Board of Trustees
Texas Steel Conversion, Inc. Employees' 401(k) Plan
Houston, Texas

We were engaged to audit the accompanying Statements of Net Assets Available for Benefits of the Texas Steel Conversion, Inc. Employees' 401(k) Plan (the Plan) as of December 31, 2010 and 2009, the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by American United Life Insurance Company, the asset custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the asset custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the asset custodian as of December 31, 2010 and 2009 and for the year ended December 31, 2010 that the information provided to the plan administrator by the asset custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the asset custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

## Note 1 - Plan Description

The following brief description of the Texas Steel Conversion, Inc. Employees' 401(k) Plan (the Plan) is provided for general information only. Participants should refer to the Plan document for more detailed information.

### General

The Plan is a defined contribution plan covering employees of Texas Steel Conversion, Inc. (the Company and plan administrator) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was adopted by the Company on October 1, 1990 and has been amended from time to time. Two officers of the Company serve as trustees for the Plan. American United Life Insurance Company (AUL) serves as the asset custodian of the Plan.

### Eligibility

The Plan is provided for all employees with the exception of leased employees and those covered by a collective bargaining agreement. Participation is available for eligible employees who are 21 years or older and who have completed one year of service with 1,000 hours of service. The Plan includes a savings feature designed to permit the employee and the Company to contribute to the Plan, allowable under Section 401(k) of the Internal Revenue Code (IRC).

### Contributions

Participants may contribute on a pre-tax basis from 1% to 100% of their compensation, as defined. Participant contributions may not exceed the dollar limits set by law. Participants who have attained age 50 prior to the end of the Plan year are eligible to make catch-up contributions. Effective January 1, 2010, the Plan was amended to provide for automatic enrollment. Upon the employee's satisfying the eligibility requirements, employee contributions are automatically withheld at 3% of employee's compensation, as defined. Employees are notified of the automatic enrollment 30 days in advance of Plan entry date and are provided the opportunity to elect a different percentage or to opt out. Employees are fully vested at all times in their contributions.

The Company may make discretionary employer matching contributions. For the 2010 Plan year, the Company elected to make discretionary employer matching contributions equal to 15% of employee deferrals up to 12.5% of annual compensation, as defined. Only employees actively employed on the last day of the Plan year are eligible to receive an allocation of the discretionary employer match.

### Participant Accounts

Upon enrollment in the Plan, a participant may direct the asset custodian with regard to the investment of his or her account balances and may change their investment options daily. Each participant's account is credited with the participant's contribution, an allocation of the Company's matching contribution, and Plan investment earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

### Vesting

Participants are 100% vested at all time in their contributions plus actual earnings thereon. A participant's interest in the contributions made by the Company begins vesting at 20% after two years of service, increasing 20% each year thereafter, with the participant 100% vested after six years. Participants become 100% vested upon death or disability.

### Payment of Benefits

Distributions may be made to participants upon termination of employment, retirement, death or disability. In-service withdrawals are permitted for active participants who have reached the age of 59½ or normal retirement age, as defined. Additionally, hardship withdrawals are available for active participants, subject to hardship rules within the Plan document. Upon termination, participants with an account balance of $5,000 or less shall receive an automatic lump-sum distribution from the Plan. Withdrawals from the Plan may be subject to federal income tax on contributions and income earned.

### Forfeitures

Forfeitures attributable to discretionary employer matching contributions may be used to pay administrative expenses of the Plan or to reduce future discretionary employer matching contributions. As of December 31, 2010 and 2009, the forfeitures balance was $69,063 and $52,652, respectively. For the year ended December 31, 2010, no forfeitures were used to pay administrative expenses or to reduce employer contributions.

### Notes Receivable from Participants

Notes receivable from participants are loans to participants secured by the vested portion of their accounts as prescribed in the Plan document. Loans bear interest at a rate commensurate with local prevailing rates at commercial lending institutions at the date of issuance. A participant may not have more than one loan outstanding at any time. Loans issued are no less than $1,000, with a maximum value limited to the lesser of $50,000 or one-half of the participant's vested account balance. Principal and interest is repaid ratably through payroll deductions. Loan terms are limited to five years unless for the purchase of a principal residence which could then be extended to fifteen years.

## Note 2 - Summary of Significant Accounting Policies

### Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for fully benefit-responsive investment contracts because it is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the AUL Fixed Fund, a fully benefit-responsive group annuity contract. As further discussed in Note 6 - Group Annuity Contract with Insurance Company, contract value approximates fair value.

### Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Net appreciation in fair value of investments includes realized gains (losses) on investments sold during the year as well as appreciation (depreciation) of the investments held at the end of the year.

### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest, with no allowance from credit losses, as the notes are collateralized by the participants' account balances. Generally, a default shall occur when a participant fails to remit payments by the end of the repayment grace period under the loan program. Loans in default are treated as distributions based upon the terms of the Plan document when a distributable event has occurred.

### Benefit Payments

Benefits are recorded when paid.

### Administrative Expenses

Unless paid by the Company, administrative costs are paid by the Plan.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

### Risks and Uncertainties

The Plan provides for investment in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and may impact participants' account balances and the amounts reported in the financial statements.

### Reclassifications

Notes receivable from participants were reclassified from investments to other assets in the 2009 financial statements to conform to the reporting format for 2010.

### New Accounting Standard

The Financial Accounting Standards Board (FASB) has issued new accounting guidance that requires purchases, sales, settlements to be presented gross in the footnote disclosure of the changes in Level 3 investments. This guidance is effective for fiscal years beginning after December 15, 2010, with early adoption permitted. Since this new guidance only amends the disclosure requirements, it will not have any impact on the Statements of Net Assets Available for Benefits or the Statement of Changes in Net Assets Available for Benefits.

### Subsequent Events

The plan administrator evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 5, 2011, which is the date the financial statements were available to be issued.

## Note 3 - Information Certified by the Asset Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained a certification from the asset custodian of the Plan that all of the information provided is complete and accurate. Information included in the accompanying financial statements and accompanying notes to financial statements as to investments, notes receivable from participants, investment income, interest income on notes receivable from participants, and all the related information in the supplemental schedule of assets held (at end of year) is presented in reliance solely upon this certification.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements, supplemental schedule, and accompanying notes.

## Note 4 - Fair Value Measurements

The FASB *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

*Pooled Separate Accounts*: These funds are valued at their net asset value (NAV) as determined by the issuer based upon the market values of the underlying investments, when available.

*Group Annuity Contract*: This fund is valued at contract value which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

| | Investments at Fair Value as of December 31, 2010 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |

| Total investments at fair value | | $ 1,403,884 | $ 2,272,277 | $ 3,676,161 |

There were no signification transfers between Level 2 and Level 3 investments during the year ended December 31, 2010.

In accordance with the fair value measurements and disclosure guidance, the following information is provided for the pooled separate accounts that calculate NAV as of December 31, 2010 and 2009:

(a) The strategy of the balanced funds is to consider the risk and return potential of each asset class and invest a percentage of assets in both stocks and bonds, along with a small amount in stable value investments for liquidity, focusing on long-term growth of capital and preservation of capital.

(b) The strategy of the bond funds is to provide returns and current income, while still considering the growth of capital.

(c) The strategy of the large-cap funds is to seek long-term growth of capital by investing primarily in equity securities and is generally less risk than the mid-cap or small-cap funds.

(d) The strategy of the mid-cap funds is to seek long-term capital appreciation with potential for greater long-term growth and risk than the large-cap funds.

(e) The strategy of the small-cap funds is to seek long-term capital appreciation while providing greater long-term growth and risk than the large-cap or mid-cap funds.

(f) The strategy of the international/global funds is to provide investors with potential long-term growth of capital while diversifying their portfolios with a spread of security types.

(g) The strategy of the target date funds is to achieve as high of a total return on an annual basis as is considered consistent with prudent investment risk and the preservation of capital by investing in a combination of mutual funds, stocks, and bonds using an asset allocation strategy designed for investors expecting to retire around a specific target date.

(h) The strategy of the specialty fund is to seek high total investment return through a combination of capital appreciation and current income.

With the exception of the Fixed Fund which is further discussed in Note 6, the pooled separate accounts are valued on a daily basis and can be redeemed immediately at the stated NAV, but may take up to 30 days if there is negative cash flow. As of December 31, 2010 and 2009, there are no unfunded commitments.

### Summary of Level 3 Changes

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2010:

| | Level 3 Assets |
|---|---|
| | Guaranteed Annuity Contract |
| Balance, beginning of year | $ 2,272,277 |
| Purchases, sales, issuances and settlements, net | 53,887 |
| Balance, end of year | $ 2,326,164 |

### Note 5 - Investments

The following presents investments that represent 5% or more of the Plan's net assets:

| | |
|---|---|
| **2010:** | |
| AUL Fixed Fund (contract value $2,326,164) | $ 2,326,164 |
| OneAmerica Value Portfolio | 226,702 |
| OneAmerica Asset Director Portfolio | 287,099 |
| **2009:** | |
| AUL Fixed Fund (contract value $2,272,277) | $ 2,272,277 |
| OneAmerica Value Portfolio | 194,327 |
| OneAmerica Asset Director Portfolio | 244,860 |

## Note 6 - Group Annuity Contract with Insurance Company

The Plan has a fully benefit-responsive group annuity contract with AUL. AUL maintains the contributions in an unallocated contract account. The account is credited with actual earnings on the underlying investments and charged for plan withdrawals and administrative expenses. AUL is contractually obligated to repay the principal and a specified interest rate is guaranteed to the Plan.

As described in Note 2, because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. Contract value, as reported to the Plan by AUL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Amounts allocated to the AUL Fixed Fund earn interest at the higher of the rate guaranteed under the contract or the current rates established and declared by AUL prior to each calendar quarter. The interest rate is reviewed on an annual basis for resetting.

Certain events may limit the ability of the Plan to transact at contract value with AUL. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The average yields for the group annuity contracts as of December 31, 2010 and 2009 are as follows:

| | **2010** | 2009 |
|---|---|---|
| Based on actual earnings | **4.20%** | 4.55% |
| Based on interest rate credited to participants | **4.20%** | 4.55% |

## Note 7 - Tax Status

As of January 1, 2008, the Plan adopted a prototype plan document which received a favorable determination letter on March 31, 2008 from the Internal Revenue Service (IRS), exempting it from federal income tax. The Plan has been amended since receiving the determination letter. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The prior three tax years are subject to income tax examinations by taxing authorities.

## Note 8 - Parties-in-Interest Transactions

Plan investments include shares of pooled separate accounts and a group annuity contract issued and managed by AUL. Therefore, the Plan's investment transactions in these funds qualify as party-in-interest transactions. These transactions are covered by an exemption from "prohibited transaction" provisions of ERISA and the IRC.

## Note 9 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.
