Note 1. DESCRIPTION OF PLAN

The following description of the Falcon Trading Company, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Falcon Trading Company, Inc. (the "Company") who are age twenty-one and older, work over 1,000 hours and have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible employees may elect to defer from 1% to 100% of their pre-tax annual compensation as defined in the Plan, up to a maximum amount allowable, not to exceed $16,500 ($22,000 if over 50 years of age) in 2010 and 2009. The Company can match and make discretionary payments to the Plan at the option of the Board of Directors.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and actual earnings thereon. Vesting in the Company's contribution portion of their account plus actual earnings thereon is based on years of continuous services. A participant is 100 percent vested after six years of credit service.

Note 1. DESCRIPTION OF PLAN (Continued)

Vesting (Continued)

Years of Vesting Service	Percent Invested
Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six years or more	100%

Participant Loans

Participants may borrow from their vested account balances a minimum of $1,000, up to a maximum of $50,000, or 50 percent of their vested account balance, whichever is less. The $50,000 maximum amount will be reduced by the participants highest outstanding loan balance in the previous twelve months, even if the amounts have been repaid. In addition, a participant may have no more than one loan outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest throughout the term of the loan at the prime rate of interest charged by a federally licensed bank as of the date of the loan, plus 1%, until otherwise determined by the Company. Interest rates on outstanding loans as of December 31, 2010 ranged between 4% and 8.25%. Principal and interest are paid ratably through periodic payroll deductions.

Payment of Benefits

Upon termination of service for death, disability, or retirement, a participant will be 100% vested in their account and the participant or his/her beneficiary may elect to receive the balance as a lump-sum distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his/her account as a lump-sum distribution or delay withdrawal until a future date.

Administrative Expenses

Investment management fees and other fees related to investments of the Plan are paid from the earnings of the Plan's investments. All other expenses relating to the operation of the Plan are paid by the Company.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

Preparing the Plan's financial statements in conformity with accounting principals generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants

Participant loans are valued at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments are recorded when paid.

Forfeitures

At December 31, 2010 and 2009, unallocated non-vested accounts totaled $562 and $1,456, respectively. Forfeitures are allocated to participant accounts.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level or uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Reclassification

Certain reclassification has been made to the 2009 Statement of Net Assets Available for Benefits to conform to 2010 presentation. This reclassification had no effect on the 2009 Change in Net Assets Available for Benefits.

Note 3. INVESTMENTS

The following investments represent 5% or more of the Plan's net assets at fair value at December 31, 2010 and 2009:

	2010	2009
Multimanager Multi-Sector	$ 978,397	$ 804,552
Equitable Life Assurance Society of the United States	731,417	473,903
Common Stock Index	344,687	287,796
Neuberger & Berman Socially Responsive Trust	285,409	184,220
AXA Moderate Allocation Port	176,459	148,973
Money Market Portfolio	--	215,163
	$ 2,516,369	$ 2,114,607

Note 4. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or 3 inputs were available to the Plan.

Level 1: The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Note 4. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

December 31, 2010

	Level 1	Total
Investments, at fair value:		
Pooled separate accounts	$ 2,439,932	$ 2,439,932
Insurance company - guaranteed interest account	731,417	731,417
Total investments	$ 3,171,349	$ 3,171,349

December 31, 2009

	Level 1	Total
Investments, at fair value:		
Pooled separate accounts	$ 2,044,927	$ 2,044,927
Insurance company - guaranteed interest account	473,903	473,903
Total investments	$ 2,518,830	$ 2,518,830

Note 5. CERTIFIED INFORMATION

The financial information included in the Plan's financial statements as it relates to investment assets, investment transactions, investment income, and the schedule of assets (held at end of year) have been derived from information certified as complete and accurate by AXA Equitable Life Insurance Company, the custodian of the Plan, in accordance with Section 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974.

Note 6. PARTY-IN-INTEREST TRANSACTIONS

AXA Equitable is the custodian of the Plan and, as such, is a party-in-interest. The purchase by the Plan of certain proprietary funds sponsored by AXA Equitable constitutes party-in-interest transactions, which are allowable transactions under the ERISA regulations. Fees paid by the Plan to AXA Equitable for investment management services amounted to $868 and $762 for the years ended December 31, 2010 and 2009, respectively.

Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation and financial reporting of the Plan. The Company pays these individuals salaries and also pays other administrative expense on behalf of the Plan. Certain fees, to the extent not paid by the Company, are paid by the Plan.

These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory and administrative exemptions from the Code and ERISA's rules on prohibited transactions.

Note 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 8. TAX STATUS

The Plan adopted a Prototype Standardized Profit Sharing Plan with a cash or deferral arrangement that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008. This letter stated the form of the Plan was acceptable under the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Financial Accounting Standards Board (FASB) issued guidance that clarifies the accounting for uncertainty in income taxes recognized in the Plan's financial statements. In addition, the guidance prescribes a comprehensive model for recognizing, measuring, presenting, and disclosing in the financial statements tax positions taken or expected to be taken on a tax return, including positions that the Plan is not subject to income taxes. In addition, it provides guidance on de-recognition, classification, interest and penalties, accounting for interim periods, disclosure, and transition. Only tax positions that meet the more likely than not recognition threshold at the effective date may be recognized upon adoption of guidance.

As of December 31, 2010, the Company has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan's tax years 2008 through 2010 remain open and could be subject to examination by tax jurisdictions.

Note 9. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a variable annuity contract with AXA Equitable ("the Issuer") which included a Guaranteed Interest Accounts (GIO). The Issuer maintains contributions to these accounts in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Issuer is contractually obligated to repay the principal to the Plan and the Plan has the right to earn interest at a rate that is periodically declared. The GIO does not provide for a defined maturity date.

Because participant withdrawls from the GIO are not subject to any marked value adjustment the contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIO.

Note 9. INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Contract value, as reported to the Plan by AXA Equitable, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value of the Guaranteed Interest Accounts at December 31, 2010 and 2009 was $731,417, and $473,903, respectively. The average yield and crediting interest rates for these accounts in 2010 and 2009 were 2.50%.

Note 10. SUBSEQUENT EVENTS

The Plan's management has evaluated subsequent events through September 28, 2011 the date of issuance of the financial statements.
