We were engaged to audit the financial statements and supplemental schedule of Country Life, LLC 401(k) Plan (the "Plan") as of December 31, 2010 and 2009, and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by ING Institutional Plan Services, LLC (the "Agent"), as agent for Reliance Trust Company, the trustee and custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained certifications from the Agent, as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the Agent is complete and accurate, to the best of their knowledge.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Agent of the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Year Ended December 31, 2010

1. Description of the Plan

The following description of the Country Life, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan covers employees of KI NutriCare, Inc., whose subsidiaries include Country Life, LLC and Allergy Research Group, LLC (collectively, the "Company").

General - The Plan was adopted on February 1, 1998 and is a defined contribution plan under Section 401(k) of the Internal Revenue Code ("IRC") covering all employees of the Company upon entry date and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may contribute up to 92% of their annual compensation, as defined in the Plan, or the applicable dollar amount up to the annual IRC dollar limit of $16,500. Participants may also transfer to their accounts amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investments of their contributions into various investment options by the Plan. Under the Plan, the Company may elect to make a matching contribution of an employee's elective deferral. The Company made contributions to the Plan of $121,043 for the year ended December 31, 2010.

A participant age 50 or older, who has reached the annual IRC limit or the Plan's maximum contribution for the year, can make an additional salary deferral catch-up contribution. The additional amount for 2010 was $5,500.

Participant accounts - Each participant's account is credited with the participant's contribution, allocation of the Company's contributions, if any, for that individual, and an allocation of the Plan's earnings. Investment income by fund is allocated to individual accounts based on the proportion each account bears to the total of all account balances with the fund which earned the income. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately vested in their contributions and rollover accounts plus actual earnings thereon. Vesting in the Company's matching portion of their accounts plus actual earnings thereon is 20% per year. A participant is 100% vested after five years of credited service.

Investment options - The custodian and trustee of the Plan, Reliance Trust Company, is responsible for maintaining Plan assets and disbursing funds in accordance with the provisions of the Plan. Recordkeeping is performed by ING Institutional Plan Services, LLC.

Participants may direct their accounts to be invested in one or more funds permitted by the Plan, with the Plan's investment options consisting of nine equity security funds, five debt and equity security funds, five bond funds, a stable asset fund, and a money market fund.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance minus a participant's highest loan amount during the prior 12 months. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans. Loan terms range from one to five years for regular loans and the Plan administrator can extend a loan term beyond five years for loans used to purchase a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with prevailing rates as determined by the Plan administrator. The annual interest rate on the loans is based on the prime rate with principal and interest paid ratably through payroll deductions.

Payment of benefits - Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive, based on the account balance, as defined by the Plan, a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeitures - Forfeitures of terminated participants' nonvested accounts, as defined by the Plan, are retained by the trustee and are used to pay any administrative expenses and any remaining amounts are used to reduce Company contributions. Forfeitures totaled approximately $7,600 during 2010. No forfeitures were used to pay administrative expenses or reduce Company contributions in 2010. Forfeitures and earnings thereon available to pay administrative expenses and to reduce Company contributions totaled approximately $30,600 and $22,900 as of December 31, 2010 and 2009, respectively.

Plan amendment - As of March 23, 2010, the Plan has implemented a modification to the Plan document regarding eligibility. Previously, employees had to work for a period of six months in order to enroll into the Plan on the first day of the next quarterly period. As a result of the amendment to the Plan document, employees will now become eligible to participate in the Plan on their first day of employment, and their contribution election will generally be effective on the first day of the calendar month following the date the election is made. Employees are required to complete six months of service in order to be eligible to receive the employer match.

2. Summary of Significant Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Notes receivable from participants are valued at cost, which approximates fair value.

Security transactions - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Principally all Plan expenses are paid by the Company, except with respect to investment charges, which are allocated directly to participants.

Stable value asset fund - As described in the authoritative guidance, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the statement of net assets available for benefits presents the fair value of the investment contracts, as well as, the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Subsequent events - The Plan has evaluated subsequent events through September 29, 2011, the date the financial statements were available to be issued, for inclusion or disclosure in the financial statements.

5. Fair Value Measurements

The authoritative provisions of fair value measurements establishes a framework for measuring fair value for the Plan's financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

The following table presents information about the Plan's assets that are measured at fair value on a recurring basis as of December 31, 2010 and 2009, and indicates the fair value hierarchy of the valuation techniques the Plan utilized to determine such fair value:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from and corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements

Year Ended December 31, 2010

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009:

Mutual funds - Valued at the net asset value ("NAV") of shares held by the Plan at year end, which are based on the fair market value of the underlying securities or investments in the funds.

Stable value asset fund - Valued at the contracts' proportionate share of the fair value of the underlying separate accounts, which are invested in various bond funds comprised of varying yields, investment grades and maturity dates, all of which are valued at the fair market value of the underlying securities or investments in the funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Tax Status

The prototype plan sponsor obtained an opinion letter dated June 5, 2002, in which the Internal Revenue Service stated that the restated prototype plan document was in compliance with the applicable sections of the IRC. The Plan has since been amended. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2007.

8. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Investment Contract with Insurance Company

The Plan has an investment in a stable value asset fund that is a benefit-responsive investment contract with Metropolitan Life Insurance Company ("MetLife"). MetLife maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MetLife, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $430,581 and $295,359, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract permits the insurance company to terminate the agreement prior to the scheduled maturity date, with the payment equal to the lesser of the guaranteed value or the fair value at that point in time.

Average Yields	**2010**	2009
Based on Actual Earnings	**5.42%**	12.28%
Based on Interest Rate Credited to Participants	**3.13%**	3.23%

10. Subsequent Event

Effective October 1, 2011, the Plan has changed the service provider, custodian, and trustee from ING Institutional Plan Services, LLC, as agent for Reliance Trust Company, the trustee of the Plan, to Fidelity Management Trust Company.
