Independent Auditors' Report

Plan Administrator
ChemTreat, Inc. Employee Stock Ownership Plan

We have audited the accompanying statement of net assets available for benefits of *ChemTreat, Inc. Employee Stock Ownership Plan* as of December 31, 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. These financial statements as of December 31, 2009 were audited by Goodman & Company, LLP, who merged with Dixon Hughes Goodman LLP as of April 1, 2011 and whose report dated October 7, 2010 expressed an unqualified opinion on the statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As further discussed in Note 4 to the financial statements, the board of ChemTreat, Inc. voted on July 11, 2007 to freeze the Plan from future contributions and converted the Plan to a profit sharing plan.

In our opinion, the 2010 financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010, and the changes in net assets available for benefits for the year ended December 31, 2010 in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic 2010 financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ChemTreat, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2010 and 2009

1. Description of Plan and Basis of Presentation

The following brief description of the *ChemTreat, Inc. Employee Stock Ownership Plan* (Plan) is provided for general information purposes only. Participants should refer to the plan agreement for complete information.

ChemTreat, Inc. (Company) established the Plan in December 1989. Prior to July 2, 2007, the Plan operated as a leveraged employee stock ownership plan (ESOP), and was designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and was subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). As of July 2, 2007, the Plan was converted to a profit sharing plan and on July 11, 2007 the Plan was frozen. The Plan's assets are held by Evercore Trust Company, as trustee. The trustee is appointed by the Company's Board of Directors.

Prior to July 2, 2007, the Plan purchased Company common shares using borrowed funds and held the stock in a trust established under the Plan. The borrowings were repaid by fully deductible Company contributions to the trust fund. As payments were made on the borrowings, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

During 2007, the Company was acquired by Danaher Corporation; as a result all assets were allocated to participants by the end of 2007 and the Plan converted to a profit sharing plan (see Note 4).

Eligibility

Employees of the Company and its participating subsidiaries were previously eligible to participate in the Plan.

Payment of Benefits

After the sale of the Company on July 2, 2007, the Plan began making distributions directly to participants and transferring certain balances in cash to the ChemTreat, Inc. Profit Sharing Retirement Plan (see Note 4).

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and by the Code. Upon termination of the Plan, the Trustees will pay all liabilities and expenses of the trust fund.

Vesting

As a result of the sale of the Company and discontinuance of future contributions, all active participants became fully vested in their accounts. Participants that terminated service prior to July 2, 2007 were fully vested after completing four years of service according to the vesting rules set forth in the Plan.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Prior to July 2, 2007, each participant's account was credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustees from the unallocated account, shares of Company stock contributed by the Company to replace shares distributed to participants under the terms of the Plan and forfeitures of terminated participants' non-vested accounts. Allocations were based on a participant's eligible compensation, relative to total eligible compensation.

Plan earnings, net of plan expenses, are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumption.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employees receive compensation from the Plan.

Payment of Benefits

Benefits are recorded upon distribution.

Subsequent Events

The Plan has evaluated events through July 27, 2011, the date the financial statements were available to be issued.

3. Tax Status

The Internal Revenue Service (the “IRS”) has determined and informed the Company by a letter dated April 24, 2001, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan’s tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable provisions of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. The Plan document was restated effective January 1, 2008. An application for a determination letter was filed with the IRS on December 1, 2008. The application is currently pending.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

4. Sale of Company Stock

On July 2, 2007, all the Company’s stock, including the Company’s common stock owned by the Plan, was acquired by Danaher Corporation for cash. Effective July 11, 2007, the Plan was frozen, and no further contributions will be made to the Plan.

Participant account balances consisted of a stock bonus portion and a money purchase portion. At the recommendation of the trustee, US Trust Company, N.A. (“USTC”), the Plan trustee at the time of the sale to Danaher, the Plan retained \$4,000,000 of the money purchase portion as an escrow to fund operating and legal expenses for the Plan including eventual termination expenses.

The balance of the money purchase portion of the Plan was transferred to the ChemTreat, Inc. Profit Sharing Retirement Plan for active participants (those currently employed with the Company). The stock bonus portion of the Plan for all participants and the money purchase portion for terminated participants were distributed based on participant elections. Stock bonus balances for active participants that did not make a distribution election were also transferred to the ChemTreat, Inc. Profit Sharing Retirement Plan. The escrow balance will be paid to participants or transferred to the ChemTreat Profit Sharing Retirement Plan upon termination of the Plan.

During 2010, the Plan received an amount of supplemental sales proceeds related to the original 2007 sale transaction. The amount represented a portion of the sale proceeds that were set aside to serve as collateral for letters of credit. The letters of credit expired and the remaining cash was allocated based upon the original sale transaction between this Plan and the remaining owners of the Company at the time of the original sale.

5. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include a mutual fund.

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2010 and 2009.

SEI Daily Income Trust	Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
	\$ 4,386,118	\$ -	\$ -	\$ 4,386,118

SEI Daily Income Trust	Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
	\$ 4,671,784	\$ -	\$ -	\$ 4,671,784

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Contingency and Subsequent Event

The stock of the Company was sold to an acquisition subsidiary of Danaher Corporation in July, 2007. At the time of the sale, the Company was a Subchapter S corporation and the Plan owned 84.5944% of the stock. The Stock Purchase Agreement called for the creation of a \$29,000,000 escrow account to be available to offset any claims or liabilities, including claims for additional tax liabilities, which were not disclosed to the buyer at time of closing. The Stock Purchase Agreement further specified that the funds, plus any interest earned less taxes on that interest, would be available to be released after July, 2009, after resolution of the outstanding claims based on the respective ownership percentages of the Company at the date of sale. The escrow account was not distributed in July of 2009 due to an unresolved claim from the Internal Revenue Service on the amount of built-in-gains tax due. This tax was triggered by Danaher's acquisition of the Company as ten years had not elapsed since the Company converted from a Subchapter C to a Subchapter S corporation coupled with an election under 338(h)(10) of the Internal Revenue Code.

On March 18, 2011 officials of Danaher Corporation, with the consent of the ESOP Trustee, reached agreement with the IRS on the built-in-gains tax. The settlement agreement resulted in the payment of an additional \$8,190,000 in federal tax, plus statutory interest. The agreement on the built-in gains tax also triggered additional state and local tax and interest of approximately \$587,000.

As of June 30, 2011 the amended federal, state, and local tax returns have been filed, and all additional tax and interest had been paid. In addition certain expenses incurred by Danaher in preparation of these returns had also been paid. On June 30, 2011 the amount of \$21,380,247 was distributed from the escrow account to the selling shareholders, and the ChemTreat ESOP received its share of \$18,086,489. Danaher received \$7,276,776 from the escrow account to pay remaining taxes, interest and expenses associated with the built-in gains tax settlement. Finally, the amount of \$576,980 remains in the escrow account pending resolution of any claims arising from the filing of the amended state tax returns. This amount, due to uncertainty, has not been recorded as a plan asset.

The plan administrator intends to distribute the \$18,086,489 from the ESOP account as quickly as is administratively practical. In addition approximately 75% of the \$4,300,000 already in the ESOP account will be distributed. After plan expenses, this will leave approximately \$850,000 of plan participant money in the ESOP account, with final distribution planned for 2012, after a final accounting and reallocation of forfeited shares takes place.
