ICF 401(k) PLAN

Notes to the Financial Statements

December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

ICF International, Inc. (the "Company"), established a defined contribution plan, the ICF 401(k) Plan, (the "Plan") effective January 1, 2005, to provide retirement benefits to all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The following provides a general description of the Plan.

Eligibility and Contributions - Upon employment in an on-call status, employees are eligible to participate in the Plan. Participants may elect to make a pre-tax and/or after-tax contribution of up to 70 percent of their compensation (as defined by the Plan) to the Plan subject to annual statutory limitations.

Vesting - Participants are 100 percent vested in their pre-tax and after-tax contributions, rollover contributions and transfer contributions.

Distributions - Participants may make withdrawals from their vested account balances upon attaining age 59½, retirement, death, disability, hardship, or termination of employment, as defined by the Plan agreement and Section 401(k) of the Internal Revenue Code.

Upon termination of service, participants may elect to receive either a lump-sum amount equal to their account balances or, for balances in excess of \$5,000, in monthly, quarterly, or annual installment payments over a specified time.

If the vested value of the participant's account is \$1,000 or less, the participant's benefits will be paid in a lump-sum unless the trustee is instructed within 90 days of termination by the participant electing to make a direct rollover. If the vested value is more than \$1,000, but less than or equal to \$5,000, the balance of the participant's account will automatically be rolled over by the Plan into an individual retirement account ("IRA") with The Vanguard Group unless the trustee is instructed within 90 days of termination by the participant electing to make a direct rollover or receive a lump-sum payment. If the vested portion of the participant's account is more than \$5,000, the participant may elect a direct rollover, lump-sum payment, installment payments not to exceed a period of 10 years, or to leave the account in the Plan. If no request is made and the account is greater than \$5,000, the participant's account will remain in the Plan.

Participant Accounts - The Plan maintains an account for each participant. Each participant's account is credited with the participant's contributions and Plan earnings or losses. Participant contributions are allocated among separate investment funds as elected by the participant. Participants may change percentages contributed to the Plan and may redirect contributions and transfer existing balances between investment accounts on a daily basis.

Reclassifications - For comparability, certain 2009 amounts have been reclassified to conform with classifications adopted in 2010.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation - The financial statements of the Plan have been prepared on the accrual basis in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value, using quoted market prices.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

ICF 401(K) PLAN

Notes to the Financial Statements

December 31, 2010 and 2009

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the reported amounts of assets, liabilities, additions and deductions, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments - Benefit payments are recorded when paid.

Risks and Uncertainties - Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events - In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 10, 2011, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENT

The plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted prices for identical instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

Notes to the Financial Statements

December 31, 2010 and 2009

NOTE 4 - INVESTMENTS - CONTINUED

During 2010, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Net Appreciation in Fair Value of Investments:		
Mutual Funds	\$	386,438

NOTE 5 - RELATED PARTY TRANSACTIONS

The Plan invests in shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company ("VFTC"). VFTC acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-transactions which are exempt from the prohibited transaction rules.

NOTE 6 - ADMINISTRATION OF PLAN ASSETS

A portion of the administrative costs associated with the Plan are paid by the Company.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants remain fully vested in their account balances.

NOTE 8 - PLAN TAX STATUS

The Plan obtained a prototype plan determination letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirement of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

ICF 401(k) PLAN

Notes to the Financial Statements

December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

ICF International, Inc. (the "Company"), established a defined contribution plan, the ICF 401(k) Plan, (the "Plan") effective January 1, 2005, to provide retirement benefits to all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The following provides a general description of the Plan.

Eligibility and Contributions - Upon employment in an on-call status, employees are eligible to participate in the Plan. Participants may elect to make a pre-tax and/or after-tax contribution of up to 70 percent of their compensation (as defined by the Plan) to the Plan subject to annual statutory limitations.

Vesting - Participants are 100 percent vested in their pre-tax and after-tax contributions, rollover contributions and transfer contributions.

Distributions - Participants may make withdrawals from their vested account balances upon attaining age 59½, retirement, death, disability, hardship, or termination of employment, as defined by the Plan agreement and Section 401(k) of the Internal Revenue Code.

Upon termination of service, participants may elect to receive either a lump-sum amount equal to their account balances or, for balances in excess of \$5,000, in monthly, quarterly, or annual installment payments over a specified time.

If the vested value of the participant's account is \$1,000 or less, the participant's benefits will be paid in a lump-sum unless the trustee is instructed within 90 days of termination by the participant electing to make a direct rollover. If the vested value is more than \$1,000, but less than or equal to \$5,000, the balance of the participant's account will automatically be rolled over by the Plan into an individual retirement account ("IRA") with The Vanguard Group unless the trustee is instructed within 90 days of termination by the participant electing to make a direct rollover or receive a lump-sum payment. If the vested portion of the participant's account is more than \$5,000, the participant may elect a direct rollover, lump-sum payment, installment payments not to exceed a period of 10 years, or to leave the account in the Plan. If no request is made and the account is greater than \$5,000, the participants account will remain in the Plan.

Participant Accounts - The Plan maintains an account for each participant. Each participant's account is credited with the participant's contributions and Plan earnings or losses. Participant contributions are allocated among separate investment funds as elected by the participant. Participants may change percentages contributed to the Plan and may redirect contributions and transfer existing balances between investment accounts on a daily basis.

Reclassifications - For comparability, certain 2009 amounts have been reclassified to conform with classifications adopted in 2010.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation - The financial statements of the Plan have been prepared on the accrual basis in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value, using quoted market prices.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

ICF 401(K) PLAN

Notes to the Financial Statements

December 31, 2010 and 2009

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the reported amounts of assets, liabilities, additions and deductions, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments - Benefit payments are recorded when paid.

Risks and Uncertainties - Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events - In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 10, 2011, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENT

The plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted prices for identical instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

NOTE 4 - INVESTMENTS - CONTINUED

During 2010, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Net Appreciation in Fair Value of Investments:		
Mutual Funds	\$	386,438

NOTE 5 - RELATED PARTY TRANSACTIONS

The Plan invests in shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company ("VFTC"). VFTC acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-transactions which are exempt from the prohibited transaction rules.

NOTE 6 - ADMINISTRATION OF PLAN ASSETS

A portion of the administrative costs associated with the Plan are paid by the Company.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants remain fully vested in their account balances.

NOTE 8 - PLAN TAX STATUS

The Plan obtained a prototype plan determination letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirement of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Risks and Uncertainties - Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events - In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 10, 2011, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENT

The plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted prices for identical instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

Fairfax, Virginia

We were engaged to audit the accompanying statements of net assets available for benefits of the ICF 401(k) Plan (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by the Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

ICF 401(k) PLAN

Notes to the Financial Statements

December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

ICF International, Inc. (the "Company"), established a defined contribution plan, the ICF 401(k) Plan, (the "Plan") effective January 1, 2005, to provide retirement benefits to all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The following provides a general description of the Plan.

Eligibility and Contributions - Upon employment in an on-call status, employees are eligible to participate in the Plan. Participants may elect to make a pre-tax and/or after-tax contribution of up to 70 percent of their compensation (as defined by the Plan) to the Plan subject to annual statutory limitations.

Vesting - Participants are 100 percent vested in their pre-tax and after-tax contributions, rollover contributions and transfer contributions.

Distributions - Participants may make withdrawals from their vested account balances upon attaining age 59½, retirement, death, disability, hardship, or termination of employment, as defined by the Plan agreement and Section 401(k) of the Internal Revenue Code.

Upon termination of service, participants may elect to receive either a lump-sum amount equal to their account balances or, for balances in excess of \$5,000, in monthly, quarterly, or annual installment payments over a specified time.

If the vested value of the participant's account is \$1,000 or less, the participant's benefits will be paid in a lump-sum unless the trustee is instructed within 90 days of termination by the participant electing to make a direct rollover. If the vested value is more than \$1,000, but less than or equal to \$5,000, the balance of the participant's account will automatically be rolled over by the Plan into an individual retirement account ("IRA") with The Vanguard Group unless the trustee is instructed within 90 days of termination by the participant electing to make a direct rollover or receive a lump-sum payment. If the vested portion of the participant's account is more than \$5,000, the participant may elect a direct rollover, lump-sum payment, installment payments not to exceed a period of 10 years, or to leave the account in the Plan. If no request is made and the account is greater than \$5,000, the participant's account will remain in the Plan.

Participant Accounts - The Plan maintains an account for each participant. Each participant's account is credited with the participant's contributions and Plan earnings or losses. Participant contributions are allocated among separate investment funds as elected by the participant. Participants may change percentages contributed to the Plan and may redirect contributions and transfer existing balances between investment accounts on a daily basis.

Reclassifications - For comparability, certain 2009 amounts have been reclassified to conform with classifications adopted in 2010.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation - The financial statements of the Plan have been prepared on the accrual basis in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value, using quoted market prices.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

ICF 401(K) PLAN

Notes to the Financial Statements

December 31, 2010 and 2009

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the reported amounts of assets, liabilities, additions and deductions, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments - Benefit payments are recorded when paid.

Risks and Uncertainties - Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events - In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 10, 2011, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENT

The plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted prices for identical instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.
