To the Plan Administrator
Pike Community Hospital Employees' Pension Plan

We were engaged to audit the financial statements and supplemental schedules of Pike Community Hospital Employees' Pension Plan (the "Plan") as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and participant notes receivable and executes related transactions. The plan administrator has obtained a certification from the Trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010 that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Pike Community Hospital Employees' Pension Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description

The following description of Pike Community Hospital Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Pike Community Hospital (the "Hospital") (except employees actively participating in the Public Employee Retirement System) and employees classified as on-call/as-needed who have completed one year of service with 1,000 hours and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Employees may elect to defer a percentage of their eligible compensation on a pre-tax basis, which is subject to IRS limits. Employees may also make deferral contributions from 1 percent to 100 percent on an employer paid bonus.

The employer makes discretionary contributions to the Plan on behalf of the employees in accordance with a commitment to properly fund the employees' pension. For the plan years 2010 and 2009, contributions were made in the amount of 3 percent of each employee's compensation as defined by the Plan.

Certain participant contributions in 2010 were paid after the timeframe required by the Department of Labor. The Hospital remitted these contributions during 2010 and 2011 and remitted related lost earnings to the Plan in 2010 and 2011.

Participant Accounts - Each participant's account is credited with the participant contribution and allocations of the Hospital's contributions and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on a participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in all contributions and any income or loss thereon.

Benefit Payments - Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the entire account balance in his or her account or choose from one of the annuity payment options offered by the Plan. The designated beneficiary is entitled to a death benefit equal to the participant's account balance. Employees may also receive a hardship withdrawal, which must be approved by the plan administrator.

Pike Community Hospital Employees' Pension Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description (Continued)

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of 50 percent of their account balance, not to exceed \$50,000. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company (Fidelity) or its affiliates. Fidelity is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its common collective trust fund investment, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on discounting the related cash flows of the underlying investment contracts based on current yields of similar instruments with comparable durations. The money market fund is valued at its outstanding balances, which approximates fair value. All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Stable Value Fund - The Plan invests in the Fidelity Advisors Stable Value fund. The fund has certain limitations on withdrawals and exchanges as follows:

- **Participant-directed** - Withdrawals made in order to accommodate distributions to participants or transfers to noncompeting investments may be made on any business day. Transferred amounts must be held in a noncompeting investment option for 90 days before subsequent transfers to a competing fund can occur.
- **Nonparticipant-directed** - Withdrawals directed by a plan sponsor must be preceded by a 12-month written notice to Fidelity. Fidelity, however, may, at its discretion complete any such plan-level withdrawal before the expiration of such 12-month period. No such notice has been given to Fidelity.

Pike Community Hospital Employees' Pension Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 2 - Summary of Significant Accounting Policies (Continued)

Fidelity may defer completing any withdrawal whereby doing so immediately might adversely affect the investment. Fidelity shall make payments available as quickly as cash flows and prudent portfolio management permit.

There are no unfunded commitments or other redemption notice requirements related to this investment.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Hospital.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 13, 2011, which is the date the financial statements were available to be issued.

New Accounting Pronouncement - During 2010, the Plan adopted the provisions of a new accounting standard which requires that defined contribution plans classify participant loans as participant notes receivable rather than as investments as was previously required. This standard was adopted retroactively and, as a result, the December 31, 2009 participant loans have been reclassified from investments to participant notes receivable. The adoption of this standard had no impact on the Plan's net assets or changes in net assets.

Pike Community Hospital Employees' Pension Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Investments that exceed 5 percent of end of the year net assets are as follows:

	2010	2009
Mutual funds:		
FA Freedom 2010 A	\$ 212,022	\$ 224,879
FA Freedom 2020 A	505,564	507,833
FA Freedom 2030 A	381,568	270,002
FA Freedom 2015 A	298,701	286,220
FA Freedom 2025 A	635,878	549,733
FA Freedom 2035 A	259,097	262,262

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2010 and 2009 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (2) This class invests primarily in fixed-income securities, including, but not limited to, bonds, notes, or other investments, such as government securities; commercial paper, certificates of deposits, master notes or variable amount notes, with the objective of providing high current income consistent with the preservation of capital and the maintenance of liquidity. Short-term investments are valued at \$1.00/unit, which approximates fair value.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2010.

Note 6 - Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to a common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500 as well as the contribution receivable not being recorded on Form 5500 as of December 31, 2010. The net assets on the financial statements were higher than Form 5500 at December 31, 2010 and lower than Form 5500 at December 31, 2009 by \$168,217 and \$18, respectively. Additionally, the changes in net assets on Form 5500 for the year ended December 31, 2010 is higher than the financial statements by \$418 due to the cumulative effect of the difference in the contract value and the fair value of the common collective trust fund as of December 31, 2010 and 2009.
