Independent Auditors' Report on the Financial Statements

To the Plan Administrator of
Dopaco, Inc. Profit Sharing & 401(k)
Retirement Plan and Trust
Exton, Pennsylvania

We were engaged to audit the accompanying statements of net assets available for benefits of Dopaco, Inc. Profit Sharing & 401(k) Retirement Plan and Trust (Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Dopaco, Inc. Profit Sharing & 401(k) Retirement Plan and Trust

Notes to Financial Statements

December 31, 2010 and 2009

Note A - Description of Plan

The following description of the Dopaco, Inc. Profit Sharing & 401(k) Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all nonunion employees of Dopaco, Inc. (the Company) who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may contribute up to 60% of their compensation as defined in the Plan. The Plan provides automatic enrollment for eligible employees, with a deferral of 3% of their compensation, unless they elect a different percentage or elect not to participate in the Plan. Employees who are automatically enrolled at 3% will experience a 1% annual increase, to a maximum of 6%, unless they elect otherwise. Participants who have attained age 50 before the end of plan year are eligible to make catch-up contributions. Participants may also elect to make Roth 401(k) contributions. Rollovers from a prior qualified plan are permitted, with the consent of the administrator, as described more fully in the plan document. Contributions are subject to certain limitations. The Company may make matching contributions to each participant based on his or her elective deferrals in a percentage set by the Company. In addition, the Company may make a discretionary profit sharing contribution. Employer's profit sharing contributions are credited to eligible participant's accounts based on a specified percentage of "base compensation" and, if applicable, a specified percentage of "excess compensation," as defined by the Plan. Participants are eligible for the Company's profit-sharing contributions if they work 1,000 hours per year and are employed on the last day of the plan year.

Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers mutual funds of registered investment companies and a common collective trust fund as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' nonvested accounts may first be used to reduce administrative expenses under the Plan. Any remaining forfeitures are then allocated to the accounts of the eligible participants on an annual basis following the plan year. The allocation is made to participants who were active as of the end of the plan year. The amount of forfeitures credited to participants was \$30,007 and \$25,005 for the years ended December 31, 2010 and 2009, respectively. At December 31, 2010 and 2009 forfeited nonvested accounts totaled \$22,396 and \$40,731, respectively.

Note A - Description of Plan (continued)

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan account. Loan terms range from one to five years, unless the loan is to acquire the participant's principal residence. In that case, the loan term may not exceed ten years. The loans are secured by the participant's vested account balance. The loans bear interest at the prime rate plus 1%.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. The Company's contributions vest fully after two years of service.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or termination of employment a participant will receive the value of the vested interest in his or her account as a lump-sum distribution, or he or she may instead elect to receive payment in installments.

Plan Termination

Although it has not expressed any intent to do so, the Company has reserved the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust fund. Contract value for the common collective trust fund is based on the net asset value of the fund as reported by the trustee. The statements of net assets available for benefits presents the fair value of the common collective trust fund as well as the adjustment of the common collective trust fund from fair value to contract value. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Note B - Summary of Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note I for discussion of fair value measurements.

Net investment gain from registered investment companies includes capital gain distributions and realized and unrealized appreciation (depreciation). Net investment gain from the common collective trust fund includes interest and realized and unrealized appreciation (depreciation).

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Plan and the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affected the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Note C - Investments

The following table presents the fair values of the investments. Investments that represent 5% or more of the Plan's net assets are separately identified. All investments are participant directed.

Note D - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note E - Income Tax Status

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2007.

The Plan adopted a prototype plan sponsored by Fidelity Management & Research Company. The prototype plan has received a letter from the Internal Revenue Service dated March 31, 2008 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the determination letter. The plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note F - Reliance on Trustee's Report

The administrator of the Plan has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Under that section, no auditing procedures are required to be performed with respect to the information certified by the trustee of the Plan, Fidelity Management Trust Company, other than comparing such information to that contained in the financial statements and supplemental schedule. Accordingly, the amounts included in the financial statements and Note C as of and for the years ended December 31, 2010 and 2009, and the supplemental schedule as of December 31, 2010, have been prepared from statements certified as complete and accurate by the trustee in accordance with DOL regulations 29 CFR 2520.103-5.

Note G - Related Party Transactions

Certain plan investments are managed by Fidelity Management Trust Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

The fees paid by the Plan for the investment management services for the years ended December 31, 2010 and 2009 were \$13,694 and \$12,454, respectively.

Note H - Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	DECEMBER 31, <u>2010</u>	<u>2009</u>

Note I - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note I - Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trust fund: Valued at the net asset value (NAV) of units held by the Plan at year end as reported by the trustee.

The methods described above may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no significant transfers in or out of Levels 1, 2, or 3.

Fair Value of Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)

The following tables set forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2010 and 2009.

Note I - Fair Value Measurements (continued)

Fair Value of Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent) (continued)

- (a) This class is a stable value fund whose objective is to preserve capital and to provide a competitive level of income over time that is consistent with the preservation of capital. The fund invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into “wrapper” contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund. The trustee seeks to minimize the exposure of the fund to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The fund’s ability to receive amounts due pursuant to these contracts is dependent upon the issuers’ ability to meet their financial obligations. Investments in the category can be redeemed daily at the current net asset value per unit which the fund tries to maintain at a stable net asset value of \$1.00 per unit. The fair value of investment in this class has been estimated using the net asset value per share of the underlying investments as reported by the trustee.

Note J - Subsequent Events

The Company has evaluated subsequent events through October 12, 2011. This date is the date the financial statements were available to be issued. No material events subsequent to December 31, 2010 were noted.

Note K - Recent Accounting Pronouncements

In January 2010, FASB issued an amendment, *Fair Value Measurements and Disclosures - Improving Disclosures about Fair Value Measurement* (ASU 2010-06), which requires new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. See Note I for the impact of adoption. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. The Plan will be required to adopt this disclosure in its 2011 financial statements. Plan management is currently evaluating the impact of the guidance related to Level 3 measurements on the Plan’s financial statement disclosures.

In September 2010, FASB issued an amendment, *Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued, but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

Note K - Recent Accounting Pronouncements (continued)

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$1,682,011 from investments to notes receivable as of December 31, 2009. There was no impact to the net assets as of December 31, 2009, as a result of the adoption. This also resulted in a decrease to 2009 investment income of \$127,029, due to separately presenting interest income on notes receivable from participants.
