INDEPENDENT AUDITORS' REPORT

Trustees of Julian Electric, Inc. Employee Savings and Retirement Plan
Westmont, Illinois

We were engaged to audit the accompanying statement of net assets available for benefits of Julian Electric, Inc. Employee Savings and Retirement Plan as of December 31, 2010 and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental schedules as of and for the year ended December 31, 2010 as listed in the accompanying table of contents. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by Transamerica Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2010 and 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the investments information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of Julian Electric, Inc. Employee Savings and Retirement Plan as of December 31, 2009, in accordance with the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits and , accordingly, do not express an opinion or any other form of assurance on it.

EMPLOYEE SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 1- DESCRIPTION OF PLAN

The following description of Julian Electric, Inc. Employee Savings and Retirement Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan which covers substantially all employees of Julian Electric, Inc. who have completed one year of service and are age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year participants may contribute from 1% to 100% of pretax annual compensation, up to a yearly maximum determined by the Internal Revenue Service, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Any discretionary matching contribution is determined by the Company's Board of Directors. Such contributions, if any, are allocated in accordance with the Plan. The Company elected not to make matching contributions in 2010. Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contribution, and an allocation of the Company's contribution, plan earnings, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the Company's contribution portion of their accounts plus actual earnings thereon over a six-year period at an increasing percentage based on years of service.

Loans to Participants: The Plan does not allow for loans to the participants.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits: Upon retirement, termination, disability or death a participant or beneficiary is entitled to receive a distribution of the participant's vested account balance in a single lump sum.

Forfeitures: A participant who terminates employment for any reason and has a vested interest in the Plan will forfeit any non-vested amounts. During 2010, $28 of forfeitures were released to offset the plan expenses. At December 31, 2010 and 2009, the forfeited non-vested accounts totaled $0 and $28, respectively.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with generally accepted accounting principles.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Valuation of Investments and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Operating Expenses: All expenses of maintaining the plan are paid for by the company.

Tax Status: The Plan has received a favorable determination letter from the Internal Revenue Service dated March 31, 2008 and is qualified for exemption from federal income taxes under Section 401(a) of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with all applicable requirements of the Internal Revenue Code.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax Status (Continued): In June 2006, the FASB issued Financial Interpretation 48, "Accounting for Uncertainty in Income Taxes" (FASB *Accounting Standard Codification* (ASC) *740, Income Taxes*) which clarifies the accounting uncertainty in income taxes recognized in a plan's financial statements in accordance with SFAS No. 109, "Accounting for Income Taxes" ("SFAS 109"). ASC 740 provides that a tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on technical merits. Income tax positions must be a more likely-than-not recognition threshold at the effective date to be recognized upon the adoption of ASC 740 and in subsequent periods. This interpretation also provides guidance on measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Plan adopted ASC 740 for the year ended December 31, 2009 and 2010. The adoption of ASC 740 had no impact on the Plan's financial position or results of operations. The only tax years subject to examination by major tax jurisdictions are those within the statutory limits.

Investment Contract: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement for that portion of net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 3 - FAIR VALUE MEASUREMENTS

FASB Accounting Standard Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Fair Value Measurements

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted market prices that are observable for the asset or liability; and
- inputs that are derived from or corroborated by observable data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets to measure at fair value.

Separate accounts invest primarily in mutual funds which are valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contract is valued by discounting the related cash flows based on yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the assets in the Plan.

		Fair Value Measurements Using

*Investment represents 5% or more of the Plan's net assets.

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $66,832.

NOTE 5 - INVESTMENT CONTRACT WITH TRANSAMERICA LIFE INSURANCE CO.

In 2010, the Plan entered into a benefit responsive investment contract with Transamerica Life Insurance Company (Transamerica). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 is $27,931 and $26,587, respectively. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and there is no set maturity. The effective credited interest rate is set monthly and effective on the first day of the month. Contract charges may reduce this return.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the plan, or (4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan's administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

Average yields:	2010	2009
Based on actual earnings	2.98%	3.00%
Based on interest rate credited to participants	2.98%	3.00%

NOTE 6 - PARTIES-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments are shares of mutual funds managed by Transamerica Life Insurance Company, the custodian of the Plan and therefore, these transactions qualify as party-in-interest transactions. Professional services for the audit of the Plan are paid for by the Company. In addition, the Company is the plan administrator and its officers are also participants in the Plan.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to amend or terminate the Plan subject to the provisions of ERISA. Amendment or termination cannot result in any of the Plan's assets being returned to the Company. In the event of such termination, plan participants would become 100% vested.

NOTE 9 - OTHER PLAN MATTERS

Timely Funding of Deposits - During the course of the year ended December 31, 2010 and 2009, there were instances of deposits of employee salary deferrals and loan repayments not made in a timely fashion.

NOTE 10 - SUBSEQUENT EVENTS

The date to which events occurring after December 31, 2010 and 2009, the date of the most recent statement of net assets available for benefits, have been evaluated for possible adjustment to the financial statements or disclosure is October 12, 2011, the date the financial statements were issued.
