Independent Auditor's Report

October 7, 2011

Nishimoto Trading Co., Ltd.
13409 Orden Drive
Santa Fe Springs, California 90670

I have audited the accompanying statement of net assets available for benefits of Nishimoto Trading Co., Ltd. Savings Plan (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with United States generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, I express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the statement of net assets available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in net assets available for plan benefits for the years then ended in conformity with United States generally accepted accounting principles.

Nishimoto Trading Co., Ltd. Savings Plan

Notes to the Financial Statements

December 31, 2010 and 2009

1. Description of Savings Plan

Nishimoto Trading Co., Ltd. (herein referred to as "the Company") sponsors a defined contribution employee retirement and savings plan, the Nishimoto Trading Co., Ltd. 401(k) Profit-Sharing Plan (the "Plan"), with a 401(k) savings plan provision for the benefit of eligible employees. Participants are allowed to contribute to the Plan up to 100% of their compensation, subject to certain limitations. The Company provides a matching contribution of 50% for each dollar a participant contributes, up to 6% of each participant's compensation. All employees become eligible to participate in the Plan upon attaining age 18 and completion of 1/4 of a year of service.

An employee is fully vested in the employer contributions upon completing 6 years of service. The vesting percentages are as follows:

Years of Service for Vesting	Percentage Vested
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

2. Summary of Significant Accounting Policies

For plan year ended December 31, 2007 and prior, all savings plan assets were valued at current market values, as well as all realized and unrealized gains and losses.

In September 2006, the Financial Accounting Standard Board issued Financial Accounting Standards Board (FASB) Statement No. 157, Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value, and requires enhanced disclosure about fair value investments. This was effective for plan years beginning after November 15, 2007. The Plan adopted FASB 157 during the year ended December 31, 2008.

On July 1, 2009, FASB 157 was codified into Accounting Standards Codification (ASC) Topic 820. The fundamental premise for fair value accounting models is based on existing authoritative accounting standards, which require that investments be reported at fair value and as such, the provisions of FASB 157 remain applicable.

2. Summary of Significant Accounting Policies, Continued

Financial instruments measured and reported at fair value using level inputs, as defined by FASB 157, as defined by ASC 820, are classified and disclosed in one of the following categories:

Level 1 — Quoted prices are available in active markets for identical financial instruments as of the reporting date. The type of financial instruments included in Level 1 includes U.S. Treasury securities and listed equities.

Level 2 — Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Financial instruments that are generally included in this category include asset-backed securities, corporate bonds and loans, municipal bonds, auction rate securities, forward contracts, and interest rate swap asset.

Level 3 — Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the financial instruments. The inputs into the determination of fair value require significant management judgment or estimation.

Included in the tables below are the input levels of the significant categories of the Plan's investments and the effect of the investments on Net Assets that are categorized as Level 3 inputs.

Input Levels by Investment Category:

Investment Category	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs

4. Principal Fixed Income Guaranteed Option (PFIGO)

PFIGO is a benefit responsive group annuity contract issued by the Principal Life Insurance Company (PLIC). Under the terms of the existing contract, the Composite Credit Rate is currently reset on a semiannual basis and will never be less than the Guaranteed Minimum Interest Rate.

Changes in future interest credit rates will not affect the amount reported as an adjustment from the fair value to contract value on the statement of net assets available for benefits for the portion of net assets attributable to fully benefit responsive investment contracts. Fair value is considered book value less early withdrawal charge.

4. Principal Fixed Income Guaranteed Option (PFIGO), Continued

The PFIGO is a single group annuity contract with a fixed rate of interest. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in Stable Value fund. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract.

The interest rate history for the contract is as follows:

Time period	Rate
March 1, 2007 - November 30, 2007	4.65%
December 1, 2007 - May 31, 2008	4.65%
June 1, 2008 - November 30, 2008	4.60%
December 1, 2008 - May 31, 2009	4.60%
June 1, 2009 – November 30, 2009	3.25%
December 1, 2009 – May 31, 2010	3.25%
June 1, 2010 – November 30, 2010	3.20%
December 1, 2010 – May 31, 2011	2.85%

The interest rate history summarized above is prior to any plan-level recordkeeping expenses being deducted. Any differences between the above summarized interest rates and the actual earned crediting rates for each plan participant would be due to the Rate Level Service Fee. The Rate Level Service Fee is a direct offset to the interest rates summarized above.

By definition, the PFIGO group annuity contract is an insurance contract. As a result, the Plan may transact according to the terms defined in the contract at any time. Based on historical data, the probability of such defined events occurring to limit the Plan's ability to transact at a contract value with participants is remote.

As defined in the contract, there are circumstances under which the contract may be terminated by the Plan. The issuer, PLIC, has the right to no longer receive deposits under the contract. However, based on historical data, the likelihood of this occurring is also remote.

5. Employee Loans

Qualifying employees may borrow funds using their accounts as security for the loan. Interest rates charged range from 4.25% to 9.25%. At December 31, 2010, management believes that collection of these loans is reasonably assured.

6. Related Party Transactions

Trustee expenses amounted to $2,448 and $4,659 for 2010 and 2009, respectively.

7. Subsequent Events

There continues to be overall volatility in the United States stock market. The market value of the Plan as of June 30, 2011 was $21,363,980.
