INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
the Hayward Quartz Technology, Inc.
401(k) Profit Sharing Plan and Trust

I have audited the accompanying statements of net assets available for benefits of Hayward Quartz Technology, Inc. 401(k) Profit Sharing Plan and Trust (the 'Plan') as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audits.

I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audits provide a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

My audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of delinquent participant contributions and assets (held at end of year), together referred to as "supplemental information", are presented for the purpose of additional analysis and are not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1 - Description of Plan

The following description of the Hayward Quartz Technology, Inc. ('Company') 401(k) Profit Sharing Plan and Trust ('Plan') provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan and was established on January 1, 1998 for the benefit of all eligible employees of the Company. Employees can enroll into the Plan after completion of three consecutive months of service. Generally, the Plan covers all employees of the Company who are at age 21 or older, except for employees who are:

- included in a unit of employees covered by the terms of a collective bargaining agreement; or
- non-resident aliens who received no earned income from the Company; or
- employees as a result of an asset or stock acquisition, merger, or similar transaction.

It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Participants' contributions

Participants may contribute up to $16,500 of the pre-tax annual compensation for the year ended December 31, 2010. Participants who have attained age 50 before the end of plan year are eligible to make additional catch up contribution with an amount up to $5,500 for the year ended December 31, 2010. Participants may also contribute amounts representing distribution from other qualified defined benefit or contribution plans.

c. Employer's contributions

Each plan year, the Company may contribute, as determined by the Board of Directors, to the Plan based on the total compensation of all the participants eligible to receive an allocation. The Company may, at its discretion, make qualified non-elective contributions to participants who are not highly compensated employees. The Company may also make profit sharing contributions to all qualified participants at its discretion. Both qualified non-elective and profit sharing contributions will be allocated to the participants according to the ratio that the participant's compensation for the plan year bears

Note 1 - Description of Plan (continued)

c. Employer's contributions (continued)

to the total compensation of all participants for such plan year. For the year ended December 31, 2010, no employer's qualified non-elective and profit sharing contributions was made.

d. Participant accounts

Each participant's account is credited with the participant's and employer's contributions, and allocations of gains or losses from investments. The allocations are based on terms as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately and fully vested in their contributions and gains or losses thereon allocated to their accounts. Participants vest in the employer's discretionary contributions according to the following schedule:

Years of Employment	Vested Percentages
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants will be fully vested with the employer's discretionary contributions in the event of death, disability, attainment of normal retirement age or complete or partial termination of the Plan. Forfeitures are allocated to the qualified participants in the ratio that the participant's compensation for the plan year bears to the total compensation of all participants for such plan year. For the year ended December 31, 2010, no forfeitures were allocated to the participants' accounts.

f. Investment options

Participants can direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-one pre-selected mutual funds and a money market fund as investment options for the participants. Participants may change their investment options and allocations at any time.

Note 1 - Description of Plan (continued)

g. Rollovers

With the approval of the plan administrator, the Plan may receive any amounts received by an employee as distribution from another qualified plan provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts.

h. Notes receivable from participants

All participants with a vested balance of at least $2,000, except stockholders who own 5% or more stock of the Company, may borrow from their accounts. Loan fees and interest due are paid by the participant. Each participant may have only one loan outstanding at any given time. The minimum loan amount is $1,000, but not exceeding the lesser of:

- one-half of the participant's vested account balance; or
- $50,000 (reduced by the highest outstanding loan balance during the one year period ending on the day the loan agreement is executed).

The maximum repayment period is generally 4½ years for a general purpose loan. If the loan is obtained for the purpose of purchasing a primary residence, the maximum repayment period is 10 years. The loan will bear interest at a fixed rate of 1% above the prime rate as published on the first business day of the month. Principal and interest are paid ratably through payroll deductions on a per pay period basis. Borrower may prepay all or a portion of the outstanding loan without penalty. All loans are secured by 50% of the participant's vested account balance. On August 26, 2009, the Plan was amended to disallow new loans to participants, but the amendment does not affect any loans that were issued prior to August 26, 2009.

i. Payment of benefits

Upon separation from employment due to termination of employment, death, disability, retirement or attainment of the age of 59½, the participant has three options concerning the account balance when a distribution is made:

- The participant may elect to roll the vested account balance to another qualified retirement plan or to an individual retirement account;
- The participant may elect to have the vested account balance distributed and income taxes will be withheld accordingly; or
- If the account balance is greater than $5,000, the participant can leave the vested account balance in the Plan until the participant authorizes a distribution.

Note 1 - Description of Plan (continued)

i. Payment of benefits (continued)

The Plan allows participants to take an in-service withdrawal even if they are actively employed with the Company upon attainment of the age of 59½, employer profit sharing and contributions may be withdrawn from the account.

The Plan does not allow for hardship withdrawals.

j. Administration and costs of plan administration

The Company and the Plan trustee are responsible for administering the Plan.

The Company absorbs all costs of Plan administration. Accordingly, such expenses are not reported in the Plan's statement of changes in net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies

a. Basis of accounting and use of accounting estimates

The Plan maintains its accounting records on the accrual method of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

b. Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-16, "Improving Disclosures about Fair Value Measurements." This update requires a number of new disclosures including disclosure of significant transfers in or out of Level 1 and Level 2 and the reasons for such transfers, an entity's policy for determining when transfers between levels are recognized, the valuation techniques and inputs used in determining the fair value of assets or liabilities classified as Level 2 or Level 3 and requires the changes in Level 3 fair value measurements to be disclosed separately rather than net. In addition, this update seeks to improve transparency by requiring fair value measurement disclosures for each class of assets and liabilities. This pronouncement is effective for reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlement in the roll forward of activity in Level 3 fair value measurements which are effective for fiscal years beginning after December 15, 2010. The Plan adopted this pronouncement in its entirety effective beginning on January 1, 2010. The adoption of this pronouncement did not have a material impact on the Plan's financial statements.

Note 2 – Summary of Significant Accounting Policies (continued)

b. Recent Accounting Pronouncements (continued)

In September 2010, the FASB issued ASU 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans." ASU 2010-25 was issued to clarify how loans to participants should be classified and measured by defined contribution plans. ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This pronouncement is effective for fiscal years ending after December 15, 2010 and shall be applied retrospectively. The Plan adopted this pronouncement on a retrospective basis effective beginning on January 1, 2010. Prior to the adoption of this pronouncement, participant loans were held as an investment and carried at fair value. The Plan has reclassified amounts previously reported to conform to the current presentation. The adoption of this pronouncement did not have a material impact on the Plan's financial statements.

In May 2011, the FASB issued ASU No. 2011-04, "Amendments to Achieve Common Far Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards." ASU 2011-04 was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for reporting periods beginning on or after December 15, 2011, with early adoption prohibited. The new guidance will require prospective application. The Plan is currently evaluating the effect that the provisions of this pronouncement will have on its financial statements.

c. Investment valuation and income recognition

Investments in mutual funds are stated at fair market value. Shares of mutual funds are valued at quoted market prices, which represent the net asset of value of shares held by the Plan at the end of the plan year. Purchases and sales of securities are recorded on a trade-date basis. Participant loans are valued at amortized cost, which represents fair value. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of investments, which consists of realized gain or losses and unrealized appreciation (depreciation) on those investments.

Note 2 - Summary of Significant Accounting Policies (continued)

d. Net appreciation (depreciation) in fair value of investments

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

Realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

e. Risks and uncertainties

The Plan provides various funds that hold investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the financial statements.

f. Participant distributions

Benefits paid to participants are recorded when paid.

Note 3 – Investments

Individual investments that represent 5% or more of the fair value of net assets available for benefits at the end of the plan year are as follows for the years ended December 31, 2010 and 2009:

Note 4 – Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, "Fair Value Measurements" (Formerly SFAS No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quotes prices in markets that are not considered to be active or financial instruments for which all the significant inputs are observable, either directly, or indirectly.

Level 3: Prices or valuations which require inputs that are significant both to the fair value measurement and unobservable.

Note 4 – Fair Value Measurements (continued)

The following table lists the fair value of investment assets as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 260,229	$0	$0	$ 260,229
Mutual funds	1,585,647	0	0	1,585,647
Total investments measured at fair value	$1,845,876	$0	$0	$1,845,876

The following table lists the fair value of investment assets as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 250,786	$0	$0	$ 250,786
Mutual funds	2,046,106	0	0	2,046,106
Total investments at fair value	$2,296,892	$0	$0	$2,296,892

The Plan's investments that are measured at fair value on a recurring basis, such as mutual funds and cash and cash equivalents are generally classified within Level 1 of the fair value hierarchy. The fair values of these investments are based on quoted market prices in active markets.

Note 5 – Notes Receivable from Participants

Subsequent to August 26, 2009, the Plan disallows its participants to obtain loans against their account balance. The change does not impact previously issued loans. The value of notes receivable was measured at their unpaid balances plus any accrued but unpaid interest. As of December 31, 2010 and 2009, total loans outstanding were $83,576 and $148,345, respectively. During the years ended December 31, 2010 and 2009, interest earned on such loans was $7,561 and $11,647, respectively

Note 6 – Excess Contribution Payable

The Plan passed the Average Deferral Percentage ('ADP") Test and the Actual Contribution Percentage ("ACP") Test for 2010 but failed the test for the 2009 plan year. The accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009 includes $0 and $7,051, respectively, in excess contributions payable relating to this issue.

Note 7 – Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500:

	2010	2009
Net assets available for benefits per financial statements	$ 2,380,884	$1,987,170
Participant contributions receivable	(416)	0
Excess contributions payable	0	7,051
Net assets available for benefits per Schedule H of Form 5500	$ 2,380,468	$1,994,221

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the year ended December 31, 2010 to Form 5500:

Net increase in net assets available for benefits per the financial statements	$ 393,714
Excess contributions payable as of 12/31/2009	(7,051)
Participant contributions receivable as of 12/31/2010	(416)
Net increase in net assets available for benefits per Form 5500	$ 386,247

Note 8 – Party-in-Interest Transactions

Certain plan investments are shares of money market funds managed by Merrill Lynch, and therefore, these transactions are classified as party-in-interest transactions as that term is defined in Section 3(14) of ERISA. The Plan also has outstanding notes receivable from participants, which are secured by the balances in the participants' accounts.

Note 9 – Income Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes was provided in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the plan. The financial statement effects of a tax position are recognized when the position is more likely

Note 9 – Income Tax Status (continued)

than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 10 – Plan Termination

Presently, the Company has no intention to terminate the Plan but it reserves the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants will become fully vested in their accounts.

Note 11 – Nonexempt Transaction

As reported on Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain participant contributions were not remitted to the Plan within the time frame specified by the Department of Labor's Regulation CFR 2510.3-102, thus constituting nonexempt party-in-interest transactions, which resulted in an imposition of a 15% excise tax on the amount of the transactions to the Company. Late remittances amounted to $416 would be corrected during 2011. The Company was in the process of remitting the lost earnings to the Trustee and paying resulting penalty and tax due to the late remittance of participant contributions and loan repayments. In addition, participant accounts will be credited with the amount of investment income that would have been earned had the participant contributions and loan repayments be remitted on a timely basis. The lost earnings were not accrued as they were not material. These nonexempt transactions do not affect the tax status determination of the Plan.

Note 12 – Subsequent Events

The Plan has evaluated subsequent events through October 11, 2011, the date which the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
the Hayward Quartz Technology, Inc.
401(k) Profit Sharing Plan and Trust

I have audited the accompanying statements of net assets available for benefits of Hayward Quartz Technology, Inc. 401(k) Profit Sharing Plan and Trust (the 'Plan') as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audits.

I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audits provide a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

My audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of delinquent participant contributions and assets (held at end of year), together referred to as "supplemental information", are presented for the purpose of additional analysis and are not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1 - Description of Plan

The following description of the Hayward Quartz Technology, Inc. ('Company') 401(k) Profit Sharing Plan and Trust ('Plan') provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan and was established on January 1, 1998 for the benefit of all eligible employees of the Company. Employees can enroll into the Plan after completion of three consecutive months of service. Generally, the Plan covers all employees of the Company who are at age 21 or older, except for employees who are:

- included in a unit of employees covered by the terms of a collective bargaining agreement; or
- non-resident aliens who received no earned income from the Company; or
- employees as a result of an asset or stock acquisition, merger, or similar transaction.

It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Participants' contributions

Participants may contribute up to $16,500 of the pre-tax annual compensation for the year ended December 31, 2010. Participants who have attained age 50 before the end of plan year are eligible to make additional catch up contribution with an amount up to $5,500 for the year ended December 31, 2010. Participants may also contribute amounts representing distribution from other qualified defined benefit or contribution plans.

c. Employer's contributions

Each plan year, the Company may contribute, as determined by the Board of Directors, to the Plan based on the total compensation of all the participants eligible to receive an allocation. The Company may, at its discretion, make qualified non-elective contributions to participants who are not highly compensated employees. The Company may also make profit sharing contributions to all qualified participants at its discretion. Both qualified non-elective and profit sharing contributions will be allocated to the participants according to the ratio that the participant's compensation for the plan year bears

Note 1 - Description of Plan (continued)

c. Employer's contributions (continued)

to the total compensation of all participants for such plan year. For the year ended December 31, 2010, no employer's qualified non-elective and profit sharing contributions was made.

d. Participant accounts

Each participant's account is credited with the participant's and employer's contributions, and allocations of gains or losses from investments. The allocations are based on terms as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately and fully vested in their contributions and gains or losses thereon allocated to their accounts. Participants vest in the employer's discretionary contributions according to the following schedule:

Years of Employment	Vested Percentages
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants will be fully vested with the employer's discretionary contributions in the event of death, disability, attainment of normal retirement age or complete or partial termination of the Plan. Forfeitures are allocated to the qualified participants in the ratio that the participant's compensation for the plan year bears to the total compensation of all participants for such plan year. For the year ended December 31, 2010, no forfeitures were allocated to the participants' accounts.

f. Investment options

Participants can direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-one pre-selected mutual funds and a money market fund as investment options for the participants. Participants may change their investment options and allocations at any time.

Note 1 - Description of Plan (continued)

g. Rollovers

With the approval of the plan administrator, the Plan may receive any amounts received by an employee as distribution from another qualified plan provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts.

h. Notes receivable from participants

All participants with a vested balance of at least $2,000, except stockholders who own 5% or more stock of the Company, may borrow from their accounts. Loan fees and interest due are paid by the participant. Each participant may have only one loan outstanding at any given time. The minimum loan amount is $1,000, but not exceeding the lesser of:

- one-half of the participant's vested account balance; or
- $50,000 (reduced by the highest outstanding loan balance during the one year period ending on the day the loan agreement is executed).

The maximum repayment period is generally 4½ years for a general purpose loan. If the loan is obtained for the purpose of purchasing a primary residence, the maximum repayment period is 10 years. The loan will bear interest at a fixed rate of 1% above the prime rate as published on the first business day of the month. Principal and interest are paid ratably through payroll deductions on a per pay period basis. Borrower may prepay all or a portion of the outstanding loan without penalty. All loans are secured by 50% of the participant's vested account balance. On August 26, 2009, the Plan was amended to disallow new loans to participants, but the amendment does not affect any loans that were issued prior to August 26, 2009.

i. Payment of benefits

Upon separation from employment due to termination of employment, death, disability, retirement or attainment of the age of 59½, the participant has three options concerning the account balance when a distribution is made:

- The participant may elect to roll the vested account balance to another qualified retirement plan or to an individual retirement account;
- The participant may elect to have the vested account balance distributed and income taxes will be withheld accordingly; or
- If the account balance is greater than $5,000, the participant can leave the vested account balance in the Plan until the participant authorizes a distribution.

Note 1 - Description of Plan (continued)

i. Payment of benefits (continued)

The Plan allows participants to take an in-service withdrawal even if they are actively employed with the Company upon attainment of the age of 59½, employer profit sharing and contributions may be withdrawn from the account.

The Plan does not allow for hardship withdrawals.

j. Administration and costs of plan administration

The Company and the Plan trustee are responsible for administering the Plan.

The Company absorbs all costs of Plan administration. Accordingly, such expenses are not reported in the Plan's statement of changes in net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies

a. Basis of accounting and use of accounting estimates

The Plan maintains its accounting records on the accrual method of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

b. Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-16, "Improving Disclosures about Fair Value Measurements." This update requires a number of new disclosures including disclosure of significant transfers in or out of Level 1 and Level 2 and the reasons for such transfers, an entity's policy for determining when transfers between levels are recognized, the valuation techniques and inputs used in determining the fair value of assets or liabilities classified as Level 2 or Level 3 and requires the changes in Level 3 fair value measurements to be disclosed separately rather than net. In addition, this update seeks to improve transparency by requiring fair value measurement disclosures for each class of assets and liabilities. This pronouncement is effective for reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlement in the roll forward of activity in Level 3 fair value measurements which are effective for fiscal years beginning after December 15, 2010. The Plan adopted this pronouncement in its entirety effective beginning on January 1, 2010. The adoption of this pronouncement did not have a material impact on the Plan's financial statements.

Note 2 – Summary of Significant Accounting Policies (continued)

b. Recent Accounting Pronouncements (continued)

In September 2010, the FASB issued ASU 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans." ASU 2010-25 was issued to clarify how loans to participants should be classified and measured by defined contribution plans. ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This pronouncement is effective for fiscal years ending after December 15, 2010 and shall be applied retrospectively. The Plan adopted this pronouncement on a retrospective basis effective beginning on January 1, 2010. Prior to the adoption of this pronouncement, participant loans were held as an investment and carried at fair value. The Plan has reclassified amounts previously reported to conform to the current presentation. The adoption of this pronouncement did not have a material impact on the Plan's financial statements.

In May 2011, the FASB issued ASU No. 2011-04, "Amendments to Achieve Common Far Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards." ASU 2011-04 was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for reporting periods beginning on or after December 15, 2011, with early adoption prohibited. The new guidance will require prospective application. The Plan is currently evaluating the effect that the provisions of this pronouncement will have on its financial statements.

c. Investment valuation and income recognition

Investments in mutual funds are stated at fair market value. Shares of mutual funds are valued at quoted market prices, which represent the net asset of value of shares held by the Plan at the end of the plan year. Purchases and sales of securities are recorded on a trade-date basis. Participant loans are valued at amortized cost, which represents fair value. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of investments, which consists of realized gain or losses and unrealized appreciation (depreciation) on those investments.

Note 2 - Summary of Significant Accounting Policies (continued)

d. Net appreciation (depreciation) in fair value of investments

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

Realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

e. Risks and uncertainties

The Plan provides various funds that hold investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the financial statements.

f. Participant distributions

Benefits paid to participants are recorded when paid.

Note 3 – Investments

Individual investments that represent 5% or more of the fair value of net assets available for benefits at the end of the plan year are as follows for the years ended December 31, 2010 and 2009:

	2010	2009
Investments at fair value as determined by quoted market prices:		
Investments:		
Blackrock Basic Value Fund Class A	N/A	$382,495

Note 4 – Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, "Fair Value Measurements" (Formerly SFAS No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quotes prices in markets that are not considered to be active or financial instruments for which all the significant inputs are observable, either directly, or indirectly.

Level 3: Prices or valuations which require inputs that are significant both to the fair value measurement and unobservable.

Note 4 – Fair Value Measurements (continued)

The following table lists the fair value of investment assets as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 260,229	$0	$0	$ 260,229
Mutual funds	1,585,647	0	0	1,585,647
Total investments measured at fair value	$1,845,876	$0	$0	$1,845,876

The following table lists the fair value of investment assets as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 250,786	$0	$0	$ 250,786
Mutual funds	2,046,106	0	0	2,046,106
Total investments at fair value	$2,296,892	$0	$0	$2,296,892

The Plan's investments that are measured at fair value on a recurring basis, such as mutual funds and cash and cash equivalents are generally classified within Level 1 of the fair value hierarchy. The fair values of these investments are based on quoted market prices in active markets.

Note 5 – Notes Receivable from Participants

Subsequent to August 26, 2009, the Plan disallows its participants to obtain loans against their account balance. The change does not impact previously issued loans. The value of notes receivable was measured at their unpaid balances plus any accrued but unpaid interest. As of December 31, 2010 and 2009, total loans outstanding were $83,576 and $148,345, respectively. During the years ended December 31, 2010 and 2009, interest earned on such loans was $7,561 and $11,647, respectively

Note 6 – Excess Contribution Payable

The Plan passed the Average Deferral Percentage ('ADP") Test and the Actual Contribution Percentage ("ACP") Test for 2010 but failed the test for the 2009 plan year. The accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009 includes $0 and $7,051, respectively, in excess contributions payable relating to this issue.

Note 7 – Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500:

	2010	2009
Net assets available for benefits per financial statements	$ 2,380,884	$1,987,170
Participant contributions receivable	(416)	0
Excess contributions payable	0	7,051
Net assets available for benefits per Schedule H of Form 5500	$ 2,380,468	$1,994,221

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the year ended December 31, 2010 to Form 5500:

Net increase in net assets available for benefits per the financial statements	$ 393,714
Excess contributions payable as of 12/31/2009	(7,051)
Participant contributions receivable as of 12/31/2010	(416)
Net increase in net assets available for benefits per Form 5500	$ 386,247

Note 8 – Party-in-Interest Transactions

Certain plan investments are shares of money market funds managed by Merrill Lynch, and therefore, these transactions are classified as party-in-interest transactions as that term is defined in Section 3(14) of ERISA. The Plan also has outstanding notes receivable from participants, which are secured by the balances in the participants' accounts.

Note 9 – Income Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes was provided in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the plan. The financial statement effects of a tax position are recognized when the position is more likely

Note 9 – Income Tax Status (continued)

than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 10 – Plan Termination

Presently, the Company has no intention to terminate the Plan but it reserves the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants will become fully vested in their accounts.

Note 11 – Nonexempt Transaction

As reported on Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain participant contributions were not remitted to the Plan within the time frame specified by the Department of Labor's Regulation CFR 2510.3-102, thus constituting nonexempt party-in-interest transactions, which resulted in an imposition of a 15% excise tax on the amount of the transactions to the Company. Late remittances amounted to $416 would be corrected during 2011. The Company was in the process of remitting the lost earnings to the Trustee and paying resulting penalty and tax due to the late remittance of participant contributions and loan repayments. In addition, participant accounts will be credited with the amount of investment income that would have been earned had the participant contributions and loan repayments be remitted on a timely basis. The lost earnings were not accrued as they were not material. These nonexempt transactions do not affect the tax status determination of the Plan.

Note 12 – Subsequent Events

The Plan has evaluated subsequent events through October 11, 2011, the date which the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
the Hayward Quartz Technology, Inc.
401(k) Profit Sharing Plan and Trust

I have audited the accompanying statements of net assets available for benefits of Hayward Quartz Technology, Inc. 401(k) Profit Sharing Plan and Trust (the 'Plan') as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audits.

I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audits provide a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

My audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of delinquent participant contributions and assets (held at end of year), together referred to as "supplemental information", are presented for the purpose of additional analysis and are not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1 - Description of Plan

The following description of the Hayward Quartz Technology, Inc. ('Company') 401(k) Profit Sharing Plan and Trust ('Plan') provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan and was established on January 1, 1998 for the benefit of all eligible employees of the Company. Employees can enroll into the Plan after completion of three consecutive months of service. Generally, the Plan covers all employees of the Company who are at age 21 or older, except for employees who are:

- included in a unit of employees covered by the terms of a collective bargaining agreement; or
- non-resident aliens who received no earned income from the Company; or
- employees as a result of an asset or stock acquisition, merger, or similar transaction.

It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Participants' contributions

Participants may contribute up to $16,500 of the pre-tax annual compensation for the year ended December 31, 2010. Participants who have attained age 50 before the end of plan year are eligible to make additional catch up contribution with an amount up to $5,500 for the year ended December 31, 2010. Participants may also contribute amounts representing distribution from other qualified defined benefit or contribution plans.

c. Employer's contributions

Each plan year, the Company may contribute, as determined by the Board of Directors, to the Plan based on the total compensation of all the participants eligible to receive an allocation. The Company may, at its discretion, make qualified non-elective contributions to participants who are not highly compensated employees. The Company may also make profit sharing contributions to all qualified participants at its discretion. Both qualified non-elective and profit sharing contributions will be allocated to the participants according to the ratio that the participant's compensation for the plan year bears

Note 1 - Description of Plan (continued)

c. Employer's contributions (continued)

to the total compensation of all participants for such plan year. For the year ended December 31, 2010, no employer's qualified non-elective and profit sharing contributions was made.

d. Participant accounts

Each participant's account is credited with the participant's and employer's contributions, and allocations of gains or losses from investments. The allocations are based on terms as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately and fully vested in their contributions and gains or losses thereon allocated to their accounts. Participants vest in the employer's discretionary contributions according to the following schedule:

Years of Employment	Vested Percentages
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants will be fully vested with the employer's discretionary contributions in the event of death, disability, attainment of normal retirement age or complete or partial termination of the Plan. Forfeitures are allocated to the qualified participants in the ratio that the participant's compensation for the plan year bears to the total compensation of all participants for such plan year. For the year ended December 31, 2010, no forfeitures were allocated to the participants' accounts.

f. Investment options

Participants can direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-one pre-selected mutual funds and a money market fund as investment options for the participants. Participants may change their investment options and allocations at any time.

Note 1 - Description of Plan (continued)

g. Rollovers

With the approval of the plan administrator, the Plan may receive any amounts received by an employee as distribution from another qualified plan provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts.

h. Notes receivable from participants

All participants with a vested balance of at least $2,000, except stockholders who own 5% or more stock of the Company, may borrow from their accounts. Loan fees and interest due are paid by the participant. Each participant may have only one loan outstanding at any given time. The minimum loan amount is $1,000, but not exceeding the lesser of:

- one-half of the participant's vested account balance; or
- $50,000 (reduced by the highest outstanding loan balance during the one year period ending on the day the loan agreement is executed).

The maximum repayment period is generally 4½ years for a general purpose loan. If the loan is obtained for the purpose of purchasing a primary residence, the maximum repayment period is 10 years. The loan will bear interest at a fixed rate of 1% above the prime rate as published on the first business day of the month. Principal and interest are paid ratably through payroll deductions on a per pay period basis. Borrower may prepay all or a portion of the outstanding loan without penalty. All loans are secured by 50% of the participant's vested account balance. On August 26, 2009, the Plan was amended to disallow new loans to participants, but the amendment does not affect any loans that were issued prior to August 26, 2009.

i. Payment of benefits

Upon separation from employment due to termination of employment, death, disability, retirement or attainment of the age of 59½, the participant has three options concerning the account balance when a distribution is made:

- The participant may elect to roll the vested account balance to another qualified retirement plan or to an individual retirement account;
- The participant may elect to have the vested account balance distributed and income taxes will be withheld accordingly; or
- If the account balance is greater than $5,000, the participant can leave the vested account balance in the Plan until the participant authorizes a distribution.

Note 1 - Description of Plan (continued)

i. Payment of benefits (continued)

The Plan allows participants to take an in-service withdrawal even if they are actively employed with the Company upon attainment of the age of 59½, employer profit sharing and contributions may be withdrawn from the account.

The Plan does not allow for hardship withdrawals.

j. Administration and costs of plan administration

The Company and the Plan trustee are responsible for administering the Plan.

The Company absorbs all costs of Plan administration. Accordingly, such expenses are not reported in the Plan's statement of changes in net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies

a. Basis of accounting and use of accounting estimates

The Plan maintains its accounting records on the accrual method of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

b. Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-16, "Improving Disclosures about Fair Value Measurements." This update requires a number of new disclosures including disclosure of significant transfers in or out of Level 1 and Level 2 and the reasons for such transfers, an entity's policy for determining when transfers between levels are recognized, the valuation techniques and inputs used in determining the fair value of assets or liabilities classified as Level 2 or Level 3 and requires the changes in Level 3 fair value measurements to be disclosed separately rather than net. In addition, this update seeks to improve transparency by requiring fair value measurement disclosures for each class of assets and liabilities. This pronouncement is effective for reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlement in the roll forward of activity in Level 3 fair value measurements which are effective for fiscal years beginning after December 15, 2010. The Plan adopted this pronouncement in its entirety effective beginning on January 1, 2010. The adoption of this pronouncement did not have a material impact on the Plan's financial statements.

Note 2 – Summary of Significant Accounting Policies (continued)

b. Recent Accounting Pronouncements (continued)

In September 2010, the FASB issued ASU 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans." ASU 2010-25 was issued to clarify how loans to participants should be classified and measured by defined contribution plans. ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This pronouncement is effective for fiscal years ending after December 15, 2010 and shall be applied retrospectively. The Plan adopted this pronouncement on a retrospective basis effective beginning on January 1, 2010. Prior to the adoption of this pronouncement, participant loans were held as an investment and carried at fair value. The Plan has reclassified amounts previously reported to conform to the current presentation. The adoption of this pronouncement did not have a material impact on the Plan's financial statements.

In May 2011, the FASB issued ASU No. 2011-04, "Amendments to Achieve Common Far Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards." ASU 2011-04 was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for reporting periods beginning on or after December 15, 2011, with early adoption prohibited. The new guidance will require prospective application. The Plan is currently evaluating the effect that the provisions of this pronouncement will have on its financial statements.

c. Investment valuation and income recognition

Investments in mutual funds are stated at fair market value. Shares of mutual funds are valued at quoted market prices, which represent the net asset of value of shares held by the Plan at the end of the plan year. Purchases and sales of securities are recorded on a trade-date basis. Participant loans are valued at amortized cost, which represents fair value. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of investments, which consists of realized gain or losses and unrealized appreciation (depreciation) on those investments.

Note 2 - Summary of Significant Accounting Policies (continued)

d. Net appreciation (depreciation) in fair value of investments

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

Realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

e. Risks and uncertainties

The Plan provides various funds that hold investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the financial statements.

f. Participant distributions

Benefits paid to participants are recorded when paid.

Note 3 – Investments

Individual investments that represent 5% or more of the fair value of net assets available for benefits at the end of the plan year are as follows for the years ended December 31, 2010 and 2009:

	2010	2009
Investments at fair value as determined by quoted market prices:		
Investments:		
Blackrock Basic Value Fund Class A	N/A	$382,495

Note 4 – Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, "Fair Value Measurements" (Formerly SFAS No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quotes prices in markets that are not considered to be active or financial instruments for which all the significant inputs are observable, either directly, or indirectly.

Level 3: Prices or valuations which require inputs that are significant both to the fair value measurement and unobservable.

Note 4 – Fair Value Measurements (continued)

The following table lists the fair value of investment assets as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 260,229	$0	$0	$ 260,229
Mutual funds	1,585,647	0	0	1,585,647
Total investments measured at fair value	$1,845,876	$0	$0	$1,845,876

The following table lists the fair value of investment assets as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 250,786	$0	$0	$ 250,786
Mutual funds	2,046,106	0	0	2,046,106
Total investments at fair value	$2,296,892	$0	$0	$2,296,892

The Plan's investments that are measured at fair value on a recurring basis, such as mutual funds and cash and cash equivalents are generally classified within Level 1 of the fair value hierarchy. The fair values of these investments are based on quoted market prices in active markets.

Note 5 – Notes Receivable from Participants

Subsequent to August 26, 2009, the Plan disallows its participants to obtain loans against their account balance. The change does not impact previously issued loans. The value of notes receivable was measured at their unpaid balances plus any accrued but unpaid interest. As of December 31, 2010 and 2009, total loans outstanding were $83,576 and $148,345, respectively. During the years ended December 31, 2010 and 2009, interest earned on such loans was $7,561 and $11,647, respectively

Note 6 – Excess Contribution Payable

The Plan passed the Average Deferral Percentage ('ADP") Test and the Actual Contribution Percentage ("ACP") Test for 2010 but failed the test for the 2009 plan year. The accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009 includes $0 and $7,051, respectively, in excess contributions payable relating to this issue.

Note 7 – Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500:

	2010	2009
Net assets available for benefits per financial statements	$ 2,380,884	$1,987,170
Participant contributions receivable	(416)	0
Excess contributions payable	0	7,051
Net assets available for benefits per Schedule H of Form 5500	$ 2,380,468	$1,994,221

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the year ended December 31, 2010 to Form 5500:

Net increase in net assets available for benefits per the financial statements	$ 393,714
Excess contributions payable as of 12/31/2009	(7,051)
Participant contributions receivable as of 12/31/2010	(416)
Net increase in net assets available for benefits per Form 5500	$ 386,247

Note 8 – Party-in-Interest Transactions

Certain plan investments are shares of money market funds managed by Merrill Lynch, and therefore, these transactions are classified as party-in-interest transactions as that term is defined in Section 3(14) of ERISA. The Plan also has outstanding notes receivable from participants, which are secured by the balances in the participants' accounts.

Note 9 – Income Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes was provided in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the plan. The financial statement effects of a tax position are recognized when the position is more likely

Note 9 – Income Tax Status (continued)

than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 10 – Plan Termination

Presently, the Company has no intention to terminate the Plan but it reserves the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants will become fully vested in their accounts.

Note 11 – Nonexempt Transaction

As reported on Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain participant contributions were not remitted to the Plan within the time frame specified by the Department of Labor's Regulation CFR 2510.3-102, thus constituting nonexempt party-in-interest transactions, which resulted in an imposition of a 15% excise tax on the amount of the transactions to the Company. Late remittances amounted to $416 would be corrected during 2011. The Company was in the process of remitting the lost earnings to the Trustee and paying resulting penalty and tax due to the late remittance of participant contributions and loan repayments. In addition, participant accounts will be credited with the amount of investment income that would have been earned had the participant contributions and loan repayments be remitted on a timely basis. The lost earnings were not accrued as they were not material. These nonexempt transactions do not affect the tax status determination of the Plan.

Note 12 – Subsequent Events

The Plan has evaluated subsequent events through October 11, 2011, the date which the financial statements were available to be issued.
