Independent Auditors' Report

To the Participants and Plan Administrator of the
Savvis, Inc. 401(k) Plan
St. Louis, Missouri

We were engaged to audit the financial statements and supplemental schedule of the Savvis, Inc. 401(k) Plan (the "Plan") as of December 31, 2010 and 2009, and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A - Plan Description

The following description of the Savvis, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan as defined by Section 401 of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees who are at least 21 years of age may enroll in the Plan on the first day of each month.

Contributions

Participants may contribute up to 60% of their before tax compensation to the Plan, not to exceed certain dollar limits established by the IRC. Savvis, Inc. (the "Company" or "Employer") matches such contributions on a 50% basis up to a maximum of 8% of annual compensation.

Eligible employees are enrolled in the Plan automatically. Unless an employee affirmatively elects otherwise, a 3% pre-tax contribution will be deducted from each payroll and the participant will receive the Company matching contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings and charged with an allocation of certain administrative expenses. Allocations are based on a participant earnings or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Plan participants vest in the amount credited to the Company contribution account in accordance with the following schedule:

- | | |
|------------------------------|------|
| ▪ after one year of service | 25% |
| ▪ after two years of service | 50% |
| ▪ after 3 years of service | 100% |

(See Independent Auditors' Report)

Note A - Plan Description (Continued)

Vesting (Continued)

The entire amount credited to a participant's account becomes fully vested and nonforfeitable, if any of the following occur:

- The participant reaches normal retirement age
- Termination of participant's employment because of total disability
- The participant's death while employed

Participants' voluntary contributions are fully vested and nonforfeitable at all times. Forfeitures of the non-vested account balances of terminated participants are used to reduce future Company contributions to the Plan. For the years ended December 31, 2010 and 2009, forfeited non-vested accounts totaled \$84,523 and \$127,786, respectively.

Payment of Benefits

Upon attainment of normal retirement age or total disability, the amount credited to a participant's account shall be payable in a lump sum payment or as an annuity, based on each participant's election in accordance with the Plan agreement. The amount credited to the account of the participant at the date of death shall be distributed to the named beneficiary as a lump sum cash payment.

Upon termination of employment for reasons other than death, total disability or retirement, the participant may also elect to receive his or her vested balance in the form of a lump sum payment or annuity.

Investment Programs

Contributions are remitted to the Trustee and credited to a participant's account based upon the Plan's provisions and employee elections. Each participant elects the amount of the participant's account balance to be invested in each of the investment funds.

Notes Receivable from Participants

Participants may borrow from the Plan the lesser of \$50,000 or 50% of their vested account balance with a minimum loan amount of \$1,000. Loans are repayable in installments through payroll deductions over various repayment periods as defined by the Plan. Interest charged on outstanding loans is at the prime rate plus one-half percent.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts or stable value investments, held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to a fully benefit-responsive investment because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the contracts, as well as the adjustments for the fully benefit-responsive investments from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates in Financial Statement Presentation

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may vary from reported amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncement

In September 2010, the FASB released Accounting Standards Update No. 2010-25 ("ASU 2010-25"), *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Plans*, which provided guidance on how loans to participants should be classified and measured by defined contribution pension plans. This update requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their principal balance plus any accrued but unpaid interest. This update requires retrospective application to all periods presented. ASU 2010-25 was adopted for the year ended December 31, 2010. December 31, 2009 amounts and disclosures have been revised to reflect the retrospective application of adopting ASU 2010-25.

Subsequent Events

The Plan has evaluated all subsequent events through September 21, 2011, the date the financial statements were available to be issued.

Note C - Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Fidelity Management Trust Company ("Fidelity") that all of the information provided by Fidelity included in the accompanying financial statements and Schedule of Assets Held for Investment Purposes at End of Year is complete and accurate. Information as to the investments in the accounts of Fidelity, investment income, and all information appearing in the accompanying statements and Schedule of Assets Held for Investment Purposes at End of Year are presented in reliance solely upon these certifications.

Note C - Investments (Continued)

The following investments represent five percent or more of the Plan's net assets:

	<u>2010</u>	<u>2009</u>
Fidelity Contrafund	\$29,373,706	\$24,705,536
Fidelity Balanced Fund	9,109,680	7,867,637
Fidelity Managed Income Portfolio	19,546,125*	21,500,848*
Spartan U.S. Equity Index Fund	9,061,950	8,730,026
Fidelity Diversified International	13,056,230	11,724,606
Spartan Extend Market Index	8,319,371	Less than 5%

*This amount represents contract value for this investment

The Plan's mutual fund investments (including gains and losses on investment bought and sold, as well as held during the year) appreciated in value by \$13,657,444 and \$21,040,515 during the years ended 2010 and 2009, respectively.

Note D - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

SAVVIS, INC. 401(k) PLAN

Notes to Financial Statements - Continued

December 31, 2010

(See Independent Auditors' Report)

Note D - Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds – Valued at the net asset value (“NAV”) of shares held by the Plan at year end.

Collective Trust – Valued at NAV as a practical expedient of fair value. The NAV is based on the underlying investments which are traded on an active market. The Plan does not have any collective investment funds with unfunded commitments or with any long-term redemption restrictions.

The preceding methods used to arrive at a fair value calculation may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(See Independent Auditors' Report)

Note E - Investment in Collective Trusts

The Fidelity Managed Income Portfolio and the Fidelity Managed Income Portfolio II (the "Funds"), collective trust funds, invest in a variety of investment contracts such as guaranteed investment contracts ("GICs") issued by insurance companies and other financial institutions and other investment products with similar characteristics. The Funds primarily hold investments in fully benefit-responsive investment contracts that provide that the Plan may make withdrawals at contract value for benefit-responsive requirements.

The Plan's interest in the Funds is calculated by applying the plan's ownership percentage in the Fund to the total fair value of the Fund. The underlying assets owned by the Funds consist primarily of the readily marketable fixed income securities with quoted market prices. The interest-crediting rate is determined quarterly and is calculated using the dollar weighted yield to maturity of the covered investments. There is no relationship between future crediting rates and the adjustments to contract value reported in the Statements of Net Assets Available for Benefits.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Funds at contract value. Certain events, such as termination of the Plan or a material adverse change in the provisions of the Plan, may limit the ability of the Plan to transact at contract value with the issuer. The Plan administrator does not believe the occurrence of any such event is probable.

The average yield earned by the Plan's investment in the Managed Income Portfolio that also reflects the actual interest credited to the participants for the years ended December 31, 2010 and 2009 was 1.44% and 1.20%, respectively. The average yield and crediting interest rate earned by the Managed Income Portfolio II for the year ended December 31, 2010 was 1.82%.

Note F - Tax Status of Plan

The Company adopted a prototype plan provided by the Plan's trustee and recordkeeper. The prototype plan received a favorable opinion letter from the Internal Revenue Service on October 9, 2003, stating that the prototype plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. The Plan administrator believes that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan, as amended, and the related trust are tax-exempt as of the financial statement date.

SAVVIS, INC. 401(k) PLAN

Notes to Financial Statements - Continued

December 31, 2010

(See Independent Auditors' Report)

Note F - Tax Status of Plan (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note G - Related-Party Transactions

At December 31, 2010 and 2009, the Plan's investments include shares of mutual funds and units of participation in collective trust investments managed by Fidelity Investments. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During 2010 and 2009, the Company paid certain administrative expenses of the Plan.

Note H - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note I - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Independent Auditors' Report

To the Participants and Plan Administrator of the
Savvis, Inc. 401(k) Plan
St. Louis, Missouri

We were engaged to audit the financial statements and supplemental schedule of the Savvis, Inc. 401(k) Plan (the "Plan") as of December 31, 2010 and 2009, and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The following description of the Savvis, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan as defined by Section 401 of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees who are at least 21 years of age may enroll in the Plan on the first day of each month.

Contributions

Participants may contribute up to 60% of their before tax compensation to the Plan, not to exceed certain dollar limits established by the IRC. Savvis, Inc. (the "Company" or "Employer") matches such contributions on a 50% basis up to a maximum of 8% of annual compensation.

Eligible employees are enrolled in the Plan automatically. Unless an employee affirmatively elects otherwise, a 3% pre-tax contribution will be deducted from each payroll and the participant will receive the Company matching contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings and charged with an allocation of certain administrative expenses. Allocations are based on a participant earnings or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Plan participants vest in the amount credited to the Company contribution account in accordance with the following schedule:

- | | |
|------------------------------|------|
| ▪ after one year of service | 25% |
| ▪ after two years of service | 50% |
| ▪ after 3 years of service | 100% |

Note A - Plan Description (Continued)

Vesting (Continued)

The entire amount credited to a participant's account becomes fully vested and nonforfeitable, if any of the following occur:

- The participant reaches normal retirement age
- Termination of participant's employment because of total disability
- The participant's death while employed

Participants' voluntary contributions are fully vested and nonforfeitable at all times. Forfeitures of the non-vested account balances of terminated participants are used to reduce future Company contributions to the Plan. For the years ended December 31, 2010 and 2009, forfeited non-vested accounts totaled \$84,523 and \$127,786, respectively.

Payment of Benefits

Upon attainment of normal retirement age or total disability, the amount credited to a participant's account shall be payable in a lump sum payment or as an annuity, based on each participant's election in accordance with the Plan agreement. The amount credited to the account of the participant at the date of death shall be distributed to the named beneficiary as a lump sum cash payment.

Upon termination of employment for reasons other than death, total disability or retirement, the participant may also elect to receive his or her vested balance in the form of a lump sum payment or annuity.

Investment Programs

Contributions are remitted to the Trustee and credited to a participant's account based upon the Plan's provisions and employee elections. Each participant elects the amount of the participant's account balance to be invested in each of the investment funds.

Notes Receivable from Participants

Participants may borrow from the Plan the lesser of \$50,000 or 50% of their vested account balance with a minimum loan amount of \$1,000. Loans are repayable in installments through payroll deductions over various repayment periods as defined by the Plan. Interest charged on outstanding loans is at the prime rate plus one-half percent.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts or stable value investments, held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to a fully benefit-responsive investment because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the contracts, as well as the adjustments for the fully benefit-responsive investments from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates in Financial Statement Presentation

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may vary from reported amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

New Accounting Pronouncement

In September 2010, the FASB released Accounting Standards Update No. 2010-25 ("ASU 2010-25"), *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Plans*, which provided guidance on how loans to participants should be classified and measured by defined contribution pension plans. This update requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their principal balance plus any accrued but unpaid interest. This update requires retrospective application to all periods presented. ASU 2010-25 was adopted for the year ended December 31, 2010. December 31, 2009 amounts and disclosures have been revised to reflect the retrospective application of adopting ASU 2010-25.

Subsequent Events

The Plan has evaluated all subsequent events through September 21, 2011, the date the financial statements were available to be issued.

Note C - Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Fidelity Management Trust Company ("Fidelity") that all of the information provided by Fidelity included in the accompanying financial statements and Schedule of Assets Held for Investment Purposes at End of Year is complete and accurate. Information as to the investments in the accounts of Fidelity, investment income, and all information appearing in the accompanying statements and Schedule of Assets Held for Investment Purposes at End of Year are presented in reliance solely upon these certifications.

Note C - Investments (Continued)

The following investments represent five percent or more of the Plan's net assets:

	<u>2010</u>	<u>2009</u>
Fidelity Contrafund	\$29,373,706	\$24,705,536
Fidelity Balanced Fund	9,109,680	7,867,637
Fidelity Managed Income Portfolio	19,546,125*	21,500,848*
Spartan U.S. Equity Index Fund	9,061,950	8,730,026
Fidelity Diversified International	13,056,230	11,724,606
Spartan Extend Market Index	8,319,371	Less than 5%

*This amount represents contract value for this investment

The Plan's mutual fund investments (including gains and losses on investment bought and sold, as well as held during the year) appreciated in value by \$13,657,444 and \$21,040,515 during the years ended 2010 and 2009, respectively.

Note D - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

SAVVIS, INC. 401(k) PLAN

Notes to Financial Statements - Continued

December 31, 2010

(See Independent Auditors' Report)

Note D - Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds – Valued at the net asset value (“NAV”) of shares held by the Plan at year end.

Collective Trust – Valued at NAV as a practical expedient of fair value. The NAV is based on the underlying investments which are traded on an active market. The Plan does not have any collective investment funds with unfunded commitments or with any long-term redemption restrictions.

The preceding methods used to arrive at a fair value calculation may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E - Investment in Collective Trusts

The Fidelity Managed Income Portfolio and the Fidelity Managed Income Portfolio II (the "Funds"), collective trust funds, invest in a variety of investment contracts such as guaranteed investment contracts ("GICs") issued by insurance companies and other financial institutions and other investment products with similar characteristics. The Funds primarily hold investments in fully benefit-responsive investment contracts that provide that the Plan may make withdrawals at contract value for benefit-responsive requirements.

The Plan's interest in the Funds is calculated by applying the plan's ownership percentage in the Fund to the total fair value of the Fund. The underlying assets owned by the Funds consist primarily of the readily marketable fixed income securities with quoted market prices. The interest-crediting rate is determined quarterly and is calculated using the dollar weighted yield to maturity of the covered investments. There is no relationship between future crediting rates and the adjustments to contract value reported in the Statements of Net Assets Available for Benefits.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Funds at contract value. Certain events, such as termination of the Plan or a material adverse change in the provisions of the Plan, may limit the ability of the Plan to transact at contract value with the issuer. The Plan administrator does not believe the occurrence of any such event is probable.

The average yield earned by the Plan's investment in the Managed Income Portfolio that also reflects the actual interest credited to the participants for the years ended December 31, 2010 and 2009 was 1.44% and 1.20%, respectively. The average yield and crediting interest rate earned by the Managed Income Portfolio II for the year ended December 31, 2010 was 1.82%.

Note F - Tax Status of Plan

The Company adopted a prototype plan provided by the Plan's trustee and recordkeeper. The prototype plan received a favorable opinion letter from the Internal Revenue Service on October 9, 2003, stating that the prototype plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. The Plan administrator believes that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan, as amended, and the related trust are tax-exempt as of the financial statement date.

Note F - Tax Status of Plan (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note G - Related-Party Transactions

At December 31, 2010 and 2009, the Plan's investments include shares of mutual funds and units of participation in collective trust investments managed by Fidelity Investments. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During 2010 and 2009, the Company paid certain administrative expenses of the Plan.

Note H - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note I - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
