Notes to Financial Statements December 31, 2010 and 2009

Note 1- Description of Plan

The following description of K&M Associates, L.P. Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established under Section 401(k) of the Internal Revenue Code (the "Code") covering all salaried and hourly employees of K&M Associates, L.P (the "Company"). Eligible employees must be twenty-one years of age and have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Amendments

The plan was amended in August and October, 2010. The effect of the amendment in August was to freeze certain investment options and offer new ones. The effect of the amendment in October was to change certain requirements for in-service withdrawals.

The plan was also amended in October, 2009. The effect of the amendment was to implement the latest Economic Growth and Tax Relief Reconciliation Act (EGTRRA) provisions.

Contributions

Each year participants may contribute up to 15% of their pretax annual compensation, as defined in the Plan. In 2010 and 2009, participants age 50 and over may elect to make an additional contribution of \$5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make discretionary matching contributions to the Plan on an annual basis. The Company's matching contribution was 50% of the participant's contributions, up to the first 6% of base pay for the years ended December 31, 2010 and 2009.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. The Company bears the cost of certain administrative expenses. Participants incur some Plan administrative fees and loan fees.

Vesting

Participants are immediately vested in their contributions, the Company's matching contributions as well as the actual earnings thereon.

Participant Notes Receivable

Participants may borrow from their fund accounts up to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Interest rates currently range from 4.25% to 9.25%. Principal and interest are paid through bi-weekly payroll deductions.

Notes to Financial Statements December 31, 2010 and 2009

Note 1- Description of Plan - continued

Payment of Benefits

Upon separation of employment due to termination, death, disability or retirement, a participant may receive the value of the vested interest in his or her account as a lump-sum amount.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

Investment funds are offered through Fidelity Investment Institutional Operations Company, Inc. for which Fidelity Management Trust Company serves as trustee. The funds are valued at fair value, which represents the net asset value of shares held by the Plan at year end. The fair value of participation units owned by the Plan in the common/collective trust fund is based on the redemption value of the funds on the last business day of the Plan year. Participant notes receivable are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan requires that fully benefit-responsive investment contracts be reported at fair value on the statement of net assets and show an adjustment from fair value to contract value.

Generally accepted accounting principles define fair value, establish a framework for measuring fair value, and establish a fair value hierarchy that prioritizes the inputs to valuation techniques.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 Observable inputs such as quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.
- Level 2 Inputs other than quoted prices in active markets that are observable either directly or indirectly through corroboration with observable market data.
- Level 3 Unobservable inputs in which there is little or no market data, which would require the Plan to develop its own assumptions.

Notes to Financial Statements December 31, 2010 and 2009

Note 2 - Summary of Significant Accounting Policies - continued

Investment Valuation and Income Recognition - continued

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trust fund: Based on the contractual terms of the underlying GIC's; provides a daily mil-rate for income accretion.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Assets at estimated fair value as of December 31, 2010:

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 3 - Excess contributions

In 2010, there were no excess contributions. In 2009, there were excess contributions totaling \$9,659. Contributions were refunded to satisfy relevant nondiscrimination provisions of the plan.

Note 4 - Investment Contracts with Insurance Company

The Plan maintains benefit responsive investment contracts with Transamerica Financial Life Insurance Company who maintain the contributions in a general account. Fidelity Investments Institutional Operations Company, Inc. provides the recordkeeping for the benefit responsive investments. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the statements of net assets available for benefits at fair value as reported to the Plan by Fidelity Investments Institutional Operations Company, Inc and Transamerica Financial Life Insurance Company. The adjustment from fair value to contract value for the investment contracts are based on the contract values as reported to the Plan by Fidelity Investments Institutional Operations Company, Inc. Contract values represent contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses.

Notes to Financial Statements December 31, 2010 and 2009

Note 4 - Investment Contracts with Insurance Company - continued

The fair values, as determined by Fidelity Investments Institutional Operations Company, Inc., of the investment contracts at December 31, 2010 and 2009 were \$380,588 and \$369,949, respectively. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract values for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on an annual basis. The interest rate and average yield at December 31, 2010 and 2009 was 3.24% and 3.50%, respectively.

Certain events, such as the premature termination of the contracts by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Transamerica Financial Life Insurance Company. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

Note 5 - Plan Termination

The Company has reserved the right to discontinue its contributions at any time and to terminate the Plan.

Note 6- Investments

Upon enrollment in the Plan, participants may direct their contributions in any of the available investment options.

Investments that represent five percent or more of the Plan's net assets at December 31 are as follows:

Stable Fund	2%	6%
Balanced Fund	6%	6%
Fidelity Disciplined Equity	5%	6%
Fidelity Small Cap Independent	14%	13%

Note 7 - Information Prepared and Certified by Recordkeeper/Trustee and Custodian

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the recordkeeper/trustee of the Plan, Fidelity Investments Institutional Operations Company, Inc. and the custodian of the Stable Fund, Transamerica Financial Life Insurance Company, at December 31, 2010 and 2009. The Stable Fund is included in the Common/collective Trust Fund. The data was compiled on the cash basis of accounting, whereas the financial statements are reported on the accrual basis. Therefore, differences may exist.

Notes to Financial Statements December 31, 2010 and 2009

Note 9 - Tax Status

The Plan sponsor has not received a determination letter on its adoption of the nonstandardized prototype plan. The Internal Revenue Service (IRS) has issued an opinion letter to the Plan sponsor. In accordance with Revenue Procedure 2002-6, the Plan sponsor has chosen to rely on the current opinion letter that has been issued to the prototype dated March 31, 2008. The Plan has been amended since receiving the opinion letter. The IRS, however, has not specifically ruled or determined whether the Plan qualifies under Section 401(a) of the Internal Revenue Code. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

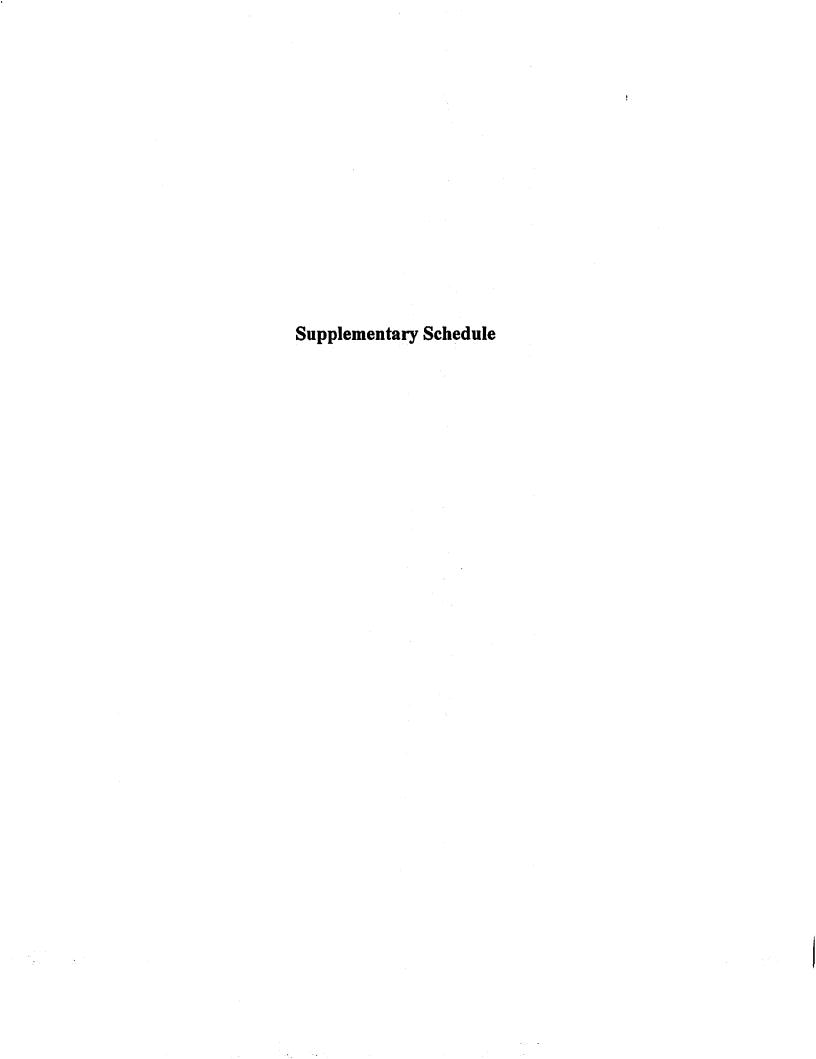

Note 11 - Reclassification

Certain amounts on the 2009 financial statements have been reclassified to conform to the 2010 presentation. The reclassification had no effect on net assets available for benefits for 2009.

Note 12 - Subsequent Events

Subsequent to year end, the Plan was amended in June and August, 2011. The effect of the amendment in June is to change requirements for withdrawal and loan services. The effect of the amendment in August is to add and freeze certain investment options.

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 11, 2011, the date these financial statements were issued.
