INDEPENDENT AUDITORS' REPORT

To the Participants and Pension and Insurance Committee
of Carlisle Companies Union Plan

We were engaged to audit the financial statements and supplemental schedule of the Carlisle Companies Union Plan (the "Plan") as of December 31, 2010 and 2009, and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CARLISLE COMPANIES UNION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE A – PLAN DESCRIPTION

The following description of the Carlisle Companies Union Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all unionized employees of Carlisle Companies Incorporated (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Eligibility requirements vary based on the participating group, as defined in the Plan document, in which the participant is a member.

Contributions

Participants may contribute a maximum of 50% of their pretax annual compensation, as defined, provided their contributions do not exceed maximum allowable amounts under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company contributes an amount based on each participant's eligible contributions to the Plan, as defined, based on the participating group in which the participant is a member.

Investment Options

Participants direct the investment of their contributions into various options offered by the Plan. The Plan currently offers mutual funds and common/collective trust funds as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings and charged with benefit payments and allocations of administrative expenses and Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service as defined in the Plan document for each participating group.

CARLISLE COMPANIES UNION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE A – PLAN DESCRIPTION (Continued)

Notes Receivable from Participants

Participants in certain participating groups may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear an interest rate established by the plan administrator based upon prevailing market conditions and fixed over the life of the note. Principal and interest are paid ratably through payroll deductions over a period not to exceed five years. These loans bear market interest rates ranging from 4.25% to 9.25% and mature on various dates through 2015.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period.

Forfeitures

Forfeitures, less any amounts applied for the payment of plan expenses, shall be used to offset employer matching contributions. At December 31, 2010 and 2009, the Plan had \$356 and \$66 unallocated forfeitures included in net assets available for plan benefits. Forfeitures used to offset employer matching contributions during the years ended December 31, 2010 and 2009 were \$0 and \$38,874, respectively.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

CARLISLE COMPANIES UNION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The costs of general administration are paid by the Plan, while certain other expenses are paid for by the Company.

Reclassifications

Effective January 1, 2010, the Plan adopted the Financial Accounting Standards Board ("FASB") authoritative guidance on reporting loans to participants by defined contribution pension plans. In accordance with the provisions, participant loans are required to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance, plus any accrued but unpaid interest. The adoption of this accounting standard requires reclassification of participant loans from investments to notes receivable from participants on the Statement of Net Assets Available for Benefits as of December 31, 2009. Accordingly, the 2009 financial statements have been reclassified to conform to the 2010 presentation. There was no impact on Net Assets Available for Benefits or Changes in Net Assets Available for Benefits.

NOTE D – FAIR VALUE MEASUREMENTS

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds

These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common/Collective Trust Funds

These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Collective Investment Funds

The Federated Capital Preservation Fund (the "Fund") holds guaranteed investment contracts ("GICs") and synthetic guaranteed investment contracts ("synthetic GICs"). GICs represent deposits which guarantee a stated interest rate for the term of the contracts. The fair value of GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like-quality investments. Synthetic GICs are portfolios of securities (debt securities or open-end registered investment companies) owned by the Fund with wrap contracts that provide a minimum guaranteed rate of return for the term of the contracts. The Fund is classified within level 2 of the valuation hierarchy.

NOTE D – FAIR VALUE MEASUREMENTS (Continued)

- (a) The primary objective of these investments is to achieve long term total return greater than the return of the S&P 500 Index while maintaining risk characteristics similar to the risk characteristics of the stocks in the S&P 500 Index. Units of the fund may be purchased or redeemed daily corresponding to the valuation frequency, at unit values determined as of the end of the business day. There are no unfunded commitments.
- (b) The primary objective of these investments is to approximate, as closely as possible, the overall performance of the Standard & Poor's Mid Cap 400 Index. Units can be issued and redeemed on any business day at the daily unit value. There are no unfunded commitments.

NOTE E – UNAUDITED INFORMATION CERTIFIED BY TRUSTEE

The accompanying financial statements and supplemental schedule include the following unaudited information as of December 31, 2010 and 2009 and for the years then ended that was obtained from the data prepared and certified to as complete and accurate by the Plan's trustee, Wells Fargo Bank, N.A.:

	2010	2009
Investments *	<u>\$ 7,721,528</u>	<u>\$ 7,188,384</u>
Non-interest bearing cash	<u>\$ --</u>	<u>\$ 15,766</u>

Dividend and other income	<u>\$ 80,030</u>	<u>\$ 92,905</u>
Interest income on notes receivable from participants	<u>\$ 27,561</u>	<u>\$ 28,895</u>

The certification mentioned above includes all investment information discussed in Notes C and D and in the Supplemental Schedule of Assets (Held at End of Year).

*All investments are certified at fair value with the exception of the collective investment fund, Federated Capital Preservation Fund, which is certified at contract value.

NOTE F – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Federated Capital Preservation Fund (the “Fund”) invests in fully benefit-responsive GICs with Federated Investors Trust Company (the “Fund Trustee”). The Fund Trustee maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The GIC is included in the financial statements at fair value and then adjusted to contract value. As described in Note 2, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

In certain circumstances, the amount withdrawn from the GIC would be payable at fair value rather than at contract value. These circumstances may include, but are not limited to, the following: mergers, mass layoffs, plan terminations, implementation of early retirement incentive programs or other events within the control of the Fund or the plan sponsor resulting in a material and adverse financial impact on the issuer's obligations under the GIC. Based on prior experience, the Trustee believes that it is not probable that such circumstances would be of sufficient magnitude to limit the ability of the Fund to transact at contract value with Participants. Of course, there can be no guarantee that this will be the case.

The GICs into which the Fund has entered limit the circumstances under which the issuer may unilaterally terminate the GIC on short notice. These circumstances may include, but are not limited to, the following: (1) the Fund loses its qualified status under the Internal Revenue Code or is otherwise terminated; (2) the Trustee fails to meet its material obligations under the GIC, attempts to assign the GIC or engages in fraud or misrepresentation that materially affects the risk profile of the GIC; or (3) if the fixed-income securities underlying the synthetic GIC fail to meet certain criteria as specified in the synthetic GIC. If one of these events were to occur, the issuer could terminate the synthetic GIC at the market value of the underlying fixed-income securities (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

NOTE F – INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Interest crediting rates are typically reset on a monthly or quarterly basis according to each synthetic GIC. While there may be slight variations from one to another, most use a formula that is based on the characteristics of the underlying portfolio of fixed-income securities. Because changes in market interest rates affect the yield to maturity and the fair value of the underlying fixed-income securities, they can have a material impact on the interest crediting rate. In addition, Participant withdrawals and transfers from the Fund are paid at contract value but may be funded through the fair value liquidation of the underlying fixed-income securities, which could impact the interest crediting rate. The resulting gains and losses in the fair value of the underlying fixed-income securities relative to the contract are in the Fund's Statement of Assets and Liabilities as the "Adjustment from Fair Value to Contract Value." If the Adjustment from Fair Value to Contract Value is positive for a given contract, this indicates that the contract value is greater than the fair value of the underlying fixed-income securities. The embedded fair value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. If the Adjustment from Fair Value to Contract Value is negative, this indicates that the contract value is less than the fair value of the underlying fixed-income securities. The amortization of the embedded fair value gains will cause the future interest crediting rate to be higher than it otherwise would have been. All synthetic GICs provide for a minimum interest crediting rate of zero percent, which is intended to protect Participants' principal and accrued interest.

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become 100% vested in their accounts.

NOTE H – TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated February 25, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

NOTE I – EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are mutual funds managed by Wells Fargo Bank, N.A. ("Wells Fargo"). Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE J – TRANSFERS TO OTHER QUALIFIED PLANS

During 2010 and 2009, \$0 and \$6,554 was transferred to the Carlisle Corporation Employee Incentive Savings Plan, respectively.

NOTE K – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
