Independent Auditor's Report

Board of Trustees
East Balt., Inc.
Employees' Pension Plan
Chicago, Illinois

We were engaged to audit the financial statements of **East Balt., Inc. Employees' Pension Plan** as of December 31, 2010 and 2009, and for the years then ended, and supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Schwab Institutional, the custodian of the plan as of December 31, 2010 and 2009, and for the years then ended, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2010 and 2009, and for the years then ended, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of East Balt., Inc. Employees' Pension Plan (the plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General

The plan is a defined benefit pension plan covering substantially all nonunion, full-time employees of East Balt., Inc. (the plan sponsor) who are at least 21 years of age and completed one year of service. The plan's eligibility provisions were amended in 2009. Based on the new provisions, no employees hired after September 15, 2009 will be eligible to enter the plan.

The plan provides for pension and disability benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In 2009, the plan sponsor closed East Balt. Bakery of Florida, Inc. Benefit distributions were paid to those former employees who were eligible plan participants. Benefit payments to these individuals totaled approximately \$6.5 million in 2009.

Pension Benefits

A participant is eligible for benefit payments at age 65. The plan permits early retirement at age 62. Married participants will receive their pension benefit in the form of a joint and survivor annuity, and single participants will receive their pension benefit in the form of a life annuity unless another form of payment is elected by the participant. Monthly benefit payments are determined by the application of a benefit ratio to a participant's average monthly salary for the five consecutive calendar years yielding the highest average.

Death and Disability Benefits

When an active employee dies, his or her spouse, if the proper elections were made, will receive a joint and survivor monthly annuity of a specific percentage of the deceased employee's monthly benefits. A surviving spouse will begin to receive annuity payments at the time the deceased employee would have reached the early retirement age of 62. Active employees, who become disabled, as defined by the plan, receive the full value of their accrued benefit as soon as practical in the plan year in which the disability was determined.

Note 1 - Description of Plan (Continued)

Vesting

A participant's accrued benefit is valued annually, and the participant is vested according to the following schedule:

<u>Years of Service</u>	<u>Vested %</u>
1	0
2	0
3	20
4	40
5	60
6	80
7	100

Administration of the Plan

A majority of the plan's investment and administrative expenses are paid by East Balt., Inc., the plan's sponsor.

Subsequent Events

The plan administrator has evaluated subsequent events through October 7, 2011, the date the 2010 financial statements were available to be issued and October 8, 2010 with respect to the comparative 2009 financial statements.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Management of the Trust Fund

All of the plan's assets are held in investments managed by DiMeo Schneider & Associates, L.L.C. The custodian of the plan is Schwab Institutional. All information relating to the value of the plan's assets and related investment income and expenses, was obtained from reports submitted by the custodian. These reports were certified by the custodian as being complete and accurate.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investments

Investments are reported at fair value in accordance with accounting principles generally accepted in the United States of America (GAAPUSA). See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Effective January 1, 2010, the plan adopted new guidance that requires the plan to report significant transfers between Level 1 and Level 2 and the reasons for those transfers, as well as disclosing the reasons for transfers in or out of Level 3. Additionally, the guidance requires the plan to clarify existing disclosure requirements about the level of disaggregation and inputs and valuation techniques. The adoption of this guidance did not have an impact on the plan's financial statements.

The new guidance also requires the reconciliation of changes in Level 3 fair value measurements to present purchases, sales and settlements separately on a gross basis rather than as a net amount, effective for fiscal years beginning after December 15, 2010. The plan does not expect the adoption of the guidance for Level 3 activity to have a significant impact on its financial statements.

The plan's investments are exposed to risks such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and could materially affect the amounts reported in the financial statements.

Payments of Benefits

Benefits are recorded when paid.

Management Estimates

The preparation of financial statements in conformity with GAAPUSA requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

Note 3 - Fair Value Measurements (Continued)

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

The plan's investments are classified in one of the following three categories based upon the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in active markets.
- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

As of December 31, 2010 and 2009, the following valuation methodologies have been used to value the plan's investments:

- Mutual funds - Valued at the reported NAV of the shares held by the plan at year-end.
- Cash and cash equivalents - Money market fund - Valued at an NAV of \$1 as reported by the fund manager.

Note 3 - Fair Value Measurements (Continued)

The following table summarizes by level within the fair value hierarchy the plan's investments accounted for at fair value on a recurring basis as of December 31, 2010 and 2009:

Note 4 - Investments

The plan's investments were held by Schwab Institutional as of December 31, 2010 and 2009. The following table presents the fair values of those investments. Investments that represent 5% or more of the plan's net assets as of December 31, 2010 or 2009 are identified separately.

	2010	2009
Artio International Equity Fund (75,633 and 62,559 units as of December 31, 2010 and 2009, respectively)	\$ 2,224,367	\$ 1,724,754
Dodge & Cox Income Fund (361,468 and 309,258 units as of December 31, 2010 and 2009, respectively)	4,782,215	4,007,982
Lazard Emerging Markets Fund (71,928 and 67,426 units as of December 31, 2010 and 2009, respectively)	1,596,093	1,232,545
PIMCO Real Return Bond Fund (310,221 and 271,224 units as of December 31, 2010 and 2009, respectively)	3,524,105	2,926,502
Other	9,864,586	7,679,204
	\$ 21,991,366	\$ 17,570,987

For the years ended December 31, 2010 and 2009, the plan's mutual fund investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in fair value by \$1,755,860 and \$2,789,397, respectively.

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the plan's custodian has certified as to the completeness and accuracy of the plan's investments reflected in the statements of net assets available for benefits as of December 31, 2010 and 2009, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years then ended, as well as the investment information included in the schedule of assets held at end of year as of December 31, 2010, and the schedule of reportable transactions for the year ended December 31, 2010, as indicated above and in total.

Note 5 - Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the plan's provisions, to services rendered by the employees to the valuation date.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the plan are based on a participant's average monthly salary for the five consecutive calendar years yielding the highest average.

Note 5 - Accumulated Plan Benefits (Continued)

Benefits payable under all eligible circumstances, retirement, death, disability and termination of employment, are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Blazek & Gebhardt Retirement Services, Inc. and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2011 and 2010 were retirement at age 65 and a mortality assumption based on the 1994 Group Annuity Reserving Table. The 2011 and 2010 valuations include an assumed rate of return on investments of 7% and an annual increase in salary scale of 3% for both years.

The foregoing actuarial assumptions are based on the presumption that the plan will continue. Were the plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefit information for each plan year as of January 1, 2011 and 2010, respectively, is as follows:

	2011	2010
Actuarial present value of accumulated plan benefits

Note 6 - Funding Policy

The plan sponsor has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan members based on computations made by a consulting actuary. The plan sponsor has met the minimum funding requirements of ERISA in 2010 and 2009.

Note 7 - Plan Termination

Although the plan sponsor has not expressed any intention to do so, the sponsor has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

In the event the plan terminates, its net assets will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits that became payable three or more years before the effective date of the plan termination or that could have become payable at the beginning of such three-year period. The amount is limited to the lowest benefit payable during those three years. The amount is further limited to the lowest benefit that would be payable under the plan provisions in effect at any time during the five years preceding plan termination.
- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable limitations as discussed below.
- (c) All other vested benefits payable under the plan not covered by priorities (a) and (b) above in the following preference:
 - 1. To any participant who had retired under the normal retirement or early retirement provisions of the plan or who was eligible to retire under these provisions.
 - 2. To any participant entitled to a deferred vested pension as defined or who would have been eligible for a deferred vested pension.
- (d) The remaining assets are to be allocated to provide the benefit accrued under the plan according to the respective actuarial value of each participant's accrued benefit.

Certain benefits under the plan are insured by the PBGC if the plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the amount of benefit protection from the PBGC is subject to certain limitations. Vested benefits under the plan are guaranteed at the level in effect on the date of the plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For some annuitants, or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Should the plan terminate at some future time, whether or not all participants receive their benefits will depend on the sufficiency, at that time, of the plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 8 - Income Tax Status

The plan obtained its latest determination letter on January 21, 2004, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

GAAPUSA requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9 - Party-in-Interest Transactions

Certain money market funds held by the plan are managed by Schwab Institutional. Schwab Institutional is the custodian of the plan and, therefore, transactions relating to these investments qualify as party-in-interest transactions.
