Independent Auditor's Report

To the Plan Administrator
CR&R Incorporated Profit Sharing
and Employee Savings Plan
Stanton, CA

We were engaged to audit the accompanying statements of net assets available for benefits of CR&R Incorporated Profit Sharing and Employee Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedules of assets (held at end of year) and delinquent participant contributions. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the CR&R Incorporated Profit Sharing and Employee Savings Plan (the Plan) is provided for general information purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: Adopted October 1977, the Plan is a defined-contribution plan covering all full-time employees of CR&R Incorporated, CR Transfer, Inc., Solag Incorporated, Haulaway Storage Containers, Inc., R.B. Containers, Inc. and Park Avenue (collectively, the Company) who are 21 years of age and have six months of service, except those employees who are covered under a collective bargaining agreement, or are nonresident aliens or independent contractors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants' contributions are made to the Plan by means of a salary deferral agreement, under which participants are entitled to defer up to 100 percent of their compensation up to a fixed amount determined annually by the Internal Revenue Service (IRS). The Company, at its option, may make discretionary matching contributions. For the year ended December 31, 2010, the Company matched participant contributions at a rate of 50 percent of the participants' deferrals up to a maximum of 4 percent of each participant's compensation. For the year ended December 31, 2010, discretionary employer matching contributions of $372,363 were contributed to the Plan, of which $7,049 was applied from forfeitures. In addition, the Company, at its option, may contribute a portion of its profits. For the year ended December 31, 2010, no discretionary profit sharing contributions were allocated to the Plan.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution, (b) the Company's discretionary profit sharing contribution, (c) Plan earnings and (d) Plan expenses. Allocations are based upon participant wages, earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his/her account.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50 percent of their vested account balance or $50,000. The loans are secured by the vested balance in the participant's account and bear interest at rates commensurate with prevailing rates. Principal and interest must be amortized on a level basis and are to be repaid within five years, unless the loan proceeds are used to acquire a principal residence, in which case the repayment period may be extended. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Participants are vested in the allocation of the Company's contributions based on hours of service method, where a year of vesting service is credited for 1,000 hours of service during the Plan year. A participant becomes 20 percent vested after two years of service. Participants then vest 20 percent each year thereafter and are 100 percent vested after the sixth year of service. Participants become 100 percent vested upon death or disability.

Forfeitures: Forfeited amounts from terminated participants' unvested account balances may be used to offset Company matching contributions otherwise payable for the Plan year in which the forfeitures arise and for Plan expenses. During the year ended December 31, 2010, $7,049 of forfeitures were used to offset Company contributions and $6,656 of forfeitures were used to pay Plan expenses. Unapplied forfeitures as of December 31, 2010 or 2009 was $80 and $0, respectively.

Note 1. Plan Description (Continued)

Payment of benefits: On termination of service due to death, disability, retirement or other reasons, a participant (or designated beneficiary) may elect to receive a lump-sum amount or installments equal to the value of the participant's vested interest in his or her account.

Participant investment options: Participants must direct their contributions from salary deferrals and their allocated share of employer contributions into investment options as made available and determined by the Plan Administrator, which are more fully described in the Plan's literature.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Fair value measurements: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Shares of registered investment companies are valued at quoted market prices. The common/collective trust fund invests mainly in synthetic and traditional guaranteed investment contracts (GICs) and pooled accounts. The underlying GICs are valued based on the present value of the contract's expected cash flows, discounted at current market interest rates for likely quantity and duration investments. The securities supporting the synthetic GICs are valued by independent pricing sources. The fair value of the wrap contracts is determined by the trustee based on the change in present value of the contract's expected cash flows, discounted at current market rates. Investments in guaranteed insurance contracts are stated at estimated fair value. The guaranteed investment contract is a single annuity contract with a fixed rate of interest, which resets on a semiannual basis. The fair value represents the contract value less a 5 percent withdrawal charge, which is the value the participant would receive for this investment contract.

Note 2. Significant Accounting Policies (Continued)

As described in the Investment Companies—Balance Sheet Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. In particular, the standard affects the presentation of the amounts related to the Plan's participation in the common collective trust fund and the guaranteed investment contract. As required, the statements of net assets available for benefits present the fair value of the investment contracts as well as adjustments from fair value to contract value for fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued daily. Dividends are recorded on the ex-dividend date. In the statement of changes in net assets available for benefits, the Plan presents the net appreciation (depreciation) in fair value of its investments, which consists of the realized gains or losses and unrealized appreciation or depreciation on those investments.

Use of estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Risks and uncertainties: The Plan's participants invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent events: The Plan was amended effective January 17, 2011, to add a ROTH funding option. The Plan Administrator has evaluated subsequent events through October 13, 2011, the date the financial statements were available to be issued.

New accounting pronouncements: In September 2010, the FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (Accounting Standards Update 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

Note 2. Significant Accounting Policies (Continued)

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. This adoption resulted in a reclassification of participant loans totaling $902,567 from investments to notes receivable as of December 31, 2009. There was no impact to the net assets as of December 31, 2010 or 2009 as a result of the adoption.

In January 2010, the FASB issued an update to the Accounting Standards Codification which requires an entity to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements, and describe the reasons for the transfers. Also, it requires additional disclosure regarding purchases, sales, issuances and settlements of Level 3 measurements. The update is effective for interim and annual periods beginning after December 15, 2009, except for the additional disclosure of Level 3 measurements, which is effective for fiscal years beginning after December 15, 2010. The Company does not expect the adoption of this standard to have a material impact on the Plan's financial statements.

Note 3. Information Certified or Provided by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (Principal)

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules.

Note 3. Information Certified or Provided by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (Continued)

The following presents the value of participant-directed Plan's assets, certified by Principal, as noted below. Investments that represent 5 percent or more of the net assets available for benefits as of December 31 are separately identified.

Note 3. Information Certified or Provided by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (Continued)

Fair value of investments in certain entities that calculate net asset value (NAV) per share or its equivalent: The fair value for the common/collective trust fund investment options has been estimated using the NAV per share of the underlying investments. The fund's investment objective is to preserve invested principal while providing a competitive rate of return. The fund is invested primarily in GICs, money market funds, money market instruments, repurchase agreements, private placements, bank investment contracts and synthetic GICs. The fund operates within a weighted-average maturity range selected by the trustee from time to time. Investments in this fund can be redeemed daily after a 30-day redemption notice period. As of December 31, 2010, there was no significant unfunded commitment.

In 2010 the Plan entered into a benefit-responsive guaranteed investment contract with Principal. Principal maintains the Plan's deposits in unallocated funds, to which it adds interest at the contract rate, which is 2.85 percent at December 31, 2010. Deposits into the contract are guaranteed the contract minimum rate of return and are reported as fair value. The weighted-average interest rate earned by the Plan and credited to the participants was 3.19 percent for the year ended December 31, 2010. Investments in this category can be redeemed daily at the stated contract value. A surrender charge of 5 percent will be assessed on all transfers by Plan Sponsor in excess of 10 percent.

Note 4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, so that each participant receives 100 percent of his or her account balance as of the date of the termination.

Note 5. Tax Status

Effective August 2009, the Plan adopted a nonstandardized form of a prototype plan sponsored by Principal Life Insurance Company. The prototype plan has received an opinion letter from the IRS dated March 31, 2008 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 6. Administration of Plan Assets

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Company may pay some administrative expenses of the Plan. Certain other administrative expenses for the Plan are paid directly by the Plan.

Note 7. Related-Party Transactions

Certain Plan investments are shares of registered investment companies, common/collective trusts and insurance contracts managed by Principal Financial Group. Principal, a member of Principal Financial Group, is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid $21,595 to Principal for administrative services for the year ended December 31, 2010.

Note 8. Reconciliation of Differences Between These Financial Statements and the Financial Information Required on Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 for the years ended December 31:
