INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Thompson & Johnson Equipment Co., Inc.
Profit Sharing and Retirement Plan:

We were engaged to audit the financial statements of Thompson & Johnson Equipment Co., Inc. Profit Sharing and Retirement Plan as of December 31, 2010 and 2009, and for the years then ended and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 6, which was certified by Prudential Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THOMPSON & JOHNSON EQUIPMENT CO., INC.
PROFIT SHARING AND RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of the Plan

The following description of the Thompson & Johnson Equipment Co., Inc. (Company) Profit Sharing and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company. Employees become eligible to participate in the Plan upon completion of six months of service with the Company. After meeting the service requirement, employees can enter the Plan on the first day of the month coinciding with or next following the date on which the employee satisfies the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan, up to the maximum allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans. Newly hired employees are automatically enrolled in the Plan upon reaching eligibility at a contribution level of one percent of pre-tax compensation. Newly hired employees may also make an affirmative election to not participate in the Plan.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a guaranteed income fund and various pooled separate accounts as investment options for participants. The Company may elect to make a discretionary matching contribution to the Plan on behalf of each participant equal to the percent declared for the contribution period as determined by the board of directors of the Company. The Company can also elect to make additional discretionary profit sharing contributions to the Plan as determined by the board of directors of the Company. These contributions are invested in a guaranteed income fund and are able to be allocated subsequently at the participants' discretion. Discretionary employer profit sharing contributions are allocated to the individual accounts of eligible participants in the ratio of each eligible participant's compensation, as defined, for the plan year to the total compensation of all eligible participants for that plan year. Total discretionary employer profit sharing contributions amounted to $90,000 and $35,000 for the years ended December 31, 2010 and 2009, respectively. Contributions are subject to certain limitations.

(Continued)

(1) Description of the Plan, Continued

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contributions vest at a rate of twenty percent per year beginning with the second year of service with the participant becoming fully vested after six years of service. Participants become immediately vested if the participant reaches age 65 while employed by the Company.

(e) Payment of Benefits

Upon termination of service, a participant will receive a lump-sum distribution equal to the value of the participant's vested balance. A participant may, however, upon the attainment of age 59½, elect to receive a pre-retirement distribution while remaining in the service of the Company. Participants with balances that exceed $5,000 may defer receiving lump-sump payments upon termination until a distribution is required to be made.

(f) Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled $4,800 and $7,848, respectively. The Plan's forfeited non-vested accounts are used to reduce future employer matching contributions. During 2010 and 2009, $10,463 and $11,859, respectively, of forfeitures were used to reduce employer contributions.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. For the guaranteed income fund offered under the Plan, there are no cash flows that could be discounted and there is no penalty to exit the investment option at any time. As such, fair value is equal to contract value.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(Continued)

(2) Summary of Significant Accounting Policies, Continued

(e) Plan Expenses

Certain investment management fees are netted with investment income. Participants who make withdrawals from the Plan incur a processing fee for each distribution taken. These fees are charged directly to the individual participant's accounts. All other administrative expenses are paid by the Company.

(f) Subsequent Events

The Plan has evaluated subsequent events through October 11, 2011, the date the financial statements were available to be issued.

(3) Investments

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31:

	2010		2009	
	Number of shares/units	Fair value	Number of shares/units	Fair value
Prudential Guaranteed Income Fund	71,577	$2,028,956	78,133	$2,140,535
Davis NY Venture Fund	8,850	328,029	8,568	283,746
Oakmark Equity & Income Fund	15,271	561,483	14,181	476,614
Prudential Large Cap Value/LSV Asset Management Fund	18,639	308,306	18,195	267,654

(Continued)

(4) Investment Contract with Insurance Company

The Plan has a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant's withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by PRIAC. As described in note 2(a), because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

PRIAC prospectively guarantees the interest rates credited for the PRIAC Guaranteed Income Fund for six months. The guaranteed interest rate is determined by Prudential Financial, the parent company of PRIAC. Prudential Financial determines the guaranteed rate of interest based on its projected investment earnings, the current interest environment, its investment expenses, and a profit and risk component for the six-month period.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment at December 31, 2010 and 2009 is equal to contact value and was $2,028,956 and $2,140,535, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5 percent. Such interest rates are reviewed semi-annually for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

(Continued)

(4) Investment Contract with Insurance Company, Continued

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2010	2009
Average yields:		
Based on actual earnings	3.40%	3.50%
Based on interest rate credited to participants	3.40%	3.50%

(5) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(Continued)

(5) Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Units of pooled separate accounts are valued at fair value as determined by Prudential Retirement Insurance and Annuity Company based on the fair market value of the underlying investments, which are shares of mutual funds.

Guaranteed Income Fund: Valued at contract value, which approximates fair value. The contract is not exchange-traded and therefore has been classified as a level 3 investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at fair value as of December 31, 2010		
	Level 2	Level 3	Total
Guaranteed income fund	$ -	2,028,956	2,028,956
Pooled separate accounts:			
Value	974,098	-	974,098
Blend	464,804	-	464,804
Retirement goal	353,598	-	353,598
Fixed income	200,993	-	200,993
Growth	78,612	-	78,612
Total pooled separate accounts	2,072,105	-	2,072,105
Total assets at fair value	$ 2,072,105	2,028,956	4,101,061

(Continued)

(5) Fair Value Measurements, Continued

	Assets at fair value as of December 31, 2009		
	Level 2	Level 3	Total
Guaranteed income fund	$ -	2,140,535	2,140,535
Pooled separate accounts:			
Value	822,980	-	822,980
Blend	401,772	-	401,772
Retirement goal	256,959	-	256,959
Fixed income	162,544	-	162,544
Growth	63,985	-	63,985
Total pooled separate accounts	1,708,240	2,140,535	1,708,240
Total assets at fair value	$ 1,708,240	2,140,535	3,848,775

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2010:

	Guaranteed interest account
Balance, beginning of year	$ 2,140,535
Interest income on guaranteed income fund	70,283
Purchases, sales, issuances and settlements (net)	(181,862)
Balance, end of year	$ 2,028,956

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no transfers in or out of levels 1, 2 or 3.

(Continued)

(6) Information Certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	December 31, 2010	December 31, 2009
Investments at fair value	$ 4,101,061	3,848,775

	Years ended December 31, 2010	Years ended December 31, 2009
Investment income:		
Net appreciation in fair value of investments	$ 210,356	333,570
Interest on guaranteed income fund	70,283	80,265
	$ 280,639	413,835

All information in the supplemental schedule 2 is presented solely upon those certifications.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(7) Related-Party Transactions

Certain Plan investments were managed by PRIAC, custodian, a wholly owned subsidiary of Prudential Financial. Prudential Bank & Trust Company, FSB, another wholly owned subsidiary of Prudential Financial, is the Trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions under ERISA. Fees paid by the Plan for investment management services amounted to approximately $10,000 for the years ended December 31, 2010 and 2009 and are included within the net appreciation in fair value of investments.

(Continued)

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their account balance.

(9) Tax Status

The Plan and trust have been established using a prototype plan designed and maintained by the plan's third-party trustee, in accordance with applicable requirements of the Internal Revenue Code (IRC). The prototype plan received a determination letter from the Internal Revenue Service dated March 31, 2008. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Thompson & Johnson Equipment Co., Inc.
Profit Sharing and Retirement Plan:

We were engaged to audit the financial statements of Thompson & Johnson Equipment Co., Inc. Profit Sharing and Retirement Plan as of December 31, 2010 and 2009, and for the years then ended and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 6, which was certified by Prudential Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THOMPSON & JOHNSON EQUIPMENT CO., INC.
PROFIT SHARING AND RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of the Plan

The following description of the Thompson & Johnson Equipment Co., Inc. (Company) Profit Sharing and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company. Employees become eligible to participate in the Plan upon completion of six months of service with the Company. After meeting the service requirement, employees can enter the Plan on the first day of the month coinciding with or next following the date on which the employee satisfies the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan, up to the maximum allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans. Newly hired employees are automatically enrolled in the Plan upon reaching eligibility at a contribution level of one percent of pre-tax compensation. Newly hired employees may also make an affirmative election to not participate in the Plan.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a guaranteed income fund and various pooled separate accounts as investment options for participants. The Company may elect to make a discretionary matching contribution to the Plan on behalf of each participant equal to the percent declared for the contribution period as determined by the board of directors of the Company. The Company can also elect to make additional discretionary profit sharing contributions to the Plan as determined by the board of directors of the Company. These contributions are invested in a guaranteed income fund and are able to be allocated subsequently at the participants' discretion. Discretionary employer profit sharing contributions are allocated to the individual accounts of eligible participants in the ratio of each eligible participant's compensation, as defined, for the plan year to the total compensation of all eligible participants for that plan year. Total discretionary employer profit sharing contributions amounted to $90,000 and $35,000 for the years ended December 31, 2010 and 2009, respectively. Contributions are subject to certain limitations.

(Continued)

(1) Description of the Plan, Continued

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contributions vest at a rate of twenty percent per year beginning with the second year of service with the participant becoming fully vested after six years of service. Participants become immediately vested if the participant reaches age 65 while employed by the Company.

(e) Payment of Benefits

Upon termination of service, a participant will receive a lump-sum distribution equal to the value of the participant's vested balance. A participant may, however, upon the attainment of age 59½, elect to receive a pre-retirement distribution while remaining in the service of the Company. Participants with balances that exceed $5,000 may defer receiving lump-sump payments upon termination until a distribution is required to be made.

(f) Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled $4,800 and $7,848, respectively. The Plan's forfeited non-vested accounts are used to reduce future employer matching contributions. During 2010 and 2009, $10,463 and $11,859, respectively, of forfeitures were used to reduce employer contributions.

(Continued)

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. For the guaranteed income fund offered under the Plan, there are no cash flows that could be discounted and there is no penalty to exit the investment option at any time. As such, fair value is equal to contract value.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(Continued)

(2) Summary of Significant Accounting Policies, Continued

(e) Plan Expenses

Certain investment management fees are netted with investment income. Participants who make withdrawals from the Plan incur a processing fee for each distribution taken. These fees are charged directly to the individual participant's accounts. All other administrative expenses are paid by the Company.

(f) Subsequent Events

The Plan has evaluated subsequent events through October 11, 2011, the date the financial statements were available to be issued.

(3) Investments

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31:

	2010		2009	
	Number of shares/units	Fair value	Number of shares/units	Fair value
Prudential Guaranteed Income Fund	71,577	$2,028,956	78,133	$2,140,535
Davis NY Venture Fund	8,850	328,029	8,568	283,746
Oakmark Equity & Income Fund	15,271	561,483	14,181	476,614
Prudential Large Cap Value/LSV Asset Management Fund	18,639	308,306	18,195	267,654

(Continued)

(4) Investment Contract with Insurance Company

The Plan has a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant's withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by PRIAC. As described in note 2(a), because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

PRIAC prospectively guarantees the interest rates credited for the PRIAC Guaranteed Income Fund for six months. The guaranteed interest rate is determined by Prudential Financial, the parent company of PRIAC. Prudential Financial determines the guaranteed rate of interest based on its projected investment earnings, the current interest environment, its investment expenses, and a profit and risk component for the six-month period.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment at December 31, 2010 and 2009 is equal to contact value and was $2,028,956 and $2,140,535, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5 percent. Such interest rates are reviewed semi-annually for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

(Continued)

(4) Investment Contract with Insurance Company, Continued

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2010	2009
Average yields:		
Based on actual earnings	3.40%	3.50%
Based on interest rate credited to participants	3.40%	3.50%

(5) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(Continued)

(5) Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Units of pooled separate accounts are valued at fair value as determined by Prudential Retirement Insurance and Annuity Company based on the fair market value of the underlying investments, which are shares of mutual funds.

Guaranteed Income Fund: Valued at contract value, which approximates fair value. The contract is not exchange-traded and therefore has been classified as a level 3 investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at fair value as of December 31, 2010		
	Level 2	Level 3	Total
Guaranteed income fund	$ -	2,028,956	2,028,956
Pooled separate accounts:			
Value	974,098	-	974,098
Blend	464,804	-	464,804
Retirement goal	353,598	-	353,598
Fixed income	200,993	-	200,993
Growth	78,612	-	78,612
Total pooled separate accounts	2,072,105	-	2,072,105
Total assets at fair value	$ 2,072,105	2,028,956	4,101,061

(Continued)

(5) Fair Value Measurements, Continued

	Assets at fair value as of December 31, 2009		
	Level 2	Level 3	Total
Guaranteed income fund	$ -	2,140,535	2,140,535
Pooled separate accounts:			
Value	822,980	-	822,980
Blend	401,772	-	401,772
Retirement goal	256,959	-	256,959
Fixed income	162,544	-	162,544
Growth	63,985	-	63,985
Total pooled separate accounts	1,708,240	2,140,535	1,708,240
Total assets at fair value	$ 1,708,240	2,140,535	3,848,775

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2010:

	Guaranteed interest account
Balance, beginning of year	$ 2,140,535
Interest income on guaranteed income fund	70,283
Purchases, sales, issuances and settlements (net)	(181,862)
Balance, end of year	$ 2,028,956

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no transfers in or out of levels 1, 2 or 3.

(Continued)

(6) Information Certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	December 31, 2010	December 31, 2009
Investments at fair value	$ 4,101,061	3,848,775

	Years ended December 31, 2010	Years ended December 31, 2009
Investment income:		
Net appreciation in fair value of investments	$ 210,356	333,570
Interest on guaranteed income fund	70,283	80,265
	$ 280,639	413,835

All information in the supplemental schedule 2 is presented solely upon those certifications.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(7) Related-Party Transactions

Certain Plan investments were managed by PRIAC, custodian, a wholly owned subsidiary of Prudential Financial. Prudential Bank & Trust Company, FSB, another wholly owned subsidiary of Prudential Financial, is the Trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions under ERISA. Fees paid by the Plan for investment management services amounted to approximately $10,000 for the years ended December 31, 2010 and 2009 and are included within the net appreciation in fair value of investments.

(Continued)

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their account balance.

(9) Tax Status

The Plan and trust have been established using a prototype plan designed and maintained by the plan's third-party trustee, in accordance with applicable requirements of the Internal Revenue Code (IRC). The prototype plan received a determination letter from the Internal Revenue Service dated March 31, 2008. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Thompson & Johnson Equipment Co., Inc.
Profit Sharing and Retirement Plan:

We were engaged to audit the financial statements of Thompson & Johnson Equipment Co., Inc. Profit Sharing and Retirement Plan as of December 31, 2010 and 2009, and for the years then ended and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 6, which was certified by Prudential Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THOMPSON & JOHNSON EQUIPMENT CO., INC.
PROFIT SHARING AND RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of the Plan

The following description of the Thompson & Johnson Equipment Co., Inc. (Company) Profit Sharing and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company. Employees become eligible to participate in the Plan upon completion of six months of service with the Company. After meeting the service requirement, employees can enter the Plan on the first day of the month coinciding with or next following the date on which the employee satisfies the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan, up to the maximum allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans. Newly hired employees are automatically enrolled in the Plan upon reaching eligibility at a contribution level of one percent of pre-tax compensation. Newly hired employees may also make an affirmative election to not participate in the Plan.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a guaranteed income fund and various pooled separate accounts as investment options for participants. The Company may elect to make a discretionary matching contribution to the Plan on behalf of each participant equal to the percent declared for the contribution period as determined by the board of directors of the Company. The Company can also elect to make additional discretionary profit sharing contributions to the Plan as determined by the board of directors of the Company. These contributions are invested in a guaranteed income fund and are able to be allocated subsequently at the participants' discretion. Discretionary employer profit sharing contributions are allocated to the individual accounts of eligible participants in the ratio of each eligible participant's compensation, as defined, for the plan year to the total compensation of all eligible participants for that plan year. Total discretionary employer profit sharing contributions amounted to $90,000 and $35,000 for the years ended December 31, 2010 and 2009, respectively. Contributions are subject to certain limitations.

(1) Description of the Plan, Continued

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contributions vest at a rate of twenty percent per year beginning with the second year of service with the participant becoming fully vested after six years of service. Participants become immediately vested if the participant reaches age 65 while employed by the Company.

(e) Payment of Benefits

Upon termination of service, a participant will receive a lump-sum distribution equal to the value of the participant's vested balance. A participant may, however, upon the attainment of age 59½, elect to receive a pre-retirement distribution while remaining in the service of the Company. Participants with balances that exceed $5,000 may defer receiving lump-sump payments upon termination until a distribution is required to be made.

(f) Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled $4,800 and $7,848, respectively. The Plan's forfeited non-vested accounts are used to reduce future employer matching contributions. During 2010 and 2009, $10,463 and $11,859, respectively, of forfeitures were used to reduce employer contributions.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. For the guaranteed income fund offered under the Plan, there are no cash flows that could be discounted and there is no penalty to exit the investment option at any time. As such, fair value is equal to contract value.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(2) Summary of Significant Accounting Policies, Continued

(e) Plan Expenses

Certain investment management fees are netted with investment income. Participants who make withdrawals from the Plan incur a processing fee for each distribution taken. These fees are charged directly to the individual participant's accounts. All other administrative expenses are paid by the Company.

(f) Subsequent Events

The Plan has evaluated subsequent events through October 11, 2011, the date the financial statements were available to be issued.

(3) Investments

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31:

	2010		2009	
	Number of shares/units	Fair value	Number of shares/units	Fair value
Prudential Guaranteed Income Fund	71,577	$2,028,956	78,133	$2,140,535
Davis NY Venture Fund	8,850	328,029	8,568	283,746
Oakmark Equity & Income Fund	15,271	561,483	14,181	476,614
Prudential Large Cap Value/LSV Asset Management Fund	18,639	308,306	18,195	267,654

(Continued)

(4) Investment Contract with Insurance Company

The Plan has a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant's withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by PRIAC. As described in note 2(a), because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

PRIAC prospectively guarantees the interest rates credited for the PRIAC Guaranteed Income Fund for six months. The guaranteed interest rate is determined by Prudential Financial, the parent company of PRIAC. Prudential Financial determines the guaranteed rate of interest based on its projected investment earnings, the current interest environment, its investment expenses, and a profit and risk component for the six-month period.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment at December 31, 2010 and 2009 is equal to contact value and was $2,028,956 and $2,140,535, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5 percent. Such interest rates are reviewed semi-annually for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

(Continued)

(4) Investment Contract with Insurance Company, Continued

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2010	2009
Average yields:		
Based on actual earnings	3.40%	3.50%
Based on interest rate credited to participants	3.40%	3.50%

(5) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(Continued)

(5) Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Units of pooled separate accounts are valued at fair value as determined by Prudential Retirement Insurance and Annuity Company based on the fair market value of the underlying investments, which are shares of mutual funds.

Guaranteed Income Fund: Valued at contract value, which approximates fair value. The contract is not exchange-traded and therefore has been classified as a level 3 investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at fair value as of December 31, 2010		
	Level 2	Level 3	Total
Guaranteed income fund	$ -	2,028,956	2,028,956
Pooled separate accounts:			
Value	974,098	-	974,098
Blend	464,804	-	464,804
Retirement goal	353,598	-	353,598
Fixed income	200,993	-	200,993
Growth	78,612	-	78,612
Total pooled separate accounts	2,072,105	-	2,072,105
Total assets at fair value	$ 2,072,105	2,028,956	4,101,061

(5) Fair Value Measurements, Continued

	Assets at fair value as of December 31, 2009		
	Level 2	Level 3	Total
Guaranteed income fund	$ -	2,140,535	2,140,535
Pooled separate accounts:			
Value	822,980	-	822,980
Blend	401,772	-	401,772
Retirement goal	256,959	-	256,959
Fixed income	162,544	-	162,544
Growth	63,985	-	63,985
Total pooled separate accounts	1,708,240	2,140,535	1,708,240
Total assets at fair value	$ 1,708,240	2,140,535	3,848,775

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2010:

	Guaranteed interest account
Balance, beginning of year	$ 2,140,535
Interest income on guaranteed income fund	70,283
Purchases, sales, issuances and settlements (net)	(181,862)
Balance, end of year	$ 2,028,956

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no transfers in or out of levels 1, 2 or 3.

(6) Information Certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	December 31, 2010	December 31, 2009
Investments at fair value	$ 4,101,061	3,848,775

	Years ended December 31, 2010	Years ended December 31, 2009
Investment income:		
Net appreciation in fair value of investments	$ 210,356	333,570
Interest on guaranteed income fund	70,283	80,265
	$ 280,639	413,835

All information in the supplemental schedule 2 is presented solely upon those certifications.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(7) Related-Party Transactions

Certain Plan investments were managed by PRIAC, custodian, a wholly owned subsidiary of Prudential Financial. Prudential Bank & Trust Company, FSB, another wholly owned subsidiary of Prudential Financial, is the Trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions under ERISA. Fees paid by the Plan for investment management services amounted to approximately $10,000 for the years ended December 31, 2010 and 2009 and are included within the net appreciation in fair value of investments.

(Continued)

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their account balance.

(9) Tax Status

The Plan and trust have been established using a prototype plan designed and maintained by the plan's third-party trustee, in accordance with applicable requirements of the Internal Revenue Code (IRC). The prototype plan received a determination letter from the Internal Revenue Service dated March 31, 2008. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
