REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator and Participants of the
TIMET Defined Benefit Retirement Plan:

We were engaged to audit the financial statements of the TIMET Defined Benefit Retirement Plan (the "Plan") as of and for the years ended December 31, 2010 and 2009, and the supplemental schedule as of December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR Sections 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by U.S. Bank, N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Asset valuation method

The Valuation Assets are determined using a method that spreads asset gains/(losses) over 2 years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. The discounted value of accrued contributions, if any, is included in the Valuation Assets.

The expected return on plan assets is 8.50% per annum, limited by PPA to the applicable Third Segment Rate as follows:

2009 measurement period:	6.69%
2008 measurement period:	6.43%

¹ An election was made under PRA 2010 to use the alternative 2 plus 7-year amortization period for the base established in 2010. Under 2 plus 7-year amortization, the required installments for the first 2 years of the amortization period equal interest on the base at the plan's effective interest rate for the plan year of the election. The balance is then amortized over the following 7 years in level installments determined using the discount rates for the plan year of the election.

Schedule SB, line 24 – Change in Actuarial Assumptions

The salary increase assumption was changed from 3.00% to 4.50% for Toronto.

The expected administrative expenses added to the Target Normal Cost were increased from \$137,010 to \$384,609.

The frequency of optional payment forms assumption was changed from the 2009 assumption that 100% of future retirees elect a single life annuity to the 2010 assumption that 75% of future retirees elect a single life annuity and 25% elect a 50% joint and survivor annuity.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Asset valuation method

The Valuation Assets are determined using a method that spreads asset gains/(losses) over 2 years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. The discounted value of accrued contributions, if any, is included in the Valuation Assets.

The expected return on plan assets is 8.50% per annum, limited by PPA to the applicable Third Segment Rate as follows:

2009 measurement period:	6.69%
2008 measurement period:	6.43%

Provisions for Former Participants of the Salaried Employees' Defined Benefit Retirement Plan

Effective Date

January 1, 1987, as amended and restated effective January 1, 2001 and as most recently amended effective January 1, 2008 by Amendment #7. The Plan was closed to new participants and Years of Benefit Service frozen effective December 31, 1988. Compensation for salaried members was frozen as of April 1, 1994.

Eligibility Requirements

All salaried employees hired prior to December 31, 1988. Employees covered by a collective bargaining agreement are not eligible to participate.

Continuous Service

For eligibility purposes (Years of Service): Generally, years of employment in which 750 hours or more are worked.

For benefit calculation purposes (Years of Benefit Service): Continuous Service is frozen as of December 31, 1988.

Final Average Compensation

Final Average Compensation is defined as the participant's average compensation during the five consecutive highest paid fiscal years out of the last 10 years of service prior to April 1, 1994. Compensation means the total cash remuneration before any deferrals to a 401(k) plan, including overtime payments, commissions and bonuses.

Normal Retirement Date

Last day of the calendar month in which the participant attains age 65.

Normal Retirement Benefit

The yearly amount of basic retirement income is equal to the greater of A, B or C:

- A. The sum of:
 - i) 1.0% of a participant's Final Average Compensation multiplied by Years of Benefit Service as of December 31, 1988, to a maximum of 40 such years.
 - ii) .5% of Final Average Compensation in excess of Social Security covered compensation, multiplied by Years of Benefit Service as of December 31, 1988, to a maximum of 35 such years.
- B. The benefit accrued under the plan as of December 31, 1988.
- C. \$180 multiplied by Years of Benefit Service.

The total benefit paid by the trust will be offset by benefits funded by means of a purchased annuity.

Early Retirement Benefits

55/30 Retirement

After a participant has completed 30 Years of Service and attained the age of 55, he or she may retire and receive the retirement benefit accrued to his or her date of early retirement reduced for the early commencement of benefits prior to age 62. A \$225 monthly supplement is payable to age 62.

55/10 Retirement

After a participant has completed ten Years of Continuous Service and attained the age of 55, he or she may retire early on the retirement income accrued to his or her date of early retirement, reduced for the early commencement of benefits prior to age 65.

Benefit Reduction for Early Commencement

Final Average Compensation formula: Accrued benefit is reduced by .5% for each month of early commencement.

Flat Dollar formula: Accrued benefit is reduced by graduated percentages ranging from 44.11% at age 55 to zero at age 62.

Vested Termination Benefit

A terminated participant who has completed at least five Years of Continuous Service will be entitled to receive a deferred retirement benefit. The benefit equals the participant's accrued benefit and commences on his or her normal retirement date. A participant with at least ten Years of Service may elect to receive a benefit before his normal retirement date, but after age 55. Such benefit would be reduced for commencement prior to age 65.

Death Benefits

If a vested participant who has been married at least one year dies, their spouse will receive, at the employee's earliest possible retirement date, 50% of the benefit the deceased participant would have received had he retired on that date and elected a 50% Joint & Survivor Annuity.

Additional Death Benefits

If an active participant who has attained age 55 and completed ten Years of Service or completed 15 Years of Service dies, a benefit is payable immediately to their spouse, if they have been married at least one year. The benefit is equal to 50% of the participant's accrued benefit (but no less than \$107.50 per month) reduced by 50% of the widow's or widower's Social Security benefit after age 60 (but no less than \$57.50 per month).

Disability Benefits

Participants who become disabled and are in continuous receipt of a benefit under the employer's long-term disability plan and under Title II of the Social Security Act until age 65 are eligible to receive a disability benefit equal to the normal retirement benefit accrued as of April 1, 1994.

Early Retirement Benefits

55/30 Retirement

After a participant at the Henderson, Nevada Plant has completed 30 Years of Continuous Service and attained the age of 55 (but not 62), he or she may retire and receive the retirement benefit accrued to his or her date of retirement reduced 6% for each year benefits commence prior to age 62. Toronto, Ohio employees are not eligible for this benefit.

62/10 Retirement

After a participant has completed 10 Years of Continuous Service and attained the age of 62, he or she may retire early and receive the retirement benefit accrued to his or her date of early retirement.

60/10 Retirement

After a participant has completed 10 Years of Continuous Service and attained the age of 60, he or she may retire early and receive the retirement benefit accrued to his or her date of early retirement, reduced to account for the early commencement of benefits. The accrued benefit is reduced for each month his Early Retirement Date precedes the first day of the month following his 62nd birthday.

70/80 Retirement

Any participant whose continuous service is broken by reason of: i) a permanent shutdown of a plant, department or subdivision thereof; or ii) layoff or physical disability and who has not attained age 62, but has completed at least 15 Years of Continuous Service and: i) has attained age 55 or ii) whose combined age and Years of Continuous Service equals 80 or more, may retire and receive the retirement benefit accrued to his or her date of retirement. A \$400 per month supplement is payable to age 62 or eligibility for Social Security disability benefits.

Vested Termination Benefit

A terminated participant who has completed at least 5 Years of Continuous Service will be entitled to receive a deferred retirement benefit. The amount of retirement benefit is the participant's accrued monthly benefit payable at age 65. If the participant has at least 10 Years of Continuous Service, they may elect early commencement of the benefit and the amount of retirement benefit is calculated in accordance with 60/10 Retirement.

Permanent Incapacity Retirement

Participants with at least 10 Years of Continuous Service at the time of permanent incapacity are eligible to receive a monthly benefit equal to their normal retirement benefit based on continuous service at date of disability. A \$400 monthly supplement is payable for each month the participant is not eligible for a public pension.

¹ An election was made under PRA 2010 to use the alternative 2 plus 7-year amortization period for the base established in 2010. Under 2 plus 7-year amortization, the required installments for the first 2 years of the amortization period equal interest on the base at the plan's effective interest rate for the plan year of the election. The balance is then amortized over the following 7 years in level installments determined using the discount rates for the plan year of the election.

Schedule SB, Part V – Summary of Plan Provisions

Provisions for Former Participants of the Salaried Employees' Defined Benefit Retirement Plan

Effective Date

January 1, 1987, as amended and restated effective January 1, 2001 and as most recently amended effective January 1, 2008 by Amendment #7. The Plan was closed to new participants and Years of Benefit Service frozen effective December 31, 1988. Compensation for salaried members was frozen as of April 1, 1994.

Eligibility Requirements

All salaried employees hired prior to December 31, 1988. Employees covered by a collective bargaining agreement are not eligible to participate.

Continuous Service

For eligibility purposes (Years of Service): Generally, years of employment in which 750 hours or more are worked.

For benefit calculation purposes (Years of Benefit Service): Continuous Service is frozen as of December 31, 1988.

Final Average Compensation

Final Average Compensation is defined as the participant's average compensation during the five consecutive highest paid fiscal years out of the last 10 years of service prior to April 1, 1994. Compensation means the total cash remuneration before any deferrals to a 401(k) plan, including overtime payments, commissions and bonuses.

Normal Retirement Date

Last day of the calendar month in which the participant attains age 65.

Normal Retirement Benefit

The yearly amount of basic retirement income is equal to the greater of A, B or C:

- A. The sum of:
 - i) 1.0% of a participant's Final Average Compensation multiplied by Years of Benefit Service as of December 31, 1988, to a maximum of 40 such years.
 - ii) .5% of Final Average Compensation in excess of Social Security covered compensation, multiplied by Years of Benefit Service as of December 31, 1988, to a maximum of 35 such years.
- B. The benefit accrued under the plan as of December 31, 1988.
- C. \$180 multiplied by Years of Benefit Service.

The total benefit paid by the trust will be offset by benefits funded by means of a purchased annuity.

***Provisions for Former Participants of the Salaried Employees' Defined Benefit Retirement Plan
(continued)***

Early Retirement Benefits

55/30 Retirement

After a participant has completed 30 Years of Service and attained the age of 55, he or she may retire and receive the retirement benefit accrued to his or her date of early retirement reduced for the early commencement of benefits prior to age 62. A \$225 monthly supplement is payable to age 62.

55/10 Retirement

After a participant has completed ten Years of Continuous Service and attained the age of 55, he or she may retire early on the retirement income accrued to his or her date of early retirement, reduced for the early commencement of benefits prior to age 65.

Benefit Reduction for Early Commencement

Final Average Compensation formula: Accrued benefit is reduced by .5% for each month of early commencement.

Flat Dollar formula: Accrued benefit is reduced by graduated percentages ranging from 44.11% at age 55 to zero at age 62.

Vested Termination Benefit

A terminated participant who has completed at least five Years of Continuous Service will be entitled to receive a deferred retirement benefit. The benefit equals the participant's accrued benefit and commences on his or her normal retirement date. A participant with at least ten Years of Service may elect to receive a benefit before his normal retirement date, but after age 55. Such benefit would be reduced for commencement prior to age 65.

Death Benefits

If a vested participant who has been married at least one year dies, their spouse will receive, at the employee's earliest possible retirement date, 50% of the benefit the deceased participant would have received had he retired on that date and elected a 50% Joint & Survivor Annuity.

Additional Death Benefits

If an active participant who has attained age 55 and completed ten Years of Service or completed 15 Years of Service dies, a benefit is payable immediately to their spouse, if they have been married at least one year. The benefit is equal to 50% of the participant's accrued benefit (but no less than \$107.50 per month) reduced by 50% of the widow's or widower's Social Security benefit after age 60 (but no less than \$57.50 per month).

Disability Benefits

Participants who become disabled and are in continuous receipt of a benefit under the employer's long-term disability plan and under Title II of the Social Security Act until age 65 are eligible to receive a disability benefit equal to the normal retirement benefit accrued as of April 1, 1994.

Schedule SB, Part V – Summary of Plan Provisions

Provisions for Former Participants of the Bargaining Unit Employees' Defined Benefit Retirement Plan (continued)

Early Retirement Benefits

55/30 Retirement

After a participant at the Henderson, Nevada Plant has completed 30 Years of Continuous Service and attained the age of 55 (but not 62), he or she may retire and receive the retirement benefit accrued to his or her date of retirement reduced 6% for each year benefits commence prior to age 62. Toronto, Ohio employees are not eligible for this benefit.

62/10 Retirement

After a participant has completed 10 Years of Continuous Service and attained the age of 62, he or she may retire early and receive the retirement benefit accrued to his or her date of early retirement.

60/10 Retirement

After a participant has completed 10 Years of Continuous Service and attained the age of 60, he or she may retire early and receive the retirement benefit accrued to his or her date of early retirement, reduced to account for the early commencement of benefits. The accrued benefit is reduced for each month his Early Retirement Date precedes the first day of the month following his 62nd birthday.

70/80 Retirement

Any participant whose continuous service is broken by reason of: i) a permanent shutdown of a plant, department or subdivision thereof; or ii) layoff or physical disability and who has not attained age 62, but has completed at least 15 Years of Continuous Service and: i) has attained age 55 or ii) whose combined age and Years of Continuous Service equals 80 or more, may retire and receive the retirement benefit accrued to his or her date of retirement. A \$400 per month supplement is payable to age 62 or eligibility for Social Security disability benefits.

Vested Termination Benefit

A terminated participant who has completed at least 5 Years of Continuous Service will be entitled to receive a deferred retirement benefit. The amount of retirement benefit is the participant's accrued monthly benefit payable at age 65. If the participant has at least 10 Years of Continuous Service, they may elect early commencement of the benefit and the amount of retirement benefit is calculated in accordance with 60/10 Retirement.

Permanent Incapacity Retirement

Participants with at least 10 Years of Continuous Service at the time of permanent incapacity are eligible to receive a monthly benefit equal to their normal retirement benefit based on continuous service at date of disability. A \$400 monthly supplement is payable for each month the participant is not eligible for a public pension.

Death Benefits

If a vested participant who has been married at least one year dies, their spouse will receive, at the employee's earliest possible retirement date, 50% of the benefit the deceased participant would have received had he retired on that date and elected a 50% Joint & Survivor Annuity.

Additional Death Benefits

If an active participant with more than 15 Years of Continuous Service or a participant who is no longer employed but eligible for or receiving a benefit other than deferred vested benefit dies, a benefit is payable immediately to their spouse, if they have been married at least one year. For those participants receiving retirement benefits, the spouse receives 50% of the benefit. For other eligible participants, the spouse receives 50% of the participant's accrued benefit. The minimum benefit payable is \$140 per month. These benefits amounts are payable until the spouse is eligible for a Social Security widow or widower's benefit. After that time, benefits are reduced by 50% of the Social Security widow or widower's benefit; however, the minimum benefit payable is \$90 per month.

These benefits are payable in addition to any other death benefits payable under the plan.

Normal Form of Retirement Benefit

For single participants, the normal form of benefit payment is a life annuity. Married participants will receive a reduced benefit in the form of a 50% Joint and Survivor Annuity.

Special Retirement Payment

Each participant receiving benefits under all cases of retirement except permanent incapacity and deferred vested retirement is eligible for the Special Retirement Payment. The benefit is lump sum payment equal to the product of the following:

- Participant's hourly rate in excess of \$5.05.
- Regularly scheduled weekly hours.

REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator and Participants of the
TIMET Defined Benefit Retirement Plan:

We were engaged to audit the financial statements of the TIMET Defined Benefit Retirement Plan (the "Plan") as of and for the years ended December 31, 2010 and 2009, and the supplemental schedule as of December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR Sections 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by U.S. Bank, N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of the Plan

General. The TIMET Defined Benefit Retirement Plan (the “Plan”) provides benefits for salaried employees of Titanium Metals Corporation (the “Company” or “TIMET”). Salaried employees hired from January 1, 1987 through December 31, 1988, who attained the age of 21 and completed one year of continuous service, were eligible to participate in the Plan. Effective January 1, 1989, the Plan was closed to new participants, and participants ceased accruing additional service credit under the Plan. Effective April 2, 1994, participants also ceased accruing credit for additional salary increases. Benefits accruing to salaried employees prior to January 1, 1987, were provided through the TMC Retirement Plan (the “Prior Plan”) and were fully vested as of December 31, 1986. Such accrued benefits are funded by annuities purchased from Metropolitan Life Insurance Company and American International Life Assurance Company of New York as discussed further below.

The Plan also provides benefits to substantially all individuals who were hourly employees of TIMET at the Toronto, Ohio and Henderson, Nevada plants prior to July 1, 1995 and April 1, 1994, respectively. The Plan was closed to new participants effective July 1, 1995 for the Toronto, Ohio plant and effective April 1, 1994 for the Henderson, Nevada plant. Hourly employees at the applicable plants who attained the age of 21 and completed one year of continuous service prior to the closure dates were eligible to participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan is subject to amendment by the Company from time to time, subject to applicable restrictions imposed by law. During 2009, the plan was amended and restated to incorporate the changes made by the Pension Protection Act and other laws, regulations and Internal Revenue Service (“IRS”) guidance.

Benefits and vesting. Monthly benefit payments are determined for each participant according to the retirement option selected. Pension benefits for salaried participants are based on compensation through April 2, 1994 and years of service in the Plan through December 31, 1988. Pension benefits for hourly participants are based on years of continuous service, as defined by the Pension Agreement, multiplied by specified dollar amounts. Specific terms of the Plan provide other retirement options with a combination of age and years of credited service factors. Vesting occurs upon the completion of five years of service or age 65. Monthly benefit payments by the Plan are reduced by amounts funded by annuity contracts purchased from insurance companies to provide for benefits accrued prior to December 31, 1986, under the Prior Plan.

Annuities were purchased to fund certain benefits accrued under the Prior Plan. The insurance companies remit funds to the Plan’s trust account on a monthly basis and payments to participants for benefits accrued under the Prior Plan are made from the respective trust accounts. Benefits paid to participants are shown net of \$2,034,139 and \$2,089,053 of funds received from the insurance companies for the years ended December 31, 2010 and 2009, respectively, as these funds are immediately remitted to the retirees and are not obligations of the Plan.

Administration. The Company’s Board of Directors has delegated responsibility for oversight of the Plan to the Management, Development and Compensation Committee of the Board of Directors. The TIMET benefits department provides the day to day administration of the Plan. Certain administrative expenses, including trustee, investment advisor, actuarial and consulting fees, are absorbed by the Plan. Other administrative expenses are absorbed by the Company.

Note 2 – Summary of significant accounting policies

Basis of accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments. Under the terms of various trust agreements between U.S. Bank, National Association ("USB") and the Company, USB operates as trustee of the Plan. As of December 31, 2010 and 2009, the Plan's investments were invested in the Combined Master Retirement Trust ("CMRT"). The Plan's investment in the CMRT is stated at fair value as further discussed in Note 3.

Income recognition. Interest on investments is recognized in the period earned. Dividends on stock investments are recognized as of the ex-dividend date. Gains or losses on investments sold are determined on an average cost basis.

Contributions. Employer contributions are recorded on the accrual basis and are based on amounts calculated by the actuary.

Benefit payments. Benefit payments to participants are recorded upon distribution.

Use of estimates. The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of changes in net assets available for benefits, accumulated plan benefits and changes in accumulated plan benefits during the reporting period. Actual results could differ from those estimates.

Note 3 – Combined Master Retirement Trust ("CMRT") (Unaudited)

The assets of the Plan are invested in units of the CMRT, a collective investment trust formed by Valhi, Inc. ("Valhi"), which provides for the collective investment of assets by employee benefit plans maintained by the Company and certain related corporations. Harold C. Simmons, Chairman of TIMET's Board of Directors, is the sole trustee of the CMRT and a member of the trust investment committee for the CMRT. Mr. Simmons is also Chairman of the Board of Valhi. At December 31, 2010, Contran Corporation and its subsidiaries held approximately 28.1% of TIMET's outstanding common stock. Mr. Simmons may be deemed to control the Company.

The CMRT consists of a (i) CMRT Primary Subaccount, (ii) CMRT Subaccount 1, (iii) CMRT Subaccount 2 and (iv) CMRT Subaccount 3. Investments held by the CMRT are stated at fair value. Such fair values are based on quoted market prices, if available, or estimated by other methods deemed appropriate in the circumstances. At December 31, 2010 and 2009, approximately 80% and 82%, respectively, of the CMRT's investments were based on quoted market prices. The fair value per CMRT unit is determined semi-monthly by dividing the total fair value of the net assets of the CMRT by the number of units outstanding. Units are issued or redeemed based on the most recent unit value. Realized gains or losses on sales of investments are calculated on an average cost basis. The Plan's share of the CMRT's net appreciation (depreciation) for the year is reflected in the Plan's statement of changes in net assets available for benefits. USB, as custodian of the CMRT, executes all investment transactions of the CMRT.

At December 31, 2010 and 2009, the Plan held 64,070 and 65,644 CMRT Primary Subaccount units, respectively, and 19,889 and 19,889 CMRT Subaccount 3 units, respectively. As of December 31, 2010 and 2009, the Plan's investment in the CMRT was \$57,307,178 and \$48,106,095, respectively, which represented 14% of the net assets held by the CMRT and exceeded 5% of net assets available for benefits as of each of those respective dates.

The following table represents an aggregate of the CMRT's Primary Subaccount and Subaccount 3 net assets at December 31, 2010 and 2009:

Under the Fair Value Measurements and Disclosures topic of the Codification, ASC 820, disclosures are required about how fair value is determined for assets and liabilities and a hierarchy for which these assets and liabilities must be grouped is established, based on significant levels of inputs as follows:

- **Level 1** – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- **Level 2** – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the assets or liability; and
- **Level 3** – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments in the CMRT's Primary Subaccount and Subaccount 3 at fair value as of December 31, 2009 and 2010.

The following is a description of the valuation methodologies used for investments measured at fair value.

Common and preferred stocks. Investments that are valued at the closing price reported on the active market on which the individual securities are traded are classified within Level 1. Investments that trade in markets that are not considered to be active, but are valued based on third party valuations supported by observable inputs, are classified within level 2. Investments that trade infrequently or not at all, but are valued based on original transaction price, forecasted operating results and other unobservable inputs, are classified within Level 3.

Mutual funds. Investments are valued at the net asset value reported on the active market, and thus are classified within Level 1.

Securities – limited partnerships. Investments classified within Level 2 are valued at the closing price reported on the active market on which the individual securities are traded, adjusted for contractual obligations. Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently or not at all. The selection of appropriate valuation techniques varies by investment and may be affected by the availability of relevant inputs as well as the relative reliability of inputs. The inputs used in estimating the value of Level 3 investments may include the original transaction price, length of time since investment was made, recent transactions in the same or similar instruments, recapitalizations and

other capital structure transactions, subsequent rounds of financing, completed or pending third-party transactions in the investment or comparable issuers, offerings in the equity or debt capital markets, the values of similar securities issued by companies in the same or similar businesses, the financial condition and operating results of business forecasted operating results, changes in financial ratios, cash flow analysis, assumptions made by the limited partnerships, and other unobservable inputs. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for these investments existed.

Corporate bonds and other fixed income securities. Investments that trade infrequently or not at all, but are valued based on original transaction price and other unobservable inputs, are classified within Level 3.

Real estate. Limited partnerships classified within Level 3 are valued based on third party valuations adjusted for contractual obligations and the partnership's analysis of current market conditions. Real estate mortgage notes are valued based on the developer's estimate of actual and projected sales for the projects.

Cash and cash equivalents. Investments are valued at the net asset value of \$1.00 per share based on frequent transactions, and thus are classified within Level 1.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the years ended December 31, 2009 and 2010:

(a) Transferred from Level 2 to Level 3 because of lack of 3rd party valuations.

(b) The CMRT's policy is to recognize transfers into and out of Level 3 as of December 31st.

Common and preferred stocks. This class includes investments in privately held companies primarily in the consumer discretionary and education industries that are focused on growth. The CMRT's investment in these companies can only be sold with the approval of the respective issuer.

Limited partnerships. This class includes investments in private equity funds that have different areas of focus with the goal of capital appreciation. Two of these investments may be redeemed without approval of the partnership management. One investment with a fair value of \$11.5 million at December 31, 2010 may be redeemed with 60 days notice to the partnership, and another investment with a fair

value of \$1.3 million at December 31, 2010 may be redeemed on a monthly basis with 90 days notice to the partnership. The remaining investments may be redeemed with the approval of the general partner of the partnership. If the CMRT remains invested, distributions will be made from investments as the underlying investments of the partnerships are liquidated.

Note 4 – Actuarial valuation

Buck Consultants performed the Plan's actuarial valuations as of December 31, 2010 and 2009. The valuations were determined using the projected unit credit cost method. Significant actuarial assumptions used in the valuations are principally as follows: (a) discount rate of 8.5% at December 31, 2010 and 2009, (b) mortality rate based on the RP2000 (Blue Collar) Projected to 2010 with Scale AA Mortality Table at December 31, 2010 and 2009 and (c) normal retirement at age 65.

The actuarial present value of accumulated plan benefits as of December 31, 2010 and 2009 is as follows:

	<u>2010</u>	<u>2009</u>
Vested benefits:		
Participants and beneficiaries currently receiving payments	\$ 41,909,655	\$ 40,488,825
Other participants	18,827,364	20,104,309
	60,737,019	60,593,134
Non-vested benefits	1,338,922	1,319,097
Total actuarial present value of accumulated plan benefits	<u>\$ 62,075,941</u>	<u>\$ 61,912,231</u>

The changes in the actuarial present value of accumulated plan benefits are as follows:

	<u>Years ended December 31,</u> <u>2010</u>	<u>2009</u>
Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 61,912,231</u>	<u>\$ 61,219,606</u>
(Decrease) increase during the year attributable to:		
Benefits paid	(5,816,262)	(5,770,390)
Benefits accumulated (including noninvestment experience)	959,583	1,499,436
Increase for interest due to decrease in the discount period	5,020,389	4,963,579
Net increase	<u>163,710</u>	<u>692,625</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 62,075,941</u>	<u>\$ 61,912,231</u>

Note 5 – Funding policy

The Plan is a noncontributory defined benefit plan funded by the Company. Contribution amounts are calculated on an actuarial basis using certain actuarial assumptions. The contributions of the Company are designed to fund each employee's benefits under the Plan in installments which are level as a percent of compensation per active employee, starting at the original participation date, and continuing until the assumed retirement, termination, disability or death. The Company has complied with the minimum funding requirements of ERISA for the years ended December 31, 2010 and 2009.

Note 6 – Plan termination

Under the provisions of ERISA, if the Plan is terminated, the Company may be obligated to make termination payments to the Plan and plan participants may be eligible for continuation of benefits under insurance provided by the Pension Benefit Guaranty Corporation ("PBGC"). Payment of a plan participant's accumulated plan benefits depends on the priority of those benefits and the level of those benefits guaranteed by the PBGC at that time. Certain benefits may be fully or partially provided for by the then existing assets of the Plan, insurance contracts and/or the PBGC guaranty. However, because the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations, there is the possibility that some benefits may not be provided for at all. A description of the priority order of plan participants' claims to the assets of the Plan upon termination is published in the plan document and made available to plan participants.

Note 7 – Tax status

The IRS has determined and informed the Company by a letter dated August 25, 2003, that the Plan, as amended through December 31, 2001, is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code ("Code"). The Plan has been amended subsequent to December 31, 2001; however, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable sections of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Additionally, the Plan had no significant uncertain tax positions for the year ended December 31, 2010 and 2009. The Plan's Annual Return/Report of Employee Benefit Plan is subject to examination by the IRS for three years from the date of filing.

Note 8 – Risks and uncertainties

As discussed in Note 3, the CMRT invests in various securities and/or other investments. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of market volatility resulting in changes in the value of investment securities, it is possible that changes in risks could materially affect amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Contributions and the actuarial present value of accumulated plan benefits are calculated and reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near-term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Note 9 – Information certified by the Plan's Trustee

The following unaudited information in the financial statements was certified to be complete and accurate by the Plan's Trustee within the meaning of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

- All amounts relating to investments and accrued interest and other receivables as enumerated in the Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009.
- All amounts relating to the Plan's interest in the CMRT net investment income (loss) and interest, dividends and other income as enumerated in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2010 and 2009.
- All information in Note 3.

Note 10 – Party-in-interest transactions

Certain plan investments are units/shares of the CMRT and other investments offered and managed by USB. As USB is the trustee of the Plan, these transactions qualify as party-in-interest transactions.

Note 11 – Subsequent events

Plan management evaluated subsequent events through October 13, 2011, the date the financial statements were available to be issued, and concluded no additional disclosures are required.
