Report of Independent Auditors

To the Participants and Plan Administrator
of the Windsong Radiology Group, P.C. 401(k) Pension Plan

We were engaged to audit the financial statements and supplemental schedules of the Windsong Radiology Group, P.C. 401(k) Pension Plan (the "Plan") as of and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2009 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Principal Life Insurance Company, the asset custodian. Their report, dated July 29, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and the content of the information included in the financial statements other than that derived from the information certified by the asset custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the asset custodian, except for comparing such information with the related information included in the financial statements and supplemental schedule of assets (held at end of year). We have been informed by the plan administrator that the asset custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the asset custodian as of and for the year ended December 31, 2010 that the information provided to the plan administrator by the asset custodian is complete and accurate.

Because of the significance of the information in the Plan's 2010 financial statements and supplemental schedules that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and supplemental schedules taken as a whole. The form and content of the information included in the 2010 financial statements and supplemental schedules, other than that derived from the information certified by the asset custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following brief description of the Windsong Radiology Group, P.C. 401(k) Pension Plan (the "Plan") is provided for general information purposes only. For more complete information, participants should refer to the plan agreement.

General – The Plan was established effective October 20, 1986 and is sponsored by Windsong Radiology Group, P.C. (the "Company"). The Plan is a contributory defined contribution plan and covers substantially all employees of the Company. Employees become eligible to participate in the Plan on the first day of the quarter following the completion of one year of service and attainment of 21 years of age. Employees actively employed on the last day of the plan year are eligible to participate in discretionary employer contributions if they complete 1,000 hours of service during the respective plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Contributions to the Plan are made by the participants through salary reduction and after-tax contributions, and by the Company through employer matching contributions and discretionary employer contributions. Participants may elect to contribute a specific percentage of their compensation between 1% and 100%, subject to certain limitations under Sections 401(k) and 415 of the Internal Revenue Code. Participants who are age 50 and over are able to elect to contribute an additional amount as a catch-up contribution allowed under Section 414(v).

The Plan requires the Company to match 25% of the participant's contribution up to 4% of compensation for a maximum match of 1% of compensation.

During the plan years ended December 31, 2010 and 2009, the Company provided a discretionary contribution to eligible employees equal to 12% of each radiologist or member of executive management's gross wages and 4% of all other employee's gross wages.

In 2010 and 2009, the Company was delinquent on certain participant contributions to the Plan. All amounts were subsequently contributed to the Plan prior to the plan year-end. The impact on investment income as a result of the delinquent contributions is not expected to be significant.

Participant Accounts – Individual accounts are maintained for each plan participant. Participant accounts are increased by participant contributions, the Company's contributions, and the participant's share of any plan earnings. Participant accounts are decreased by participant distributions and the participant's share of plan expenses and losses. The allocation of earnings and losses to participant accounts is based on procedures set forth in the plan document. Upon death, disability, retirement or

1. Description of the Plan (continued)

Participant Accounts (continued) – termination of employment, the vested benefits of a participant are calculated based on the valuation of their account at the date of distribution.

Investment Allocation – The investments are allocated to any combination of various investment securities, as directed by the participants. During 2010, the Principal Bond Market Index Fund was added as an investment option. During 2010, the Principal HQ Inter-Term Bond Fund was removed as an investment option.

Vesting – Participants are fully vested immediately in their and the Company's matching contributions plus actual earnings thereon. Participants are vested in the Company's discretionary contributions according to the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Payment of Benefits and Withdrawals – Withdrawals during employment from participant accounts are limited to cases of extraordinary financial hardship, as defined by the Plan, and represent taxable distributions to the participant.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25 percent to 10.25 percent, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Income Taxes – The prototype plan sponsor, Principal Life Insurance Company, has obtained an opinion letter dated March 31, 2008 in which the Internal Revenue Service stated that the prototype plan document was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter and has not received a determination letter specific to the Plan itself, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in accordance with the Internal Revenue Code. Accordingly, no provision has been recorded for income taxes.

1. Description of the Plan (continued)

Income Taxes (continued) – Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Plan Termination – The Company may elect to discontinue the Plan at any time. Upon any such termination, the Company will distribute the Plan's assets to participants in accordance with the terms of the plan document.

2. Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of Investments – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Investment Income – Net appreciation or depreciation in the fair value of investments includes both realized gains and losses and unrealized appreciation and depreciation on the fair value of investments. Interest income is recognized as earned. Investment transactions are accounted for on the trade date.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefit Payments – Benefits are recorded when paid.

Notes to Financial Statements (continued)

December 31, 2010 and 2009

2. Significant Accounting Policies (continued)

Party-in-Interest Transactions – Certain plan investments are shares of pooled separate accounts and guaranteed interest accounts managed by Principal Life Insurance Company, the asset custodian, and accordingly qualify as party-in-interest transactions.

Administrative Expenses – During the plan years ended December 31, 2010 and 2009, the necessary expenses to administer the Plan were paid out of plan assets.

Management Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits, changes therein and disclosure of contingent net assets at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the balances of participant accounts and the amounts reported in the statements of net assets available for benefits.

Recently Issued Accounting Standards – In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU No. 2010-06 clarifies existing disclosure and requires additional disclosures regarding fair value measurements. Effective for reporting periods beginning after December 15, 2009, entities are required to disclose significant transfers into and out of Level 1 and 2 measurements in the fair value hierarchy and the reasons for those transfers.

Effective for reporting periods beginning after December 15, 2010, entities will need to disclose information about purchases, sales, issuances and settlements of Level 3 securities on a gross basis, rather than as a net number as currently required. Relevant provisions of ASU No. 2010-06 have been or will be adopted by the Plan in 2010 and 2011.

Subsequent Events – The Plan has evaluated subsequent events through October 3, 2011, the date the financial statements were available to be issued and has identified no subsequent events for recognition or disclosure.

3. Fair Value

The FASB's standard on fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

The Plan's investments are stated at fair value, based on the following methodologies.

Pooled Separate Accounts – Most pooled separate accounts are valued at the net asset value calculated based on the net assets of the underlying portfolio of securities determined by publicly quoted pricing inputs, some of which were obtained from pricing services.

The Principal U.S. Property Fund invests primarily in commercial real estate and includes mortgage loans which are backed by the associated properties. This fund has a temporary withdrawal limitation related to past turmoil in the credit markets that resulted in a sharp slowdown in the sale of commercial real estate assets over the last several years. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates. Accordingly, this fund is classified within Level 3 of the fair value hierarchy.

3. Fair Value (continued)

Guaranteed Interest Account – Valued at the contract value adjusted to reflect current market interest rates to the extent that such market rates exceed crediting rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

3. Fair Value (continued)

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010.

	Pooled Separate Accounts	Guaranteed Interest Account	Total
Balance, beginning of year	\$ 484,455	\$ 763,431	\$ 1,247,886
Realized gains (losses)	(32,017)	-	(32,017)
Unrealized gains (losses) relating to instruments still held at the reporting date	109,583	7,213	116,796
Purchases, sales, issuances, and settlements (net)	(9,141)	134,531	125,390
Balance, end of year	<u>\$ 552,880</u>	<u>\$ 905,175</u>	<u>\$ 1,458,055</u>
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	<u>\$ 109,583</u>	<u>\$ 7,213</u>	<u>\$ 116,796</u>

Changes in Fair Value Levels – The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2010 and 2009, there were no significant transfers in or out of levels 1, 2 or 3.
