Report of Independent Auditors

The Trustees and Participants
Data Documents, Inc. Pension Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Data Documents, Inc. Pension Plan as of December 31, 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3 as of and for the year ended December 31, 2010, which was certified by Marshall & Ilsley Trust Company N.A., the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have audited the statement of net assets available for benefits as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and in our report dated October 14, 2010, we expressed an opinion that these financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009, and the changes in its net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States.

Data Documents, Inc. Pension Plan

Notes to Financial Statements

December 31, 2010

1. Description of the Frozen Plan

The following description of the Data Documents, Inc. Pension Plan (the “Plan”) provides only general information. Participants and all others should refer to the Plan Document for a more complete description of the Plan’s provisions.

General

The Plan is a non-contributory defined benefit pension plan that was created as a spin-off of a previous defined benefit pension plan in connection with the purchase of Data Documents, Inc. (the “Company”) effective February 1, 1988. Participation and benefit accruals to the Plan were frozen effective January 1, 1998. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The custodians of the Plan for the years 2010 and 2009 are the Principal Life Insurance Company (“PLIC”) and Marshall & Ilsley Trust Company N.A. (“M&I”). An employee benefits committee has been appointed by Corporate Express Document and Print Management, Inc. (the “Plan Sponsor”) to serve as the administrator to control and manage the operation and administration of the Plan.

The Plan Sponsor was acquired by Staples, Inc. on July 2, 2008.

Eligibility

Employees became eligible to participate in the Plan after reaching age 21 and completing 1,000 hours of service in a consecutive twelve month period, beginning with the employee’s date of hire and thereafter in each plan year. However, due to the Plan being frozen, no new participants were allowed to participate after January 1, 1998.

Company Contributions

All contributions to the Plan are made by the Plan Sponsor in periodic amounts that meet or exceed the minimum funding standards of ERISA and the Internal Revenue Code (“IRC” or the “Code”).

Data Documents, Inc. Pension Plan

Notes to Financial Statements (continued)

1. Description of the Frozen Plan (continued)

Pension Benefits

Participants with five or more years of service are fully vested and are entitled to annual pension benefits beginning at normal retirement age of 65. The Plan permits early retirement at ages 55-64 after completion of five years of eligible service. Early retirement benefits are reduced in accordance with the terms of the Plan Document. If a participant terminates before rendering five years of service, all benefits are forfeited.

Death Benefits

If the participant has completed five or more years of service, death benefits are available to the participant's surviving spouse. Such benefits are based upon the retirement benefit that would have been payable to the participant if the retirement date had occurred on the date of death.

Termination Provision

Although the Plan Sponsor has not expressed any intention to do so, the Plan Sponsor reserves the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, the assets of the Plan shall be distributed to the participants in an order of priority, determined in accordance with ERISA and applicable regulations there under and the Plan Document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at

Data Documents, Inc. Pension Plan

Notes to Financial Statements (continued)

1. Description of the Frozen Plan (continued)

that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Administrative and Investment Expenses

Expenses incurred in the administration of the Plan may be paid by the Plan Sponsor or from the assets of the Plan. During 2010 and 2009, expenses, which consist primarily of trustee fees and PBGC fees, as allowed under the Department of Labor's guidelines, were paid from the Plan's assets.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Valuations of Investments and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Shares of registered investment companies are valued based on quoted market prices, which represent the net asset values of the shares held by the Plan at year end. Securities traded on a national securities exchange are valued at the last reported share price on the last business day of the plan year.

A portion of plan assets are invested in an immediate participation guarantee ("IPG") group annuity contract. The group annuity contract is invested in the General Investment Fund. The General Investment Fund pays interest at a current rate as determined by the insurance company. The General Investment Fund is valued at the contract value, which approximated fair market value in 2009 and 2010, as permitted for contracts entered into before March 20, 1992. The IPG contract obligates PLIC to pay lifetime benefits to certain retirees and is comprised of two types of accounts, the allocated and the unallocated, both of which are invested in the General Investment Fund. The allocated account represents money needed to cover current

Data Documents, Inc. Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

benefit liabilities and the unallocated account represents money needed to cover adjustments due to mortality charges and plan expenses. Both accounts earn interest.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefit payments to the participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles of the United States requires the Plan's management to make estimates that affect the amounts reported in the financials, accompanying notes, the actuarial present value of accumulated plan benefits and supplemental schedules. Actual results could differ from these estimates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as

for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial cost method used is the projected unit credit actuarial cost method.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2010-06, *Improving Disclosures about Fair Value Measurements*, (“ASU 2010-06”). ASU 2010-06 amended ASC 820, *Fair Value Measurements and Disclosures* (“ASC 820”) to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan’s net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan’s financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through October 7, 2011, the date the financial statements were available to be issued.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held at December 31, 2010 and 2009 and net appreciation in fair value of investments, interest, and dividends for the year ended December 31, 2010 and 2009 was obtained or derived from information provided to the plan administrator and certified as complete and accurate by M&I. The following table presents the investments at fair value at December 31, 2010 and 2009:

	2010	2009
Principle Life Insurance Company General Investment Fund	\$ 9,737,325	\$ 9,604,656

4. Fair Value Measurements

ASC 820 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active
- observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The following table sets forth the estimated fair values of assets measured and recorded at fair value on a recurring basis at December 31, 2010 and 2009:

	December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual funds (1)				
Growth funds	\$ 6,884,564	\$ —	\$ —	\$ 6,884,564

General Investment Fund (2)	—	—	9,604,656	9,604,656
Total investments at fair value	<u>\$ 14,139,489</u>	<u>\$ —</u>	<u>\$ 9,604,656</u>	<u>\$ 23,744,145</u>

- (1) This category represents the Plan's investment in mutual funds with varying degrees of risk. The mutual funds include investments in equity securities of large, small and medium sized companies in the U.S. and in foreign companies, including those in developing countries. The funds are valued based on quoted market prices.

Data Documents, Inc. Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- (2) This category represents the Plan's investment in a group annuity contract. This fund generates interest as determined by the insurance company. The General Investment Fund is comprised of two funds, one to cover current benefits and one to cover adjustments due to mortality charges and plan expenses. The General Investment Fund is valued at contract value, which approximates fair value. The contract value of this fully benefit-responsive investment contract represents contributions plus earnings, less participant withdrawals and administrative expenses.

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the years ended December 31, 2010 and 2009:

Balance at January 1, 2009	\$ 11,084,739
Total interest and dividends credited	512,449
Purchases, sales, issuances and settlements (net)	<u>(1,992,532)</u>
Balance at December 31, 2009	9,604,656
Total interest and dividends credited	521,032
Purchases, sales, issuances and settlements (net)	<u>(388,363)</u>
Balance at December 31, 2010	<u><u>\$ 9,737,325</u></u>

The Plan purchases Immediate Participation Guarantee ("IPG") contracts from PLIC. At the discretion of the Plan's Administrator, a single premium to buy an annuity for a retiring employee is withdrawn by PLIC to purchase the IPG contracts. Funds to purchase the IPG contract are from the unallocated fund. Under the IPG contracts, PLIC is obligated to make lifetime benefit payments to retired employees on behalf of the Plan. In 2009 and 2010, there was an annual adjustment to the account to the contract value to reflect PLIC's experience under the annuities.

5. Accumulated Plan Benefits

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Data Documents, Inc. Pension Plan

Notes to Financial Statements (continued)

5. Accumulated Plan Benefits (continued)

The accumulated plan benefit information as of December 31, 2010 and 2009 is as follows:

	December 31,	
	2010	2009
Vested benefits:		
Participants currently receiving payments	\$ 14,402,933	\$ 12,805,569
Other participants	17,367,720	17,835,716
Total actuarial present value of accumulated plan benefits	<u>\$ 31,770,653</u>	<u>\$ 30,641,285</u>

The changes in the accumulated plan benefits for each year are as follows:

	Year Ended December 31,	
	2010	2009
Actuarial present value of accumulated benefits:		
Beginning of the year	\$ 30,641,285	\$ 26,599,856
Increase during the year attributed to:		
Benefits accumulated and experience losses	16,963	137,005
Changes in actuarial assumptions	625,215	3,289,705
Interest	1,755,419	1,769,527
Benefits paid	<u>(1,268,229)</u>	<u>(1,154,808)</u>
Net increase	1,129,368	4,041,429
End of the year	<u>\$ 31,770,653</u>	<u>\$ 30,641,285</u>

The increase in accumulated plan benefits is primarily attributable to a decrease in the interest rate assumption used in determining the present value of accumulated benefits, from 5.85% in 2009 to 5.70% in 2010.

Data Documents, Inc. Pension Plan

Notes to Financial Statements (continued)

5. Accumulated Plan Benefits (continued)

The significant actuarial assumptions used in the December 31, 2010 and 2009 valuations are as follows:

	2010	2009
Interest rate used to determine the actuarial present value	5.70%	5.85%
Mortality	Static IRS 2011 Annuitant-distinct Mortality Table	Static IRS 2010 Annuitant-distinct Mortality Table
Withdrawal	Based on a Scale T-11 of the Actuary's Pension Handbook	Rates based on Scale T-11 of the Actuary's Pension Handbook
Normal Retirement	Age 65	Age 65
Salary increase	N/A – Benefits are frozen	N/A – Benefits are frozen
Expected rate of return	7.0%	7.0%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the financial statements.

Data Documents, Inc. Pension Plan

Notes to Financial Statements (continued)

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (“IRS”), dated August 5, 2005, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan’s operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

8. Exempt Party-In-Interest Transactions

Plan investments are shares of mutual funds and equity and debt securities managed by PLIC and M&I. PLIC and M&I are the custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest, however, they are exempt from the prohibited transactions rules under ERISA. Fees paid by the Plan for the investment management services amounted to \$37,284 and \$33,187 for the years ended December 31, 2010 and 2009, respectively.

Plan: 007 EIN: 04-2896127
Schedule SB - Part V

Actuarial Cost Method

Annual costs were calculated using the Traditional Unit Credit Actuarial Cost Method as required by the Pension Protection Act of 2006. The Traditional Unit Credit Method is one of the Accrued Benefit Actuarial Cost Methods.

The target normal cost for each year is defined as the actuarial present value of retirement and ancillary benefits that are earned in the current year.

The funding target is defined as the actuarial present value of retirement and ancillary benefits that have been earned in years of service prior to the current year.

Asset Valuation Method

The value of plan assets is based on the two-year average of the expected market values of assets as described under IRS Notice 2009-22. These expected values are based on the two years prior effective rates of interest and cannot be less than 90% nor more than 110% of the market value of assets.

Contributions for the prior plan year made after the end of the plan year are included in the current year's market value of assets at their discounted value, based on the prior year's effective interest rate.
