INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
of the Jackson Hewitt Employee Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Jackson Hewitt Employee Savings Plan (the "Plan") as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 3, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

JACKSON HEWITT EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of Jackson Hewitt Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General—The Plan is a defined contribution plan covering substantially all full-time and part-time eligible employees, who have attained the age of 18, of Jackson Hewitt Tax Service Inc. ("Jackson Hewitt" or "the Company"), and its wholly-owned subsidiaries: Jackson Hewitt Inc., Jackson Hewitt Technology Services LLC, Jackson Hewitt Corporate Services Inc. and Tax Services of America, Inc. The Plan was established on June 21, 2004. Jackson Hewitt serves as the sponsor of the Plan ("Plan Sponsor"). The Compensation Committee of the Company's Board of Directors has overall responsibility for the plan and has delegated the administrate functions of the plan to the Investment Committee of Jackson Hewitt. Bank of America, N.A. serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions—Each year, participants may contribute up to 20% of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code ("IRC") limitations. The Company annually matches 100% of the first 6% of eligible compensation that a participant contributes to the Plan. If it is determined that the Company has made any excess contributions during the Plan year, these excess contributions can be used to offset future employer contributions or to pay plan expenses. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Investments—Participants direct the investment of their contributions into various investment options offered by the Plan. As of December 31, 2010, the Plan offered 15 registered investment funds and three common/collective trusts ("CCT") as investment options for participants.

Participant Accounts—Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution and an allocation of Plan earnings, and charged with withdrawals, Plan losses and an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting—Participants are vested immediately in their contributions and the Company's contributions, plus actual earnings thereon.

Notes Receivable from Participants—Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of: (1) $50,000 less the highest total outstanding loan balance the participant had during the one year period before the date the loan was made; or (2) 50% of the participant's vested balance minus the current outstanding loan balance. The loans are secured by the balance in the participant's account and outstanding loans

bear interest at rates between 4.25% and 9.25% at the time funds are borrowed as determined quarterly by the Plan administrator. The interest rates are generally determined to be between 1% and 3% above the prime rate. Principal and interest are paid ratably through payroll deductions generally within 5 years and deposited back into participant's accounts.

Payment of Benefits— Upon termination of service or retirement, a participant may generally elect to receive either a lump-sum amount equal to the value of the participant's vested balance in his or her account, or annual installments over a period not to exceed the participant's lifetime, which is actuarially determined. If the participant balance is $5,000 or less, the participant will automatically receive a lump sum distribution. The plan also permits for other types of withdrawals based on certain criteria, including hardship withdrawals and in-service withdrawals once the participant has reached the age of 59 ½.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and, when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants – In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): "Reporting Loans to Participants by Defined Contribution Pension Plans."* This ASU requires participant loans to be classified as notes receivable from participants in the financial statements of a defined contribution pension plan, measured at the unpaid principal balance plus accrued, but unpaid interest. The Plan adopted the new guidance, which is effective for fiscal years ending after December 15, 2010, and is applied retrospectively, by reclassifying participant loans on Statement of Net Assets Available for Benefits for all years presented. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Subsequent Events - The Company evaluated subsequent events through October 11, 2011, which is the date the financial statements were available to be issued.

Fully Benefit–Responsive Investment Contracts—As described in the FASB Accounting Standards Codification ("ASC") 946-210, *Financial Services – Investment Companies, Balance Sheet*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invested in investment contracts through a CCT fund, Merrill Lynch Retirement Preservation Trust ("MLRPT"). As required by FASB ASC 946-210, the Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust fund as well as the adjustment of the fully benefit-responsive collective trust fund from fair value to contract value as of December 31, 2009.

Effective with the trustee's October 6, 2010 approval of a resolution to terminate the MLRPT and commence liquidation of its assets, the MLRPT changed from a stable value fund to a short-term bond
fund. For the period from January 1, 2010 through October 6, 2010, investments held by the MLRPT were reported at contract value in accordance with ASC 946-210. The most significant change was the elimination of the MLRPT's wrap contracts and the change from contract value to fair value accounting. There was therefore no fair value adjustment as of December 31, 2010. The MLRPT terminated operations on February 28, 2011 and was liquidated on March 1, 2011 through an in-kind distribution to unit holders.

Effective February 22, 2011, any participant investments still held in the MLRPT were transferred to the newly created Federated Capital Preservation Fund.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 – "Fair Value Measurements."

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recorded when earned. The accompanying Statement of Changes in Net Assets Available for Benefits presents net appreciation in fair value of investments, which includes unrealized gains and losses on investments held at December 31, 2010, realized gains and losses on investments sold during the Plan year, management fees and operating expenses associated with the Plan's investments in mutual funds and CCTs.

Mutual Fund Expenses—Management fees and operating expenses charged to the Plan for investments in the mutual funds and CCTs are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Administrative Expenses—Fees related to participant loans and certain redemption fees are charged to respective participant accounts. As of December 31, 2010 and December 31, 2009, there was only one fund in the Plan, the DWS RREEF Real Estate Fund, which had associated redemption fees. A 2.0% redemption fee is charged on the gross proceeds on shares of the fund held for less than the 15 day minimum holding period. Recordkeeping expenses of the Plan are paid by the Plan's Sponsor.

Payment of Benefits—Benefits are recorded when paid. There was $96,336 and $108,119 allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid as of December 31, 2010 and December 31, 2009, respectively.

3. INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Bank of America, N.A. the trustee of the Plan has certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants in the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009, the statement of changes in net assets available for benefits for the year ended December 31, 2010 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2010.

4. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820 provides a framework for measuring fair value and expands related disclosures. Topic 820 establishes a three-level valuation hierarchy based upon observable and non-observable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). There were no changes to the Company's valuation techniques used to measure asset and liabilities fair values on a recurring basis during the year. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described herein may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In January 2010, the FASB issued ASU 2010-06, *Fair Value Measurements and Disclosures (Topic 820):* "*Improving Disclosures about Fair Value Measurements*". This ASU requires new disclosures on the amount and reason for transfers in and out of Level 1 and 2 recurring fair value measurements. The ASU also requires disclosure of activities on a gross basis, including purchases, sales, issuances, and settlements, in the reconciliation of Level 3 fair value recurring measurements. The standard clarifies existing disclosure requirements on levels of disaggregation and disclosures about inputs and valuation techniques. The Plan adopted the new disclosures regarding Level 1 and 2 fair value measurements and clarification of existing disclosures which were effective for periods beginning after December 15, 2009. The disclosures about the reconciliation of information in Level 3 recurring fair value measurements are required for periods beginning after December 15, 2010. This guidance impacts disclosure only and will not have an effect on the Plan's financial statements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered investment funds ("mutual funds") are valued at the quoted market price, which represents the net asset value of shares held by the Plan at year-end.

CCTs are valued at the net asset value of the units held by the Plan at year-end, which is based on the fair value of the underlying assets.

One of the Plan's CCT investments is the MLRPT. In 2009 and through October 6, 2010, the MLRPT invested primarily in synthetic guaranteed investment contracts that were primarily collateralized by graded debt securities and were valued at fair value of the underlying investments and then adjusted by the issuer to contract value. The fair value of the underlying debt securities was valued at the last available bid price in over the counter ("OTC") markets or on the basis of values obtained by independent valuation groups. The synthetic guaranteed investment wrapper contracts were valued by determining the difference between the present value of the replacement cost of the wrapper contract and the present value of the contractually obligated payments in the original wrapper contract. Participants were able to direct the withdrawals or transfers of all or a portion of their investment at contract value. Contract value represented contributions made to the fund, plus earnings, less participant withdrawals. The fair value recorded in the Plan's financial statements for such fund was $1,969,113 at December 31, 2009. Effective with the trustee's October 6, 2010 approval of a resolution to terminate the MLRPT and commence liquidation of its assets, the MLRPT changed from a stable value fund to a short-term bond fund. Short-term fixed-income investments are stated at amortized cost, which approximates market value. Investments in regulated investment companies are valued at the net asset value per share/unit on the valuation date. Debt securities are valued on the basis of valuations furnished by a pricing service approved by the trustee, which determines valuations using methods based on market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. Securities for which market quotations are not readily available, or have quotations which management believes are not appropriate, are valued at fair value as determined in good faith by the trustee.

The Plan also invests in the Merrill Lynch Equity Index Trust, a CCT fund, which invests primarily in equity securities. Equity securities held by the Trust that are traded on stock exchanges or the NASDAQ Global Market ("NASDAQ") are valued at the last sale price or official close price on the exchange as of the close of business on the day the securities are being valued or, lacking any sales, at the available bid price for long positions. In cases where equity securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by or under the authority of the Trustee. Long positions traded in the OTC markets, NASDAQ Capital Market or Bulletin Board are valued at the last available bid price or yield equivalent as obtained from one or more dealers or pricing services. Portfolio securities that are traded both in the OTC markets and on a stock exchange are valued according to the broadest and most representative market. Investments in open-end investment companies are valued at their net asset value each business day. Financial futures contracts traded on exchanges are valued at their last sale price.

In addition, the Plan invests in the Merrill Lynch Extended Market Index Trust, a CCT fund, which owns approximately 17% of the Master Extended Market Index Series ("Master Portfolio"). The Master Portfolio invests primarily in equity securities. The Master Portfolio fair values its financial instruments at market value using independent dealers or pricing services under policies approved by the Board. Equity investments traded on a recognized securities exchange or NASDAQ are valued at the last reported sale price that day or the NASDAQ official closing price, if applicable. For equity investments traded on more than one exchange, the last reported sale price on the exchange where the stock is primarily traded is used. Equity investments traded on a recognized exchange for which there were no sales on that day are valued at the last available bid price. If no bid price is available, the prior day's price will be used; unless it is determined that such prior day's price no longer reflects the fair value of the security. Financial futures contracts traded on exchanges are valued at their last sale price.

Investments in open-end registered investment companies are valued at net asset value each business day. Short-term securities with remaining maturities of 60 days or less may be valued at amortized cost, which approximates fair value.

The following tables present the fair value hierarchy for the balances of the assets and liabilities of the Plan measured at fair value as of December 31, 2010 and 2009.

There were no trust investment assets at fair value classified within level 3 as of December 31, 2010 and 2009.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no significant transfers in or out of levels 1, 2 or 3.

5. INVESTMENTS

The Plan's CCT and mutual fund investments (including realized gains and losses on investments bought and sold, as well as unrealized gains and losses on investments held during the year) for the year ended December 31, 2010 appreciated in value as follows:

Common/Collective Trusts	$ 361,670
Registered Investment Funds	2,403,581
Net appreciation in fair value of investments	$ 2,765,251

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available

for benefits and the statement of changes in net assets available for benefits. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2010 may not necessarily be indicative of amounts that could be realized in a current market exchange.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

A portion of the Plan's investments represents shares in funds managed by Bank of America, N.A., the trustee of the Plan. Therefore, these transactions qualify as exempt party-in-interest transactions.

Certain administrative functions are performed by the officers and employees of the Company, who may also be participants in the Plan. These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory administrative exemptions from the IRC's and ERISA's rules on prohibited transactions.

8. PLAN TERMINATION

Although the Company has not expressed any intention to do so, the Company reserves the right to modify, suspend, amend or terminate the Plan in whole or in part at any time subject to the provisions of ERISA.

9. FEDERAL INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by Merrill Lynch. Merrill Lynch received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of assets available for benefits per financial statements to Form 5500 as of December 31:

To the Plan Administrator and Participants
of the Jackson Hewitt Employee Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Jackson Hewitt Employee Savings Plan (the "Plan") as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 3, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

JACKSON HEWITT EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of Jackson Hewitt Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General—The Plan is a defined contribution plan covering substantially all full-time and part-time eligible employees, who have attained the age of 18, of Jackson Hewitt Tax Service Inc. ("Jackson Hewitt" or "the Company"), and its wholly-owned subsidiaries: Jackson Hewitt Inc., Jackson Hewitt Technology Services LLC, Jackson Hewitt Corporate Services Inc. and Tax Services of America, Inc. The Plan was established on June 21, 2004. Jackson Hewitt serves as the sponsor of the Plan ("Plan Sponsor"). The Compensation Committee of the Company's Board of Directors has overall responsibility for the plan and has delegated the administrate functions of the plan to the Investment Committee of Jackson Hewitt. Bank of America, N.A. serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions—Each year, participants may contribute up to 20% of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code ("IRC") limitations. The Company annually matches 100% of the first 6% of eligible compensation that a participant contributes to the Plan. If it is determined that the Company has made any excess contributions during the Plan year, these excess contributions can be used to offset future employer contributions or to pay plan expenses. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Investments—Participants direct the investment of their contributions into various investment options offered by the Plan. As of December 31, 2010, the Plan offered 15 registered investment funds and three common/collective trusts ("CCT") as investment options for participants.

Participant Accounts—Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution and an allocation of Plan earnings, and charged with withdrawals, Plan losses and an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting—Participants are vested immediately in their contributions and the Company's contributions, plus actual earnings thereon.

Notes Receivable from Participants—Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of: (1) $50,000 less the highest total outstanding loan balance the participant had during the one year period before the date the loan was made; or (2) 50% of the participant's vested balance minus the current outstanding loan balance. The loans are secured by the balance in the participant's account and outstanding loans

bear interest at rates between 4.25% and 9.25% at the time funds are borrowed as determined quarterly by the Plan administrator. The interest rates are generally determined to be between 1% and 3% above the prime rate. Principal and interest are paid ratably through payroll deductions generally within 5 years and deposited back into participant's accounts.

Payment of Benefits— Upon termination of service or retirement, a participant may generally elect to receive either a lump-sum amount equal to the value of the participant's vested balance in his or her account, or annual installments over a period not to exceed the participant's lifetime, which is actuarially determined. If the participant balance is $5,000 or less, the participant will automatically receive a lump sum distribution. The plan also permits for other types of withdrawals based on certain criteria, including hardship withdrawals and in-service withdrawals once the participant has reached the age of 59 ½.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and, when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants – In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): "Reporting Loans to Participants by Defined Contribution Pension Plans."* This ASU requires participant loans to be classified as notes receivable from participants in the financial statements of a defined contribution pension plan, measured at the unpaid principal balance plus accrued, but unpaid interest. The Plan adopted the new guidance, which is effective for fiscal years ending after December 15, 2010, and is applied retrospectively, by reclassifying participant loans on Statement of Net Assets Available for Benefits for all years presented. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Subsequent Events - The Company evaluated subsequent events through October 11, 2011, which is the date the financial statements were available to be issued.

Fully Benefit–Responsive Investment Contracts—As described in the FASB Accounting Standards Codification ("ASC") 946-210, *Financial Services – Investment Companies, Balance Sheet*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invested in investment contracts through a CCT fund, Merrill Lynch Retirement Preservation Trust ("MLRPT"). As required by FASB ASC 946-210, the Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust fund as well as the adjustment of the fully benefit-responsive collective trust fund from fair value to contract value as of December 31, 2009.

Effective with the trustee's October 6, 2010 approval of a resolution to terminate the MLRPT and commence liquidation of its assets, the MLRPT changed from a stable value fund to a short-term bond
fund. For the period from January 1, 2010 through October 6, 2010, investments held by the MLRPT were reported at contract value in accordance with ASC 946-210. The most significant change was the elimination of the MLRPT's wrap contracts and the change from contract value to fair value accounting. There was therefore no fair value adjustment as of December 31, 2010. The MLRPT terminated operations on February 28, 2011 and was liquidated on March 1, 2011 through an in-kind distribution to unit holders.

Effective February 22, 2011, any participant investments still held in the MLRPT were transferred to the newly created Federated Capital Preservation Fund.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 – "Fair Value Measurements."

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recorded when earned. The accompanying Statement of Changes in Net Assets Available for Benefits presents net appreciation in fair value of investments, which includes unrealized gains and losses on investments held at December 31, 2010, realized gains and losses on investments sold during the Plan year, management fees and operating expenses associated with the Plan's investments in mutual funds and CCTs.

Mutual Fund Expenses—Management fees and operating expenses charged to the Plan for investments in the mutual funds and CCTs are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Administrative Expenses—Fees related to participant loans and certain redemption fees are charged to respective participant accounts. As of December 31, 2010 and December 31, 2009, there was only one fund in the Plan, the DWS RREEF Real Estate Fund, which had associated redemption fees. A 2.0% redemption fee is charged on the gross proceeds on shares of the fund held for less than the 15 day minimum holding period. Recordkeeping expenses of the Plan are paid by the Plan's Sponsor.

Payment of Benefits—Benefits are recorded when paid. There was $96,336 and $108,119 allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid as of December 31, 2010 and December 31, 2009, respectively.

3. INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Bank of America, N.A. the trustee of the Plan has certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants in the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009, the statement of changes in net assets available for benefits for the year ended December 31, 2010 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2010.

4. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820 provides a framework for measuring fair value and expands related disclosures. Topic 820 establishes a three-level valuation hierarchy based upon observable and non-observable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). There were no changes to the Company's valuation techniques used to measure asset and liabilities fair values on a recurring basis during the year. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described herein may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In January 2010, the FASB issued ASU 2010-06, *Fair Value Measurements and Disclosures (Topic 820):* "*Improving Disclosures about Fair Value Measurements*". This ASU requires new disclosures on the amount and reason for transfers in and out of Level 1 and 2 recurring fair value measurements. The ASU also requires disclosure of activities on a gross basis, including purchases, sales, issuances, and settlements, in the reconciliation of Level 3 fair value recurring measurements. The standard clarifies existing disclosure requirements on levels of disaggregation and disclosures about inputs and valuation techniques. The Plan adopted the new disclosures regarding Level 1 and 2 fair value measurements and clarification of existing disclosures which were effective for periods beginning after December 15, 2009. The disclosures about the reconciliation of information in Level 3 recurring fair value measurements are required for periods beginning after December 15, 2010. This guidance impacts disclosure only and will not have an effect on the Plan's financial statements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered investment funds ("mutual funds") are valued at the quoted market price, which represents the net asset value of shares held by the Plan at year-end.

CCTs are valued at the net asset value of the units held by the Plan at year-end, which is based on the fair value of the underlying assets.

One of the Plan's CCT investments is the MLRPT. In 2009 and through October 6, 2010, the MLRPT invested primarily in synthetic guaranteed investment contracts that were primarily collateralized by graded debt securities and were valued at fair value of the underlying investments and then adjusted by the issuer to contract value. The fair value of the underlying debt securities was valued at the last available bid price in over the counter ("OTC") markets or on the basis of values obtained by independent valuation groups. The synthetic guaranteed investment wrapper contracts were valued by determining the difference between the present value of the replacement cost of the wrapper contract and the present value of the contractually obligated payments in the original wrapper contract. Participants were able to direct the withdrawals or transfers of all or a portion of their investment at contract value. Contract value represented contributions made to the fund, plus earnings, less participant withdrawals. The fair value recorded in the Plan's financial statements for such fund was $1,969,113 at December 31, 2009. Effective with the trustee's October 6, 2010 approval of a resolution to terminate the MLRPT and commence liquidation of its assets, the MLRPT changed from a stable value fund to a short-term bond fund. Short-term fixed-income investments are stated at amortized cost, which approximates market value. Investments in regulated investment companies are valued at the net asset value per share/unit on the valuation date. Debt securities are valued on the basis of valuations furnished by a pricing service approved by the trustee, which determines valuations using methods based on market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. Securities for which market quotations are not readily available, or have quotations which management believes are not appropriate, are valued at fair value as determined in good faith by the trustee.

The Plan also invests in the Merrill Lynch Equity Index Trust, a CCT fund, which invests primarily in equity securities. Equity securities held by the Trust that are traded on stock exchanges or the NASDAQ Global Market ("NASDAQ") are valued at the last sale price or official close price on the exchange as of the close of business on the day the securities are being valued or, lacking any sales, at the available bid price for long positions. In cases where equity securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by or under the authority of the Trustee. Long positions traded in the OTC markets, NASDAQ Capital Market or Bulletin Board are valued at the last available bid price or yield equivalent as obtained from one or more dealers or pricing services. Portfolio securities that are traded both in the OTC markets and on a stock exchange are valued according to the broadest and most representative market. Investments in open-end investment companies are valued at their net asset value each business day. Financial futures contracts traded on exchanges are valued at their last sale price.

In addition, the Plan invests in the Merrill Lynch Extended Market Index Trust, a CCT fund, which owns approximately 17% of the Master Extended Market Index Series ("Master Portfolio"). The Master Portfolio invests primarily in equity securities. The Master Portfolio fair values its financial instruments at market value using independent dealers or pricing services under policies approved by the Board. Equity investments traded on a recognized securities exchange or NASDAQ are valued at the last reported sale price that day or the NASDAQ official closing price, if applicable. For equity investments traded on more than one exchange, the last reported sale price on the exchange where the stock is primarily traded is used. Equity investments traded on a recognized exchange for which there were no sales on that day are valued at the last available bid price. If no bid price is available, the prior day's price will be used; unless it is determined that such prior day's price no longer reflects the fair value of the security. Financial futures contracts traded on exchanges are valued at their last sale price.

Investments in open-end registered investment companies are valued at net asset value each business day. Short-term securities with remaining maturities of 60 days or less may be valued at amortized cost, which approximates fair value.

The following tables present the fair value hierarchy for the balances of the assets and liabilities of the Plan measured at fair value as of December 31, 2010 and 2009.

Investment Assets at Fair Value as of December 31, 2010

	Level 1	Level 2	Level 3	Total
Investments:				
Mutual Funds:				
Growth Funds	$ 4,600,167			$ 4,600,167

There were no trust investment assets at fair value classified within level 3 as of December 31, 2010 and 2009.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no significant transfers in or out of levels 1, 2 or 3.

5. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's Net Assets Available for Benefit as of December 31, 2010 and 2009:

The Plan's CCT and mutual fund investments (including realized gains and losses on investments bought and sold, as well as unrealized gains and losses on investments held during the year) for the year ended December 31, 2010 appreciated in value as follows:

Common/Collective Trusts	$ 361,670
Registered Investment Funds	2,403,581
Net appreciation in fair value of investments	$ 2,765,251

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available

for benefits and the statement of changes in net assets available for benefits. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2010 may not necessarily be indicative of amounts that could be realized in a current market exchange.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

A portion of the Plan's investments represents shares in funds managed by Bank of America, N.A., the trustee of the Plan. Therefore, these transactions qualify as exempt party-in-interest transactions.

Certain administrative functions are performed by the officers and employees of the Company, who may also be participants in the Plan. These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory administrative exemptions from the IRC's and ERISA's rules on prohibited transactions.

8. PLAN TERMINATION

Although the Company has not expressed any intention to do so, the Company reserves the right to modify, suspend, amend or terminate the Plan in whole or in part at any time subject to the provisions of ERISA.

9. FEDERAL INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by Merrill Lynch. Merrill Lynch received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of assets available for benefits per financial statements to Form 5500 as of December 31:

	2010	2009
Net assets available for benefits per financial statements	$ 25,651,921	$ 23,416,596
Less: amount allocated to withdrawing participant	(96,336)	(108,119)
Less: employer receivable at year-end	(41,916)	(43,862)
Less: interest and dividend receivable at year-end	(288)	(288)
Less: Adjustment from contract value to fair value for fully benefit-responsive investment contracts	-	(142,837)
Net assets available for benefits per Form 5500	$ 25,513,381	$ 23,121,490

The following is a reconciliation of total contributions per financial statements to total contributions per Form 5500 for the year ended December 31, 2010:

Total contributions per financial statements	$ 3,032,835
Decrease in employer receivable at year-end	1,946
Total contributions per Form 5500	$ 3,034,781

The following is a reconciliation of the increase in assets per financial statements to the net income per Form 5500 for the year ended December 31, 2010:

Increase in assets per financial statements	$ 2,235,325
Decrease in employer receivable at year-end	1,946
Decrease related to participant distribution	11,783
Decrease in adjustments from contract value to fair value for fully benefit-responsive investment contracts	142,837
Net income per Form 5500	$ 2,391,891
