REPORT OF INDEPENDENT AUDITORS

Plan Administrator
Sandvik Defined Contribution Plan
Fair Lawn, New Jersey

We were engaged to audit the financial statements and supplemental schedule of the Sandvik Defined Contribution Plan as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by T. Rowe Price Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SANDVIK DEFINED CONTRIBUTION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Sandvik Defined Contribution Plan (the "Plan") provides general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement plan sponsored by Sandvik, Inc. (the "Company") and administered by the Sandvik Defined Contribution Plan Administrator. The Plan became effective January 1, 1977 and was amended and restated effective January 1, 2007. The plan was frozen to new participants effective January 1, 2007 and any new employees will participate in the Sandvik 401(k) Retirement Plan. Each hourly paid employee covered under the Plan was eligible upon completion of 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute from 2% to 16% of their annual compensation to the Plan on a pre-tax basis and from 2% to 22% of their annual compensation to the Plan on an after-tax basis. Highly compensated participants are limited to 10% of compensation on a pre-tax basis and 6% of compensation on an after-tax basis. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes a matching contribution equal to 50% of 401(k) and after-tax contributions. The matching contribution cannot exceed 3% of a participant's compensation. Contributions are also subject to certain limitations imposed by the Internal Revenue Code. Catch-up contributions are permitted for participants greater than 50 years old.

Participant Accounts: Each participant's account is credited with the participant's own contributions and an allocation of the Company's contributions and Plan's earnings, and charged with an allocation of Plan losses and withdrawals. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions plus actual earnings thereon.

Notes Receivable from Participants: Participants may borrow from their account in the Plan. A participant can borrow a minimum of \$1,000 or a maximum of \$50,000 or 50% of his or her vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the rate of prime plus 1%. All loans are amortized over no more than five years, except those loans used to purchase a primary residence. Loan interest rates ranged from 4.25% to 10.75% at December 31, 2010 and 2009.

Payment of Benefits: On termination of service due to death, disability, retirement, or separation from service, the normal form of benefit is a lump-sum payment equal to the value of the participant's account. Participants are also allowed to make withdrawals of their voluntary contributions (limited to once every 12 months) and to rollover contributions at any time. For qualifying emergencies, after-tax (limited to once every twelve months) and employer matching contributions (limited to once every twelve months) are available for withdrawal. For participants who have attained the age of 59½, all or a portion of the participants' accounts are available for withdrawal at any time. In the event of financial hardship, as defined, a participant may have available for withdrawal all employee-directed contributions as well as matching contributions.

Investments: Participants direct the investment of their individual accounts into various investment options offered by the Plan.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

SANDVIK DEFINED CONTRIBUTION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Basis of Accounting: The accounting practices and principles followed by the Plan and the method of applying these principles conform to accounting principles generally accepted in the United States of America. The Plan's financial information is accounted for on the accrual basis.

Adoption of New Accounting Standard: In September 2010, the Financial Accounting Standards Board ("FASB") amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. The adoption of this guidance by the Plan resulted in a reclassification from investments to notes receivable from participants of \$6,238,709 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Value of Investments and Investment Income: The Plan's investments are stated at fair value. Dividend income is recorded on the ex-dividend date. Interest income is recorded when earned. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective trusts: The fair values of participation units held in collective trusts, other than stable value funds, are based on their net asset values, as reported by the managers of the collective trusts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs). The investment objective of the collective trust is to provide investment results that correspond to the total return performance of common stocks publicly traded in the United States as represented by Standard & Poor's 500 Composite Stock Index. The underlying investments of the collective trust are common stocks and U.S. government obligations. The fair values of interests in stable value funds are based upon the net asset values of such funds reflecting all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund as of the Plan's financial statement date (Level 2 inputs). The investment objective of the stable value fund is to maximize current income consistent with the maintenance of principal. The underlying investments of the stable value funds are guaranteed investment contracts, investment contracts, synthetic investment contracts, and separate account contracts. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statements of net assets available for benefits, the difference between the fair value of the Plan's direct and indirect interest in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in fully benefit-responsive contracts through its investment in a stable value fund.

At December 31, 2010, and 2009, net assets available for benefits reflects the Plan's interest in the contract value of the T. Rowe Price Stable Value Fund, because the Plan's allocable share of the difference between the fair value and contract value for this investment is presented as a separate adjustment in the statements of net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. The fair values of notes receivable from participants are impracticable to determine, as the amounts are not transferable.

Plan Expenses: Certain expenses related to the operation and administration of the Plan are paid by the Plan as well as the Company. Expenses paid for by the Plan for the year ended December 31, 2010 were \$12,809.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan invests in a combination of investment securities which are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Payment of Benefits: Benefit payments are recorded when paid.

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by T. Rowe Price Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain plan investments are shares of mutual funds issued by an affiliate of T. Rowe Price Trust Company and collective trust funds issued by T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee of the Plan, and therefore, these investments qualify as party-in-interest investments and their fair value totaled \$214,856,146 and \$216,853,921 at December 31, 2010 and 2009, respectively. The Plan also held party-in-interest investments in the form of notes receivable from participants in the amounts of \$5,904,287 and \$6,238,709 at December 31, 2010 and 2009, respectively. Fees paid by the Plan for investment management and recordkeeping services amounted to \$12,809 for the year ended December 31, 2010. These transactions are considered party-in-interest transactions.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 20, 2009 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, Plan management believes the Plan is currently designed and is operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement dates.

NOTE 7 - ASSET TRANSFER

During the plan year ended December 31, 2010, employees of the Laborer's International Union of North America Local 130 transferred their account balances from the Sandvik Defined Contribution Plan into the Sandvik 401(k) Retirement Plan. The net amounts related to these transfers totaled \$4,413,583.

During the plan year ended December 31, 2010, employees of the United Mine Workers Union Local 1285 entered into a collective bargaining agreement with Sandvik Mining and Construction USA, LLC. The Company agreed to sponsor a tax qualified defined contribution plan. The account balances for these employees were transferred to The 401(k) Plan for the Sandvik Mining and Construction BH Employees. The net amounts related to these transfers totaled \$217,998.

REPORT OF INDEPENDENT AUDITORS

Plan Administrator
Sandvik Defined Contribution Plan
Fair Lawn, New Jersey

We were engaged to audit the financial statements and supplemental schedule of the Sandvik Defined Contribution Plan as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by T. Rowe Price Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SANDVIK DEFINED CONTRIBUTION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Sandvik Defined Contribution Plan (the "Plan") provides general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement plan sponsored by Sandvik, Inc. (the "Company") and administered by the Sandvik Defined Contribution Plan Administrator. The Plan became effective January 1, 1977 and was amended and restated effective January 1, 2007. The plan was frozen to new participants effective January 1, 2007 and any new employees will participate in the Sandvik 401(k) Retirement Plan. Each hourly paid employee covered under the Plan was eligible upon completion of 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute from 2% to 16% of their annual compensation to the Plan on a pre-tax basis and from 2% to 22% of their annual compensation to the Plan on an after-tax basis. Highly compensated participants are limited to 10% of compensation on a pre-tax basis and 6% of compensation on an after-tax basis. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes a matching contribution equal to 50% of 401(k) and after-tax contributions. The matching contribution cannot exceed 3% of a participant's compensation. Contributions are also subject to certain limitations imposed by the Internal Revenue Code. Catch-up contributions are permitted for participants greater than 50 years old.

Participant Accounts: Each participant's account is credited with the participant's own contributions and an allocation of the Company's contributions and Plan's earnings, and charged with an allocation of Plan losses and withdrawals. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions plus actual earnings thereon.

Notes Receivable from Participants: Participants may borrow from their account in the Plan. A participant can borrow a minimum of \$1,000 or a maximum of \$50,000 or 50% of his or her vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the rate of prime plus 1%. All loans are amortized over no more than five years, except those loans used to purchase a primary residence. Loan interest rates ranged from 4.25% to 10.75% at December 31, 2010 and 2009.

Payment of Benefits: On termination of service due to death, disability, retirement, or separation from service, the normal form of benefit is a lump-sum payment equal to the value of the participant's account. Participants are also allowed to make withdrawals of their voluntary contributions (limited to once every 12 months) and to rollover contributions at any time. For qualifying emergencies, after-tax (limited to once every twelve months) and employer matching contributions (limited to once every twelve months) are available for withdrawal. For participants who have attained the age of 59½, all or a portion of the participants' accounts are available for withdrawal at any time. In the event of financial hardship, as defined, a participant may have available for withdrawal all employee-directed contributions as well as matching contributions.

Investments: Participants direct the investment of their individual accounts into various investment options offered by the Plan.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Basis of Accounting: The accounting practices and principles followed by the Plan and the method of applying these principles conform to accounting principles generally accepted in the United States of America. The Plan's financial information is accounted for on the accrual basis.

Adoption of New Accounting Standard: In September 2010, the Financial Accounting Standards Board ("FASB") amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. The adoption of this guidance by the Plan resulted in a reclassification from investments to notes receivable from participants of \$6,238,709 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Value of Investments and Investment Income: The Plan's investments are stated at fair value. Dividend income is recorded on the ex-dividend date. Interest income is recorded when earned. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective trusts: The fair values of participation units held in collective trusts, other than stable value funds, are based on their net asset values, as reported by the managers of the collective trusts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs). The investment objective of the collective trust is to provide investment results that correspond to the total return performance of common stocks publicly traded in the United States as represented by Standard & Poor's 500 Composite Stock Index. The underlying investments of the collective trust are common stocks and U.S. government obligations. The fair values of interests in stable value funds are based upon the net asset values of such funds reflecting all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund as of the Plan's financial statement date (Level 2 inputs). The investment objective of the stable value fund is to maximize current income consistent with the maintenance of principal. The underlying investments of the stable value funds are guaranteed investment contracts, investment contracts, synthetic investment contracts, and separate account contracts. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statements of net assets available for benefits, the difference between the fair value of the Plan's direct and indirect interest in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in fully benefit-responsive contracts through its investment in a stable value fund.

At December 31, 2010, and 2009, net assets available for benefits reflects the Plan's interest in the contract value of the T. Rowe Price Stable Value Fund, because the Plan's allocable share of the difference between the fair value and contract value for this investment is presented as a separate adjustment in the statements of net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. The fair values of notes receivable from participants are impracticable to determine, as the amounts are not transferable.

Plan Expenses: Certain expenses related to the operation and administration of the Plan are paid by the Plan as well as the Company. Expenses paid for by the Plan for the year ended December 31, 2010 were \$12,809.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan invests in a combination of investment securities which are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Payment of Benefits: Benefit payments are recorded when paid.

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by T. Rowe Price Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain plan investments are shares of mutual funds issued by an affiliate of T. Rowe Price Trust Company and collective trust funds issued by T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee of the Plan, and therefore, these investments qualify as party-in-interest investments and their fair value totaled \$214,856,146 and \$216,853,921 at December 31, 2010 and 2009, respectively. The Plan also held party-in-interest investments in the form of notes receivable from participants in the amounts of \$5,904,287 and \$6,238,709 at December 31, 2010 and 2009, respectively. Fees paid by the Plan for investment management and recordkeeping services amounted to \$12,809 for the year ended December 31, 2010. These transactions are considered party-in-interest transactions.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 20, 2009 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, Plan management believes the Plan is currently designed and is operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement dates.

NOTE 7 - ASSET TRANSFER

During the plan year ended December 31, 2010, employees of the Laborer's International Union of North America Local 130 transferred their account balances from the Sandvik Defined Contribution Plan into the Sandvik 401(k) Retirement Plan. The net amounts related to these transfers totaled \$4,413,583.

During the plan year ended December 31, 2010, employees of the United Mine Workers Union Local 1285 entered into a collective bargaining agreement with Sandvik Mining and Construction USA, LLC. The Company agreed to sponsor a tax qualified defined contribution plan. The account balances for these employees were transferred to The 401(k) Plan for the Sandvik Mining and Construction BH Employees. The net amounts related to these transfers totaled \$217,998.

REPORT OF INDEPENDENT AUDITORS

Plan Administrator
Sandvik Defined Contribution Plan
Fair Lawn, New Jersey

We were engaged to audit the financial statements and supplemental schedule of the Sandvik Defined Contribution Plan as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by T. Rowe Price Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SANDVIK DEFINED CONTRIBUTION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Sandvik Defined Contribution Plan (the "Plan") provides general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement plan sponsored by Sandvik, Inc. (the "Company") and administered by the Sandvik Defined Contribution Plan Administrator. The Plan became effective January 1, 1977 and was amended and restated effective January 1, 2007. The plan was frozen to new participants effective January 1, 2007 and any new employees will participate in the Sandvik 401(k) Retirement Plan. Each hourly paid employee covered under the Plan was eligible upon completion of 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute from 2% to 16% of their annual compensation to the Plan on a pre-tax basis and from 2% to 22% of their annual compensation to the Plan on an after-tax basis. Highly compensated participants are limited to 10% of compensation on a pre-tax basis and 6% of compensation on an after-tax basis. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes a matching contribution equal to 50% of 401(k) and after-tax contributions. The matching contribution cannot exceed 3% of a participant's compensation. Contributions are also subject to certain limitations imposed by the Internal Revenue Code. Catch-up contributions are permitted for participants greater than 50 years old.

Participant Accounts: Each participant's account is credited with the participant's own contributions and an allocation of the Company's contributions and Plan's earnings, and charged with an allocation of Plan losses and withdrawals. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions plus actual earnings thereon.

Notes Receivable from Participants: Participants may borrow from their account in the Plan. A participant can borrow a minimum of \$1,000 or a maximum of \$50,000 or 50% of his or her vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the rate of prime plus 1%. All loans are amortized over no more than five years, except those loans used to purchase a primary residence. Loan interest rates ranged from 4.25% to 10.75% at December 31, 2010 and 2009.

Payment of Benefits: On termination of service due to death, disability, retirement, or separation from service, the normal form of benefit is a lump-sum payment equal to the value of the participant's account. Participants are also allowed to make withdrawals of their voluntary contributions (limited to once every 12 months) and to rollover contributions at any time. For qualifying emergencies, after-tax (limited to once every twelve months) and employer matching contributions (limited to once every twelve months) are available for withdrawal. For participants who have attained the age of 59½, all or a portion of the participants' accounts are available for withdrawal at any time. In the event of financial hardship, as defined, a participant may have available for withdrawal all employee-directed contributions as well as matching contributions.

Investments: Participants direct the investment of their individual accounts into various investment options offered by the Plan.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Basis of Accounting: The accounting practices and principles followed by the Plan and the method of applying these principles conform to accounting principles generally accepted in the United States of America. The Plan's financial information is accounted for on the accrual basis.

Adoption of New Accounting Standard: In September 2010, the Financial Accounting Standards Board ("FASB") amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. The adoption of this guidance by the Plan resulted in a reclassification from investments to notes receivable from participants of \$6,238,709 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Value of Investments and Investment Income: The Plan's investments are stated at fair value. Dividend income is recorded on the ex-dividend date. Interest income is recorded when earned. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective trusts: The fair values of participation units held in collective trusts, other than stable value funds, are based on their net asset values, as reported by the managers of the collective trusts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs). The investment objective of the collective trust is to provide investment results that correspond to the total return performance of common stocks publicly traded in the United States as represented by Standard & Poor's 500 Composite Stock Index. The underlying investments of the collective trust are common stocks and U.S. government obligations. The fair values of interests in stable value funds are based upon the net asset values of such funds reflecting all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund as of the Plan's financial statement date (Level 2 inputs). The investment objective of the stable value fund is to maximize current income consistent with the maintenance of principal. The underlying investments of the stable value funds are guaranteed investment contracts, investment contracts, synthetic investment contracts, and separate account contracts. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statements of net assets available for benefits, the difference between the fair value of the Plan's direct and indirect interest in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in fully benefit-responsive contracts through its investment in a stable value fund.

At December 31, 2010, and 2009, net assets available for benefits reflects the Plan's interest in the contract value of the T. Rowe Price Stable Value Fund, because the Plan's allocable share of the difference between the fair value and contract value for this investment is presented as a separate adjustment in the statements of net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. The fair values of notes receivable from participants are impracticable to determine, as the amounts are not transferable.

Plan Expenses: Certain expenses related to the operation and administration of the Plan are paid by the Plan as well as the Company. Expenses paid for by the Plan for the year ended December 31, 2010 were \$12,809.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan invests in a combination of investment securities which are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Payment of Benefits: Benefit payments are recorded when paid.

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by T. Rowe Price Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain plan investments are shares of mutual funds issued by an affiliate of T. Rowe Price Trust Company and collective trust funds issued by T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee of the Plan, and therefore, these investments qualify as party-in-interest investments and their fair value totaled \$214,856,146 and \$216,853,921 at December 31, 2010 and 2009, respectively. The Plan also held party-in-interest investments in the form of notes receivable from participants in the amounts of \$5,904,287 and \$6,238,709 at December 31, 2010 and 2009, respectively. Fees paid by the Plan for investment management and recordkeeping services amounted to \$12,809 for the year ended December 31, 2010. These transactions are considered party-in-interest transactions.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 20, 2009 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, Plan management believes the Plan is currently designed and is operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement dates.

NOTE 7 - ASSET TRANSFER

During the plan year ended December 31, 2010, employees of the Laborer's International Union of North America Local 130 transferred their account balances from the Sandvik Defined Contribution Plan into the Sandvik 401(k) Retirement Plan. The net amounts related to these transfers totaled \$4,413,583.

During the plan year ended December 31, 2010, employees of the United Mine Workers Union Local 1285 entered into a collective bargaining agreement with Sandvik Mining and Construction USA, LLC. The Company agreed to sponsor a tax qualified defined contribution plan. The account balances for these employees were transferred to The 401(k) Plan for the Sandvik Mining and Construction BH Employees. The net amounts related to these transfers totaled \$217,998.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
