We were engaged to audit the financial statements of CNC Door Corporation of Charlotte, N.C. 401(K) Plan (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedules of Schedule H, line 4i-Schedule of Assets (Held At End of Year) as of or for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Great-West Life & Annuity Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A – DESCRIPTION OF PLAN

The following description of the CNC Door Corporation of Charlotte, N.C. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is made available to all eligible, full-time employees of CNC Door Corporation of Charlotte, N.C. dba Overhead Door Company (the "Sponsor") on the first day of each quarter who have completed six consecutive months of service and are age twenty-one or older.

Contributions
Plan participants may make salary deferral contributions to the Plan in an amount that does not exceed the maximum allowed by the Internal Revenue Code. In addition, the Sponsor may make discretionary matching and profit sharing contributions to the Plan. Participants may also contribute eligible rollovers from other qualified defined benefit or defined contribution plans and individual retirement accounts.

Participants' Accounts
Each participant's account is credited with the participant's contributions, the Sponsor's contributions, and allocations of investment earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment funds offered by the Plan.

Vesting
Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the amounts contributed by the Company for the participant's benefit is based on continuous years of service. A participant is vested at the rate of 20% each year after two years of service.

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account. In 2010 and 2009, the loans bore interest rates ranging from 4.25% percent to 9.25% percent. The rate is based on comparable rates offered by other financial institutions for similar loans. Principal and interest on outstanding loans are repaid through payroll deductions.

Payment of Benefits
Upon retirement, disability, death, or termination of service, a participant is eligible to receive a lump-sum amount equal to the value of the vested interest in his or her account. Other withdrawals from participants' account balances may be made under certain circumstances, as defined in the Plan document.

Forfeited Accounts
Forfeitures are created when participants terminate participation in the Plan before becoming fully vested in the employer's contribution under the Plan. Forfeited non-vested accounts totaled $27,054 and $22,078, respectively, at December 31, 2010 and 2009. These accounts will be used to reduce future employer contributions. During the years ended December 31, 2010 and 2009 employer contributions were not reduced by forfeited nonvested accounts.

NOTE A – DESCRIPTION OF PLAN (Continued)

Administrative Expenses
Non-investments costs and administrative expenses of the Plan are paid by the Sponsor which is a party-in-interest. These expenses, which are not reflected in the accompanying financial statements, constitute exempt party-in-interest transactions under ERISA. Short-term trading fees are paid by the Plan and all other investment expenses are offset against the related investment income.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements of the Plan are prepared under the accrual method of accounting in accordance with U.S. generally accepted accounting principles.

Use of Estimates
The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could materially differ from those estimates.

Investment Valuation and Income Recognition
The Plan's net appreciation (depreciation) in investment value includes the unrealized appreciation (depreciation) in the fair value of investments and realized gains and losses on investments sold during the year. Gains and losses on the sale of investments are determined by the specific identification method. Realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the exdividend date. Interest is recorded on the accrual basis.

As required by the Fair Value Measurements and Disclosure Topic of the FASB Accounting Standards Codification, fair value is to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such is a market-based measurement, not an entity-specific measurement.

This Topic establishes a three-level valuation hierarchy based upon observable and non-observable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1: Observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.

Level 2: Observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Guaranteed portfolio fund:	Valued at contract value, which approximates fair value. The fund is fully benefit-responsive; therefore, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.
Mutual funds:	Valued at the total market value of the underlying assets provided by the trustee of the Plan and are classified within Level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits
Benefits become payable to participants upon their election or separation form the Sponsor. Benefits are recorded when paid.

Date of Management's Review
In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through October 5, 2011, the date the financial statements were available to be issued.

Recent Adopted Accounting Pronouncement
In January 2010, the FASB issued Accounting Standards Update ("ASU") No. 2010-06 which amends ASC 820, *Fair Value Measurements and Disclosures*, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. The Plan prospectively adopted the new guidance in 2010, except for the Level 3 disclosures, which are required in 2011. The adoption in 2010 did not materially effect, and the future adoption is not expected to materially effect, the Plan's financial statements.

In September of 2010, the FASB issued a new standard which requires participant loans to be classified as notes receivable rather than a plan investment and measured at unpaid principal balance plus accrued but unpaid interest rather than fair value. The Plan retrospectively adopted the new accounting in 2010. The adoption did not have a material effect on the Plan's financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Recent Accounting Pronouncement

In May 2011, the FASB issued ASU 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S GAAP and IFRS.* ASU 2011-04 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S GAAP and IFRS. The amendments are of two types: (i) those that clarify the Board's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The future adoption is not expected to materially effect the Plan's financial statements.

NOTE E – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplementary information was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	2010	2009
Investments at fair value:		
Guaranteed portfolio fund, mutual funds	$ 1,763,399	$ 1,602,175
Notes receivable from participants	148,371	86,473
Investment income	164,704	298,700

NOTE F – PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of mutual funds managed by Great-West Retirement Services (Great-West Life Funds), who is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services for the years ended December 31, 2010 and 2009 totaled to $2,971 and $2,373, respectively. Notes receivable from participants also qualify as party-in-interest transactions.

NOTE G – INCOME TAX STATUS

On November 27, 2001, the Internal Revenue Service declared the prototype used by the Plan is qualified pursuant to Section 401 of the Internal Revenue Code. Plan management believes any amendments and events since the effective date of the last Internal Revenue Service determination letter do not affect the qualified status of the Plan. Accordingly, the Plan is exempt from federal and state income taxes under current provisions of their respective laws.

NOTE G – INCOME TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the applicable authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income examination for years prior to 2007.

NOTE H – PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, market volatility and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks in the near term could have a material effect on participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of investments. Accordingly, the valuation of investments at December 31, 2010 may not necessarily be indicative of amounts which could be realized in a current market exchange.

NOTE J – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009, to Form 5500:

	2010	2009
