THE ARGEN CORPORATION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF THE PLAN

Description of Plan

The following description of The Argen Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) retirement plan previously established as of January 1, 1993 and restated on January 1, 2002 to provide retirement benefits for substantially all employees of The Argen Corporation (the "Company" or "Employer"). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (the "Code") and similar state tax laws.

The Plan's trustee is DWS Trust Company (the "Trustee") and the third party administrator is Automatic Data Processing.

Eligibility

The Plan covers all employees of the Company who have attained age twenty-one and those that are eligible for Company benefits after three months of service. The enrollment date following eligibility is the first day of each month as defined in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions

Each year, participants may contribute from 1% to 100% of their compensation on a pretax basis, as defined in the Plan, up to the annual limit allowed by the Code. Effective January 1, 2002, employees may also elect a catch-up contribution up to the Internal Revenue Service limit if they are over fifty years of age.

Employer Contributions

The Employer may make an annual discretionary matching and nonelective contribution in an amount determined at the end of the prior Plan year end. Participants are eligible for Employer contributions upon eligible enrollment into the Plan. For the year ended December 31, 2010, the Employer made discretionary matching contributions of 33% up to a maximum of $950 per participant. There were no nonelective contributions for the year ended December 31, 2010. Employer contributions are made on a pay period-by-pay period basis.

Rollover Contributions

The Plan provides for rollover contributions, which represents contributions by participants from other tax-qualified retirement plans. The maximum amount of a participant's rollover contribution is not affected by the limits otherwise applicable to participant contributions.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Participant Accounts

Separate accounts are maintained for each participant. Each participant's account is credited with the participant's voluntary contribution; the Employer's matching contribution, if any, and the participant's share in the Plan's earnings and losses. Plan earnings and losses are allocated proportionately based on each participant's investment in each fund. The benefit to which a participant is entitled to is the benefit that can be provided from their participant account.

Vesting

Participants are 100% vested in their contributions to the Plan plus actual earnings thereon. Participants become fully vested in the Company's contributions and earnings thereon at a rate of 20% vesting after 2 years of credited service, 40% vesting after 3 years of credited service, 60% vesting after 4 years of credited service, 80% vesting after 5 years of credited service and 100% vesting after 6 years of credited service. A participant automatically becomes fully vested in the entire balance of his or her account upon retirement, death, disability or termination of the Plan.

Forfeited Accounts

Upon termination of employment, the unvested portion of a participant's Employer contribution account is forfeited. Amounts representing forfeitures of Employer matching contributions shall be used to pay administrative expenses and reduce Employer contributions to the Plan. Amounts representing forfeitures of Employer nonelective contributions will be allocated as additional contributions. At December 31, 2010, there were no forfeited nonvested accounts. At December 31, 2009, forfeited novested accounts totaled $2,049, which was used during 2010 to pay administrative expenses.

Notes Receivable from Participants

Participants may request to borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans have a term of up to 5 years for general loans. As of July 1, 2009, loans have a term of up to 15 years for the purchase of a primary residence. The loans are secured by the balance of the participant's account and bear interest at rates set forth by the Plan administrator which approximate the prevailing market rates of interest. As of both December 31, 2010 and 2009, the interest rates on outstanding participant loans ranged from 4.25% to 9.25%.

Payment of Benefits

Participants are entitled to a distribution from their accounts at retirement, termination, death, hardship or upon incurring permanent disability. Such distributions will be made in a single lump sum payment equal to the value of the participant's vested interest in his or her account. A participant may elect to receive the distribution directly (less applicable withholding taxes) or to rollover the distribution to another retirement plan or an Individual Retirement Account ("IRA"). In 2009, the Plan was amended to make mandatory distributions of $5,000 following severance from employment, including rollover distribution if it exceeds $1,000 as defined in the Plan document.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Hardship Withdrawals

Participants may withdraw their vested contributions in the event of hardship as defined in the Plan agreement. If a hardship withdrawal is made, all voluntary employee contributions to the Plan must be suspended for 6 months.

Administrative Expenses

The Company pays expenses incurred for the administration and operation of the Plan. Other administrative fees associated with distributions and loans are paid by the participants. For the year ended December 31, 2010, administrative expenses paid by the Plan was $1,981.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their Employer contribution accounts. In the event of Plan termination, all amounts credited to accounts of participants shall be paid to each participant in accordance with the Plan agreement.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New Accounting Pronouncement

The Plan adopted Accounting Standards Update ("ASU") No. 2010-06, *Fair Value Measurements and Disclosures: Improving Disclosures about Fair Value Measurements*, which amends Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") No. 820 that requires the reporting entity to disclose additional information on: (i) significant transfers in and out of Levels 1 and 2 measurements and reasons for the transfers; (ii) Level 3 gross purchases, sales, issuances, and settlements information; (iii) measurement disclosures by classes of assets and liabilities; and (iv) a description of the valuation techniques and inputs used to measure fair value is required for both recurring and nonrecurring fair value measurements. ASU No. 2010-06 is effective for reporting periods beginning after December 15, 2009, except for the requirement to provide Level 1 and 2 activities, which will be effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years. Accordingly, the Plan has prospectively applied this standard for 2010.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

New Accounting Pronouncement (continued)

The Plan also adopted ASU No. 2010-25 *Plan Accounting-Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*, which clarifies how loans to participants should be classified and measured by participant defined contribution pension benefit plans. Loans are required to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. Accordingly, the Plan has retrospectively applied this standard for the years presented.

Investment Valuation

Investments in the Plan are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability between market participants at the measurement date in accordance with FASB ASC No. 820, *Fair Value Measurements and Disclosure*. FASB ASC No. 820 provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC No. 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access for assets. (Examples include NYSE, NASDAQ, etc.).

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. (Examples include matrix pricing utilizing yield curves, prepayment speeds, credit risks, etc.; quoted prices for similar assets in active markets; and inputs derived from observable market data by correlation or other means.)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement inputs, which contain assumptions by the party valuing those assets. For level 3 inputs, there is no market data or correlations with market assumptions. (Examples would include independent valuations of limited partnership interests, closely held stock, etc.)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used needed to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

> Money market fund and mutual funds – Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation or depreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments bought and sold during the year.

Earnings Recognition

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefits Due to Terminated Participants

Funds due to employees that have terminated employment, but have not yet been distributed are not presented as liabilities in the net assets available for plan benefits. They are reflected in the statements of changes in net assets available for plan benefits when paid. As of December 31, 2010 and 2009, there were no amounts payable to the Plan participants.

Reclassification

Certain amounts related to prior year's presentation on the statements of net assets available for benefits have been reclassified to conform to current year's presentation.

NOTE 3 - INFORMATION CERTIFIED BY THE TRUSTEE

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA, certain information prepared and certified by a trustee need not be audited or reported on by an independent public accountant. Pursuant to that regulation, the Plan administrator has instructed the independent auditors not to perform any auditing procedures with respect to information certified by the Trustee, DWS Trust Company, as of December 31, 2010 and 2009 and for the year ended December 31, 2010. All Plan assets are held by the Plan's Trustee, who is responsible for the maintenance of all accounting records and the preparation of reports of activity related to those assets. The Trustee has certified to the Plan administrator that this information is accurate and complete.

Mutual funds	$ 639,224
Total net appreciation in fair value	$ 639,224

NOTE 5 - PARTY-IN-INTEREST

Certain Plan investments are shares of money market fund and mutual funds managed by DWS Trust Company. DWS Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 6 - FAIR VALUE MEASUREMENTS

The following summarizes the classification of investments by classification and method of valuation, within the fair value hierarchy, in accordance with the requirements of FASB ASC No. 820 as described in Note 2 as of December 31, 2010 and 2009:

Mutual funds	5,591,539	5,591,539	-
Total	$ 6,869,971	$ 5,591,539	$ 1,278,432

NOTE 7 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 - TAX STATUS

The Plan has received its determination letter from the Internal Revenue Service dated October 5, 2005 indicating that the Plan, as then designed, was in compliance with the applicable requirements of the Code and therefore exempt from federal income taxes under Section 501(a) of the Code. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code, and the Plan was qualified and the related trust was tax exempt as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2006.

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:

Change in net assets available for benefits per the Form 5500	$ 1,404,877
