THE PROVIDENCE SERVICE CORPORATION
RETIREMENT SAVINGS PLAN
Notes to Financial Statements
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of The Providence Service Corporation Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering regular employees of The Providence Service Corporation and adopting employers (collectively the "Company") that have completed two months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In April 2009, the Plan was restated in its entirety effective as of January 1, 2007. The restated plan was subsequently amended in December 2009 to comply with recent tax law changes and to constitute the mergers of two other defined contribution plans into the Plan effective January 1, 2010 (see Note 9).

Contributions - Each year, participants may contribute, on a pre-tax or post-tax basis, up to 90% of their eligible compensation, as defined in the Plan. New employees are automatically enrolled in the Plan at a deferral percentage of 3% on the first day of the month that immediately follows or is coincident with completion of the eligibility requirements. Total contributions in any taxable year may not exceed a dollar limit which is set by law. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty three mutual funds as investment options for participants.

The Company may, at its discretion, make employer profit sharing or matching contributions. A participant must have completed one year of service and be actively employed on the last day of the Plan year to be allocated an employer profit sharing contribution. No profit sharing contributions were made in 2010. There is no service requirement for a participant to receive a matching contribution. For 2010, the Company contributed 10% of each participant's total contributions up to \$400.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions (if any) and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant vests in 20% increments in his or her company contribution account after each additional year of credited service. A participant is 100% vested in his or her company contribution account after five years of credited service.

Notes Receivable - Participants - Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. Only one loan may be outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at the rate of prime plus 1% on the date of the loan. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - On termination of service due to death, disability, retirement or separation, a participant with a vested account balance of over \$5,000 may elect to receive either a lump-sum equal to the value of the participant's vested balance in his or her account, or substantially equal installments. Terminated participants with vested account balances of \$5,000 or less are required to take a distribution as promptly as possible following his/her termination of employment.

Forfeited Accounts - At December 31, 2010 and 2009, forfeited non-vested accounts totaled \$7,401 and \$5,658, respectively. These accounts will be used to reduce future employer contributions. Also, in 2010, employer contributions were reduced by \$64,798 from forfeited nonvested accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review - Subsequent events were evaluated through October 12, 2011, which is the date the financial statements were available to be issued.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain administrative expenses of the Plan are paid directly by the Company. Administrative expenses totaling \$60,250 were paid in 2010 to ADP, Inc., a party in interest.

Reclassifications - Certain reclassifications have been made to the 2009 financial statement presentation to correspond to the current year's format. Total net assets available for benefits and change in net assets are unchanged due to these reclassifications.

NOTE 3 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

Investment information included in the accompanying financial statements and supplemental schedule, including \$22,322,279 and \$15,652,077 in investments held at December 31, 2010 and 2009, respectively, and investment income of \$2,226,800 for the year ended December 31 2010, was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

NOTE 4 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value for its mutual funds. As of December 31, 2010 and 2009, the Plan had no investments whose fair value was measured using Level 2 or Level 3 inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2010, are reported in net appreciation in fair value of investments.

In the event of Plan termination, participants would become 100% vested in their company contributions.

NOTE 7 - TAX STATUS

The Plan obtained its latest determination letter on March 18, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
