Independent Auditor's Report

To the Administrative Committee of
Berea Children's Home Defined Benefit Pension Plan
Berea, Ohio

We were engaged to audit the accompanying statements of net assets available for benefits of Berea Children's Home Defined Benefit Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedules of (a) schedule h, line 4(i) – schedule of assets held (at end of year), and (b) schedule h, line 4(j) – schedule of reportable transactions as of or for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified and provided by Fifth Third Bank, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's assets and executes transactions. The plan administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note 6 that was provided to the plan administrator by the custodian as of and for the years ended December 31, 2010 and 2009.

As further discussed in Note 1 to the financial statements, the Plan was frozen to new entrants as of June 15, 2009 and no future benefit accruals were earned after June 15, 2009 for existing participants.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Berea Children's Home Defined Benefit Pension Plan

Notes to Financial Statements

Note 1. Description of Plan

The following brief description of the Berea Children's Home Defined Benefit Pension Plan (the Plan) is provided for general information purposes only. For more complete information, participants should refer to the plan agreement.

General: The Plan, established January 1, 1977, and amended and restated January 1, 2002, is a defined benefit pension plan established for the employees of Berea Children's Home (the Company and plan sponsor). It is subject to the provisions of the Employee Income Security Act of 1974 (ERISA), as amended and the Pension Protection Act of 2006.

On April 25, 2009, the Board of Trustees of the Company adopted an amendment to freeze the Plan effective June 15, 2009. No new participants are allowed to enter the Plan after June 15, 2009. In addition, benefits ceased to accrue for service rendered after June 15, 2009.

Eligibility to participate: Employees who attained the age of 21 and completed 1,000 hours of continuous service in a twelve month period measured from each individual employee's date of hire and anniversaries thereafter, were eligible to participate in the Plan.

Pension benefits: Employees with five or more years of service are entitled to monthly pension benefits (based on years of service and level of "covered compensation") beginning at normal retirement age (65). The Plan permits early retirement with reduced benefits at ages 55-64. Generally, benefits are paid monthly in the form of a joint and survivor annuity for married participants or in the form of a life annuity for single participants. Participants also may elect to receive a lump-sum or other variations of monthly payments.

Death and disability benefits: If an active employee dies prior to the receipt of the first payment of benefits, the employee's beneficiary will generally receive the actuarial equivalent of the accrued benefit paid in the form of a life annuity or in one lump-sum payment. Active employees who become totally disabled are entitled to receive the present value of their accrued benefit.

Vesting: If a participant terminates before rendering five years of service, the participant forfeits the right to receive any portion of their accumulated plan benefits.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statement in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of investments and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold, as well as, held during the year.

Berea Children's Home Defined Benefit Pension Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Recently adopted accounting pronouncement: In January 2010, FASB issued an amendment "*Fair Value measurements and Disclosures-Improving Disclosures about Fair Value Measurements*" (ASU 2010-06) which required new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarified that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarified that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. Management is currently evaluating the impact of the guidance related to Level 3 disclosures.

Recently issued accounting pronouncements: In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, "*Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04)". ASU 2011-04 amended ASC 820, "*Fair Value Measurements and Disclosures*", to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including distributions not yet elected to be received, that are attributable under the Plan's provisions to service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits are based on the Plan's provisions and each participant's service through the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by an independent actuary from National Associates, Inc., and results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the probability of payment (by means of decrements such as for death, disability, withdrawals, or retirement) and the time value of money (through discounts for interest) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the December 31, 2010 and 2009 valuations are as follows:

Actuarial Cost Method: Unit Credit

Assumed Rate of Return on Investment: Segmented interest rates of 2.94%; 5.82%; and 6.46% - 2010
Segmented interest rates of 4.60%; 6.65%; and 6.76% - 2009

Mortality Basis: RP 11C Male and Female Mortality Table - 2010
RP 10C Male and Female Mortality Table - 2009

Retirement Age for Active Participants: 65

Note 2. Summary of Significant Accounting Policies (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial information is as of January 1, 2011, the most recent benefit information date. There were no significant amendments or demographic differences between the December 31, 2010 and January 1, 2011 valuation date.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: Administrative expenses of the Plan are paid from the Plan assets, unless paid by the Company.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. As of December 31, 2010 and 2009, the Plan invested approximately 13% and 12% of total investments in Fannie Mae and Freddie Mac corporate bonds and notes, respectively. Due to the level of risk associated with certain investment securities and the recent economic events, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported on the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that the changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 12, 2011, the date the financial statements were available to be issued.

Notes to Financial Statements

Note 4. Funding Policy

The Company's funding policy is to make contributions to the Plan on the basis of an annual determination of the Plan's actuarial liabilities. The amounts of contributions are intended to maintain funding levels in the Plan, which will meet current obligations to participants of the Plan and amortize actuarial gains or losses. The Company's contributions for the years ended December 31, 2010 and 2009 have met or exceeded the minimum funding requirements under ERISA.

Note 5. Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.
5. Return of excess funds, if any, to the Company, after satisfaction of all Plan liabilities.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the PBGC, and on the level of benefits guaranteed by the PBGC.

Note 6. Information Certified and Provided by Fifth Third Bank

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the years then ended, included throughout the Plan's financial statements and supplemental schedules that were prepared by or derived from information provided by the custodian and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that information provided to the plan administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

Note 7. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data or correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Berea Children's Home Defined Benefit Pension Plan

Notes to Financial Statements

Note 7. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Corporate bonds and notes: Certain of these investments are valued at the closing price reported in the market in which they are traded. When quoted prices are not available for identical or similar bonds, the bond or note is valued under a discounted cash flows approach that maximizes observable inputs such as current yields of similar instruments but includes adjustments for certain risks that may not be observable such as credit and liquidity risks.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Equity and bond funds: Valued at the quoted market prices representing net asset value of shares held by the plan at year end.

Money market funds: Valued at cost which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value:

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated May 3, 2004, that the Plan and related trust were designed in accordance with the applicable sections of the Internal Revenue Code (Code). The Plan has been amended since receiving this determination letter. However, the Plan's management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that "more likely than not" would not be sustained upon examination by the U.S. federal, state or local tax authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 9. Related Party

Fifth Third Bank employs one of the members of the Board of Trustees of the Company. In addition, the Plan invests in a money market fund managed by Fifth Third Bank. Fifth Third Bank is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Custodian fees for the years ended December 31, 2010 and 2009 were \$19,469 and \$16,290, respectively.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

v.092308.1

SUMMARY OF PLAN PROVISIONS

1. Eligibility

Employees are eligible to participate on the Entry Date following one year of service and attainment of age 21. No new participants will enter the plan after June 15, 2009.

2. Normal Retirement

Normal Retirement is the first day of the month coincident with or next following the later of age 65 or 5 years of participation.

The Normal Retirement Benefit is a monthly benefit equal to .75% of the highest 5-year average monthly compensation up to the integration level, plus 1.4% of average monthly compensation in excess of the integration level; multiplied by service up to a maximum of 35 years. All accrued benefits are frozen as of June 15, 2009.

3. Accrued Retirement Benefit

The accrued retirement benefit is the normal retirement benefit prorated on service. All accrued benefits are frozen as of June 15, 2009.

4. Postponed Retirement

Participants may postpone retirement beyond normal retirement age. Upon request, the participant will receive a benefit equal to the greater of the actuarial equivalent of the normal retirement benefit or a benefit based on average compensation and service at the postponed retirement date.

5. Vested Benefit Upon Termination of Employment

In the event of termination of employment for any reason other than death, disability, or retirement, participants are 100% vested in their accrued benefit after five years of service. This benefit will be reduced for early payment.

6. Death Benefit Before Retirement

The beneficiary of an active Participant will receive the present value of their accrued retirement benefit.

7. Normal Form of Pension Benefit

The normal form of benefit is a monthly income payable for life. Optional forms of benefit are available, subject to the joint and survivor benefit requirements for married participants.
