1. Description of Plan

General

The CCS Medical ("Employer") 401(k) Plan (the "Plan") is a prototype defined contribution plan covering all eligible employees who have attained three months of service. The Plan was originally effective January 1, 1999. The Plan was restated and amended effective July 1, 2006. The Plan was originally named Diabetic Supply of USA 401(k) Plan. Effective July 1, 2006, the Plan merged with the MP Total Care 401(k) Plan, at which time the name of the Plan was changed to CCS Medical 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan Administration

CCS Medical, Inc. serves as the Plan sponsor and administrator. Fidelity Management Trust Company is the Plan's trustee and recordkeeper.

Contributions

Participant may elect to contribute, on a tax deferred basis, up to 75% of participant's eligible compensation subject to certain limitations under the Internal Revenue Code ("IRC"). The Employer may make a discretionary profit sharing contribution at an amount that is determined annually. The Employer elected not to make a profit sharing contribution for the year ended December 31, 2010. In addition, the Employer may make a discretionary matching contribution. The 2010 Employer discretionary matching contribution was 50% of the aggregate salary reduction not to exceed 6% of total compensation.

Contributions from participants for 2010 and 2009 are net of $33,511 and $0, respectively, for excess deferral contributions required to satisfy the relevant nondiscrimination provisions of the Plan. These amounts are also included in the statements of net assets available for benefits as excess contributions payable at December 31, 2010 and 2009.

Participant Accounts

Each participant's account is adjusted for distributions to the participant, participant's contributions, employer contributions, and Plan earnings or losses as well as a portion of the administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All participant accounts are maintained by the Trustee of the Plan assets. Participants direct the allocation of contributions among the investment funds allowed under the Plan.

Vesting

Participants are immediately vested in their voluntary contributions and rollovers, plus actual earnings therein. Vesting of matching and profit sharing contributions plus actual earnings thereon is based on years of employment/service. Below is the Plan's vesting table.

Years of Service	Vesting Percentage
Less than 1	0%
1	0%
2	0%
3	100%

Upon death, disability, or termination of the Plan, the employer matching and profit sharing contributions become 100% vested.

Forfeitures

Forfeitures of nonvested matching and profit sharing contributions are used to reduce future matching contributions. There were no unallocated forfeitures at December 31, 2010. During the year ended December 31, 2010, $155,034 of forfeitures was used to reduce employer matching contributions.

Notes receivables from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested interest. Participants are allowed to have no more than one loan outstanding at any time. The repayment period for participant loans cannot exceed five years, except for loans used for the purchase of a participant's primary residence, which must be paid back within ten years. Principal and interest are paid ratably through payroll deductions. These loans are secured by the balance in the participant's account. The loans bear interest at a reasonable rate of interest as determined by the Plan administrator. Interest rates on outstanding loans as of December 31, 2010 ranged from 5.50% to 10.25% with various dates of maturity through 2019.

Rollovers

Rollovers represent transfers of account balances of certain participant contributions into certain investments of the Plan from other qualified plans or individual retirement accounts.

Payment of Benefits

Benefits in the form of a lump sum payment, may be distributed to a participant or a participant's beneficiary upon retirement, the participant's reaching the age of 59-1/2, death, disability, hardship or termination of employment. If employment is terminated for any reason other than those previously mentioned, the participants will only be entitled to the portion of the employer contributions for which participants are vested. Participants are entitled to 100% of the account balance of any salary reduction or voluntary contributions made on their own behalf.

Administrative Expenses

The administrative expenses of the Plan are absorbed by the Employer, with the exception of certain transaction fees paid by the Plan and participant loan origination fees paid by the borrower. Administrative expenses include participant based transaction expenses such as distribution and loan fees as well as Plan related expenses.

Investment Options

Upon enrollment in the Plan, participants direct the investment of their contributions to the investment options available in the Plan. Employer contributions are allocated according to the participant's investment allocations.

Reclassification

Participant loans previously reported as a component of investments have been reclassified to a component of receivables in order to conform to the current year presentation.

2. Summary of Accounting Policies

Basic of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06, Improving Disclosures about Fair Value Measurements, which amends Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 31, 2010. The plan prospectively adopted the new guidance in 2010, except for the Level 3 reconciliation disclosures, which are required in 2011. The adoption in 2010 did not materially affect, and the future adoption is not expected to materially affect, the Plan's financial statements.

In September 2010, the FASB issued ASU No. 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans. The ASU requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus accrued but unpaid interest. ASU 2010-25 is effective retrospectively for fiscal years after December 15, 2010, with early adoption permitted. In accordance with the transition provisions, prior years' presentation and disclosures have been retrospectively adjusted to conform to the new standard.

In May 2011, the FASB issued ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04). ASU 2011-04 amended ASC 820, Fair Value Measurements and Disclosures, to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement and disclosure requirements, while other amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan

management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Investment Valuation and Income Recognition

The mutual and money market investment account are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document. There was no allowance at December 31, 2010 or 2009 as the loans are fully collateralized by the participants' accounts.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes in net assets and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Risk and Uncertainties

The Plan provides for investment options in various mutual and money market accounts. Investment securities are exposed to certain risks, such as interest rate, market and credit risk. Due to the level of risk associated with investment securities and the level of uncertainty related to the changes in their value, it is at least reasonably possible that changes in fair values in the near future could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Contributions and Contributions Receivable

Contributions are recorded on the accrual method of accounting. Contributions receivable are obligations arising from amounts owed to the plan from participant or the Employer that have not been included in the Plan's investments at year end. Contributions receivables are recorded at cost, which approximates their fair value. There were $134,872 of contributions receivable at December 31, 2010 and $119,006 at December 31, 2009, respectively.

3. Information Certified by the Plan Trustee - Unaudited

All investments are held by Fidelity Management Trust Company (the "Trustee") under the Plan's trust agreement at December 31, 2010 and December 31, 2009. The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments and adjustment as reflected in the Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009
- Net investment income, as reflected in the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2010 as follows:

The Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

During 2010, the plan's mutual funds (including gains and losses on investment bought and sold, as well as held during the year) appreciated in value by $1,988,231.

5. Fair Value Measurement

ASC 820 "Fair Value Measurements" establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Basis of Fair Value Measurement

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level within the fair value hierarchy the Plan investment assets at fair value, as of December 31, 2010 and 2009. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. There were no plan liabilities at December 31, 2010 or 2009.

	Investment Assets at Fair Value			
December 31, 2010	Level 1	Level 2	Level 3	Total

6. Related Parties

Fidelity Management Trust Company is a party-in-interest and has issued investments held by the Plan as noted in the attached supplemental schedule. Notes receivable from participants and the related interest income are considered related party transactions.

7. Plan Termination

Although it has not expressed such intent, the Employer reserves the right to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

9. Tax Status

The current prototype Plan obtained its determination letter dated October 9, 2003 in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The prototype plan has been amended since receiving the determination letter; however, the Plan's administrator believes that the prototype plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state and/or local taxing authorities. The Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Administrator believes the Plan is no longer subject to income tax examinations years prior to 2007.
