REPORT OF INDEPENDENT AUDITORS

To the Participants and Administrator of
Chevron Master Pension Trust and
Chevron Corporation Employees' Retirement Plans

We have audited the accompanying statements of net assets available for benefits of the Chevron Master Pension Trust (the Trust) and the Chevron Retirement Plan, the Pension Plan of Chevron Mining Inc. for Employees Represented by the United Mine Workers of America Under Western Coal Wage Agreements, the Chevron - SUP Marine Pension Plan, the Chevron-MEBA and ROU Marine Pension Plan, and the Kemmerer Coal Company Elkol-Sorensen Mine Pension Plan (the Chevron Corporation Employees' Retirement Plans, referred to collectively as the Plans), as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. We also audited the statements of accumulated Plan benefits of the Chevron Corporation Employees' Retirement Plans as of January 1, 2010, and the related statements of changes in accumulated Plan benefits for the year then ended. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Trust's and Plans' management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Chevron Master Pension Trust and the Chevron Corporation Employees' Retirement Plans as of December 31, 2010 and 2009, and the changes therein for the year then ended, and the financial status as of December 31, 2009, and the changes therein for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit of the 2010 financial statements was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information included in Schedule H - Financial Schedules (IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements. This information is the responsibility of the Trust's and Plans' management. The information included in Schedule H - Financial Schedules (IRS Form 5500) is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

THE KEMMERER COAL COMPANY ELKOL-SORENSEN MINE PENSION PLAN

EIN: 94-0890210 PN: 005

Schedule SB, Part V- Summary of Plan Provisions

There have been no changes to the Plan's provisions during 2009. However, effective August 7, 2010, the monthly multiplier for Credited Service completed after December 31, 2006 increased from \$ 57 to \$ 59.

The Plan was established pursuant to The Kemmerer Coal Company - UMWA Western Coal Wage Agreements of 1977 between The Kemmerer Coal Company (the Employer) and the International Union, United Mine Workers of America (the Union). The Plan covers employees represented by the Union and working for the Employer on or after December 6, 1977 and certain specified former employees. The Kemmerer Coal Company, as Employer, has been succeeded by The Chevron Mining, Inc. Company. The Plan was last amended to reflect the provisions of the August, 2006 union agreement.

1.- DEFINITIONS

"Employer" means Chevron Mining, Inc., hereinafter referred to as Chevron Mining.

"Classified job" means a job classified in a then existing Wage Agreement, with the Union, without regard to whether or not such job is with an employer signatory to any Wage Agreement.

"Western Coal Wage Agreement" means any collective bargaining agreement dated on or after December 6, 1977 between the Employer and the Union or between a Signatory Employer and the Union if such agreement provides for establishment or continuation of a retirement plan which provides for reciprocal service credits with this Plan.

"1974 Pension Plan" means the United Mine Workers of America 1974 Pension Plan as in effect on December 5, 1977.

"1950 Pension Plan" means the United Mine Workers of America 1950 Pension Plan as in effect on December 5, 1977.

"Signatory Employer" means any business organization other than the Employer which has entered into a Western Coal Wage Agreement with the Union so long as such Signatory Employer maintains a retirement plan providing reciprocal service credits for Employer Future Service under this Plan.

THE KEMMERER COAL COMPANY ELKOL-SORENSEN MINE PENSION PLAN

EIN: 94-0890210 PN: 005

Schedule SB, Part V- Summary of Plan Provisions (continued)

"Signatory Past Service" means service prior to January 1, 1978 in a classified job for an employer while it is signatory to a Wage Agreement (as defined in the Plan) determined, (a) for the period prior to January 1, 1975, on the basis of 3 months of Signatory Past Service for each 1-1/2 months worked and (b) for the period after January 1, 1975 but prior to January 1, 1978, on the basis of 3 months of Signatory Past Service for each 250 hours worked (in both instances, a maximum of 12 months for any calendar year).

"Nonsignatory Past Service" means service prior to March 31, 1971 in a classified job for an employer in the coal industry while it was not signatory to a Wage Agreement (determined in the same manner as Signatory Past Service for the period prior to January 1, 1975).

"Employer Future Service" means service on or after January 1, 1978 performed for the Employer as an employee in a classified job, determined on the basis of one year for each calendar year in which the participant performs at least 1,400 hours of service, with fractional recognition as follows:

Under 350 hours	No credit
350 hours to 699	3 months of service
700 hours to 1,049	6 months of service
1,050 hours to 1,399	9 months of service

"Credited Service" means the sum of Signatory Past Service and Employer Future Service.

"Reciprocal Service" (as used for determining Vesting Service, eligibility for benefits and for determining the rate of accrual of benefits based on Credited Service, but not for calculating Credited Service and Nonsignatory Past Service) means credited service of a participant in the Union retirement plan of a signatory employer, excluding Nonsignatory Past Service as defined under such plan, if such plan is maintained pursuant to a Western Coal Wage Agreement and provides for Reciprocal Service for Credited Service under this Plan.

THE KEMMERER COAL COMPANY ELKOL-SORENSEN MINE PENSION PLAN

EIN: 94-0890210 PN: 005

Schedule SB, Part V- Summary of Plan Provisions (continued)

"Vesting Service", in general, means (a) for service after May 18, 1946 and before January 1, 1978, one year of Vesting Service for each year of Signatory Past Service; (b) for service after December 31, 1977, one-quarter year of Vesting service for each 250 hours of service; and (c) Vesting Service for all Reciprocal Service earned with another Signatory Employer; provided, in no event will more than one year of Vesting Service be credited for any calendar year.

2 – PARTICIPATION

Any person who was an Employee of the Employer on the effective date and was eligible to participate in the 1974 Pension Plan became a participant as of the effective date.

Any person who is not eligible to participate on the effective date becomes a participant after the completion of (a) one year of Vesting Service or (b) a 12 month period in which he completes 1,000 hours of service.

3 - BENEFITS

Normal Retirement Pension

Eligibility

A participant who attains Normal Retirement Age prior to termination of employment with the Employer or a Signatory Employer is, upon Retirement, eligible for a pension.

Normal Retirement Age means the earlier of

- (a) attaining age 62 and completing either 10 years of Vesting Service or 20 total years of Credited Service, Reciprocal Service and Nonsignatory Past Service; or
- (b) the later of attaining age 65 or the 5th anniversary of the date the participant commenced participation in the Plan or the 1974 Pension Plan.

Retirement means termination of employment with the Employer and all Signatory Employers after fulfilling the requirements for Age 62, Age 55, Disability or Minimum Disability Retirement.

Benefits

For retirements on and after August 7, 2006, the monthly pension payable to a participant for his lifetime is equal to

- (1) \$7.50 multiplied by Nonsignatory Past Service

plus

- (2) \$38.50 multiplied by Credited Service earned prior to January 1, 1994

plus

- (3) \$49.50 multiplied by Credited Service completed from January 1, 1994 through December 31, 2006

plus

- (4) \$55.00 multiplied by Credited Service completed after December 31, 2006

For a working miner who retires on or after the second anniversary of the union agreement and who is eligible for a pension under the terms of this agreement, the dollar amount in (4) is increased by \$2.00.

For a working miner who retires on or after the fourth anniversary of the union agreement and who is eligible for a pension under the terms of this agreement, the dollar amount in (4) is increased by an additional \$2.00.

The monthly accrued benefit as of August 7, 2006 is no less than that equal to

- (1) \$7.50 multiplied by Nonsignatory Past Service

plus

- (2) \$34.50 multiplied by Credited Service included within his first 10 total years of Credited Service and Reciprocal Service completed before January 1, 1989

plus

- (3) \$35.00 multiplied by Credited Service included within his first 10 total years of Credited Service and Reciprocal Service completed before January 1, 1989

plus

- (4) \$35.50 multiplied by Credited Service included within his first 10 total years of Credited Service and Reciprocal Service completed before January 1, 1989

plus

Age 55 Retirement Pension

Eligibility

Age 55 and (a) 10 years of Vesting Service or (b) 20 total years of Credited Service, Reciprocal Service and Nonsignatory Past Service.

Benefits

Accrued pension deferred to age 62 or reduced pension payable on or after the date of Age 55 Retirement; the reduced pension is equal to the amount payable at age 62 reduced by 1/4% for each full month by which the date payments commence precedes the participant's 62nd birthday.

Disability Pension

Eligibility

10 years of Vesting Service and totally disabled on or after December 6, 1977 as a result of a mine accident while working for the Employer or a Signatory Employer.

Benefits

Accrued monthly pension or, if greater, \$200 per month.

Minimum Disability Retirement

Eligibility

Less than 10 years of Vesting Service and totally disabled as a result of a mine accident while working for the Employer.

Benefits

Monthly pension - \$200.

Deferred Vested Retirement Pension

Eligibility

Termination of employment with the Employer and all Signatory Employers (a) with 5 years of Vesting Service or 20 total years of Credited Service, Reciprocal Service and Nonsignatory Service or (b) effective May 1, 1981, due to involuntary layoff or permanent and total disability, provided that upon attaining age 55, participant is not being credited with Credited or Reciprocal Service and has met the Age 55 service eligibility requirements.

Benefits

For (a), accrued pension deferred to age 62 or actuarially reduced pension payable on or after attainment of age 55, provided that if Credited Service plus Reciprocal Service is at least 20 years, such monthly pension is not to be reduced to less than \$150 multiplied by

a fraction, the numerator of which is the participant's number of years of Credited Service and the denominator of which is the participant's total number of years of Credited Service and Reciprocal Service.

For (b), an Age 55 Retirement Pension, determined on the basis of the benefit levels in effect at termination.

Survivor Benefit for Death in Service After Retirement

Eligibility

The eligible spouse of a participant is entitled to a surviving spouse benefit if, at the date of death, the participant:

- (a) had retired and was receiving a pension under the Plan (except a participant receiving a Deferred Vested Retirement Pension whose Nonsignatory Past Service, Credited Service and Reciprocal Service did not total at least 20 years), or
- (b) was employed by the Employer or a Signatory Employer or had become totally disabled, and met the eligibility requirements for an immediate pension, or
- (c) was not employed by the Employer or a Signatory Employer but was entitled to elect an immediate pension, and was over age 55 with at least 20 total years of Nonsignatory Past Service, Credited Service and Reciprocal Service.

Benefits

75% of the participant's monthly pension payable at the time of the participant's death or, in the event the participant dies after age 55 at a time when eligible to elect a pension but prior to receipt of such pension, 75% of the amount of the pension the participant would have received if the participant had elected an immediate pension or retired and became entitled to a pension as of the date immediately preceding his date of death.

Preretirement Survivor Annuity

Eligibility

On and after August 23, 1984, provided the participant did not waive the coverage, the eligible spouse of a participant is entitled to a preretirement survivor annuity if the participant (a) dies while employed by the Employer after having at least 5 years of Vesting Service or (b) dies after termination of employment with the Employer and all Signatory Employers while eligible for a Deferred Vested Retirement pension and prior to being eligible for an immediate pension.

THE KEMMERER COAL COMPANY ELKOL-SORENSEN MINE PENSION PLAN

EIN: 94-0890210 PN: 005

Schedule SB, Part V- Summary of Plan Provisions (continued)

Benefits

The preretirement survivor annuity for the surviving spouse is 50% of the joint and survivor annuity that would have been payable if the participant had elected to have his Deferred Vested Retirement Pension commence upon his attainment of age 55 or his date of death, if later.

THE KEMMERER COAL COMPANY ELKOL-SORENSEN MINE PENSION PLAN

EIN: 94-0890210 PN: 005

Schedule SB, Part V- Summary of Plan Provisions (continued)

Joint and Survivor Annuity

- (a) If a participant is
 - (i) eligible for a pension, but
 - (ii) the spouse is not eligible for a surviving spouse benefit, and
 - (iii) if the participant is married on the first day of the month in which the pension first becomes payable,the pension payable is a reduced 50% joint and survivorship pension.
- (b) The participant and spouse can elect not to receive the pension in the joint and survivor annuity form, but instead to receive a single life annuity.
- (c) If a participant who is eligible to receive an immediate pension dies prior to requesting such pension or prior to receipt of the first pension payment, the joint and survivor annuity otherwise payable, based upon the pension which would have been payable to the participant had an election been made to have it commence on the date immediately prior to the participant's death, shall be paid to the surviving spouse.

Eligible Spouse

An eligible spouse is one to whom the participant was married throughout the 9 month period ending on the participant's death.

Skull Point Pension Plan Benefits

Skull Point Mine employees who were formerly covered under the Skull Point Pension Plan will be entitled to a benefit based upon total service at the Skull Point Mine and total service at the Kemmerer Mine, in accordance with the provisions of the Plan. The total benefit will be offset by the benefit payable from the Skull Point Pension Plan based on the provisions of that plan in effect at the time of Chevron Mining's acquisition of the Skull Point Mine.

Supplemental Payments to Certain Pensioners

Eligibility

Participants and surviving spouses who receive a pension during the first month following the effective date of the agreement and on the contract anniversary date for the length of the contract.

Benefits

Single payment equal to

- (1) \$550 for participants receiving a Disability Retirement Pension or Minimum Disability Retirement Pension, or
- (2) \$650 for surviving spouses, or
- (3) \$800 for other participants

In addition, for purposes of determining at-risk Funding Target and at-risk Target Normal Cost, employees eligible to retire and receive a benefit in the next 11 years are assumed to retire when first eligible (but before the end of the current plan year) and will elect to receive the form of benefit producing the highest present value.

Asset valuation method

The Actuarial Value of Assets is determined using a method that spreads asset gains/(losses) over 2 years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. The discounted value of accrued contributions, if any, is included in the Actuarial Value of Assets.

The expected return on plan assets is 7.75% per annum, limited by PPA to the applicable Third Segment Rate as follows:

2009 measurement periods: 6.69%
2008 measurement periods: 6.43%

Schedule SB, line 22 - Description of Weighted Average Retirement Age

The retirement age shown is based on an employee who fulfilled the requirement for early eligibility who is assumed to have entered the Plan at the average entry age of the population and is calculated in accordance with the following formula which generally assumes employees terminate at the middle of the year.

$$\frac{\sum_{t=0}^{FRA-ERA} ({}_t p_{ERA}) * (q_{ERA+t}^r) * (ERA + t + \frac{1}{2})}{\sum_{t=0}^{FRA-ERA} ({}_t p_{ERA}) * (q_{ERA+t}^r)}$$

note (1) the $\frac{1}{2}$ in the formula shown above is not used for $t = FRA-ERA$.

In the formula shown above ${}_t p_{ERA}$ is calculated using all of the decrements, and the q_{ERA+t}^r represents the sum of the applicable retirement decrements.

Also, ERA represents the earliest retirement age and FRA represents the age at which everyone is assumed to retire.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT AUDITORS

To the Participants and Administrator of
Chevron Master Pension Trust and
Chevron Corporation Employees' Retirement Plans

We have audited the accompanying statements of net assets available for benefits of the Chevron Master Pension Trust (the Trust) and the Chevron Retirement Plan, the Pension Plan of Chevron Mining Inc. for Employees Represented by the United Mine Workers of America Under Western Coal Wage Agreements, the Chevron - SUP Marine Pension Plan, the Chevron-MEBA and ROU Marine Pension Plan, and the Kemmerer Coal Company Elkol-Sorensen Mine Pension Plan (the Chevron Corporation Employees' Retirement Plans, referred to collectively as the Plans), as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. We also audited the statements of accumulated Plan benefits of the Chevron Corporation Employees' Retirement Plans as of January 1, 2010, and the related statements of changes in accumulated Plan benefits for the year then ended. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Trust's and Plans' management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Chevron Master Pension Trust and the Chevron Corporation Employees' Retirement Plans as of December 31, 2010 and 2009, and the changes therein for the year then ended, and the financial status as of December 31, 2009, and the changes therein for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

To the Participants and Administrator of
Chevron Master Pension Trust and
Chevron Corporation Employees' Retirement Plans

Our audit of the 2010 financial statements was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information included in Schedule H - Financial Schedules (IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements. This information is the responsibility of the Trust's and Plans' management. The information included in Schedule H - Financial Schedules (IRS Form 5500) is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010**

Note 1 - Description:

On January 1, 2004, ChevronTexaco Corporation entered into a Master Trust Agreement with State Street Bank and Trust Company, as trustee of the ChevronTexaco Corporation Master Pension Trust and as custodian of its assets. On May 9, 2005, ChevronTexaco Corporation, Plan Administrator of the Plans, changed its corporate name to Chevron Corporation. Subsequent to the merger of Chevron Corporation and Unocal Corporation on August 17, 2005, the Unocal Retirement Plan was transferred into the ChevronTexaco Corporation Master Pension Trust on October 3, 2005. On July 1, 2006, the Unocal Retirement Plan was merged into the Chevron Retirement Plan and the ChevronTexaco Corporation Master Pension Trust was renamed the Chevron Master Pension Trust. On December 31, 2008, the Supplemental Pension Plan for Licensed Officers – Texaco Inc. was merged into the Chevron Retirement Plan. On May 31, 2009, the Texaco Caribbean Inc. – U.S. Virgin Islands Pension Plan was merged into the Chevron Retirement Plan.

Master Trust

The assets of the following plans (the Plans) were held in the Master Trust during the year 2010:

Chevron Retirement Plan (CRP);

Pension Plan of Chevron Mining Inc. for Employees Represented by the United Mine Workers of America Under Western Coal Wage Agreements (Chevron Mining Plan);

Chevron-SUP Marine Pension Plan (SUP Marine Plan);

Chevron-MEBA and ROU Marine Pension Plan (MEBA and ROU Plan);

Kemmerer Coal Company Elkol-Sorensen Mine Pension Plan (Elkol-Sorensen Mine Plan)

Trust assets, realized gains and losses, interest and dividend income, and trust administrative expenses are allocated each month among the Plans on the basis of each Plan's share of the Master Trust. However, certain expenses that are plan-specific remain with the specific plan and are not allocated.

The individual Plans are reporting entities subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. United States Department of Labor (DOL) regulations require that a separate Master Trust filing be submitted to the DOL. Such filings are integral parts of the annual report filed with the DOL by each participating Plan.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

Benefits

The Plans are noncontributory defined benefit pension plans that are maintained primarily to provide retirement and death benefits for eligible employees and their spouses, joint pensioners and beneficiaries. Certain former participants of the Retirement Plan of Texaco, Inc. who are now participants of the Chevron Retirement Plan, had the option of making non-forfeitable contributions and receiving an additional amount of pension benefits. This option of making non-forfeitable contributions was terminated on July 1, 2005. A more detailed description of the eligibility & vesting requirements, normal & early retirement rules, benefit formula, and death benefits provided by the Plans, are included in the "Summary Plan Description" of each Plan.

Plan Administrator

Chevron Corporation (the Corporation) has been designated as the Plan Administrator of the Plans.

Allocation Upon Termination/Reversion

It is the intent of the Corporation to continue the Trust and the Plans in full force and effect; however, the right to discontinue the Trust or Plans is reserved to the Corporation. To the extent required to provide all of the accrued benefits under any of the Plans that are terminated, the Corporation will allocate the terminated Plan's share of the assets of the Master Trust, on an actuarial basis, among the Plan's participants and their spouses, joint pensioners and beneficiaries in the manner prescribed by Section 4044 of ERISA. If the terminated Plan or Plans have assets in excess of the amount required to fully provide for the accrued benefits thereunder, then except as provided below, the excess assets will be returned to the Corporation, subject to any restriction imposed by applicable law. With respect to the Chevron Master Pension Trust, if the assets of the terminated Plan or Plans are insufficient to fully provide for the vested accrued benefits thereunder (other than benefits that are vested solely by reason of the plan termination and benefits that are guaranteed by the Pension Benefit Guaranty Corporation (PBGC)), the Corporation has guaranteed to contribute sufficient funds to provide such benefits. In addition, certain benefits under the Plans are insured by the PBGC if the Plan or Plans terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of plan amendments in effect for less than five years. Some benefits may be fully or partially provided for while other benefits may not be provided at all.

Frozen Plan

The MEBA and ROU Plan was frozen as of December 31, 1997. For each participant, the Plan Administrator calculated the accrued benefit under the Plan as of the frozen date. This accrued benefit was used to determine the Plan's obligations.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The accompanying financial statements of the Trust and the Plans have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to prior year financial statements in order to conform with current year presentation.

Investment Valuation

Investments are carried at fair value which is determined, presented and disclosed in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, *Fair Value Measurements and Disclosures*. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price"), in an orderly transaction between market participants at the measurement date.

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumptions about inputs market participants would use in pricing the investments developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels, based on the inputs, as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Valuations based on quoted prices in markets that are not active, quoted prices for similar investments in active markets or model-based valuations for which all significant assumptions are observable and can be corroborated by observable market data.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

Level 3 - Valuations based on unobservable inputs that are supported by little or no market activity and are significant to the overall fair value measurement. Values are determined using proprietary pricing models, discounted cash flow models that include the investment entities own judgments and estimations or some other pricing method using unobservable inputs.

In January 2010, the FASB issued Accounting Standards Update (ASU) 2010-6, *Improving Disclosures About Fair Value Measurements*, which requires the Entity (i.e. Organization or Plan) to make new disclosures about recurring or nonrecurring fair-value measurements including significant transfers into and out of Level 1 and Level 2 fair-value measurements and information on purchases, sales, issuances, and settlements on a gross basis in the reconciliation of Level 3 fair-value measurements. ASU 2010-6 is effective for annual reporting periods beginning after December 15, 2009, except for Level 3 reconciliation disclosures which are effective for annual periods beginning after December 15, 2010. The Master Trust elected to implement the Level 3 reconciliation disclosures effective December 31, 2010. The adoption of ASU 2010-6 did not have a material impact on the Entity's net assets available for benefits or its changes in net assets available for benefits.

In determining fair value, FASB ASC 820 allows various valuation approaches. The specific method for each of the Plans' investment classes are presented below.

Valuation Methods

Investments with Quoted Market Price. Where available, quoted market Prices are used to value the plans investments.

U.S. Government and Government Agency obligations. The fair value of U.S. government and government agency obligations is generally based on quoted market prices in active markets (level 1). When quoted prices are not available, valuation is determined using a market based model in which valuation consideration is given to yield or price of comparable securities, coupon rate, maturity, credit quality and dealer provided prices. (level 2)

Corporate debt securities. The fair value of corporate debt securities are generally determined based on a model that uses inputs that may include interest-rate yield curves that are similar to the valued obligations in terms of issuer, maturity and seniority. (level 2)

Equity securities. The fair value of common stocks is generally based on quoted market prices in active markets (level 1). When quoted prices are not available, valuation is determined from dealer prices based on a model where consideration is given to recent transactions and comparable securities. (level 3)

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

Common/collective trusts (includes Collateral). The fair value of the units in common/collective trusts is estimated based on the net asset value per unit of the investments. The underlying asset values of the common/collective trusts may be calculated based on quoted market prices or other observable inputs (level 2).

Real Estate Fund (UBS- Real Estate limited partnership). The fair value of the Real Estate limited partnership is estimated based on the ownership interest in the partners' capital. The underlying investments of the limited partnership are estimated based on quarterly appraisals. An independent appraisal is also performed at least annually (level 3).

Insurance Co. Account (PRISA II). The underlying investments in PRISA II real estate accounts are valued at estimated fair value, based upon appraisal reports prepared by independent real estate appraisers no less frequently than annually. (level 3)

Partnership/Joint Ventures. The fair value is estimated by the partnership/joint venture based on the underlying assets. (level 3)

Real Estate Loans. Valued on the basis of their future principal and interest payments discounted at prevailing interest rates for similar investments. (level 2)

Insurance Co. General Account. The Insurance Co. General account is carried at contract value in accordance with FASB ASC 960 (*Reporting by Defined Benefit Pension Plans of Investment Contracts*). (level 3)

Derivative Use

Derivatives are used by some of the investment managers. The use of derivatives within the Master Trust is limited to three types of activities: (1) achieving a desired market exposure at lowest possible cost, (2) achieving timely market exposure until actual securities may be purchased or sold, and (3) reducing the price volatility of securities denominated in foreign currencies. In addition, as part of the Plan's investment strategy, its active bond manager makes use of forward delivery securities. Forward delivery securities are securities whose terms are available, and for which a market exist, but which are not available for immediate delivery. Some part of the security, for example the size of the investment pool, is not yet determinable at the time when the commitment to purchase was made. Settlement on these transactions occurred in January, 2011.

Valuation Methods, Consistency

The valuation techniques used in the accompanying financial statements have been consistently applied.

Contributions from the Corporation

The Plans record employer's contributions when the amounts are approved by the employer.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

Transaction and Investment Recognition

Purchases and sales of securities are reflected on a trade date basis. Interest and other income are recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date.

In accordance with the policy of stating investments at fair value, the change in net realized and unrealized appreciation or depreciation is included in the statement of changes in net assets available for benefits.

Administrative Expenses

The administrative expenses include trustee, consultant, actuarial, accountant, and external administrators, which are applicable to the Master Trust as a whole. In addition, the Plan Administrator provides certain other administrative services for which no charges are made.

Note 3 - Funding Policy:

The Plan Administrator annually determines the normal cost of the Plans and the amount of unfunded past service cost. This determination is based on an actuarial estimate of the amount required to provide benefits ultimately due each Plan's participants. The Plans are subject to the funding provisions of ERISA. In accordance with these ERISA provisions, employer contributions must be equal to at least the normal cost plus an annual payment sufficient to amortize the "past service cost" over a period of forty years for pre-ERISA liabilities and thirty years for post-ERISA liabilities, less any balance in the Funding Standard Account. The term "past service cost" refers to amounts that have been contributed in the past if a Plan had been in effect and the current actuarial procedures had been used to determine annual pension cost from the earliest date from which service was credited. All Plans in the Master Trust meet the minimum funding requirements of ERISA.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plans' provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries. Benefits payable under all circumstances: retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

The actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial results. Pension benefits in excess of the present assets of the Plans are dependent upon contributions received from the employer and income from investments.

Since information on the accumulated Plan benefits at December 31, 2010 and the changes therein for the year then ended are not included in the financial statements or the notes thereto, these financial statements do not purport to present a complete presentation of the financial status of the Plans as of December 31, 2010 and the changes in its financial status for the year then ended, but only a presentation of the net assets available for benefits and the changes therein as of and for the year ended December 31, 2010.

Note 5 - Securities Lending Program:

In January 2004, the Corporation entered into an agreement with State Street Bank and Trust Company (the Bank), the custodian for the Master Trust's investments. This agreement authorizes the Bank to lend securities held in the Master Trust's accounts to third parties. The Bank must obtain collateral from the borrower in the form of cash, letters of credit issued by an entity other than the borrower, or acceptable securities. Both the collateral and the securities loaned are marked to market on a daily basis so that all loaned securities are fully collateralized at all times. In the event that the loaned securities are not returned by the borrower, the Bank will, at its own expense, either replace the loaned securities or, if unable to purchase those securities on the open market, credit the Plan's accounts with cash equal to the fair value of the loaned securities.

Investment income includes \$1,520,072 and \$3,907,305 earned by the Master Trust during 2010 and 2009, respectively, in connection with securities lending activities.

Although the securities lending activities are collateralized as described above, and although the terms of the securities lending agreement with the custodial bank require the Bank to comply with government rules and regulations related to the lending of securities held by ERISA plans, the securities lending program involves both market and credit risk. In this context, market risk refers to the possibility that the borrower of securities will be unable to collateralize their loan upon a sudden material change in the fair value of the loaned securities or the collateral, or that the Bank's investment of the cash collateral received from the borrowers of the Plan's securities may be subject to unfavorable market fluctuations. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts.

The market value of loaned securities was \$389,198,004 and \$466,780,199 as of December 31, 2010 and 2009, respectively, while the collateral held was \$399,875,891 and \$483,258,260, respectively. In accordance with FASB ASC 860, the Plan has

segregated securities on loan to third parties from other investments and the value of the collateral held and a corresponding liability to return the collateral are reported on the accompanying statements of net assets available for benefits.

Note 6 - Investments:

The investments are held by State Street Bank and Trust Company. The table on the following pages 17 and 18 presents the fair value of those investments as of December 31, 2010 and 2009. Assets that represent 5% or more of the Trust's net assets available for benefits are separately identified. The table on pages 19 and 20 presents the net appreciation/depreciation in the Master Trust's held assets for the years ended December 31, 2010 and 2009, by major category.

Note 8 – Investments in Certain Entities That Calculate Net Asset Value

In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*. ASU 2009-12 amended FASB ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted this guidance for the reporting period ended December 31, 2009. As a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Adoption of ASU 2009-12 did not have a material effect on the Plan's financial statements.

{b} This category is comprised of passive investments in international equity securities that match, as closely as possible, the return of the MSCI EAFE index. The fair values of the investments in this category have been estimated using the net asset value per share/unit of the investments.

{c} This category is comprised of passive investments in fixed income that match, as closely as possible, the return of the Barclays Aggregate Bond Index. The fair values of the investments in this category have been estimated using the net asset value per share/unit of the investments.

{d} This category include investments that invest in U.S. Government securities which provides safety of principal, daily liquidity, and a competitive yield. The fair values of the investments in this category have been estimated using the net asset value per share/unit of the investments.

{e} This category include investments in real estate funds that invest primarily in U.S. commercial real estate. The fair values of the investments in this category have been estimated using the net asset value of the Company's ownership interest in partners' capital. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund.

{f} This category includes investment in a real estate fund that invests primarily in U.S. commercial real estate. The fair values of the investments in this category have been estimated using the net asset value of contract holders' equity. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund.

{g} This category include investments in private equity partnerships that in turn invest their assets in U.S. and non-U.S. companies. The fair values of the investments in this category have been estimated using the net asset value per share/unit of the investments. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund.

Note 9 - Financial Instruments:

The Master Trust investment policy defines its primary objectives as paying trust benefits due or expected to become due, preserving fund assets, and achieving results that allow asset levels to increase beyond the requirements of the previous objectives, but within acceptable risk parameters.

As part of their total investment strategy, and to meet the primary objectives established, several of the Master Trust's investment managers utilize derivatives for risk reduction. Risk reduction provides for achievement of desired portfolio characteristics that allow the Trust to meet its investment objectives. Risks associated with derivatives vary widely, but generally

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

may be categorized as market risk and credit risk. Market risk is defined as that risk associated with fluctuations in market price. Credit risk is defined as that risk associated with an entity not paying.

To monitor the Trust's investment portfolio, reports are reviewed and investments monitored by the Corporation's personnel and its investment managers on a monthly basis. Specific reports related to accounts with derivative transactions are prepared by the investment custodian in which market values, realized and unrealized gains and losses, and duration gaps are presented for Trust investment advisors' review.

Some of the Trust's investment managers enter into forward and spot currency contracts. These contracts are standardized agreements between two parties to buy and sell domestic and foreign currency at a set price on a future date. The Trust invests in forward and spot currency contracts in order to gain exposure to certain classes and securities at a lower cost than buying the specific assets. Should foreign currency conditions move unexpectedly, the Trust may not achieve the anticipated benefits of the forward and spot currency contracts and may realize a loss. The use of forward and spot currency contracts involves the risk of imperfect correlation in movements in foreign currency values.

Total open contracts, unrealized gain (loss) by category and currency type at December 31, 2010 and 2009 consisted of the following:

NOTES TO FINANCIAL STATEMENTS (Continued)**

Note 10 - Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 11 – Tax Status:

Chevron believes the Plans continue to fulfill the requirements for qualified plans under Section 401 (a) of the Internal Revenue Code and were, therefore, exempt from federal income taxes under the provisions of Section 501(a). The Chevron Mining Plan has been amended since receiving its determination letter. The Plans' administrator and the Plans' tax counsel believe that the Plans are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Master Trust that forms a part of each Plan is not subject to income tax. Accordingly, no provision for federal or state income taxes has been made.

Note 12 – Plan Amendments, Assumptions and, Mergers:

Effective January 1, 2010, the Chevron Mining Plan and the Elkol-Sorenson Mine Plan use the 2010 static mortality tables for annuitants and non-annuitants mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1(e).

Effective January 1, 2010, the lump sum interest rates for the Chevron Retirement Plan were changed to the current PPA yield curve.

Effective January 1, 2010, the retirement and withdraw rates for the Chevron Retirement Plan were updated to reflect expected retirement rates for the ongoing workforce, under normal conditions.

Effective January 1, 2010, the lump sum mortality table for the Chevron Retirement Plan was changed from the 2009 applicable IRC section 417(e) mortality table to the 2010 applicable 417(e) mortality table.
