INDEPENDENT AUDITORS' REPORT

To the Plan Committee/Participants
Active International Employee Stock Ownership Plan

We have audited the accompanying statements of net assets available (deficit) for plan benefits of the Active International Employee Stock Ownership Plan (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available (deficit) for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available (deficit) for plan benefits of the Active International Employee Stock Ownership Plan as of December 31, 2010 and 2009, and the changes in net assets available (deficit) for plan benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes as of December 31, 2010 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Active International Employee Stock Ownership Plan (the "Plan" or the "ESOP") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

[1] General:

Active Media Services, Inc. (the "Company" or the "Sponsor") established the Plan in August 1998. The Plan operates as a leveraged employee stock ownership plan, also known as an ESOP, and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code"). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). A plan committee appointed by the Company's Board of Directors administers the Plan. The trust department of an independent third-party bank is the Plan's Trustee.

The Plan purchased the Company's Class B common stock using proceeds of a $45 million loan (the "Acquisition Loan") from the Sponsor. The Sponsor financed the Acquisition Loan by using a combination of its cash and by entering into a loan arrangement with certain financial institutions. The shares of the Company's Class B common stock acquired with the Acquisition Loan were placed in a separate account (the "Loan Suspense Account") and were pledged as collateral to the lenders that loaned the Company the funds to lend to the Plan. On June 30, 2007, the loan was repaid in full by the Company.

Contributions to the Plan by the Company, along with dividends received, if any, on the Company's Class B common stock, are used to repay the Acquisition Loan and interest on such loan. The Class B common stock was entitled to an annual preferential dividend at the rate of approximately $1.30 per share through August 2007, after which such dividends ceased in their entirety. As the Acquisition Loan is repaid, a certain amount of the Company's Class B common stock is allocated from the Loan Suspense Account to eligible participants' accounts. The number of shares to be transferred is determined by multiplying the number of shares in the unreleased share account by a fraction, the numerator of which is the principal and interest payments during the applicable accounting period and the denominator of which is the sum of the numerator plus the total projected principal and interest payments during the remainder of the term of the Acquisition Loan. Released shares are allocated to participants' accounts in the following order: 1) reinvested dividends on allocated shares are based on participants' beginning of the year share balance (less shares sold for distribution during the year) in proportion to the total of all beginning of the year allocated shares (less the total of all shares sold for distribution during the year); 2) a 100% match of participants' contributions to their Active International 401(k) Savings Plan, up to 6% of compensation, limited by the annual compensation limit as determined by the Internal Revenue Service; and 3) regular share allocation based on participants' individual compensation to total compensation, limited by the annual compensation limit as determined by the Internal Revenue Service, multiplied by the total shares released less shares allocated in steps one and two. Shares released from the Loan Suspense Account immediately ceased to be collateral to the lenders that loaned the Company the funds to lend to the Plan. Accordingly, the accompanying financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

a. the accounts of plan participants with vested rights in allocated stock ("Allocated"), and
b. stock not yet allocated to participants ("Unallocated").

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[2] Vesting:

Allocated stock vests based upon the following schedule:

Number of Completed Years of Service	401(k) Match Vested Percentage	ESOP Vested Percentage
Less than 1 year	0%	0%
1 year but less than 2 years	20%	0%
2 years but less than 3 years	40%	0%
3 years but less than 4 years	60%	33%
4 years but less than 5 years	80%	66%
5 years or more	100%	100%

[3] Eligibility:

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan immediately on their date of hire. Employees who are less than 18 years of age, leased or are represented by a collective bargaining group are not eligible to participate in the Plan. Participants who do not have at least 1,000 hours of service during the plan year or are not employed on the last day of the plan year are not eligible for an allocation of stock for that year.

[4] Participant accounts:

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations to participants are based on the method described above.

[5] Payment of benefits:

Distributions from the Plan will generally be made when a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives) or otherwise terminates employment with the Company and its participating subsidiaries. In certain instances, a participant may request a distribution in stock. Participant's account balances will be determined as of the last day of the plan year immediately preceding the date of distribution of the participant's account.

[6] Voting rights:

Each participant has the right to direct the Trustee on how to vote with respect to any corporate matters which involve the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution or sale of substantially all of the assets of a trade or business. The Trustee is permitted to vote any shares for which a participant has not given any instructions, as directed by the plan committee.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[7] Plan termination:

The Company expects to continue the Plan indefinitely. However, the Company reserves the right to amend, discontinue, or terminate the Plan at any time by action of its Board of Directors. If the Plan is discontinued or terminated, all affected employees will become fully vested in their accounts. Upon such termination of the Plan, the interest of each participant will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the Code. Upon termination of the Plan, the Trustee will pay all liabilities and expenses of the Plan and sell shares of financed stock held in the Loan Suspense Account to the extent it determines such sale to be necessary in order to repay the loan.

[8] Put option:

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

[9] Forfeitures:

Plan forfeitures are allocated to each participant's account in a method consistent with the allocation of released shares as described above. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2010 and 2009 totaled 8,276 and 4,182 shares, respectively.

[10] Diversification:

Active participants may elect to diversify portions of their ESOP stock accounts when the participant has attained the age of 55 years old and has at least ten years of participation in the Plan. Each participant who is eligible to diversify and elects to may diversify up to 25% of the qualified participant's ESOP stock account. Distributions are made in the form of cash or other property with a fair value equal to the participant's account balance.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

[2] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates and assumptions that affect certain reported amounts of net assets available (deficit) for plan benefits at the date of the financial statements and the changes in net assets available (deficit) for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[3] Valuation of investments and income recognition:

The Class B common shares of the Company are valued at estimated fair value on December 31, 2010 and 2009. Fair value is determined by annual independent appraisals (see Note J for discussion of fair value of investments).

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method.

[4] Operating expenses:

All expenses of maintaining the Plan are paid by the Company.

NOTE C - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated December 10, 2007 that the Plan and related trust are designed in accordance with applicable sections of the Code. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE D - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist solely of the Company's Class B common stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee. The Trustee also administers the payment of interest and principal on the Acquisition Loan from contributions and dividends, if any, made by the Company.

Officers or employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

NOTE E - INVESTMENTS

The Plan's investments at December 31, 2010 and 2009 are presented in the following table:

	2010		2009	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	**1,403,919**	**171,865**	1,353,183	311,340
Cost	**$ 31,826,844**	**$ 3,896,180**	$ 30,676,659	$ 7,058,078
Fair value	**$ 21,058,790**	**$ 2,577,975**	$ 24,627,926	$ 5,666,388

During 2010 and 2009, terminated employees of the Company sold 88,738 and 86,556, respectively, of vested shares of Class B common stock to the Company at fair value as determined at the last balance sheet date for $1,615,039 and $1,540,697, respectively.

The investment in the Company's Class B common stock represents 5% or more of the fair value of the Plan's net assets for both 2010 and 2009.

NOTE F - RISKS AND UNCERTAINTIES

The Plan invests in the Company's Class B common stock, which is exposed to various risks, such as interest rate, market, credit, liquidity, and market perception risks. The fair value of investments and securities are sensitive to changes in economic conditions, delinquencies, and defaults, and may be adversely affected by shifts in the market perception of the issuers. Due to the level of risk associated with the Class B common stock, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available (deficit) for plan benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2010 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE G - LOAN PAYABLE

In August 1998, the Company loaned $45,000,000 to the Plan. The Plan used the proceeds from the loan to purchase 1,985,040 shares of the Company's Class B common stock. The purchase price of these shares was determined by an independent third-party valuation firm. The plan agreement provides for the loan to be repaid over 15 years with annual payments of principal and interest (5.80%) aggregating $4,572,967. The fair value of the loan payable as of December 31, 2010 and 2009 approximated the carrying value and was determined by using interest rates currently available for issuance of debt with similar terms, maturity dates and nonperformance risk.

The following is a schedule of future minimum payments at December 31, 2010 for the years shown:

2011	$ 4,267,258
2012	1,003,590
	$ 5,270,848

NOTE H - EMPLOYER CONTRIBUTIONS

The Company is obligated to make contributions in cash or shares of the Company stock as defined in the Plan, which when aggregated with any dividends and interest earnings, equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on the Acquisition Loan.

NOTE I - NEW ACCOUNTING PRONOUNCEMENTS

In January 2010, the Financial Accounting Standards Board issued new accounting guidance entitled ASU 2010-06 "Fair Value Measurements and Disclosures and Improving Disclosures about Fair Value Measurements." The guidance requires entities to disclose (i) separately the amounts of significant transfers in and out of Level 1 and Level 2 and reasons for the transfers; (ii) disclosure on gross basis of purchases, sales, issuances and settlements within Level 3; (iii) disclosures by class of assets and liabilities; and (iv) a description of the valuation techniques and inputs used to measure for both recurring and nonrecurring fair value measurements for Level 2 or Level 3. The guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The update did not have a material impact on the Plan's financial statements or disclosures (see Note J for a discussion of fair value of investments).

NOTE J - INVESTMENTS AT FAIR VALUE

Under accounting guidance, fair value accounting is a market-based measurement, not an entity specific measurement. Therefore, a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering market participant assumptions in fair value measurements, a fair value hierarchy was established, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy are described as follows:

Level 1: Observable inputs such as quoted prices in active markets (available in exchange).

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Unobservable inputs in which there is little or no market data. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category generally includes certain private debt and equity instruments and alternative investments.

NOTE J - INVESTMENTS AT FAIR VALUE (CONTINUED)

Assets and liabilities measured at fair value are based on one or more of the following three valuation techniques noted:

A. Market approach: Prices and other relevant information generated by market transactions including identical or comparable assets or liabilities.

B. Income approach: Techniques to convert future amounts to a single present amount based upon market expectations (including present value techniques, option-pricing and excess earnings models).

C. Cost approach: Amount that would be required to replace the service capacity of an asset (replacement cost).

The following table summarizes the Plan's investments measured at fair value on a recurring basis as of December 31, 2010 and 2009:

	December 31,		
	2010	2009	
	Significant Unobservable Inputs (Level 3)	Significant Unobservable Inputs (Level 3)	Valuation Technique
Investment in Sponsor: Company Class B common stock	$ 23,636,765	$ 30,294,314	Independent valuation
Total investments	$ 23,636,765	$ 30,294,314	

The fair value of the Company's Class B common stock held by the Plan is valued at fair value based upon an independent appraisal. The appraisal was based upon a combination of both a market approach and an income approach consistent with prior years. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future cash flows or earnings discounted to present value. The measurement is based on the value indicated by current market expectations about those future amounts. Other factors that were taken into consideration included significant material events for the Company and industry.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE J - INVESTMENTS AT FAIR VALUE (CONTINUED)

The following table presents changes in the Plan's Level 3 investment representing the investments measured at fair value on a recurring basis for the years ended December 31, 2010 and 2009:

	December 31,	
	2010	**2009**
Beginning balance	**$ 30,294,314**	$ 31,169,202
Net unrealized (depreciation) appreciation in fair value	**(5,042,510)**	665,809
Distributions to participants	**(1,615,039)**	(1,540,697)
Ending balance	**$ 23,636,765**	$ 30,294,314

NOTE K - SUBSEQUENT EVENTS

The Company has evaluated subsequent events through October 7, 2011, the date the financial statements were available to be issued, and no additional disclosures are required.
