INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Administrative Committee
AcuSport Corporation Retirement Benefit Plan and Trust

We were engaged to audit the financial statements of Acusport Corporation Retirement Benefit Plan and Trust as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN:

The following description of the AcuSport Corporation Retirement Benefit Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time non-union employees of AcuSport Corporation (the "Company") who have attained age 21 and have completed three months of service. The Retirement Committee of the Board of Directors of the Company controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute 100 percent of their pretax annual compensation, as defined in the Plan. The Company contributes 33 percent of the first 6 percent of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain Internal Revenue Code limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of (1) Company discretionary contributions and (2) Plan earnings, and charged with an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Participant loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates range between 4.25 percent and 9.25 percent. Principal and interest are paid through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts

Forfeited balances of unvested matching contributions of terminated participants are used to reduce future AcuSport Corporation contributions and pay Plan expenses. Forfeited balances of unvested profit sharing contributions of terminated participants are allocated annually among remaining participants based on their respective account balance at Plan year-end. As of December 31, 2010 and 2009, forfeited non-vested account balances totaled \$3,985 and \$12,184, respectively. In 2010 and 2009, employer contributions and administrative expenses were reduced by \$22,759 and \$3,527, respectively, from forfeited nonvested accounts.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Administrative expenses

Administrative expenses of the Plan are paid by the Plan's Sponsor, as provided in the Plan document. If not paid by the Plan's Sponsor, administrative expenses become a liability of the Plan. Investment income is stated net of investment fees.

Subsequent events

The Plan has evaluated subsequent events through October 12, 2011, the date the financial statements were available to be issued.

3. INVESTMENTS:

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	<u>2010</u>	<u>2009</u>
Pooled Separate Accounts:		
Prudential Victory Diversified Stock Fund	\$ 1,606,907	1,559,308
Prudential Mid Cap Growth/Artisan Partners	1,447,207	1,173,871
Prudential Large Cap Value/Barrow Hanley	1,274,218	1,111,432

Prudential Core Bond	860,114	673,845
Prudential International Blend/Bost Co Fd	766,464	580,652
Prudential Mid Cap Value/CRM	573,432	*
Unallocated Guaranteed Investment Contract:		
Prudential Guaranteed Income	2,324,817	1,997,026

* - Not in excess of 5%

During the year ended December 31, 2010, the net appreciation in the fair value of pooled separate accounts (including investments bought and sold, as well as held during the year) increased in value by \$1,136,522.

4. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information included in the Plan's financial statements and supplemental schedule was prepared by or derived from information prepared by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

	<u>2010</u>	<u>2009</u>
Investments:		
Pooled separate accounts	\$ 8,898,994	7,483,974
Unallocated guaranteed investment contracts		
Contract value	2,324,817	1,997,026
Fair value	2,324,817	1,997,026
Notes receivable from participants	7,625	5,678
Investment income:		
Interest	51,617	
Net appreciation in fair value of investments	1,136,522	
Interest income on notes receivable	366	

5. FAIR VALUE MEASUREMENT:

Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at participation units credited to the Plan multiplied by the current participation unit value.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Balance, end of year	<u>\$ 2,324,817</u>

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan has entered into a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (Prudential). Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than four percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Average yields:	<u>2010</u>	<u>2009</u>
Based on actual earnings	2.35 %	2.35 %
Based on interest rate credited to participants	2.35 %	2.35 %

7. RELATED PARTY TRANSACTIONS:

Certain Plan investments are pooled separate accounts and unallocated guaranteed investment contracts managed by Prudential Retirement Insurance and Annuity Company, the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants will become 100 percent vested in their accounts.

9. TAX STATUS:

The Internal Revenue Service has determined that the prototype adopted by the Plan, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or assets) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

1. RISKS AND UNCERTAINTIES:

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the statement of net assets available for benefits.

2. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 for the year ended December 31:

	<u>2010</u>	<u>2009</u>
Total assets available for benefits per the financial statements	\$ 11,406,919	9,704,546

INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Administrative Committee
AcuSport Corporation Retirement Benefit Plan and Trust

We were engaged to audit the financial statements of AcuSport Corporation Retirement Benefit Plan and Trust as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. 1. DESCRIPTION OF PLAN:

The following description of the AcuSport Corporation Retirement Benefit Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time non-union employees of AcuSport Corporation (the "Company") who have attained age 21 and have completed three months of service. The Retirement Committee of the Board of Directors of the Company controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute 100 percent of their pretax annual compensation, as defined in the Plan. The Company contributes 33 percent of the first 6 percent of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain Internal Revenue Code limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of (1) Company discretionary contributions and (2) Plan earnings, and charged with an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Participant loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates range between 4.25 percent and 9.25 percent. Principal and interest are paid through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts

Forfeited balances of unvested matching contributions of terminated participants are used to reduce future AcuSport Corporation contributions and pay Plan expenses. Forfeited balances of unvested profit sharing contributions of terminated participants are allocated annually among remaining participants based on their respective account balance at Plan year-end. As of December 31, 2010 and 2009, forfeited non-vested account balances totaled \$3,985 and \$12,184, respectively. In 2010 and 2009, employer contributions and administrative expenses were reduced by \$22,759 and \$3,527, respectively, from forfeited nonvested accounts.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Administrative expenses

Administrative expenses of the Plan are paid by the Plan's Sponsor, as provided in the Plan document. If not paid by the Plan's Sponsor, administrative expenses become a liability of the Plan. Investment income is stated net of investment fees.

Subsequent events

The Plan has evaluated subsequent events through October 12, 2011, the date the financial statements were available to be issued.

3. INVESTMENTS:

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	<u>2010</u>	<u>2009</u>

* - Not in excess of 5%

During the year ended December 31, 2010, the net appreciation in the fair value of pooled separate accounts (including investments bought and sold, as well as held during the year) increased in value by \$1,136,522.

4. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information included in the Plan's financial statements and supplemental schedule was prepared by or derived from information prepared by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

	<u>2010</u>	<u>2009</u>

Investment income:		
Interest	51,617	
Net appreciation in fair value of investments	1,136,522	
Interest income on notes receivable	366	

5. FAIR VALUE MEASUREMENT:

Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at participation units credited to the Plan multiplied by the current participation unit value.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan has entered into a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (Prudential). Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than four percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Average yields:	<u>2010</u>	<u>2009</u>
Based on actual earnings	2.35 %	2.35 %
Based on interest rate credited to participants	2.35 %	2.35 %

7. RELATED PARTY TRANSACTIONS:

Certain Plan investments are pooled separate accounts and unallocated guaranteed investment contracts managed by Prudential Retirement Insurance and Annuity Company, the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants will become 100 percent vested in their accounts.

9. TAX STATUS:

The Internal Revenue Service has determined that the prototype adopted by the Plan, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or assets) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

1. RISKS AND UNCERTAINTIES:

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the statement of net assets available for benefits.

2. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 for the year ended December 31:

INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Administrative Committee
AcuSport Corporation Retirement Benefit Plan and Trust

We were engaged to audit the financial statements of Acusport Corporation Retirement Benefit Plan and Trust as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN:

The following description of the AcuSport Corporation Retirement Benefit Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time non-union employees of AcuSport Corporation (the "Company") who have attained age 21 and have completed three months of service. The Retirement Committee of the Board of Directors of the Company controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute 100 percent of their pretax annual compensation, as defined in the Plan. The Company contributes 33 percent of the first 6 percent of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain Internal Revenue Code limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant accounts

Individual accounts are maintained for each Plan participant. 5. FAIR VALUE MEASUREMENT:

Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at participation units credited to the Plan multiplied by the current participation unit value.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan has entered into a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (Prudential). Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than four percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Average yields:	<u>2010</u>	<u>2009</u>
Based on actual earnings	2.35 %	2.35 %
Based on interest rate credited to participants	2.35 %	2.35 %

7. RELATED PARTY TRANSACTIONS:

Certain Plan investments are pooled separate accounts and unallocated guaranteed investment contracts managed by Prudential Retirement Insurance and Annuity Company, the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants will become 100 percent vested in their accounts.

9. TAX STATUS:

The Internal Revenue Service has determined that the prototype adopted by the Plan, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or assets) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

1. RISKS AND UNCERTAINTIES:

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the statement of net assets available for benefits.

2. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 for the year ended December 31:

	<u>2010</u>	<u>2009</u>
Total assets available for benefits per the financial statements	\$ 11,406,919	9,704,546
Less: Employer contributions receivable	<u>(175,483)</u>	<u>(217,868)</u>
Total assets available for benefits per Schedule H of Form 5500	\$ <u>11,231,436</u>	<u>9,486,678</u>

The following is a reconciliation of employer contributions per the financial statements to Schedule H of Form 5500 for the year ended December 31, 2010:

Total employer contributions per the financial statements	\$ 280,893
Less: 2010 employer contributions receivable	(175,483)
Plus: 2009 employer contributions receivable	<u>217,868</u>
Total employer contributions per Schedule H of Form 5500	\$ <u>323,278</u>
