INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Smith Dairy 401(k) Savings Plan
Orrville, Ohio

We were engaged to audit the accompanying statements of net assets available for benefits of Smith Dairy 401(k) Savings Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental schedule of Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Reliance Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

SMITH DAIRY 401(k) SAVINGS PLAN

Note 1. Description of the Plan

The following brief description of Smith Dairy 401(k) Savings Plan (the Plan) is provided for general information only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan available to certain union and non-union employees of Smith Dairy Products Company (Smith Dairy), Wayne Dairy Products, Inc. (Wayne Dairy), and Dairy Enterprises Inc. (Dairy Enterprises), collectively the Company, who have 6 months of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan is funded by employees' elective salary deferrals (up to 100% of a participant's annual compensation but not to exceed the statutory maximum amount). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions into various investment options offered by the Plan. The Plan offers various mutual funds, a collective investment trust and money market funds as investment options for participants. Participants also have the option to invest in self-directed brokerage accounts. Participants may change their deferral percentage and investment options at any time.

The Company makes matching contributions equal to the following:

Wayne Dairy (union): 100% of the salary deferral up to 2% of the employee's compensation provided that other criteria defined in the Plan document are met.

Wayne Dairy (non-union): 100% of the salary deferral up to 3% of the employee's compensation plus 50% of the salary deferrals exceeding 3% but not exceeding 5% of the employee's compensation.

Smith Dairy (union): 25 % of the salary deferral up to 8% of the employee's compensation.

Smith Dairy (non-union): 100% of the salary deferral up to 3% of the employee's compensation plus 50% of the salary deferrals exceeding 3% but not exceeding 5% of the employee's compensation.

Dairy Enterprises (non-union): 100% of the salary deferral up to 3% of the employee's compensation plus 50% of the salary deferrals exceeding 3% but not exceeding 5% of the employee's compensation.

The Plan also provides for a discretionary profit sharing contribution to be made by the Company for Smith Dairy (non-union) and Dairy Enterprises (non-union) employees. The discretionary profit sharing contribution for 2010 was \$248,243.

NOTES TO FINANCIAL STATEMENTS

SMITH DAIRY 401(k) SAVINGS PLAN

Note 1. Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's deferrals and the Company's contributions and income allocable to such amounts. Each participant's deferrals are deposited with Fidelity Brokerage Services, the custodian of the Plan's assets, in various investment options chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are immediately vested in their contribution and, with the exception of Smith Dairy (union) employees, the employer's matching contribution upon entry into the Plan. Smith Dairy (union) employees are subject to the following schedule regarding the employer matching contribution:

Years of service	Vested percentage
1	20%
2	40%
3	60%
4	80%
5	100%

All participants are 100% vested in the profit sharing contribution after three years of services.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate of 2.00% above prime at the time the loan is taken, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

Upon the retirement, termination, disability or death of a participant, all amounts attributable to the participant's account (elective salary deferrals, elective contributions by the Company, and income allocable to such amounts) become payable to the participant or beneficiary. In addition, an in-service withdrawal may be taken after age 59½. A participant is entitled to a distribution of benefits in the event of hardship as defined by the Plan.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$1,681 and \$11, respectively. There were no forfeitures used in 2010.

NOTES TO FINANCIAL STATEMENTS

SMITH DAIRY 401(k) SAVINGS PLAN

Note 2. Significant Accounting Policies

The accompanying financial statements reflect the application of certain accounting policies described in this note.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net asset available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

SMITH DAIRY 401(k) SAVINGS PLAN

Note 2. Significant Accounting Policies (Continued)

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the plan administrator, and recordkeeping fees are paid by the Plan. Certain other administrative expenses are paid by the Company.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment "Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements" (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning on or after December 15, 2009. See Note 4 for the impact of the adoption. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. We are currently evaluating the impact of the guidance related to Level 3 measurements on our disclosures.

In September 2010, the FASB issued an amendment "Plan Accounting – Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans" (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment requires retrospective application to all periods presented. This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$558,826 and \$468,138 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 and 2009, as a result of the adoption.

Pending Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs" (ASU 2011-04). ASU 2011-04 amended the FASB *Fair Value Measurements and Disclosures* topic to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in the *Fair Value Measurements and Disclosures* topic. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

SMITH DAIRY 401(k) SAVINGS PLAN

Note 3. Investments

All investment information including investments held as of December 31, 2010 and 2009, interest and dividend income and net appreciation in fair value of investments for the year ended December 31, 2010, included in the Plan's financial statements and supplemental schedule, was prepared by or derived from information provided by Reliance Trust Company, the trustee, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the investments is complete and accurate, with the exception of the adjustment to fair value of the collective investment trust, which is reported at contract value by the trustee. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investments.

The fair values of individual participant-directed investments that represent 5% or more of the Plan's net assets as of December 31, are as follows:

	2010	2009

During 2010, the Plan's investments in mutual funds appreciated in fair value by \$1,613,247.

Note 4. Fair Value Measurements

The FASB topic *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

SMITH DAIRY 401(k) SAVINGS PLAN

Note 4. Fair Value Measurements (Continued)

The three levels of fair value hierarchy under this FASB topic are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common Collective Trust: Valued at fair value based on the unit prices quoted by the fund, representing the fair value of the underlying investments.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Money Market Funds: Valued using amortized cost which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

- * This class includes a common collective trust which seeks to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumption of investment risk providing for preservation of capital, stability and predictability of returns, liquidity to pay plan benefits and high credit quality. The fund's net assets consist of investment contracts and cash equivalents. The fund's strategy seeks to invest primarily in synthetic guaranteed investment contracts. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this class has been estimated using the net asset value per share of the underlying investments.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5. Related-Party Transactions

Certain Plan investments are shares of a money market funds managed by Fidelity Investments. Fidelity Investments is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their entire accounts.

Note 7. Tax Status

The Plan adopted a volume submitter plan document sponsored by Accudraft.com, Inc. The Accudraft.com, Inc. volume submitter plan document has received an opinion letter from the Internal Revenue Service as to the volume submitter plan document's qualified status dated March 31, 2008. The volume submitter plan document opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 7. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination, including the resolution of appeals or litigation processes, if any. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Subsequent Events

Effective January 1, 2011, the Plan was amended to exclude Dairy Enterprises, Inc. and Wayne Dairy Products, Inc. as adopting employers. These two employers have established separate defined contribution plans for the benefit of their eligible employees and assets were transferred to these new plans accordingly.

The Plan has evaluated subsequent events through October 12, 2011, the date the financial statements were available to be issued.
