The Plan Administrator of the
GAF Materials Corporation Hourly Capital Accumulation Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the GAF Materials Corporation Hourly Capital Accumulation Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GAF Materials Corporation
Hourly Capital Accumulation Plan

Notes to Financial Statements

December 31, 2010

1. Plan Description

The following summary plan description is provided for general information purposes only. Participants of the GAF Materials Corporation Hourly Capital Accumulation Plan (the "Plan") should refer to the Plan document for a more detailed and complete description of the Plan's provisions.

General

The Plan is a participant-directed defined contribution plan sponsored by Building Materials Corporation of America and its subsidiaries ("GAF" or the "Company") covering eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All eligible hourly employees employed at certain facilities became eligible to participate in the Plan immediately upon employment.

Contributions

Participants are required to determine into which investment funds individual contributions are directed. Contributions may be allocated to any combination of funds in multiples of 1%. Participants are also permitted to change the allocation among investment funds of future and previous contributions. Such changes are subject to certain Plan limitations.

Under the terms of the Plan, allowable employee contributions are outlined as follows:

Elective Contributions

Participants may elect to defer up to 75% of their compensation, as defined, and contribute such amount to the Plan.

In order to satisfy the nondiscrimination requirements of Section 401(k) of the Internal Revenue Code of 1986 (the "Code"), contributions are limited to the extent necessary so that the actual deferral percentage for the highly compensated group is in compliance with the limitations, as defined, by the Code. In addition, pretax contributions were limited to a maximum of $16,500 for 2010 and 2009, respectively, plus a "catch-up" contribution up to 10% of annual compensation, as defined, up to a maximum of $5,500 for 2010 and 2009, respectively, for participants who have attained the age of 50 as of December 31 in such

1. Plan Description (continued)

calendar year. Furthermore, in order to satisfy the rules of Section 415 of the Code, in no event shall the annual additions, as defined, exceed the lesser of $49,000 or 100% for 2010 and 2009, respectively, of a participant's compensation, as defined.

Voluntary Contributions

Participants may elect to make voluntary after-tax contributions to the Plan which shall not exceed 10% of their compensation, as defined, for the Plan year.

Matching Contributions

In accordance with the provisions of the Plan, GAF makes matching contributions for each participant equal to 50% of the first 6% of pretax deferral but not in excess of 3% of the participant's eligible earnings for the Plan year, as defined.

Vesting

A participant shall have a fully vested interest in his or her elective, voluntary contributions account and rollover account at all times. A participant shall vest 20% in his or her matching contributions account for each year of vesting service earned by such employee, with the exception of employees at certain manufacturing facilities, who are 100% vested at all times. Any unvested matching contributions that are forfeited are used to reduce future employer matching contributions. For 2010 and 2009, forfeitures reduced employer matching contributions by $110,772 and $54,709, respectively. As of December 31, 2010 and 2009, forfeitures available to reduce future employer matching contributions were $93,842 and $172,764, respectively.

Participant Accounts

Each participant's account reflects the participant's contributions and an allocation of the employer's matching contribution, and Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Plan Description (continued)

Rollovers

Participants may elect to roll over amounts from other qualified plans into this Plan upon submitting a Rollover Contribution form to Vanguard Fiduciary Trust Company (the "Trustee"). Rollover contributions are self-certified by the participant.

Transfers from/to Other Qualified Plans

Participants may elect to transfer amounts from other qualified plans into the Plan as follows:

(a) Participants who have an interest in another qualified employee benefit plan (as described in Section 401(a) of the Code) may transfer the lump-sum value of their accrued pension benefits directly into the Plan.

(b) Participants may contribute amounts which were received from a qualified employee benefit plan in which they previously participated and which are permitted to be contributed to the Plan in accordance with the Code.

Payment of Benefits

Participants may withdraw funds from their vested account in the event of normal retirement, late retirement, death, termination, or hardship withdrawal, as defined. In addition, upon attainment of 59½ years of age, participants may withdraw all or any portion of their remaining vested account. Upon termination of employment or death of a participant, the vested account balance will be distributed to a participant or beneficiary either in the form of a lump-sum distribution or in installments over a predetermined period. If the value of a participant's vested account balance exceeds $5,000, the participant or beneficiary may elect to defer distribution in accordance with Plan provisions.

1. Plan Description (continued)

Hardship Withdrawals

The Plan allows a participant who has not attained the age of 59½ the ability to withdraw all or part of his or her vested participant account, except that portion which represents earnings on elective contributions credited after December 31, 1988, but only upon determination by the plan administrator that the participant has suffered a financial hardship within the meaning of the final regulations issued under Code Section 401(k). Such withdrawal shall not exceed the amount necessary to meet the need created by such hardship.

Notes Receivable from Participants (Participant Loans)

The Plan allows participants to borrow against their aggregate balance outstanding in the Plan. Total loans to a participant cannot exceed the lesser of 50% of the participant's account balance based upon the most recent valuation up to a maximum amount of $50,000 (reduced by the highest outstanding loan balance in the previous 12 months). The minimum amount of any loan granted to a participant shall be at least $1,000. Each loan bears interest at a reasonable rate as determined by the Plan's Administrative Committee. Loans are required to be repaid within five years, unless used to purchase or acquire a qualified dwelling. Loans are offset against the participant's account and the related portion does not share in any income, expenses, gains or losses (other than the interest on the loan) which are realized by the Plan. The entire unpaid principal amount of the loan will become immediately due either upon the participant's termination of employment or a default in payment of either principal or interest. In the event of a default in payment, if the outstanding loan balance is not paid in full, it is treated as a deemed distribution, which the participant is required to pay taxes and penalties. For financial reporting purposes, these deemed distributions remain in notes receivable from participants in the accompanying statements of net assets available for benefits.

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued and unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2010 or 2009.

1. Plan Description (continued)

Plan Termination

Although it has not expressed any intent to do so, GAF reserves the right under the Plan to discontinue or terminate the Plan at any time subject to the provisions of ERISA. In the event that such termination occurs, all amounts credited to participant accounts will become 100% vested. The net assets of the Plan would then be distributed to the participants in lump-sum form.

2. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies of the Plan:

Basis of Accounting

Accounting records of the Plan are maintained on the accrual basis of accounting. Purchases and sales transactions are recorded on a trade date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. Capital gains and losses are included in dividend income. Benefits are recorded when paid.

Investment Valuation and Income Recognition

The fair value of the Plan's interest in the Master Trust (see Note 3) is based on the beginning of year value of the Plan's interest in the trust plus contributions and allocated investment income or loss less distributions and allocated administrative expenses.

The Master Trust's investments in mutual funds, common and commingled trusts are stated at fair value. Quoted market prices are used to value such investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Securities transactions are recorded on the trade date (the day the order to buy or sell is executed). Dividend income is recorded on the ex-dividend date.

2. Summary of Significant Accounting Policies (continued)

Investment contracts are stated at contract value, which is equal to contributions plus interest less benefit payments and expenses, which is adjusted by the Company to derive the estimated fair value. The Vanguard Retirement Savings Trust, which is included in the Master Trust, invests primarily in investment contracts issued by high-quality insurance companies and banks as rated by Vanguard (the advisor to the trust's sponsor). These are interest bearing contracts in which the principal and interest are guaranteed by the issuing companies.

The contracts are considered fully benefit-responsive and comprise Guaranteed Investment Contracts ("GICs"). The fair value of GICs equals the total of the fair value of the underlying assets calculated using the present value of contract cash flows.

In determining the net assets available for benefits, the GICs are recorded at their contract values, which are equal to contributions plus interest less benefit payments and expenses. As provided in the accounting guidance related to fully benefit-responsive investment contracts, an investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The Vanguard Retirement Savings Trust is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestures or spin-offs of a subsidiary) which cause a significant withdrawal from the plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

2. Summary of Significant Accounting Policies (continued)

Fair Value Measurements

The accounting guidance on fair value measurements and disclosures establishes a valuation hierarchy that prioritizes the inputs used to measure fair value based on three defined levels or criteria. The hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the reporting entity's market assumptions. The three levels of inputs that may be used to measure fair value are as follows:

- **Level 1** – Quoted prices for identical instruments in active markets;

- **Level 2** – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose significant inputs are observable; and

- **Level 3** – Instruments whose significant inputs are unobservable and for which estimates of fair value are determined using related market data.

The following is a description of the valuation methodology used for the assets measured at fair value at December 31, 2010 and 2009:

Common Stocks, Bonds and Commingled Funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Money Market Funds: Valued at quoted net asset value of shares held by the Plan at year-end reported on the active market.

Guaranteed Investment Contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

2. Summary of Significant Accounting Policies (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table provides the fair value hierarchy of the Master Trust investments as of December 31, 2010:

	Level 1	**Level 2**	**Total**
Common stock funds	**$ 110,971,139**	**$ –**	**$ 110,971,139**

2. Summary of Significant Accounting Policies (continued)

Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the "IRS") dated April 10, 2003, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Administrative Expenses

Expenses attributable to the management and investment of each investment fund shall be charged against the respective fund. As provided by the Plan, administrative expenses are paid by either the Plan or the Company. In 2010 and 2009, administrative expenses were paid by the Plan.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

New Accounting Pronouncements

In January 2010, the FASB issued guidance on improving disclosures concerning fair value measurements that requires additional disclosures in regard to fair value measurements. This guidance requires entities to disclose separately the amount of significant transfers in and out of Level 1 and Level 2 fair value measurements, while describing the reasons for the transfers. In addition, for Level 3 fair value measurements, information concerning purchases, sales, issuances and settlements are now required to be disclosed and on a gross rather than net basis. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures regarding Level 3 fair value measurements which are effective for fiscal years beginning after December 15, 2010. The Plan adopted the accounting guidance on fair value measurements during its plan year ended December 31, 2010 and noted that there were no significant transfers between Level 1 and Level 2 fair value measurements, and since the Plan does not have any Level 3 investments, no further disclosures are required. Since the accounting guidance only affects fair value measurement disclosures, adoption of the accounting guidance did not affect the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB issued accounting guidance for reporting loans to participants by defined contribution pension plans. This guidance requires participant loans to be measured at their unpaid principal balance plus any accrued and unpaid interest and classified as notes receivable from participants. Previously loans were measured at fair value and classified as investments. This guidance is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Early adoption was permitted and the plan adopted this guidance effective December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009 and December 31, 2010.

2. Summary of Significant Accounting Policies (continued)

In May 2011, the FASB issued guidance that amends the requirements for measuring and disclosing information concerning fair value measurements. The guidance revises the application of the valuation premise of highest and best use of an asset, the application of premiums and discounts for fair value determination, as well as the required disclosures for transfers between Level 1 and Level 2 fair value measurements and the highest and best use of nonfinancial assets. The guidance also provides additional disclosures regarding Level 3 fair value measurements and clarifies certain other existing disclosure requirements. The guidance is effective for interim and annual periods beginning after December 15, 2011. The Plan will adopt the new guidance during its plan year ending December 31, 2012 and does not expect the adoption to have a material impact on the Plan's net assets available for benefits or its changes in net assets available for benefits and related disclosures.

3. Investments

The "Master Trust" includes the investment assets of the Plan, the GAF Materials Corporation Union Capital Accumulation Plan and the GAF Materials Corporation 401(k) Plan.

The Plan's interest in the Master Trust as a percentage of net assets of the Master Trust was 8.2% and 8.9% at December 31, 2010 and 2009, respectively. The Plan's share of the net investment activity of the Master Trust was 7.2% and 7.2% in 2010 and 2009, respectively. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

4. Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Other than the fair value of the Vanguard Retirement Savings Trust, all investment information disclosed in the accompanying financial statements including notes receivable from participants and investments held at December 31, 2010 and 2009, and net appreciation in fair value of investments, interest, and dividends for the years ended December 31, 2010 and 2009, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Vanguard Fiduciary Trust Company, the Trustee of the Plan. The contract value of Vanguard Retirement Savings Trust was certified as complete and accurate by the Trustee.

	December 31, 2010	2009
Vanguard Retirement Savings Trust, at fair value	**$ 5,455,637**	$ 5,886,777
Vanguard Retirement Savings Trust, at contract value	**5,240,804**	5,759,516

5. Reconciliation to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2010 and 2009:

	December 31, 2010	2009
Net assets available for benefits per the financial statements	**$ 21,965,559**	$ 21,362,097
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	**214,833**	127,261
Deemed distribution	**(41,890)**	(10,711)
Net assets available for benefits per the Form 5500	**$ 22,138,502**	$ 21,478,647

6. Subsequent Events

The Company evaluated subsequent events for the Plan through October 12, 2011, the date the financial statements were available to be issued, and noted there was no impact on the Plan's net assets available for benefits nor its changes in net assets available for benefits.
