject to certain maximum limitations imposed by the Internal Revenue Code ("IRC"). The maximum contribution amount per individual was $16,500 for 2010. The Company may, at its sole discretion, make matching contributions to the Plan for any Plan year. Only participants who have made a contribution election for the Plan year, and who are employed with the Company on the last day of the Plan year, shall be eligible to receive a matching contribution. The amount of the matching contribution for each and every participant shall be between zero percent and 100 percent as determined at the sole discretion of the Company. The Company did not make a matching contribution for 2010.

Effective January 1, 2002, employees who are eligible to make elective deferrals under the Plan who have attained age fifty before the close of the Plan year shall be eligible to make "catch-up" contributions in accordance with the IRC. The maximum "catch-up" contribution was $5,500 for 2010.

Participant's accounts - Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is vested twenty percent per year after two years of service and is 100 percent vested after six years of credited service.

Investment options - Upon enrollment in the Plan, a participant may direct employee contributions and Company matching contributions in any of the investment options available under the Plan.

1. Description of Plan (continued)

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund to the participant notes fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, currently 5.25 percent to 10.25 percent. Principal and interest is paid ratably through periodic payroll deductions with the term not to exceed five years.

Payment of benefits - On termination of service, a participant may receive a lump-sum amount equal to the value of their account.

Forfeited accounts – Forfeited, non-vested accounts can be used to reduce employer contributions or reallocated to participant accounts. Forfeited accounts totaled $254 in 2009. There were no forfeited accounts in 2010.

2. Summary of Significant Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 10 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net increase in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefits are recorded when paid by the Plan.

3. Administration of Plan Assets

The Plan assets were held and managed by and Reliance Trust Company ("Reliance") for the period January 1, 2009 through February 2, 2009, when at such time, the assets were transferred to Fidelity Management Trust Company ("Fidelity"), which held and managed the Plan's assets for the remainder of 2009 and the year ended December 31, 2010. Fidelity and Reliance invests cash, interest and dividend income as directed by the participants of the Plan.

4. Excess Contributions Payable

During the year ended December 31, 2010, the Plan failed certain of its nondiscrimination tests. As a result, refunds of excess contributions are required to be paid out to participants in order for the Plan to meet compliance testing requirements. Accruals were made for the excess contributions amounting to $45,872 and $11,758 for the years ending December 31, 2010 and 2009, respectively. Refunds to the participants were made in the subsequent year in which these excess contributions occurred.

5. Certified Information

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the information certified by Fidelity except for comparing such information certified by Fidelity to information included in the Plan's financial statements and supplemental schedule.

The following table presents the fair value of the Plan's investments that were certified by Fidelity at December 31, 2010 and 2009 that represent more than five percent of the Plan's net assets:

5. Certified Information (continued)

	2010	2009
Money market funds:		
Goldman Sachs Financial Square Prime	$ *	$ 1,049,518
Fidelity Retire Money Market	774,103	*
Mutual funds:

Other investments	1,920,317	1,144,902
Total investments at fair value	$ 5,679,623	$ 5,264,883

* - Investment balance is less than five percent of the Plan's assets and therefore included in other investments.

The following additional information for the year ended December 31, 2010 and December 31, 2009 was certified by Fidelity as complete and accurate:

	2010	2009
Notes receivable from participants	$ 247,936	$ 263,301
Statement of changes in net assets available for benefits:		
Net increase in fair value of investments	$ 455,124	
Dividends and interest	122,888	
Participant loan interest	15,174	

6. Party-In-Interest Transactions

Parties-in-interest are defined under DOL Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. As such, transactions conducted by Fidelity qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

8. Tax Status

The Plan obtained its latest determination letter dated April 1, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, is qualified under Section 401(a) of the IRC, and therefore, the Plan is exempt from taxation. The Plan Administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

10. Fair Value Measurements

FASB Accounting Standards Codification Topic 820, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. The Plan's level 1 assets include investments in money market funds and equity mutual funds.

10. Fair Value Measurements (continued)

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets in active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. The Plan does not have any level 2 assets.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The Plan has no level 3 investments.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009. Common stocks, corporate bonds and U.S. government securities are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009, respectively:

10. Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2010

Total investments at fair value	$ 5,264,883	$ -	$ -	$ 5,264,883

11. Market Risks

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for Plan benefits.

12. Reclassifications

Certain reclassifications have been made to the 2009 financial statements to correspond to the current year's presentation.

13. Subsequent Events

Management has evaluated subsequent events through October 6, 2011, the date the financial statements were available to be issued.

14. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 at December 31, 2010 and 2009:
