REPORT OF INDEPENDENT AUDITORS

Retirement Committee of the Metaldyne Retirement Plan
Plymouth, Michigan

We were engaged to audit the financial statements and supplemental schedules of the Metaldyne Retirement Plan (the "Plan") as of December 31, 2010 and 2009 and for the year ended December 31, 2010 and the period from October 16, 2009 (date of inception) to December 31, 2009, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the investment assets of the Plan and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010 and the period from October 16, 2009 to December 31, 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**METALDYNE
RETIREMENT PLAN**

**NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009**

A. Description of Plan

The following description of the Metaldyne Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering eligible employees at various divisions and subsidiaries of Metaldyne, LLC (the "Company" or "Metaldyne"). Eligible employees participate in the Plan upon completion of certain employment service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective Date of Plan – The Plan became effective as of October 16, 2009. Employees of Metaldyne Corporation that became employees of Metaldyne LLC as of October 16, 2009 and who had participant account balances in retirement plans sponsored by Metaldyne Corporation as of October 16, 2009 were deemed to have elected to rollover their participant accounts, including any participant loan that was not otherwise in default subject to the rules established by the administrator or the Metaldyne Retirement Plan, to the Metaldyne Retirement Plan sponsored by Metaldyne, LLC, unless the impacted participants of the Metaldyne Corporation sponsored retirement plans submitted a different election within a specified time period. The total amount of rollovers that entered the Metaldyne Retirement Plan in 2009 from the retirement plans sponsored by Metaldyne Corporation was \$55,646,925.

Contributions – Participants may contribute up to 75% of their pretax annual compensation as defined by the Plan, not to exceed the maximum amount allowable under Internal Revenue Service regulations. Participants may also make rollover contributions representing distributions from other tax-qualified plans. The Company makes matching and/or profit sharing contributions in accordance with Plan provisions. These Company contributions, if applicable, vary by division or subsidiary and are invested pursuant to the participant's investment election. Matching contributions are determined by the Company and are subject to certain limitations in accordance with Plan provisions. Profit sharing contributions are determined in accordance with Plan provisions. All employer contributions were suspended during 2009 and remained so during 2010.

Effective January 1, 2011 the Company reinstated the Employer Match contribution for all divisions. The matching contribution will be 50% of the first 6% of employee deferrals.

Participants may direct employee and employer contributions in whole percent increments in the various investment options available under the Plan. These options are professionally managed mutual funds and a collective trust fund, and vary in their respective strategies, risks and goals. Participants may change their investment options daily. Certain administrative expenses of the Plan are paid by the Company, the Plan or are paid by the participant.

Participant Accounts – Each participant's account is credited with an allocation of (a) the Company's contribution, (b) the participant's contribution and (c) Plan earnings, net of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions and the company's employer match plus actual earnings thereon. Profit sharing contributions follow a graded vesting schedule, which are 100% vested after five years of service.

Payment of Benefits – After separation from service due to termination, death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or installments over a period not to exceed ten years. In-service and hardship withdrawals, if applicable, are distributed in a single lump-sum payment.

**METALDYNE
RETIREMENT PLAN**

**NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009**

A. Description of Plan *(continued)*

Notes Receivable from Participants – The Plan provides that participants can borrow funds from their account balances. These notes may not exceed the lesser of \$50,000 reduced by the excess of the Participant's highest outstanding note balance during the one-year period ending on the day before the loan is made over the outstanding balance of notes from the Plan on the date the new note is made or 50% of their vested account balance. Unless otherwise provided in the next sentence, a Participant may only have one note outstanding from the Trust at any time, including any notes rolled over to the Plan from the Metaldyne Hourly Retirement Plan or the Metaldyne Salaried Retirement Plan. No new notes will be granted to any such Participant until all prior notes have been repaid. Note terms may not exceed 5 years, or 10 years for the purchase of a primary residence. The notes are collateralized by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are paid ratably through payroll deductions. Notwithstanding anything herein to the contrary, no notes were made available to participant until December 17, 2009.

Forfeited Accounts – Plan forfeitures resulting from terminated participants' nonvested accounts are used to reduce the Company contributions and reduce Plan administrative expenses. At December 31, 2010 and 2009, forfeitures of \$2,070 and \$1,354 were available to reduce Company contributions, respectively.

B. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Adoption of New Accounting Standard – In September 2010, the Financial Accounting Standards Board ("FASB") amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and measured at their unpaid principal balance plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. The adoption of this guidance by the Plan resulted in a reclassification from investments to notes receivable from participants of \$1,979,512 on the statement of net assets available for benefits as of December 31, 2009 and a reclassification from interest income earned from investments to interest income earned on notes receivable from participants of \$4,434 on the statement of changes in net assets available for benefits. Adoption had no effect on the Plan's net assets available for benefits.

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts – While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in the Managed Income Portfolio Collective Trust.

RETIREMENT PLAN**

**NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009**

B. Summary of Significant Accounting Policies *(continued)*

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Risks and Uncertainties – The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits – Benefit payments to participants are recorded upon distribution.

C. Fair Value Measurements

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan

Mutual funds – The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

RETIREMENT PLAN**

**NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009**

C. Fair Value Measurements (continued)

Collective trust fund – The fair values of participation units held in the Managed Income Portfolio Collective Trust Fund are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (Level 2 inputs). Assets of the collective trust fund are invested primarily in nonconvertible bonds, U.S. Government Agency Obligations, U.S. Government Agency-Mortgage Securities, Asset-Backed Securities, Collateralized Mortgage Obligations, Commercial Mortgage Securities, fixed income securities, and wrap contracts. The investment objective of the fund is to seek the preservation of capital and to provide a competitive level of income. Units of participation are redeemable upon receipt of unit holder's instruction based on the next determined net asset value per unit, with no advance notice requirement. Net asset value per unit is determined each business day. The collective trust fund provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the plan's investments at fair value as of December 31, 2010 and 2009:

D. Unaudited Information – Certified Investments and Notes Receivable from Participants

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest income on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

E. Investments

The following table presents the fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2010 and 2009:

E. Investments (continued)

The components of investment income are as follows for the year ended December 31, 2010 and the period from October 16, 2009 to December 31, 2009:

	<u>2010</u>	<u>2009</u>
Net appreciation in fair value of mutual funds	\$ 6,147,541	\$ 598,613
Interest and dividend income	<u>917,831</u>	<u>282,497</u>
Investment income	\$ <u>7,065,372</u>	\$ <u>881,110</u>

F. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 25, 2011 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

G. Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. At December 31, 2010 and 2009, the Plan held investments in a collective trust fund and mutual funds managed by Fidelity Management Trust Company and Fidelity Investments, Inc., respectively. Fidelity Management Trust Company is the trustee of the Plan and therefore these transactions qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

During 2010 and 2009, the Plan paid administrative expenses to the following party-in-interest:

<u>Name of Party in Interest</u>	<u>Relationship</u>	<u>2010</u>	<u>2009</u>
Fidelity Management Trust Company	Trustee	\$71,101	161

H. Plan Termination

The plan administrator has the right at any time to terminate the Plan subject to the provisions of ERISA. It is the plan administrators intent to liquidate all the assets held in the Plan, however no actions to liquidate the assets have been taken as of the report date.
