A. Description of the Plan

The following description of the Orr, Inc. (Company) 401(K) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General This Plan is a type of qualified retirement plan commonly referred to as a 401(k) plan covering all employees of the Company who have completed six (6) months of Service and have attained age 21. It is subject to federal laws, such as the Employee Retirement Income Security Act of 1974 (ERISA), the Internal Revenue Code, and other federal and state laws that may affect participants' rights.

2. Contributions Participants under the Plan may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan on a pre-tax basis as an elective deferral. The Employer may declare a discretionary profit sharing contribution for each plan year. The maximum deferral in any taxable year may not exceed the amount allowed by law.

3. Participant Accounts Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, and (b) the Plan earnings. Allocations are based on participant's earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided the participant's account.

4. Vesting Participants are immediately vested in their elective deferrals including catch-up contributions and rollover contributions upon entry to the Plan.

5. Payment of Benefits On termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her account, or receive a life annuity, which means the particapant will receive payments for as long as he or she lives.

B. Valuations of the Plan

Valuations are generally made every business day.

C. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

D. Tax Status

The trust established under the Plan to hold the Plan's assets is Qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Plan continues to qualify and to operate as designed.

E. Disclosures

1. Information Certified by Trustee

Note 1: Investment Information

The following is a summary of the investment information regarding the Plan, included in the Plan's financial statements, that was prepared or derived from information prepared by Fidelity Investments and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate as of December 31, 2010:

| | 2010 | 2009 |
|---|---|---|
| Statement of net assets available for benefits: | $2,057,673 | $2,036,129 |

F. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for indentical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for indentical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for indentical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

*Interest-bearing cash:* Includes money market accounts and valued at the closing price reported in the active market in which the individual security is traded.

*Mutual Funds*: Valued at the net asset value (NAV) of shares held by the plan at year end.

*Participant loans*: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be

indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

Assets at Fair Value as of December 31, 2010

| Description | Level 1 | Level 2 | Level 3 | Total |
