THE COMMODITIES GROUP 401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

1. DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the employer (the "Company") who have completed six months of service and are age 19 or older. For purposes of the Plan, the employer includes the following controlled group:

Ecom Atlantic, Inc.
Ecom USA, Inc.
Atlantic USA, Inc.
Ecom Real Estate Management, Inc.
Atlantic Specialty Coffee, Inc.
Sunbelt Warehouse Corporation, LLC

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Amendment

During 2010, the Plan was amended with the following change:

- Participants may enter the Plan the first day of each month.

Contributions

Each year, participants may contribute up to 60 percent of gross salary, as defined in the Plan, not to exceed limitations set by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investments options offer by the Plan. The Company’s contribution is discretionary. As of December 31, 2010 and 2009, the Company elected to match the first $500 of all deferrals two for

one and deferrals in excess of $500 at 85 cents on the dollar up to a combined maximum match of $7,000.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms may not exceed 5 years unless for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.25 percent, which are commensurate with local prevailing rates as determined by the plan sponsor. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of services due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount or installment payments equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts total $89,752 and $87,679, respectively. These accounts will be used to reduce future employer contributions. Amounts forfeited in 2010 and 2009 total $2,072 and $9,938, respectively. Also, in 2010, employer contributions were reduced by $5,995 from forfeited non-vested accounts.

Investment Options

Upon enrollment in the Plan, a participant may direct their account balance in any of the following twenty-four investment options.

Fidelity Retire MMKT – seeks a high current income, preservation of capital, and liquidity from money market instruments.

Fidelity Intermediate Bond – seeks a high level of current income, through investment in high- and medium-grade, fixed income obligations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the modified cash basis of accounting. Under the modified cash basis, income is recorded when received and expenses and benefits are recorded when paid. Investments are stated at market value based on the latest quoted prices.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

The plan sponsor absorbs a significant portion of the operating costs of the Plan.

Reclassifications

Certain reclassifications have been made to the 2009 financial statement presentation to correspond to the current year's format. Total net assets available for benefits are unchanged due to these reclassifications.

Subsequent Events

The Plan has evaluated subsequent events through July 25, 2010, the date the financial statements were available to be issued.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level l measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (‘NAV”) of shares held by the Plan at year end.

Interest bearing cash: Valued daily based on the face value and the stated rate disclosed in the contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 11,270,460	$ -	$ -	$ 11,270,460
Interest bearing cash	1,434,938	-	-	1,434,938
Total assets at fair value	$ 12,705,398	$ -	$ -	$ 12,705,398

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,665,779	$ -	$ -	$ 8,665,779
Interest bearing cash	1,510,893	-	-	1,510,893
Total assets at fair value	$ 10,176,672	$ -	$ -	$ 10,176,672

5. INACTIVE PARTICIPANTS WITH ACCOUNT BALANCES

At December 31, 2010 and 2009, the value of the accounts held by participants who have separated from employment with the plan sponsor and have decided to continue to invest in the Plan totals $92,703 and $57,798, respectively.

For the year ended December 31, 2010, the value of the accounts held by participants who have separated from employment with the plan sponsor and have elected to withdraw from the Plan, but have not been paid totals $0.

6. RELATED PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the custodian as defined in the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $2,219 for the year ended December 31, 2010.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of

ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

8. TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan sponsor and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

The plan sponsor has concluded that as of December 31, 2010 there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan sponsor believes it is no longer subject to income tax examinations for years prior to 2007.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
