NOTE A - DESCRIPTION OF PLAN

The following description of the Friendly Chevrolet Co., 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1995 to provide retirement benefits for employees of Friendly Chevrolet, LLP. (the "Company"). Employees are eligible to become participants in the Plan following one year of service, as defined in the Plan Document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute compensation, as defined in the Plan Document. The Company may, at its discretion, contribute a varying amount, on behalf of all employees that qualify as Plan participants (discretionary contributions). In 2010, the Company did not make a discretionary contribution. Contributions are subject to certain limitations.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution, Company contribution and an allocation of the Plan's earnings and charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

As of December 31, 2010 and 2009, forfeited non-vested accounts totaled $11,440 and $800, respectively. Future balances, if present, will be used to reduce employer contributions or pay expenses.

NOTE A - DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their elective deferrals plus actual earnings thereon. That portion of the participant's account attributable to employer discretionary contributions vests 20% after two credited years increasing 20% each following year until 100% after six years of service. Participants' accounts become fully vested upon reaching normal retirement age.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and an insurance investment contract as investment options for participants. In addition, participants may utilize an individual self-directed brokerage option, through which participants are able to invest in a variety of securities including stocks, bonds, mutual funds and government securities in accordance with the Plan Document.

Payment of Benefits

On termination of service due to death, disability, retirement, or for other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Notwithstanding the above, distributions of any vested benefit with a present value less than $1,000 shall be made upon termination of employment in a lump sum without the consent of the employee.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest from 4.25% to 9.25%, which is commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note J for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The fair value of the investment contracts approximate contract value as of December 31, 2010 and 2009.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan Document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

NOTE B - SUMMARY OF ACCOUNTING POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Reclassification

Effective January 1, 2010, the Plan adopted the Financial Accounting Standards Board authoritative guidance on reporting loans to participants by defined contribution pension plans. In accordance with the provisions, participant loans are required to be classified as notes receivable from participants, which are segregated from investments and measured at their unpaid principal balance, plus any accrued but unpaid interest. The adoption of this accounting standard requires classification of participant loans from investments to notes receivable from participants on the Statement of Net Assets Available for Benefits as of December 31, 2010 and 2009. Accordingly, the 2009 financial statements have been reclassified to conform to the 2010 presentation. There was no impact on Net Assets Available for Benefits or Changes in Net Assets Available for Benefits.

Subsequent Events

The Company has evaluated the effects subsequent events would have on the financial statements through October 10, 2011, which is the date the financial statements were available to be issued.

NOTE C - TAX STATUS

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the Internal Revenue Code ("IRC"). The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the custodian by a letter dated March 31, 2008 that the prototype plan document was designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE C - TAX STATUS (Continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE D - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE E - UNAUDITED INVESTMENT INFORMATION CERTIFIED BY CUSTODIAN

The accompanying financial statements and supplemental schedule include the following unaudited information as of December 31, 2010 and 2009 and for the year ended December 31, 2010 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodians.

	2010	2009
Investments	$ 1,109,998	$ 959,070
Notes receivable from participants	$ 58,244	$ 37,645
Net appreciation in fair value of investments	$ 110,760	
Interest income	$ 3,502	
Interest income on notes receivable from participants	$ 3,825	

The certification mentioned above includes all investment information discussed in Notes F and J and in the Supplemental Schedule of Assets (Held at End of Year).

NOTE F - INVESTMENTS

Investments representing 5% or more of Plan net assets at December 31, are as follows:

	2010	2009
Guaranteed Investment Contract	$ 82,756	$ 946,729
Pooled Separate Accounts:		
Life Cycle LB	390,889	*
Life Cycle LC	400,245	*
Life Cycle LD	101,143	*

* Less than 5% of Plan Assets

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $110,760.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE H - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments held during 2010 are shares of pooled separate accounts and a guaranteed investment contract managed by Sentry Life Insurance Company ("Sentry"). Sentry is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees in the amount of $13,200 were paid by the Plan for investment management services during 2010.

NOTE I - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2010	2009
Net assets available for benefits per financial statement	$ 1,169,260	$ 1,013,298
Employer contribution receivable	-	(15,500)
Employee contribution receivable	(1,018)	(1,083)
Net assets available for benefits per Form 5500	$ 1,168,242	$ 996,715

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2010:

	2010
Net increase in assets available for benefits per financial statement	$ 155,962
Employer contribution receivable, prior year	15,500
Employee contribution receivable, prior year	1,083
Employee contribution receivable, current year	(1,018)
Net increase in assets available for benefits per Form 5500	$ 171,527

NOTE J - FAIR VALUE MEASUREMENTS

The Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

NOTE J - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009:

Pooled Separate Accounts

These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the accounts. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. Certain pooled separate accounts are classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Guaranteed Investment Contract

The guaranteed fund fair value represents the amount the Plan would receive if the account were terminated at the reporting date, which is book value less an early withdrawal charge. The accounts are classified within Level 3 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 2010 and 2009:

	Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts				
Fixed Income (a)	$ -	$ 12,240	$ -	$ 12,240
Growth (b)	-	54,204	-	54,204
Index (c)	-	14,413	-	14,413
Life Cycle (d)	-	946,385	-	946,385
Guaranteed investment	-	-	82,756	82,756
	$ -	$ 1,027,242	$ 82,756	$ 1,109,998

NOTE J - FAIR VALUE MEASUREMENTS (Continued)

	Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts				
Fixed Income (a)	$ -	$ 363	$ -	$ 363
Growth (b)	-	1,694	-	1,694
Life Cycle (d)	-	10,284	-	10,284
Guaranteed Investment	-	-	946,729	946,729
	$ -	12,341	$ 946,729	$ 959,070

(a) These investments are invested in a mix of fixed income securities to reflect the broad fixed income market. Pooled separate accounts can be redeemed on a daily basis.

(b) Growth fund strategies seek to invest in instruments that have strong long-term growth potential. Pooled separate accounts can be redeemed on a daily basis.

(c) Index fund strategies seek to replicate the movement of an index of a specific financial market, such as the Standard & Poor's (S&P) 500 Index, regardless of market conditions. Pooled separate accounts can be redeemed on a daily basis.

(d) This category includes investments in diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances and contain a mix of common stocks, bonds and cash.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

	Guaranteed Investment Contract
Balance, beginning of year	$ 946,729
Transfers out of Level 3	(941,660)
Realized and unrealized gains/losses	2,496
Purchases, sales, issuances, and settlements (net)	75,191
Balance, end of year	$ 82,756

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

NOTE K - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a fully benefit-responsive investment contract with Sentry. Sentry maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Sentry Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed at least annually for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

	2010
Average yields:	
Based on actual earnings	3.6%
Based on interest rate credited to participants	3.6%
