INDEPENDENT AUDITOR'S REPORT

To the Management & Plan Administrator of Barron Service Parts 401(k) and Profit Sharing Plan:

I have audited the accompanying statements of net assets available for benefits of Barron Service Parts 401(k) Profit Sharing Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audits.

I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, I express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audits provide a reasonable basis for my opinion.

In my opinion, the financial statements, referred to above, of the Plan present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009 and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

My audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2010, referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

BARRON SERVICE PARTS CO. 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE 1: DESCRIPTION OF PLAN

The following description of the Barron Service Parts Co. 401(k) Profit Sharing Plan (the Plan) provides only general information. The plan is sponsored by Barron Service Parts Company, (the Company or Employer). The trustees of the plan's assets are two individuals who are not subject to control of a corporate trustee. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan was originally established January 1, 1972. The amended and restated provisions of the Plan became effective on January 1, 2009. To become a participant in the plan, an employee must be eighteen years old and must complete one year of continuous service (1,000 hours of service) beginning with the date of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and regulations issued by the Department of Labor. This plan is not integrated with Social Security.

Contributions. Eligible employees may contribute up to $16,500 in 2010 and 2009. Individuals age 50 or over by the end of the plan year are allowed to make additional "catch up" contributions of up to $5,500 for each of those years. The Company permits rollover contributions into the Plan. The Company may also make discretionary matching and non-elective profit-sharing contributions.

Participant Accounts. The Plan allows participants to direct their salary deferral contributions into investments by choosing from several investment options. Each participant's account is managed by the Plan and credited with (a) the participant's contributions, (b) company matching and profit sharing contributions and (c) allocation of Plan earnings, and (d) charged with an allocation of administrative expenses. The earnings allocated to a participant are based on the performance of the investments selected by the participant. The benefit to which a participant is entitled is the vested balance in the participant's account. Participants direct their own investments made from their salary deferrals and the trustee directs the investments of the profit sharing contributions. The Plan has two separate brokerage accounts. One holds the individual participants investments and the other holds the profit sharing contributions which are directed by the trustee into the individual investment options explained in Note 2. Allocations of discretionary employer matching and profit sharing contributions are based on the same ratio as each participant's compensation bears to the total compensation of all eligible participants as defined in the plan document.

Vesting. Participants are immediately vested in their voluntary contributions and rollover amounts plus actual earnings thereon. Vesting in any employer's matching or profit sharing contribution and the earnings thereon is based on years of credited service according to the following schedule:

Years of Service	Vesting %
Less than 2	-
2	20%
3	40%
4	60%
5	80%
6	100%

A participant immediately becomes 100 percent vested upon death, disability, or attainment of normal retirement age.

NOTE 1: DESCRIPTION OF PLAN (continued)

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest between 6 - 7%, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is repaid through payroll deductions. Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest.

Payment of Benefits. Upon retirement, death, disability, or termination of employment, a participant (or beneficiary, if applicable) may receive a lump-sum distribution. Certain in-service distributions are permitted by the Plan, subject to limitations described in the plan document. Hardship distributions are not permitted. Benefits are accounted for when paid.

Forfeitures. Forfeitures are the non-vested portion of the employer matching and profit sharing contributions of a terminated participant's account balance. These may be used to reduce matching contributions or to pay administrative expenses of the Plan. The Plan had no forfeitures in 2010 or 2009.

Administration. Wells Fargo Advisors provides investment advisory services to the Plan. Pentec Pension Management serves as the third-party administrator of the Plan.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets at the date of the financial statements and the reported amounts of revenues and expense during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan investments consist of money market accounts, certificates of deposit, mutual funds, common stocks, preferred and fixed rate securities, corporate bonds, and U.S. government securities. These investments are reported in the statement of net assets available for benefits as either participant-directed or trustee-directed investments. Quoted market prices are used to value mutual funds and money market accounts. Shares of mutual funds are valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end. Common stocks, preferred & fixed rate securities, corporate bonds and U.S. government securities are valued at the closing price reported on the active market on which the individual securities are traded. The net appreciation (depreciation) in the fair value of all of these investments is reported as a single line item in the statement of changes in net assets available for benefits and consists of the following: realized and unrealized gains or losses less investment fees. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Operating expenses
Both the Plan and the Company absorbed operating expenses associated with administering the plan in 2010 and 2009.

Risks & Uncertainties
The Plan provides for various investment options in a combination of various securities that are subject to certain market risks, interest rates, and credit risks. Due to the risks associated with these investments, there is a level of uncertainty related to changes in the value of the investment securities; therefore it is reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in assets available for benefits.

New Accounting Pronouncements
In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, *Fair Value Measurements and Disclosures*, which amends ASC 820, *Fair Value Measurements and Disclosures*, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan prospectively adopted the new guidance in 2010, except for the Level 3 reconciliation disclosures, which are required in 2011. The adoption in 2010 did not materially affect, and the future adoption is not expected to materially affect, the Plan's financial statements.

In September 2010, the FASB issued ASU No. 2010-25, Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans. ASU 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU No. 2010-25 is effective for years ending after December 15, 2010, with early adoption permitted. The guidance in ASU No. 2010-25 has been applied retrospectively to 2009.

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (Topic 820)—Fair Value Measurement* (ASU 2011-04), to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. ASU 2011-04 is effective for the Plan prospectively for the year ending December 31, 2012. The Plan is currently evaluating the impact of pending adoption of ASU 2011-04 on its financial statements.

Reclassifications
Certain reclassifications were made to the 2009 financial statements to conform to the current year presentation.

NOTE 3: FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were used by the Plan in 2010 or 2009.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. Quoted market prices are used to value mutual funds and money market accounts. Shares of mutual funds are valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end. Common stocks, preferred & fixed rate securities, corporate bonds and U.S. government securities are valued at the closing price reported on the active market on which the individual securities are traded.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009

The Plan held no single investment in common or preferred stock which amounted to five or more percent of the Plan's net assets as calculated as of December 31, 2010 or 2009.

NOTE 4: INVESTMENTS (continued)

Net appreciation (depreciation) in the fair value of investments for 2010 is as follows:

Fixed income securities	$47,425
Common stocks	41,206
Growth mutual funds	37,326
Growth & income mutual funds	24,379
Preferred/fixed rate securities	20,626
Index mutual funds	7,448
Income mutual funds	3,919
Balanced mutual funds	3,570
Total	$185,899

NOTE 5: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time so as to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, no further contributions will be made to the Plan and participants' accounts will continue to be 100% vested.

NOTE 6: INCOME TAX STATUS

The Internal Revenue Service has rendered an opinion and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Additionally, GAAP requires Plan management to evaluate the tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 7: PARTIES-IN-INTEREST

Wells Fargo Advisors provide investment advisory services to the Plan. These services include mutual funds managed by Wells Fargo. Investment consultation and advisory fees paid by the plan qualify as party-in-interest transactions. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. These fees totaled $19,445 in 2010 and $14,500 in 2009. Other party-in-interest transactions of the Plan include professional fees which are also permitted under the provisions of the Plan and are exempt from prohibition under ERISA. These fees totaled $6,000 in 2010.

NOTE 8: SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 11, 2011, the date which the financial statements were available to be issued. No significant subsequent events have occurred that would require disclosure in the notes or recognition in the financial statements.
