- 1. Description of Plan** The following is a brief description of the Banner Pharmacaps Inc. 401(k) Plan (the “Plan”). Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan covering all eligible employees of Banner Pharmacaps Inc. (the “Company”). An employee is eligible to become a participant of the Plan on the first day of the month after the completion of three months of service and attainment of age 18 years or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions – Eligible participants are entitled to contribute up to 20 percent of their annual compensation to the Plan on both a pre-tax and after-tax (“Roth”) basis. The deferral percentage cannot exceed the limitations imposed by the Internal Revenue Code (“IRC”). Participants who have attained age 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants may also contribute up to 100% of bonuses. Company matching contributions for 2010 and 2009 were made under the Safe Harbor provision, which provides for matching contributions to the account of each eligible participant in an amount equal to the sum of 100% of the amount of the participant’s elective deferrals that do not exceed 3% of the participant’s compensation plus 50% of the amount of the participant’s deferrals between 3% and 5% compensation. The Company may also make discretionary profit sharing contributions to the Plan as determined by its Board of Directors. No discretionary profit sharing contributions were made in 2010 and 2009.

Participant Accounts – Each participant account is credited with the participant’s contribution, employer matching contributions, the Company’s discretionary contributions, if any, plan earnings, and charged with an allocation of administrative expenses.

See accompanying independent auditors’ report.

Notes to Financial Statements

1. **Description of Plan (Concluded)** **Vesting** – Plan participants are 100 percent vested in all salary deferrals and the Company Safe Harbor matching contributions. Participants vest in Company profit sharing contributions according to the following schedule:

<u>Completed Years of Service</u>	<u>Vested Percentage</u>
Less than 1 year	50%
After 1 year	100%

Payment of Benefits – Upon termination of service due to death, disability, retirement or separation, a participant may elect to receive either a partial or lump-sum distribution or installment payments under various options. In-service distributions may be made to participants who have reached age 59½. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The notes are secured by the balance in the participant's account. Participants may only have one outstanding loan at any time. Notes are repaid ratably through payroll deductions.

Administrative Expenses – The Company absorbs substantially all expenses incidental to the administration of the Plan. Distribution and loan fees are paid from participant accounts.

Forfeitures – Forfeitures of terminated participants' non-vested amounts are used to offset Company Safe Harbor matching contributions. Forfeitures of \$19,988 and \$0 were used to offset the Company's Safe Harbor matching contributions in 2010 and 2009.

See accompanying independent auditors' report.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments in mutual funds are stated at fair value, primarily based on quoted market values. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Certain investment contracts with ING National Trust ("ING") are included in the financial statements at contract value.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through ING. The statements of net assets available for benefits present the fair value of the investment in these contracts as well as the adjustment of the investment from fair value to contract values for these investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

See accompanying independent auditors' report.

2. Summary of Significant Accounting Policies (Concluded)

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits – Benefits are recorded when paid.

Recent Accounting Pronouncements – In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2010-06, Improving Disclosures about Fair Value Measurements (Topic 820) – Fair Value Measurements and Disclosures (“ASU 2010-06”), to add additional disclosures about the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, and the activity in Level 3 fair value measurements. The Plan has adopted ASU 2010-06 for the year ended December 31, 2010 and has expanded the fair value disclosures in Note 10 accordingly.

In September 2010, FASB issued Accounting Standards Update 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans (“ASU 2010-25”). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. The Plan has adopted ASU 2010-25 for the year ended December 31, 2010 and has reclassified participant loans to notes receivable from participants as of December 31, 2010 and 2009.

3. Investments

The Plan's investments are held by the trustee. The values of investments that represent 5 percent or more of the Plan's net assets are as follows:

<i>December 31,</i>	2010	2009
At contract value:		
Fixed Account	\$ 7,129,798	\$ 6,000,491
At fair value:		
Fidelity Diversified Mid Cap Portfolio	1,785,951	1,377,107
The Growth Fund of America	1,733,320	1,550,983

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

<i>Year ended December 31,</i>	2010	2009
Mutual funds	\$ 1,933,156	\$ 2,810,258

See accompanying independent auditors' report.

4. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

<i>December 31,</i>	2010	2009
Mutual funds	\$ 18,020,679	\$ 14,688,152
Group annuity contract	7,129,798	6,000,491
<i>Year ended December 31,</i>	2010	2009
Net appreciation in current value of investments	\$ 1,933,156	\$ 2,810,258
Interest and dividends	462,808	417,148
Interest income on notes receivable from participants	27,071	31,602

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

See accompanying independent auditors' report.

Banner Pharmacaps Inc. 401(k) Plan

Notes to Financial Statements

- 6. Income Tax Status** The Plan has adopted a non-standardized plan document sponsored by ING. The Internal Revenue Service (“IRS”) has determined and informed ING by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the IRC.
- Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits relative to the Plan for any tax periods in progress. Certain federal tax returns from prior years are subject to examination by the IRS.
- 7. Plan Termination** Although it has not expressed any intent to do so, the Company has the right to discontinue the Plan at any time. In the event the Plan is terminated, each participant becomes fully vested and the net assets of the Plan will be allocated as prescribed by ERISA.
- 8. Transactions with Parties-In-Interest** Fees paid by the Plan to ING were \$4,700 and \$4,350 for 2010 and 2009. Plan investments include mutual funds and a group annuity contract managed by ING, which is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest.

See accompanying independent auditors’ report.

Banner Pharmacaps Inc. 401(k) Plan

Notes to Financial Statements

9. Investment Contracts

The Plan holds certain benefit-responsive investment contracts with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. ING is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

The crediting rates and average yields were as follows:

	2010	2009
Crediting rates	3.0%	3.0%
Average yield	3.0%	3.0%

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with the participants, is probable.

See accompanying independent auditors' report.

Notes to Financial Statements

10. Fair Value Measurements

The Plan has adopted ASC 820, “Fair Value Measurements and Disclosures” (“ASC 820”) which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under ASC 820 are as follows:

Basis of Fair Value Measurements

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument’s level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (“NAV”) of shares held by the Plan at year-end.

Group annuity contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

See accompanying independent auditors’ report.

10. Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the investments by level as defined within the fair value hierarchy as of December 31, 2010.
