INDEPENDENT AUDITORS' REPORT

To the Investment Committee
Jupiter I, L.L.C. 401(k) Plan
Denver, Colorado

We were engaged to audit the statements of net assets available for benefits of the Jupiter I, L.L.C. 401(k) Plan (the "Plan") as of December 31, 2010, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedules as of December 31, 2010 as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2009 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Principal Life Insurance Company, the custodian of the Plan. Their report, dated October 14, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole, and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the custodian, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by Principal Life Insurance Company, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2010, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Jupiter I, L.L.C. 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established March 1, 1989 and subsequently restated in 2010. The Plan is available to employees age 21 years or older who have completed one month of service. Once eligible, employees may enter the Plan on the first day of each month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Jupiter I, L.L.C (the "Company") administers the Plan. Principal Life Insurance Company ("Principal" or "Custodian") serves as custodian, manages the Plan's investments, and maintains the Plan's records. The Plan offers participants a variety of investment options. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax contributions up to 100% of their annual compensation, which are subject to annual limitations by the Internal Revenue Service ("IRS"). Additional catch-up contributions are available to any participant that is age 50 or older and has made the maximum contribution for the year. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions.

Employees are eligible to contribute on an after-tax basis, through payroll deductions, a percentage subject to an annual limit of the lesser of 100% of eligible compensation or the annual IRS limitations in a calendar year, as Roth 401(k) contributions. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

The Plan has a discretionary employer matching contribution provision. Participants who were active during the Plan year are eligible to receive the discretionary employer contribution, if such contribution is made. No discretionary contributions were made for the year ended December 31, 2010.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution, rollover contributions, an allocation of the Company's contributions, Plan earnings or losses, Plan expenses, and forfeitures. Allocations are based upon Plan earnings or losses and account balances, as defined.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions and allocated earnings or losses thereon.

Any employer matching and discretionary employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1 year	0%
More than 1 year	100%

A participant's account becomes 100% vested upon death, permanent disability, attaining normal retirement age (age 65), or if the Plan is terminated.

Participant Loans

Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances and may have two loans outstanding at a time. The loans are secured by the participants' accounts and bear interest at the prevailing interest rate at the date of loan origination. Principal and interest are paid ratably through regular payroll deductions, over a period not exceeding five years, except loans used to acquire real estate that serves as the participant's primary residence may be paid over a term consistent with commercial home loan practices. Interest rates on loans outstanding at December 31, 2010 ranged from 5.25% to 10.25% and maturity dates ranged from January 2011 through April 2016.

Payments of Benefits

Upon death, disability, retirement, or termination of service, a participant may elect to receive a lump-sum payment in the amount equal to the participant's vested account balance within a reasonable period of time after termination of employment. Vested account balances less than $1,000 will be automatically distributed upon termination. For terminated participants with vested balances greater than $1,000, but less than $5,000, if an election to distribute benefits is not made within 60 days following their termination date, their vested balance will be rolled into an individual retirement account with Principal. Participants may not make withdrawals from their accounts prior to retirement at age 65 without incurring penalties, except in the event of disability, death, termination of employment, or early retirement, subject to certain restrictions. Participants may also make certain voluntary in-service withdrawals after age 59 1/2. Benefits are recorded to participants when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion of the participant's account shall be forfeited, but may be restored if the participant is rehired prior to incurring five consecutive one-year breaks in service and elects to repay the previously distributed amount. Forfeitures shall be applied to reduce future employer matching contributions or to pay Plan expenses. No forfeitures were used for the year ended December 31, 2010. The balance in the forfeiture account at December 31, 2010 and 2009, was $2,845 and $2,616, respectively.

Valuation of Investments and Income Recognition

Investments in mutual funds, pooled separate accounts, and the unallocated insurance contract are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 3).

The net realized and unrealized investment gains or losses (net appreciation or depreciation in market value of investments) is reflected in the accompanying statement of changes in net assets available for benefits, and is determined as the difference between fair value at the beginning of the year (or date purchased during the year) and selling price (or year-end fair value). Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investments in mutual funds, pooled separate accounts, and unallocated insurance contract. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Principal are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting.

Recent Accounting Pronouncements

In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which requires participant loans to be classified as loans receivable and measured at unpaid principal balance plus accrued but unpaid interest. Previously, these participant loans were classified as Plan investments, and were subject to the fair value measurement and disclosure requirements of Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures*. As permitted under ASU No. 2010-25, the Plan has retrospectively adopted ASU No. 2010-25 for the Plan years ended December 31, 2010 and 2009. The adoption of ASU No. 2010-25 did not have a material impact on the Plan's financial statements.

In January 2010, FASB issued ASU No. 2010-06, *Improving Disclosures about Fair Value Measurements*. This guidance requires additional disclosure of transfers of assets and liabilities between Levels 1 and 2 of the fair value hierarchy and disclosure of activities, on a gross basis, including purchases, sales, issuances, and settlements in the reconciliation of the assets and liabilities measured under Level 3 of the fair value hierarchy. This standard also clarifies existing disclosure requirements on levels of disaggregation and disclosures about inputs and valuation techniques. ASU No. 2010-06 was effective for the Plan's year ended December 31, 2010, except for the disclosure requirements on Level 3 activity that will be effective for the Plan's year ending December 31, 2011. The adoption of this standard did not have a material impact on the Plan's financial statements.

Subsequent Events

Effective March 25, 2011, the Company amended the Plan to provide for an employer matching contribution of 50% on the first 3% of a participant's eligible compensation.

The Plan has evaluated subsequent events through the report date, October 11, 2011, the date the financial statements were available to be issued.

Note 2 - Assets Certified by Principal

Principal has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2010 and 2009, and the related income earned for the year ended December 31, 2010, as reflected in the accompanying financial statements and supplemental schedule of assets (held at end of year), are complete and accurate.

Note 2 - Assets Certified by Principal (continued)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the custodian as of December 31, 2010 and 2009, and for the year ended December 31, 2010, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

The fair value of investments greater than 5% of net assets available for benefits was as follows:

	December 31,				
	2010			2009	
Principal International Small-Cap Account	$ 875,615		$	571,250	
Principal Large-Cap S&P 500 Index Account	$ 678,858		$	546,940	
Principal Trust Target 2030 Fund	$ 578,312		$	-	*
T. Rowe Price Mid-Cap Growth Fund	$ 528,107		$	481,955	
Principal Mid-Cap Blend Fund	$ 472,562		$	272,687	*
Russell LifePoints Balanced Strategy Account	$ -	*	$	662,696	
American Century Ultra Investors Fund	$ 327,144	*	$	319,932	

* Indicates investments less than 5% of net assets available for benefits at respective date.

During the year ended December 31, 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

Pooled separate accounts	$ 769,564
Mutual funds	250,554
Unallocated insurance contracts	378
Net appreciation in fair value of investments	$ 1,020,496

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Note 3 - Fair Value Accounting (continued)

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2010 and 2009. The following assets are measured at fair value on a recurring basis.

Assets at fair value as of December 31, 2010, were as follows:

Total	$ 1,413,290	$ 4,051,645	$ 59,913	$ 5,524,848

The valuation technique used to measure the fair value of pooled separate accounts is based upon the publicly quoted pricing input which is used in determining the net asset value ("NAV") of the pooled separate accounts. The value of each pooled separate account is determined at the close of each business day based on fair value of the underlying assets, which can consist of a single mutual fund or multiple securities. The value of the account is expressed in units or NAV ("unit value"). The unit value is the dollar value of one unit and is determined at the close of each business day by dividing the fair value of the entire account by the total number of units in the account. Contributions to the account increase the number of units. Withdrawals from the account decrease the number of units. The increase or decrease in number of units is determined by dividing the amount of the contribution or withdrawal by the unit value for the day the transaction is made. The value of the participant's account on any day is determined by multiplying the number of units held by the unit value at the close of the business day. The pooled separate accounts have a variety of investment strategies as to provide a diversified menu of investment options with various levels of investment risk profiles. These options and their strategies are communicated to participants in various communications.

The valuation technique used to measure fair value of mutual funds is based upon quoted market prices.

Note 3 - Fair Value Accounting (continued)

The valuation technique used to measure fair value of the unallocated insurance contract is determined by Principal based on the amounts participants would receive if they were to withdraw or transfer funds prior to their maturity, market rates and current crediting rates, and contractual agreements with Principal. In general, the fair value of the unallocated insurance contract represents contract value, adjusted to reflect current market interest rates only, to the extent such market rates exceed crediting interest rates. Principal maintains the contributions in a general account which is credited with earnings and charged for withdrawals and administrative expenses.

There were no changes to the valuation techniques used during the period.

Level 3 Changes

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended December 31, 2010:

Fair value, beginning of year	$	59,913
Unrealized gains, relating to investments still held as of the reporting date		378
Purchases, issuances, and settlements, net		(5,904)
Ending balance	$	54,387

Note 4 - Income Taxes

On July 22, 2003, the IRS issued an opinion letter indicating that the prototype plan document adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan has not received an opinion letter specific to the Plan itself and has since been amended; however, the Plan administrator believes that the Plan is designed and is being operated in accordance with the applicable rules and regulations and is, therefore, exempt from federal income taxes under the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Note 7 - Party-in-Interest

Certain Plan investments are pooled separate accounts, money market funds, and an unallocated insurance contracts managed by Principal. Principal is the custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest, and are exempt from the prohibited transaction rules.
