Coastal Pacific Food Distributors 401(k) Profit Sharing Plan

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of ***Coastal Pacific Food Distributors 401(k) Profit Sharing Plan*** (the "Plan") as of and for the year ended December 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered ***Coastal Pacific Food Distributors 401(k) Profit Sharing Plan's*** internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include a consideration of internal control relating to the information summarized in Note 5 to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore there can be no assurance that all such deficiencies have been identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the plan's financial statements will not be prevented, or detected and corrected on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the Plan's internal control to be significant deficiencies.

Plan's Definition of Compensation Not Followed

While performing our audit procedures, we noted that compensation as it is defined in the Plan document was not accurately applied to the calculation of 401(k) withholding. Participant contributions did not include bonuses and fringe benefits, although the Plan document states that all compensation is covered.

We recommend that the Company consult with their third party administrator or ERISA counsel to determine the appropriate corrective actions needed related to the 2010 plan year. Also, procedures should be modified to use the correct compensation, as defined, when calculating Plan contributions. Continued operation failures could potentially put the qualified tax status of the Plan at risk.

This communication is intended solely for the information and use of management, and the Board of Directors, and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report

To the Plan Administrator
Coastal Pacific Food Distributors 401(k) Profit Sharing Plan

We were engaged to audit the financial statements and supplemental schedule of ***Coastal Pacific Food Distributors 401(k) Profit Sharing Plan*** (the "Plan") as of and for the year ended December 31, 2010, as listed in the accompanying contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2009 were audited by Goodman & Company, LLP, who merged into Dixon Hughes Goodman LLP as of April 1, 2011. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed Goodman & Company, LLP not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated September 28, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by the SunTrust Bank, the trustee of the Plan, except for comparing the information with the related information included in the 2010 financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 2010 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2010 financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of the ***Coastal Pacific Food Distributors*** (the "Company") ***401(k) Profit Sharing Plan*** (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of the Company. Employees are immediately eligible to make 401(k) contributions. Employer contributions require six months of service. The Finance Committee of the Board of Directors of the Company controls and manages the operation and administration of the Plan. SunTrust Bank serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute 2% to 75% of their pretax annual compensation, as defined in the Plan document, subject to Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. Company profit sharing and matching contributions are determined at the discretion of the Company's board of directors. The profit sharing contribution was 3% of eligible wages, plus an additional 3% of wages over the social security wage base for the year ended December 31, 2010. Contributions are subject to certain limitations.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers mutual funds and a collective trust fund as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings, and charged with benefit payments, and transaction fees related to notes receivable from participants and distributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2010, outstanding loans bore interest rates ranging from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account as a lump-sum distribution. Hardship distributions are available upon demonstration of financial hardship with limitations according to the Plan. In-service distributions are available after the participant reaches the age of 59½.

Forfeitures

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $57,777 and $18,194, respectively. These accounts will be used to pay plan administrative expenses, reduce future Company contributions or allocated to remaining participants. During 2010, forfeitures of $20,694 were used to pay plan administrative expenses. Forfeitures of $54,270 were reallocated to eligible participants based on 2010 compensation subsequent to year end.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income from notes receivable from participants is recorded when received. Other interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses can be paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivables from participants and distributions) are charged directly to the participant's account.

Reclassification

Effective January 1, 2010, the Plan adopted the Financial Accounting Standards Board ("FASB") authoritative guidance on reporting loans to participants by defined contribution pension plans. In accordance with the provisions, participant loans are required to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance. The adoption of this accounting standard requires reclassification of participant loans from investments to notes receivable from participants on the statements of net assets available for benefits as of December 31, 2009. Accordingly, the 2009 financial statements have been reclassified to conform to the 2010 presentation. There was no impact on net assets available for benefits or changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 11, 2011, the date the financial statements were available to be issued.

3. Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets:

	December 31, 2010	December 31, 2009
SunTrust Bank FDIC Insured Account	$ 2,009,725	$ *
RidgeWorth Moderate Allocation Strategy I	1,384,798	1,280,194

RidgeWorth US Government Securities I	*	513,021
RidgeWorth Prime Quality Money Market I	*	1,935,036

** Amount represents less than 5 percent of net assets at end of the year.*

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	$ 697,666
Collective trust	40,103
	$ 737,769

4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments includes mutual funds.

Level 2 investment securities include collective trust for which quoted prices are not available in active markets for identical instruments. The common collective trust is valued at the net asset value of the units held by the Plan at the end of the year and based on information provided and certified by the trustee. The SunTrust Bank FDIC Insured Account is valued based on the account balance provided and certified by the trustee.

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2010 and 2009.

(a) Represents investments in a collective trust. The trust invests primarily in U. S. equity securities. The investment strategy is to returns that correspond to those stocks as represented by the Standard and Poor's 500 Composite Stock Price Index. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

The preceding methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

5. Unaudited Information Certified by Trustee

The accompanying financial statements and supplemental schedule include the following unaudited information as of December 31, 2010 and 2009 and for the year ended December 31, 2010 that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	2010	2009
Investments at fair value	$ 9,144,811	$ 7,941,149
Notes receivable from participants	$ 812,776	$ 790,867
Net appreciation in fair value of investments	$ 737,769	
Interest and dividend income	$ 154,319	
Interest income on notes receivable from participants	$ 37,511	

The certification mentioned above includes all investment information discussed in Notes 3 and 4 and in the supplemental schedule of assets (held at end of year).

6. Exempt Party-In-Interest Transactions

Certain Plan investments are funds managed by SunTrust Bank or its affiliates. SunTrust Bank is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid to the trustee by the Plan for administrative services and participant initiated transactions were $23,304 for the year ended December 31, 2010. Participants paid the trustee $11,955 in fees for loans which reduced the amount paid to the participants. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts.

8. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the IRC. The Plan is relying on the IRS approval of the volume submitter plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2008 that the volume submitter plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
