The Plan Administrator has obtained a certification from the trustee as of and for the year ended December 31, 2010, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The following description of the Rock House ("Company") 401(k) Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was formerly known as Rock House Profit Sharing Plan. The Plan's name changed to Rock House 401(k) Savings Plan effective January 1, 2009. The Plan was amended on February 1, 2010 to allow for employee contributions and to add a safe harbor provision.

General

The Plan is a defined contribution plan covering all employees of the Company who have one year of service, worked more than 1,000 hours during the year and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee Contributions

Pursuant to Section 401(k) of the Internal Revenue Code (the "IRC"), participants may contribute up to the lesser of 100% of their compensation or $16,500 for 2010 and 2009. Employees who are age 50 or older may also make catch-up contributions of up to $5,500 for 2010 and 2009. All participants' accounts are fully vested at all times.

Employer Contributions

Effective February 1, 2010, the Plan became a "safe harbor" plan. Each year the Company will make safe harbor matching contributions of 100% of the first 3% deferred plus 50% of the next 2% deferred for the Plan year in order to maintain the Plan's safe harbor status.

The Company may also decide to contribute a discretionary wage enhancement contribution.

Participant Accounts

Each participant's account is credited with an allocation of (a) the participant's contribution, (b) the Company's contribution (c) Plan earnings, and (d) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in both their contributions plus actual earnings thereon, as well as in the Company's Safe Harbor matching contribution. Vesting in the Company's discretionary wage enhancement contribution plus earnings thereon is based on years of continuous service. A participant is 20% vested after 2 years of credited service and 100% vested after six years of credited service.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump sum amount, or in payments over a period certain in monthly, quarterly, semi-annual, or annual cash installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution after a one-year break in service.

Forfeited Accounts

A forfeiture is the non-vested portion of a terminated participant's account balance. The forfeited amount remains to first pay any Plan administrative expenses, and then used to reduce any subsequent discretionary employer contributions.

Administrative Expenses

Substantially all administrative expenses are paid by the Company.

Participant Loans

Under the terms of the Plan, participants may borrow from their accounts a minimum of $1,000 up to 50% of their vested account balance, not to exceed $50,000. The loans are secured by the balance in the participants' accounts and bear interest at a comparable rate charged for similar types of loans by other lenders. Loan terms generally range from one to five years.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at quoted market prices, if available. Investment income is recorded as earned on the accrual basis of accounting. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

3. INVESTMENTS

All Plan investments are held by John Hancock Life Insurance Company, the trustee of the Plan. The Plan was amended in 2009, making all investment decisions participant directed.

During 2010 and 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $697,277 and $510,124, respectively.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;

(continued)

4. **FAIR VALUE MEASUREMENTS** (Continued)

- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds –
Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Pooled separate account –
Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Cash –
Valued at face value.

Participant loans –
Valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. RELATED PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by John Hancock Life Insurance Company, the trustee of the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan as direct compensation for the investment management services amounted to $25 and $12 for the years ended December 31, 2010 and 2009, respectively.

6. ASSET INFORMATION CERTIFIED BY TRUSTEE

As of and for the year ended December 31, 2010, the investment and related activity from which the statement of net assets available for plan benefits, the statement of changes in net assets available for plan benefits, and the supplemental schedule were derived, has been certified by John Hancock Life Insurance Company, the trustee of the Plan, as being complete and accurate as required by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

8. TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated February 11, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. RECLASSIFICATIONS

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

11. SUBSEQUENT EVENT

For the year ended December 31, 2010, the Company has evaluated subsequent events for potential recognition and disclosure through October 6, 2011 the date of financial statement issuance. No events requiring disclosure were noted.
