EASTBAY EQUITIES, INC. 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DESCRIPTION OF PLAN

The following description of the EastBay Equities, Inc. (Company) 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan commenced on January 1, 2000 and is a defined contribution plan covering eligible employees of the Company.

Eligibility – Eligible employees must be at least 21 years of age and have completed one year of service, as defined in the Plan document. Employees may participate in the Plan on the first day of the month immediately following completion of the age and service requirements. The Plan document defines a year of service as a 12-month period in which the employee works a minimum of 1,000 hours. The first eligibility service period starts on the employee's first day of employment with the Company. After the first 12-month eligibility service period, the Plan measures the employee's eligibility service period on a Plan year basis.

Contributions – Eligible participants may contribute up to 50% of their eligible compensation to the Plan, not to exceed the maximum allowed by the Internal Revenue Service. The Company makes matching contributions to the Plan equal to 50% of employee salary deferrals up to a maximum of $1,000, plus any additional discretionary contributions.

Discretionary Company contributions are determined by the Board of Directors on a year-to-year basis. The Company made no discretionary contribution for the 2010 or 2009 Plan years.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Employee deferral contributions are fully vested when contributed. Matching and discretionary contributions become fully vested over a period of six years of service as follows.

Years of Service	Vesting Schedule
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Investment options – Upon enrollment in the Plan, a participant may direct employee and employer contributions to be invested into various funds offered by the Plan. Investments in these funds do not have guaranteed income or principal. Participants may change their deferral percentages at any time, and may change their investment options by contacting the third party administrator directly, or through accessing the third party administrator's internet site.

DESCRIPTION OF PLAN *(continued)*

Participant loans – Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Such loans are secured by the balances in the participants' accounts and bear interest at rates ranging from 7% to 10% which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are repaid through participant payroll deductions. Interest is recognized with each payment received. Unpaid loans for terminated employees are considered deemed distributions.

Forfeitures – At December 31, 2010 and 2009, there were no forfeited nonvested accounts. Forfeited nonvested accounts are used to offset future Company matching contributions. During 2010 and 2009, employer matching contributions were offset by $1,088 and $0, respectively, from forfeited nonvested accounts.

Payment of benefits – Upon a participant's termination of employment, death or disability, the participant (or the participant's beneficiary in the event of death) may elect to receive a lump sum distribution equal to the value of his or her account, or equal installment payments over the period of the life expectancy of the participant or the life expectancy of the participant and a designated beneficiary.

Additionally, the Plan allows participants to make withdrawals on account for financial hardship.

SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

Basis of accounting – The annual financial statements of the Plan are prepared using the accrual method of accounting.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

Financial instruments – Financial instruments included in the Plan's statements of net assets available for benefits include investments and receivables. For receivables, the carrying amounts represent a reasonable estimate of the corresponding fair values. Investments are reflected in the accompanying statements of net assets available for benefits at their estimated fair values using methodologies described below.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Fair value measurements – The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The three-level hierarchy for fair value measurements is defined as follows:

Level 1 – Valuation is based on observable inputs using quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 – Valuation is based on inputs from sources other than quoted prices in active markets that are either directly or indirectly observable as of the reporting date. This may include quoted prices for similar assets in an active market, quoted prices for similar assets in a market that is not active, or valuation methods using models, interest rates and yield curves as observable inputs.

Level 3 – Valuation is based on unobservable inputs for the assets or liabilities, reflecting the Plan's assumptions that a market participant would use in pricing the asset or liability, to the extent that observable inputs (Levels 1 and 2) are not available. Level 3 assets and liabilities include situations where there is little or no market activity for the assets or liabilities, and significant management judgment or estimates are required.

Investments consist of mutual funds, interest bearing cash and common/collective trusts. Mutual funds and interest bearing cash are classified as Level 1 of the fair value hierarchy because they are valued using quoted market prices, broker dealer quotations or alternative pricing sources with reasonable levels of price transparency. Common/collective trusts are classified as Level 2 because they are valued using quoted prices for similar assets in an active market.

While the Plan believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at reporting date. Those estimated values may differ significantly from the values that would have been used had a readily available market for such assets and liabilities existed, or had such assets and liabilities been liquidated, and these differences could be material to the financial statements.

Payment of benefits – Benefits are recognized when paid to participants.

Administrative expenses – The Company has elected to pay Plan administrative expenses.

Reclassifications – Certain prior year amounts have been reclassified to conform with current year financial statement presentation.

NOTES TO FINANCIAL STATEMENTS

TAX STATUS

The Company has adopted a prototype plan which received a favorable opinion letter from the Internal Revenue Service dated November 5, 2001. The letter stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The prototype plan has been amended since receiving the determination letter, however, the Company believes the Plan is currently designed and operating in compliance with applicable requirements of the IRC and is exempt from federal income taxes.

The Plan has adopted authoritative guidance on accounting for uncertainty in income taxes, which defines a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. As a result of the adoption, the Plan did not identify any uncertain tax positions that qualify for either recognition or disclosure in the financial statements

The Plan files informational returns in the U.S. federal jurisdiction. With few exceptions, the Plan is no longer subject to U.S. federal tax examinations by tax authorities for years before 2007.

NOTES TO FINANCIAL STATEMENTS

PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by State Street Bank & Trust Company. State Street Bank & Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Investment management fees are paid to the Trustee by the Company.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of termination, the full value of each participant's account shall, to the extent funded, be fully vested on the date of such termination.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events for potential recognition and/or disclosure through September 28, 2011, the date which the financial statements were available to be issued. No such events exist.
