To the Participants and Plan Administrator of
Globetrotters Engineering Corporation Employees' Profit Sharing and Retirement Savings Plan & Trust

INDEPENDENT AUDITORS' REPORT

We were engaged to audit the financial statements (modified cash basis) of Globetrotters Engineering Corporation Employees' Profit Sharing and Retirement Savings Plan & Trust as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule as of and for the year ended December 31, 2010 as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C., which was certified by Fidelity Management Trust Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. The plan administrator has obtained certifications from the trustees as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustees is complete and accurate.

As described in Note B., these financial statements were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

A. Description of Plan

The following description of the Globetrotters Engineering Corporation ("Company") Employees' Profit Sharing and Retirement Savings Plan & Trust ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined contribution plan covering all employees who have three months of service and are age twenty-one or older. The Plan covers employees of Globetrotters Engineering Corporation and Globetrotters International, Inc. It is subject to the provisions of the Employee Retirement Income and Security Act (ERISA) of 1974.

2. *Contributions.* Each year, participants may contribute up to 50% of their pretax annual compensation, up to a maximum of $16,500 in 2010 and 2009, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently has thirty mutual funds as investment options for participants. The Company shall make a non-discretionary matching contribution of 50 percent of each participant's first 4 percent of contributions for the Plan year. In addition, the Company may also make a discretionary profit sharing contribution during any plan year. Contributions are subject to certain limitations. The Plan also provides that participants who are projected to be age 50 or older by December 31, 2010, and who are making contributions to the Plan may also make a catch-up contribution (not previously made) of up to $5,500 in 2010 and 2009.

3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, (c) forfeitures of terminated participants' non-vested accounts, and (d) is charged with an allocation of administrative expenses. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

4. *Vesting.* Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credit service.

5. *Participant Loans.* Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50 percent of the vested portion of their account balance, not to exceed $50,000. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate determined by the Plan administrator. The loan is required to be paid (principal and interest) in amortized level payments, not less frequently than quarterly, over a period not extending beyond five years from the date of the loan; provided, however, that if the proceeds of the loan will be used to purchase a principal residence of the participant, the repayment schedule may be for a term up to thirty years.

(continued)

A. Description of Plan (continued)

6. *Payments of Benefits.* On termination of service due to death (beneficiary), disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest (100 percent upon death) in his or her account in either a lump-sum amount, annuity, or installments. Alternatively, participants can choose to defer receipt of their distribution until, by law, minimum distributions are required. However, if the participant's vested account balance is $5,000 or less, the balance will be distributed in a lump-sum payment.

7. *Forfeited Accounts.* At December 31, 2010, forfeited non-vested accounts totaled $9,602. Forfeitures are retained in the Plan and will be used to reduce Company contributions for the succeeding Plan year. Also, in 2010, employer contributions were reduced from forfeited non-vested accounts by $60,000.

B. Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the modified cash basis of accounting. The modified cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the cash basis of accounting, income is recorded when received and expenses are recorded when paid. The modification is for the recording of investments at fair value (modified cash basis) rather than on a comprehensive cash basis of reporting as ascribed to in the auditor's report.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a stable fund. Contract value for this stable fund is based on the net asst value of the fund as reported by the investment advisor. The statement of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Quoted market prices are used to determine the fair value of investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded when received.

Payment of Benefits
Benefits are recorded when paid.

(continued)

B. Summary of Accounting Policies (continued)

Risks and Uncertainties
The Plan provides for various investment options in a combination of mutual funds. Investments securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee: investment assets, transactions, and income.

D. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets.

	December 31, 2010	2009
Pimco Total Return A 83,349.438 and 77,416.493 shares, respectively	$ 904,341	$ 836,098

Fidelity Mid Cap II A 41,695.047 and 38,594.737 shares, respectively	746,341	546,887

(continued)

D. Investments (continued)

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $726,116. Dividends, as shown on the statement of changes in net assets available for benefits, are reinvested.

E. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the employer contributions in their account.

F. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

G. Related-Party Transactions

The Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to $1,381 for the year ended December 31, 2010.

H. Reconciliation of Financial Statements to Form 5500

At December 31, 2010, the net assets available for benefits per the financial statements is $36,755 less than the net assets available for benefits per the Form 5500. The changes in net assets available for benefits per the financial statements is also $36,755 less than the changes in net assets available per the Form 5500. The difference, in both cases, is due to the fact the shares of Fidelity Stable Value fund in Fidelity Managed Income Portfolio fund is presented at contract value on the financial statements and presented at fair value on Form 5500.

(continued)

I. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in inactive markets.

Level 2

Inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value of shares (NAV) held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(continued)

I. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010.

Assets at Fair Value as of December 31, 2010:

Level 1	Amount
Mutual funds:	
Large Cap	$ 1,979,412
Mid-Cap	1,408,761
Small Cap	206,003
International	984,903
Other	341,779
Balanced	346,875
Income	1,069,197
Short Term Investments	70,932
Total mutual funds	6,407,862
Level 2	
Guaranteed Investment Contract	1,965,400
Total Level 2	1,965,400
Total assets at fair value	$ 8,373,262

Level 2 Gains and Losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 2 assets for the year ended December 31, 2010.

Level 2 Assets for the year ended December 31, 2010:

Guaranteed Investment Contract:	
Balance, beginning of year:	$ 1,991,155
Purchases, sales, issuances and settlements (net)	(25,755)
Balance, end of year	$ 1,965,400

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

(continued)

J. Common/Collective Trust

The Fidelity Stable Value Portfolio ("Portfolio") is a collective trust investment and not a mutual fund. The trust is managed by Fidelity Management Trust Company and seeks to preserve principal while maintaining a stable net asset value of $1 per share. The portfolio invests in short-term bonds, U.S. treasury bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, derivative instruments, including futures, options and swaps. Third party wrap contracts are utilized to maintain a constant net asset value and to provide for the payment of participant-directed withdrawals and exchanges at contract value in most circumstances. The portfolio also invests in guaranteed investment contracts that provide for a guaranteed return on principal invested over a specified time period. Since the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $1,965,400 and $1,991,155, respectively.

K. Subsequent Events

The Plan had no material subsequent events. The Plan has evaluated subsequent events through October 3, 2011, the date which the financial statements were available to be issued.
