SAVINGS AND INVESTMENT PLAN AND TRUST
Notes to Financial Statements
As of December 31, 2010 and 2009
And For the Year Ended December 31, 2010

1. DESCRIPTION OF PLAN

(a) General

The Paul C. Higginbotham & Co., Savings and Investment Plan and Trust (the "Plan") is a defined contribution plan established to provide retirement, disability, and death benefits for qualified employees of Paul C. Higginbotham & Co. (the "Company") and affiliates. On January 1, 1997, the Plan adopted the Principal Financial Group Prototype for Savings Plans (the "Plan"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Participants should refer to the plan document for a more complete description of the Plan's provisions.

(b) Plan Administration

The Plan is administered by a committee (the "Administrative Committee") whose members are appointed by the Company's board of directors. Additionally, two officers of the Company are trustees of the Plan. The trustees are charged with governance responsibility. Under the Plan, Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company (the "Custodians") hold the Plan's investment assets and execute investment transactions. Principal Life Insurance Company (the "Recordkeeper") maintains the accounting of participant accounts.

(c) Eligibility

The Plan covers all employees of the Company who have three months of service and have reached age twenty-one. Eligible plan participants may begin making contributions as of any of the entry dates: January 1, April 1, July 1, or October 1.

(d) Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the plan document. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company may make discretionary contributions at the option of the Company's board of directors. The Company did not contribute to the Plan for plan year ended December 31, 2010.

(e) Participant Accounts

Each participant's account is credited with the participant's and the Company's contributions and allocations of plan earnings and administrative expenses. Allocations are based on account balances or earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

Participants are vested immediately in their contributions and rollover contributions, if applicable, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after four years of credited service.

1. DESCRIPTION OF PLAN (Continued)

(g) Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested account balances totaled $260 and $5,493, respectively. In accordance with Plan provisions, amounts are used first to reduce employer contributions and then to pay for administrative expenses of the Plan. During 2010, forfeitures were utilized to pay $5,800 of plan administrative expenses.

(h) Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or any annual installments over a fifteen year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

(i) Notes Receivable from Participants

Participants are allowed to borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by, if any, the highest outstanding loan balance within the previous 12-month period or 50% of the participant's vested account balance. Loans are secured by the balance in the participant account and bears interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions over a period not to exceed five years from the date of the loan, unless used to acquire a principal residence.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments in registered investment companies, pooled separate accounts, and the guaranteed investment contract are stated at fair value. The guaranteed investment contract is valued at fair value because it is not considered a fully benefit-responsive investment contract as defined by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") topic, *Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined-Contribution Pension Plans*.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Investment Valuation and Income Recognition (Continued)

Purchases and sales are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes realized gains and losses on investments sold during the year as well as appreciation of the investments held at the end of the year.

(d) Pooled Separate Accounts

The value of the account is expressed in "units". The "unit value" is the dollar value of one unit and is determined at the close of each business day by dividing the value of the entire account by the total number of units in the accounts.

Contributions to the account increase the number of units. Withdrawals from the account decrease the number of units. The increase or decrease in number of units is determined by dividing the amount of the contribution or withdrawal by the unit value for the day the transaction is made. The value of the customer's account on any date is determined by multiplying the number of units held by the unit value at the close of the business day. Since these accounts are separate accounts, realized and unrealized gains and losses from the assets in the accounts are credited to or charged against the account without regard to other income, gains or losses of Principal Life Insurance Company.

The fair value of the participation units owned by the Plan in the various trust funds is based on redemption values determined by the custodian. Generally, these values are based on the latest available quoted market prices of the underlying investments of the various funds.

(e) Payment of Benefits

Benefit payments to participants are recorded upon distribution from the Plan.

(f) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their account.

(g) Administrative Expenses

Certain administrative expenses of the Plan may be paid by the Company at its discretion and, if not paid by the Company, shall be paid by the Plan.

(h) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

(Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Reclassification

Certain prior year balances have been reclassified to conform to the current year's presentation.

(j) New Accounting Pronouncements

In January 2010, the FASB issued new guidance to amend the disclosure requirements related to fair value measurements. This guidance requires a new disclosure for transfers in and out of Level 1 and 2, stating that a reporting entity should disclose separately the amounts of significant transfers in and out of Level 1 and 2 fair value measurements and describe reasons for the transfers. It also requires additional disclosure for the activity within Level 3 measurements, stating that a reporting entity should present separately information about purchases, sales, issuances, and settlements in the reconciliation for fair value measurements using significant unobservable inputs (Level 3). This amendment also clarifies that a reporting entity should provide fair value measurement disclosures for each class of assets and liabilities and should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Levels 2 or 3. This new guidance is effective for periods beginning after December 15, 2009, except for the disclosures of the rollforward of activity within Level 3 fair value measurements, which is effective for fiscal periods beginning after December 15, 2010. The adoption of this guidance did not have any impact on the Plan's financial statements.

In September 2010, the FASB issued new guidance regarding reporting presentation of participant loans in defined contribution plans. This guidance requires that participant loans be classified as notes receivable rather than a plan investment and measured at unpaid principal balance plus accrued but unpaid interest rather than fair value. The Plan retrospectively adopted the new accounting in 2010. The adoption did not have a material effect on the Plan's financial statements.

3. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets as of December 31:

	2010	2009

(Continued)

3. INVESTMENTS (Continued)

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,083,690 as follows:

Registered Investment Companies	$ 223,561
Pooled Separate Accounts	840,319
Guaranteed Investment Contract	19,810
	$ 1,083,690

4. FAIR VALUE OF INVESTMENTS

FASB ASC Topic, *Fair Value Measurements,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this guidance are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered Investment Companies: Registered investment companies are valued based on exchange listed prices at the close of each business day and are classified in Level 1 of the fair value hierarchy.

4. FAIR VALUE OF INVESTMENTS (Continued)

Pooled Separate Accounts: Investments in pooled separate accounts are valued on the basis of the number of units held by each participating investor in the fair value of the underlying assets of the respective separate accounts. The underlying assts are valued based on the fair value of the listed securities or upon pricing from observable market information in a non-active market as determined by the investment account manager and are classified in Level 2 of the fair value hierarchy.

Guaranteed Investment Contract: Investments in guaranteed investment contracts are valued at the amount plan participants would receive if they were to withdraw or transfer funds with the Plan prior to their maturity and are classified in Level 3 of the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total

Total gains/(losses)	3,009
Purchases, sales, issuances and settlements, net	97,512
Interest credited	16,802
Balance, end of year	$ 632,531

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

(Continued)

6. RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and a guaranteed interest contract managed by Principal Life Insurance Company and Principal Global Investors, the custodian, and a party in interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the Internal Revenue Code (the "IRC").

7. TAX STATUS

The Internal Revenue Service has advised the plan document on July 22, 2003 that it is qualified under Section 401(a) of the IRC and therefore, is exempt from federal income taxes. The Plan has been amended since adopting the Prototype Document; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and the Department of Labor. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are not uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

8. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS

The plan administrator elected the method of compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator limited auditing procedures with respect to the information certified by the Custodians, including investments at fair value reported in the statements of net assets available for benefits, total investment income as reported in the statement of changes in net assets available for benefits, the information disclosed in Note 3, and all information presented in the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year). The Plan's auditors performed no auditing procedures other than agreeing these amounts to the certified custodian statements.

9. REVISED ADOPTION AGREEMENT

Effective January 1, 2010, the Plan entered into a revised adoption agreement which merged the Madison Benefits Group, Inc. employees into the Plan. Madison Benefits Group, Inc. was acquired by the Company in 2008. Total assets transferred into the Plan were approximately $2,982,000.

10. SUBSEQUENT EVENT

Effective January 1, 2011, the Plan entered into a revised adoption agreement which merged the Swantner & Gordon employees into the Plan. Swantner & Gordon was acquired by the Company in 2010. Total assets transferred into the Plan in 2011 were approximately $5,570,000.

The date to which events occurring after December 31, 2010, the date of the most recent statement of net assets available for plan benefits, have been evaluated for possible adjustment to the financial statements or disclosure is October 12, 2011, which is the date on which the financial statements were available to be issued.
