World Link 401(k) Plan
Plan 001; EIN # 52-2100203
Frisco, Texas

We were engaged to audit the financial statements of World Link 401(k) Plan (the Plan) as of and for the year ended December 31, 2010 and the supplemental schedules, as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note I, which was certified by State Street Bank and Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee as of and for the year December 31, 2010, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The accompanying 2009 Statement of Net Assets Available for Benefits of World Link 401(k) Plan was compiled by us. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements. Accordingly, we do not express an opinion or provide any assurance about whether this financial statement is in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements
December 31, 2010 and 2009

Note A – Description of plan

WorldLink, Inc. established the World Link 401(k) Plan effective January 1, 2007. The following description of the World Link 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution prototype plan covering all full-time employees of the Company who are not contractors or seasonal temporary employees and who have one hour of service. Enrollment is permitted on the first day of the month following the completion of the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to the lesser of 90% or $16,500 of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan automatically defers 3% for all eligible participants that do not make an affirmative deferral election.

Company contribution. The Company may elect to contribute and allocate to each eligible participant's account a percentage of the participant's elective deferral. Matching contributions, if any, are determined as of the end of the Plan Year. During the plan years ending December 31, 2010 and 2009 no matching contributions occurred.

Rollovers. Participants may also contribute amounts representing distributions from other eligible retirement plans. Contributions are subject to certain limitations. All contributions are paid in cash.

Participant accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), (c) cost of investment management expenses, transactional costs and service charges. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant notes receivable. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participants' account and bear interest at prime rate plus 2%. Loan payments are required to be remitted through payroll deductions.

Payment of benefits. On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount in cash or as a rollover equal to the value of the participant's vested interest in his or her account.

Note A – Description of plan (continued)

Investment options. Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options. Participants may change their investment options as often as they choose through the internet.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of vesting service, as follows.

Year of Participation	Percent Vested
Less than 2 Years	0
2 Years	20
3 Years	40
4 Years	60
5 Years	80
6 Years or More	100

Years of vesting service are counted from the later of January 1, 2007 or date of hire. A year of vesting is the 12 month period beginning on date of hire. The method for crediting vesting service will be elapsed time.

Note B – Summary of significant accounting policies

Basis of accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment valuation and income recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note L for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Note B – Summary of significant accounting policies (continued)

Participant notes receivable. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Notes receivable are classified from investments pursuant to the Plan's adoption of Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 962-310-45-2.

Payment of benefits. Benefits are recorded when paid.

Withdrawals. Participants may make hardship withdrawals subject to certain restrictions In-service withdrawals of vested account balances are permitted for participants over age 59 1/2.

Forfeitures. Forfeitures are held by the Plan to determine if amounts should be restored to terminated participants. Forfeitures may be used to pay administrative expenses or to reduce employer contributions. At December 31, 2010 and 2009 there were no forfeited nonvested accounts and no employer contributions were reduced from forfeited nonvested accounts.

Operating expenses. Operating expenses consist of fees for recordkeeping and other administrative services. Some fees are deducted from participant accounts in accordance with the Plan documents for services received. The Company pays a portion of the plan operating expenses each year.

Note C – Reconciliation of financial statements to form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31 to Form 5500:

	2010	2009 (unaudited)
Net assets available for benefits per the financial statements.	$ 1,139,899	$ 696,954
Excess contributions refund payable	10,890	5,953
Net assets available for benefits per the Form 5500	$ 1,150,789	$ 702,907

Note C – Reconciliation of financial statements to form 5500 (continued)

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2010:

Net increase in net assets available for benefits per the financial statements	$	442,945
Add:		
Excess contributions refund payable at December 31, 2010		10,890
Less:		
Excess contributions refund payable at December 31, 2009		(5,953)
Net increase in net assets available for benefits per the Form 5500	$	447,882

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, but not yet paid as of that date.

Note D – Tax status

WorldLink, Inc. adopted a prototype plan provided by Automatic Data Processing. The IRS has informed ADP Inc. by opinion letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Code. The Plan administrator has analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note E – Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note F – Risk/uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note G - Excess deferrals

For the plan years ending December 31, 2010 and 2009, the Plan failed the nondiscrimination test performed in accordance with the applicable provisions of Section 401(k) and 401(m) of the Internal Revenue Code. Consequently, contributions in the amount of $10,890 and $5,953 respectively, were deferred for reimbursement in the subsequent year.

Note H – Related party transactions

Certain Plan investments are shares of mutual funds managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the Trustee as defined in the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounts to $2,685 for the year ended December 31, 2010.

Note I – Information certified by the plan's trustee

Plan assets are held by State Street Bank and Trust Company, the Trustee. The Trustee holds the Plan's investment assets and executes investment transactions in accordance with the Plan documents. The information provided by the Trustee is certified as complete and accurate in accordance with 29 CF 2520.103-5c of the Department of Labor's Rules and Regulations for Reporting and disclosure under Employee Retirement Income Security Act of 1974. The Trustee's certification covers all information as shown below, and the supplemental schedules.

	Year ended December 31, 2010
Interest with registered investment companies	$ 1,126,690
Interest with common/collective trusts	18,017
Participant notes receivable	6,082
	$ 1,150,789

For the year ended December 31, 2010, the net appreciation in fair value of investments was $124,101 and the net appreciation in common/collective trust was $148. Interest income was $173 and dividend income was $14,862 for the year ended December 31, 2010.

The plan's independent auditors did not perform audit procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note J – Common/collective investment trusts

The SSgA Stable Value Fund was formed by State Street Bank and Trust Company ("State Street Bank") under the ADP/State Street Collective Trust (the "ADP Collective Trust").

State Street Bank is Trustee, Custodian, and Recordkeeper of the Fund and has exclusive management and control of the ADP Collective Trust. State Street Global Advisors ("SSgA"), a division of State Street Bank, is the Fund's investment manager. ADP, Inc. and its affiliates ("ADP") provide access to the funds to ADP's recordkeeping clients, and also provide recordkeeping, asset servicing, sub-accounting and communication services. The investment objective of the Fund shall be to seek preservation of principal while seeking a rate of return which, over time, is competitive with rates of return earned over an extended period of time by comparable fixed income investment products. The Fund provides its unitholders with a medium for collective investment and reinvestment in one or more bank, insurance company or synthetic investment contracts, and in short-term investments or other collective investment funds. The underlying collective investment funds (the "Underlying Funds") may use various investment strategies in addition to holding long portfolio positions, including TBA purchase and sale commitments and repurchase agreements. Refer to the financial statements of the

Note J – Common/collective investment trusts (continued)

Underlying Funds, which are available upon request from the Trustee, for disclosure of its accounting policies and investment holdings.

The Fund has a divided interest in the State Street Bank and Trust Company Stable Fixed Income Fund for Employee Benefit Trusts, a collective trust managed by SSgA. SSgA Stable Value Fund applies the provisions of FASB ASC Sections 946-210-45 through 946-210-55 for stable value investment funds.

Investments in bank, insurance company and other financial institution investment contracts ("GICs"), if any, are stated at contract value which is equal to principal balance plus accrued interest.

The fair value of traditional GICs is determined using an income approach where the individual contract cash flows are discounted at the prevailing interpolated swap rate as of year-end.

Synthetic investment contracts represent individual assets placed in a trust, with ownership by the Fund; a third party issues a wrapper that provides that unitholder transactions are executed at contract value.

As of January 2011 the Fund's unitholder transferred its investment contracts to a third party investment manager.

There are several risks specific to investment contracts. One of the primary risks involved is credit risk of the contract issuer. Credit risk for security-backed contracts includes risks arising from the potential inability of the issuer to meet the terms of the contract wrapper and the potential default of the underlying fixed-income securities. Secondly, liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest rate risk is also present because rates may be fixed with these products.

The Fund maintains investment contracts issued by insurance companies, banks and other financial institutions as required by the Declaration of Trust. The issuing institution's ability to meet its contractual obligations under the respective contracts may be affected by future economic and regulatory developments in the insurance and banking industries.

The average yield earned by the Fund at December 31, 2010 was 1.1%. This was computed by dividing the annualized one-day earnings of the Fund on December 31, 2010 by the fair value of investments on December 31, 2010.

The yield earned by the Fund with an adjustment to reflect the actual interest rate credited to unitholders in the Fund at December 31, 2010 was 1.85%. This was computed by dividing the annualized one-day earning credited to unitholders on December 31, 2010 by the fair value of investments on December 31, 2010.

Note K – Investments

Investments that individually represented 5% or more of the Plan's assets are separately identified as follows:

	December 31	
	2010	2009 (unaudited)
Investments at fair value as determined by quoted market price:		
T. Rowe Price Retirement 2040-R	$ 330,704	$ 231,661
T. Rowe Price Retirement 2030-R	192,109	93,848
T. Rowe Price Retirement 2010-R	153,346	60,757
T. Rowe Price Retirement 2020-R	106,410	57,185
Thornburg Intl Value Fund - A	60,366	49,416
Invesco Developing Markets A	56,405	45,729

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in 2010 as follows:

Aggressive Growth	$ 21,619
Growth	12,895
Growth & Income	90,101
Other	(514)
	$ 124,101

All investments of the Plan are participant-directed.

Note L – Fair value measurements

The carrying values of various financial instruments, such as excess contribution payable, approximate their fair value due to their short maturity.

The authoritative accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note L – Fair value measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common/Collective trust funds: Valued at fair value. (see Note J for further description)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010.

	Level 1	Level 2	Level 3	Total
Mutual funds				
Aggressive Growth	$ 152,545	$	$	$ 152,545
Growth	129,900			129,900
Growth & Income	789,322			789,322

Total assets at fair				
value	$ 1,126,690	$ 18,017	$ 0	$ 1,144,707

Note L – Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009.

	Level 1	Level 2	Level 3	Total
Mutual funds				
Aggressive Growth	$ 113,972	$	$	$ 113,972
Growth	87,535			87,535

Common/collective				0
investment trusts		8,868		8,868
Total assets at fair value	$ 692,413	$ 8,868	$ 0	$ 701,281

Gains and losses (realized and unrealized) included in changes in net assets available for Plan benefits for the year ended December 31, 2010 and 2009 are reported in net appreciation in fair value of investments and net appreciation in common/collective trust.

Note M – Date of management's review

Plan management reviewed its operations and transactions occurring since December 31, 2010 through September 27, 2011, the date of which the financial statements were issued, and did not identify any subsequent events.
