JGB DISTRIBUTING DISCRETIONARY PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the JGB Distributing Discretionary Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General - The Plan is a defined contribution plan covering all eligible employees of J.G.B. Distributing, Inc. (the "Company") who have completed one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In November 2010, the Company was sold to Invisible Fence, Inc.

Contributions - Participants may contribute up to 30% of pretax annual compensation (as defined in the Plan) or \$16,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. The Company makes non-discretionary safe harbor matching contributions equal to 100% of the first 3% and 50% of the next 2% of base compensation that a participant contributes to the Plan for each pay period. At the option of the Company's board of directors, additional discretionary amounts may be contributed to the accounts of participants that complete at least 1,000 hours of service during the year and are employed on the last day of the year. The Board approved a discretionary profit sharing contribution of \$104,144 for the year ended December 31, 2010. Contributions are subject to certain limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan offers a variety of registered investment company securities (mutual funds) as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations of the Company's safe harbor matching contributions are based on participants' contributions. Allocations of the Company's discretionary contributions, plan earnings and administrative expenses are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of benefits – On termination of service (as defined), a participant will receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Participants may also withdraw amounts from their accounts under certain defined conditions.

JGB DISTRIBUTING DISCRETIONARY PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Vesting - Participants are immediately vested in their contributions and employer safe harbor contributions plus actual earnings thereon. Vesting in employer discretionary contributions plus actual earnings thereon is subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
1	0%
2	25%
3	50%
4	75%
5	100%

Forfeited accounts – Forfeited nonvested accounts totaled \$2,704 and \$4,571 at December 31, 2010 and 2009, respectively. These accounts will be used to reduce future employer contributions. In 2010, employer contributions were reduced by \$13,607 from forfeited nonvested accounts.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncement - The following new accounting pronouncement was adopted during year ended December 31, 2010:

Fair Value Disclosures - In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. Net assets available for benefits and changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

JGB DISTRIBUTING DISCRETIONARY PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2010	2009
American Century Strat. Allocation: Mod - A	\$ 152,007	\$ 131,443

Federated Prime Cash Obligations Fund SS	522,684	544,399

* Investment represents less than five percent of net assets

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value exclusively as a result of the Plan's investment in mutual funds.

JGB DISTRIBUTING DISCRETIONARY PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

(4) **Information prepared and certified by the custodian**

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, EMJAY Corporation, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation in fair value of investments
- Dividends
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) **Fair value measurements**

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

JGB DISTRIBUTING DISCRETIONARY PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

(5) Fair value measurements (continued)

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

Investments at Fair Value as of December 31, 2010

NOTES TO FINANCIAL STATEMENTS

(6) **Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(7) **Related party transactions**

Certain Plan investments are shares of mutual funds managed by Federated Retirement Plan Services. Federated Retirement Plan Services is an affiliate of EMJAY Corporation which serves as the custodian of the Plan and, accordingly, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules.

(8) **Tax status**

The Internal Revenue Service ("IRS") has determined that the prototype profit sharing plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC") and informed Findley Davies, Inc., the Plan's administrative advisor, of such in a letter dated January 1, 2006. Although the prototype plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(9) **Risks and uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) **Subsequent events**

The Plan has evaluated subsequent events through October 6, 2011, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
