NOTE 1--DESCRIPTION OF PLAN

The following description of the Vistage Worldwide, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General : The Plan, which was adopted on October 1, 2004, is a defined contribution plan covering substantially all employees of Vistage Worldwide, Inc. (the Company). On January 1, 2010, the Plan was amended to allow employees of Bizmore, Inc. to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions : Participant salary reduction contributions: Participants may contribute up to 80% of pretax annual compensation, as defined by the Plan. Employees are automatically enrolled in the Plan upon meeting eligibility requirements unless affirmatively elected otherwise at a rate of 6% of pretax annual compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Such contributions are 100% vested and non-forfeitable. Participant contributions are subject to certain limitations.

Employer discretionary matching contributions: The Company may make matching contributions in an amount equal to the percentage declared by the 401(k) Plan Committee based on the deferral contribution made by each participant during each pay period, as defined by the Plan. These contributions are subject to overall employer contribution limits and additions to individual participant account limits. Each participant will be vested in their employer discretionary matching contributions per the vesting schedule.

Employer discretionary additional matching contributions: The Company may make an additional matching contribution if the discretionary match calculated on an annual basis is greater than the amount contributed. The additional match shall be calculated based on deferral contributions made by each participant and pay for the Plan year. The percentage determined must be equal to or greater than the percentage declared by the 401(k) Plan Committee for the employer discretionary matching contribution. These contributions are subject to overall employer contribution limits and additions to individual participant account limits. Each participant will be vested in their employer discretionary additional matching contributions per the vesting schedule. Participants must be actively employed on the last day of the Plan year to receive an additional matching contribution.

The 401(k) Plan Committee approved a total matching contribution of 50% of each employee's deferral up to 6% of eligible compensation for the 2010 Plan year. Total employer matching contributions amounted to $283,352, for the Plan year ended December 31, 2010.

NOTE 1--DESCRIPTION OF PLAN (Continued)

Contributions (continued) : Employer qualified non-elective contributions: The Company may make contributions in the same proportion that each eligible participant's compensation for such plan years bears to the total compensation of all eligible participants for such plan year. These contributions are subject to overall employer contribution limits and additions to individual participant account limits. Each participant will be vested in their employer qualified non-elective contributions per the vesting schedule. Participants must be actively employed on the last day of the Plan year and be non-highly compensated employees to be eligible to share in the employer qualified non-elective contribution. The Company has not made an employer qualified non-elective contribution for the year ended December 31, 2010.

Employer discretionary profit-sharing contributions: The Company may make a profit-sharing contribution to the Plan. The contributions would be allocated to participants accounts in the same ratio as the participant's compensation bears to total compensation of eligible participants. These contributions are subject to overall employer contribution limits and additions to individual participant account limits. Each participant will be vested in their employer discretionary profit-sharing contributions per the vesting schedule. Participants must be actively employed on the last day of the Plan year to be eligible for employer discretionary profit-sharing contributions. The Company has not made discretionary profit-sharing contributions for the year ended December 31, 2010.

Participant rollover contributions: The Plan allows participants to make rollover contributions from a qualified plan. Such contributions are 100% vested and nonforfeitable.

Eligibility to participate : Employees who have reached age eighteen and completed thirty days of service are eligible to participate in the Plan as of the next succeeding entry date.

Forfeitures : At December 31, 2010 and 2009, forfeited nonvested accounts held by the Plan totaled $0 and $1,294. These accounts will be used first to pay administrative expenses of the Plan and then to reduce future employer contributions. During 2010, forfeited nonvested accounts totaling $18,054 were used to reduce employer contributions and $1,397 were used to pay administrative expenses.

Notes receivable from participants : Participants may borrow from their fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.00%, which approximate current market conditions.

NOTE 1--DESCRIPTION OF PLAN (Continued)

Participant accounts : Upon enrollment in the Plan, a participant directs contributions in any of the available investment options. Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's salary reduction and rollover contributions, employer discretionary matching contributions, employer discretionary additional matching contributions, qualified non-elective contributions and an allocation of the employer's discretionary profit-sharing contribution and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant's compensation or account balances, as defined by the Plan. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account. All investments are directed by plan participants.

Payment of benefits : A participant's vested account balance becomes distributable upon termination of service due to disability, retirement or death. Upon severance of employment for other than disability, retirement or death, benefits are paid to employees based on the amount allocated to their account multiplied by the vesting percentage at the time of termination. The participant or beneficiary will be paid in a lump sum. The distribution shall be made to the participant or beneficiary in accordance with the election of the participant. Participants may defer receiving these benefits until their normal retirement age if their vested account balance exceeds $5,000.

Participants may also elect to withdraw in cash certain vested amounts within the deferred contribution account to the extent necessary to meet a financial hardship, in accordance with the regulations and rulings of the Internal Revenue Code. After a withdrawal, a stipulated period of time must lapse, as defined by the Plan, before a participant can make additional deferred contributions.

Vesting : Participants are immediately vested in their rollover and participant salary reduction contributions plus actual earnings thereon. Vesting in the remainder of their accounts (employer discretionary matching, employer discretionary additional matching, employer discretionary profit-sharing and qualified non-elective matching contributions) is based on years of continuous service. Accrued benefits vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	25%
2	50%
3 or more	100%

For vesting purposes, a year of service is defined as the total of an employee's countable periods of service without regard to hours of service.

Participants become fully vested upon termination for reason of retirement, death or disability, or if the Plan is terminated. Nonvested benefits are forfeited by participants upon termination for reasons other than normal retirement, death or disability.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting	:	The financial statements of the Plan are presented on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.
Administrative expenses	:	All administrative, accounting, legal and audit services of the Plan not offset by forfeitures are provided by the Company at no cost, or paid by the Company.
Estimates	:	The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.
Investment valuation and income recognition	:	Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.
Notes receivable from participants	:	Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Principal and interest are paid ratably through payroll deductions. At December 31, 2010 and 2009, all such notes receivable, which are administered and collected by the custodian, were current and reflected no defaults. Delinquent participant loans are reclassified as distribution based upon the terms of the plan document.
Payment of benefits	:	Benefits are recorded when paid.
Reclassification	:	Certain prior year balances have been reclassified to agree to current year presentation.
Subsequent events	:	The Plan has evaluated subsequent events through September 15, 2011, the date the financial statements were available to be issued.

Net change in fair value	$ 539,411

NOTE 5--FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy and a description of the valuation methodologies used for assets measured at fair value are described below:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Mutual funds are valued at the quoted net asset value of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in inactive markets, (c) inputs other than quoted prices that are observable for the asset or liability or (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Guaranteed investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5--FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

NOTE 6--INVESTMENT CONTRACT WITH INSURANCE COMPANY

Investment contracts held by a defined-contribution plan are required to be reported at fair value. The Plan has a benefit-responsive investment contract with Principal Life Insurance Company. Principal Life Insurance Company maintains the contributions in a guaranteed investment contract. The account is credited with earnings on the underlying investment and is charged for Plan withdrawals and administrative expenses by Principal Life Insurance Company. The investment is included in the financial statements at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses) because the contract is considered fully benefit-responsive. Net assets available for benefits shall reflect the contract value for this investment contract because participants are guaranteed return of principal and accrued interest. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2010 and 2009 were $672,830 and $592,271, respectively. The average yields were approximately 2.92% and 3.61% for the years ended December 31, 2010 and 2009. The crediting interest rates were approximately 3.00% and 3.13% for the years ended December 31, 2010 and 2009. The crediting interest rate is based on an agreed upon formula with the issuer, and are reviewed on an annual basis for resetting.

NOTE 6--INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer, such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger
with another plan), (2) changes to the Plan's prohibition on competing investment options or deleting of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestiture or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemptions under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 7--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 8--TAX STATUS

As of December 31, 2010, an IRS determination letter has not been obtained for the Plan instrument as adopted, but an IRS "prototype" opinion letter dated March 31, 2008 has been obtained by Principal Life Insurance Company, the service provider, regarding the original plan document. Although the Plan has been amended since receiving the IRS "prototype" opinion letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, plan management believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Department of Labor (DOL) Employee Benefits Security Administration (EBSA). The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine income tax examinations by taxing jurisdiction; however, there are currently no income tax examinations for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9--PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds and guaranteed investment contracts managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 10--RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
