Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Cooper-Standard Automotive Inc.
Hourly Employees' Retirement Plan – Auburn

We were engaged to audit the accompanying statements of net assets available for benefits of the Cooper-Standard Automotive Inc. Hourly Employees' Retirement Plan – Auburn (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's *Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974,* the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Principal Life Insurance Company holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note 4 provided to the Plan Administrator by the custodian as of and for the years ended December 31, 2010 and 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's *Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.*

Note 1–Description of the Plan

The following brief description of the Cooper-Standard Automotive Inc. Hourly Employees' Retirement Plan – Auburn (the Plan) provides only general information. Participants should refer to their specific Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all union hourly employees at the Plan Sponsor's Auburn facility hired prior to July 1, 2008. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan established an agreement with Principal Life Insurance Company (the Custodian), to act as custodian of the Plan's assets. The Custodian administers and invests the Plan's assets and income for the benefit of the Plan's participants. Effective July 1, 2008, a master trust was formed with other plans administered by the Plan Sponsor to hold and administer all of the Plan's assets. See Note 4 for master trust disclosures.

The Plan's participants may be eligible for unreduced monthly pension benefits upon attainment of 30 years of continuous credited service. Participants also may retire earlier than the normal retirement age. Pension benefits for participants with less than 30 years continuous credited service are subject to a reduction based upon the time by which the retirement precedes the participant's attainment of age 62.

The amount of any pension benefit otherwise available may be reduced by certain disability payments (but not payments under the Federal Insurance Contribution Act (FICA)). The Plan provides certain survivor and disability benefits, and various optional forms of payment, some actuarially reduced.

Eligibility

All employees subject to the collective bargaining agreements between the Plan Sponsor and Local Union #634 of the United Steelworkers of America are eligible for participation in the Plan. The current bargaining agreement was effective November 8, 2000, and was extended through June 30, 2014. Effective July 1, 2008, the plan was frozen to all new employees.

Funding policy/contributions

The Plan is funded entirely through contributions made by the Plan Sponsor. The Plan Sponsor contributes such amounts as are deemed necessary on an actuarial basis to provide the trust with assets sufficient to meet the benefits to be paid to the Plan's participants. The contributions are designed to fund current service costs and to fund prior service costs over periods of ten to twenty years. The Plan Sponsor's contributions for 2010 and 2009 exceeded the minimum funding requirements of ERISA.

Vesting

Participants are vested after five years of continuous credited service. If participants are hired after age 60, they may receive a monthly pension benefit if they later become vested.

Note 1–Description of the Plan–continued

Pension benefits
Participants are entitled to monthly pension benefits equal to the amount specified in the plan agreement, which was increased effective July 1, 2007, multiplied by the years of continuous credited service at time of termination or retirement. If termination occurs prior to eligibility for an immediate pension benefit, vested participants may elect to receive a lump sum distribution in lieu of a deferred pension benefit.

Credited service was frozen for the period from April 1, 2009 through March 31, 2010 and no participants will be eligible to accrue service for this period.

Termination of the Plan
While the Plan Sponsor has not expressed any intent to terminate the Plan or its contributions thereto, it has the right to do so at any time, subject to the provisions of ERISA. In the event of partial or total termination of the Plan, participants' benefits become nonforfeitable.

In the event the Plan terminates, its available net assets will be allocated to benefits as prescribed by ERISA, generally in the following order:

a. Certain annuity benefits that former employees or their beneficiaries are receiving or that employees eligible for retirement would have been receiving had they retired.
b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) as discussed below.
c. All other vested benefits.
d. All non-vested benefits.

The PBGC guarantees most, but not all, vested retirement benefits and certain disability and survivor's pensions. However, there is a statutory ceiling on the amount of any individual's monthly benefit that PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants, or for those who elect to receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits, and the level of benefits guaranteed by the PBGC.

Chapter 11 reorganization
On August 3, 2009, the Plan Sponsor filed voluntary petitions for reorganization under Chapter 11 of the U.S. Bankruptcy Code. The Plan Sponsor obtained a commitment of Debtor in Possession Financing in order to continue normal operations. The Plan Sponsor does not believe the reorganization will have any impact on its ability to make required contributions to the Plan. Effective May 27, 2010, the Plan Sponsor successfully exited Chapter 11 bankruptcy.

Note 2–Summary of significant accounting policies

Basis of accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Investments
The fair value of the Plan's interest in the Master Trust is based on the beginning of the year's value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements for the underlying assets of the Master Trust.

Administrative expenses
The administrative expenses of the Plan are paid by either the Plan Sponsor or the Plan.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Estimates are most significantly utilized in determining the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

New accounting pronouncements
In January 2010, the FASB issued Accounting Standards Update 2010-06, Improving Disclosures about Fair Value Measurements (ASU 2010-06). ASU 2010-06 amended FASB ASC Topic, Fair Value Measurements, to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. The adoption of this standard did not have a material impact on the Plan's financial statements.

Subsequent events
The Plan has evaluated all events subsequent to the statement of net assets available for benefits date of December 31, 2010 through September 28, 2011, which is the date these financial statements were issued, and has determined that there are no other subsequent events that are required to be disclosed except as noted below.

Effective August 31, 2011, the Plan was frozen and no participants will be eligible to accrue service in the Plan.

Note 3–Investments

All investment information for the years ending December 31, 2010 and 2009 disclosed in the accompanying financial statements, including investments held at December 31, 2010 and 2009, interest and dividends and net appreciation in fair value of investments and investment fees and expenses for the years ended December 31, 2010 and 2009, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Custodian, Principal Life Insurance Company, as of and for the years ended December 31, 2010, and 2009. Such information has not been examined by independent auditors.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, "Fair Value Measurements" defines fair value, establishes a framework on measuring fair value, establishes a fair value hierarchy on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. The Plan accounts for certain financial assets at fair value under various accounting literature.

In accordance with the standard, the Plan has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into the three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within the different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded on the Statement of Net Assets Available for Benefits are categorized based on the inputs to the valuation techniques as follows:

Level 1. Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access.

Level 2. Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in non-active markets;

c. Pricing models whose inputs are observable for substantially the full term of the asset or liability; and

d. Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation of other means for substantially the full term of the asset or liability.

Note 3–Investments–continued

Level 3. Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Note 4–Master Trust

Investments within the Master Trust are valued at their fair value as determined by the Custodian. The Plan's interest in the Master Trust is determined by the Plan's relative asset value to the Master Trust's total asset value at the end of the year. Although assets of participating Plans are commingled, supporting records for the purpose of allocating the net gain or loss of the investment account to the participating Plans are maintained. The net investment income and administrative expenses of the investment assets is allocated by the custodian to each participating Plan based on the relationship of the interest of each Plan to the total of the interests of the participating Plans. The following has been derived from information which the Custodian has certified as complete and accurate as of December 31, 2010 and 2009, and for the years then ended.

The following presents the values of investments in the Master Trust as of December 31, 2010 and 2009:

	2010	2009
Mutual funds	$ 130,778,049	$ 115,540,764
Pooled separate accounts	39,404,092	44,220,900
Collective investment funds	25,641,944	26,805,064
Total investments of the Master Trust	$ 195,824,085	$ 186,566,728

	2010	2009
Plan's investment in the Master Trust	$ 21,529,473	$ 18,930,090
Plan's percentage investment in the Master Trust	10.99%	10.15%

Investment income for the Master Trust for the years ended December 31, 2010 and 2009:

	2010	2009
Mutual funds	$ 10,366,993	$ 18,242,218
Pooled separate accounts	4,848,610	3,656,322
Collective investment funds	3,149,869	6,674,790
Total net realized and unrealized gain on investments	18,365,472	28,573,330
Dividends	3,565,956	3,469,716
Net investment gain	$ 21,931,428	$ 32,043,046

Note 4–Master Trust–continued

Fair values of mutual funds, pooled separate accounts, and collective investment trusts are valued at the net asset value (NAV) of the market value of their underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5–Federal income tax status

The Plan has received a determination letter from the Internal Revenue Service dated November 30, 2005, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 6–Party in interest transactions

Certain Plan investments are shares of mutual funds managed by the Custodian, and therefore, these transactions qualify as party-in-interest transactions. There are no known prohibited transactions with a party-in-interest.

Note 7–Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired employees or their beneficiaries, (b) terminated employees with vested benefits, (c) beneficiaries of employees who have died, and (d) present employees or their beneficiaries. Benefits for active employees under the Plan are based on the employees' years of credited service computed to the nearest completed 1/12 of a year multiplied by the pension amount in effect on the valuation date. Benefits payable under all circumstances are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

An actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in performing the valuations include: (1) interest rate of 8 percent; (2) mortality based on the 2010 PPA Static Mortality Tables with separate mortality rates for annuitants and non-annuitants for 2010 and the 2009 PPA Static Mortality Tables with separate mortality rates for annuitants and non-annuitants for 2009 ; (3) probability table of retirement with ages ranging from 55 to 65 with ten years of service; and (4) disability pension is based upon the 1985 Pension Disability Table.

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuary has determined the present value of the accumulated plan benefits as of January 1, 2010 and 2009, to be as follows:

	2010	2009
Actuarial present value of accumulated plan benefits		
Vested benefits:		
Participants currently receiving benefits	$ 11,857,387	$ 11,321,245
Other participants	9,628,285	9,932,647
Total vested benefits	21,485,672	21,253,892
Non-vested benefits:	793,392	887,743
Total actuarial present value of accumulated plan benefits	$ 22,279,064	$ 22,141,635

Note 7–Actuarial present value of accumulated plan benefits–continued

A reconciliation of the changes in the actuarial present value of accumulated plan benefits is summarized as follows:

	2010	2009
Actuarial present value of accumulated plan benefits as January 1, 2009 and 2008	$ 22,141,635	$ 21,041,150
Increase (decrease) during year due to:		
Change in assumptions	26,364	0
Benefits paid	(1,476,946)	(1,318,140)
Change in discount period	1,722,336	1,630,566
Benefits accumulated	(134,325)	788,059
Actuarial present value of accumulated plan benefits as of January 1, 2010 and 2009	$ 22,279,064	$ 22,141,635

Note 8–Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Administrative Expenses

The amount included this year for plan related expenses is $264,000.

Mortality

For disabled and non-disabled participants: The prescribed mortality assumption under IRC §430(h)(3)(A) using 2010 PPA Static Mortality Tables with separate mortality rates for annuitants and non-annuitants.

Retirement

The rates at which all active participants are assumed to retire by age and gender are shown below:

Age	Males %	Females %
55	10	10
56-59	5	5
60-61	15	15
62-63	30	30
64	40	40
65	100	100

Terminated vested participants are assumed to commence at the age benefits are unreduced.

Disability Rates

100% of Pension Disability Table (DP-85) class 1 Incidence Rates.

Disabled Mortality

1985 Pension Disability for males and females.

Representative Termination Rates not Due to Disability, Retirement or Mortality.

The rates at which participants are assumed to leave the company by age and gender are shown below:

Age	Males %	Females %
25	6.80	6.80
30	5.05	5.05
35	3.95	3.95
40	3.25	3.25
45	2.75	2.75
50	2.25	2.25
55	0.00	0.00

Form of Payment

For valuation purposes, participants are assumed to elect the normal pension payment option.

Actives who terminate before their early retirement age are assumed to take a lump sum (calculated using UP 84 and a 4% interest rate).

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible male and female participants are assumed to be married. Male participants are assumed to be 3 years older than their spouses and female participants are assumed to be 3 years younger than their spouses.

Employees

It was assumed that there will be no new or rehired employees.

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date, and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.69%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.69%. The assumed rate of return on plan assets for to the second prior plan year (pursuant to IRS Notice 2009-22) was 6.38%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.38%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Participant Data

Employee data was supplied by Principal Financial Group as of the census date for active and inactive participants.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2010 is used to determine the maximum deductible contribution for the tax year ending December 31, 2010.

Benefits Not Included in Valuation

We believe that we have reflected all significant Plan provisions in this valuation.

PBGC Premium Funding Target

The Alternative Premium Funding Target was determined using the assumptions described above.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately. We believe that the use of approximations in our calculations has not resulted in a significant difference relative to the results we should have obtained by using more detailed calculations.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are rounded to the nearest .01% (e.g., 81.58%) to be consistent with the rounding specified for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Significant Events Since Last Actuarial Valuation

None.

Changes in Assumptions and Methods Since Last Actuarial Valuation

- The January 3-segment rates were used based upon election by the plan sponsor.
- The mortality was updated as prescribed under IRC 430(h)(3)(A) using 2010 PPA static mortality tables with separate mortality rates for annuitants and non-annuitants.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of principal plan provisions

Plan Sponsor

Cooper-Standard Automotive Inc.

Plan

Cooper-Standard Automotive Inc. Hourly Employees' Retirement Plan - Auburn

Effective Date and Most Recent Amendment

The plan was originally effective December 5, 1961, and was amended and restated on January 1, 2005. The plan was last amended on April 1, 2009.

Plan Year

The twelve-month period ending December 31.

Coverage and Participation

An Employee meeting the following requirements is an Active Participant on the first day of employment:

- Employed in the Auburn, Indiana plant before July 1, 2008
- Represented by United Steel Workers of America and Local Union No. 634
- Not a leased employee

Accrual Service

A participant earns a year of Accrual Service for each year of continuous service or period of service while an active participant in completed months. Service before January 1, 1976, which was not included in the employee's continuous service credit under the plan as in effect on December 31, 1975, is excluded.

Benefit Accrual service was frozen for the period April 1, 2009 to March 31, 2010.

Vesting Service

Vesting service is equal to Accrual Service.

Normal Retirement Benefit

Eligibility: The later of age 65 and 5 years after entering the plan

Benefit: Monthly benefit is Accrual Service multiplied by:

- $41, if hired on or before July 1, 2005 or
- $25, if hired after July 1, 2005

Benefit accruals were frozen for the period April 1, 2009 to March 31, 2010.

Normal Form of Payment

If single a monthly annuity payable for 5 years certain and life thereafter. If married a 50% joint and survivor benefit payable with 5 years certain.

Early Retirement Benefit

Eligibility: Earlier of 30 years of Accrual Service or age 55 with 10 years of Vesting Service.

Benefit: Monthly accrued benefit reduced by 0.4% for each complete month by which the date of commencement precedes age 62. If the participant has not attained age 55, but has at least 30 years of accrual service, the benefit is unreduced.

A participant who is at least age 55 with 30 or more years of Accrual Service receives a supplemental benefit, payable until the participant is eligible to commence Social Security benefits at the 80% reduced amount (age 62 if born before 1938). The monthly supplemental benefit is equal to $350 plus $5 for each year of Accrual Service over 30, and $10 for each year of age over 55 on the Early Retirement Date.

Disability Benefit

Eligibility: 20 years of Vesting Service, totally and permanently disabled, and not receiving payments for the same disability under the Permanent Total Disability provision of the Group Life Insurance Program.

Benefit: Monthly accrued benefit based on Accrual Service at date of disability. The 5-year certain period under the form of elected benefit begins on the Disability Retirement date if Vesting Service is at least 30 years. If Vesting Service is less than 30 years the 5-year certain period begins on the later of age 55 or Disability Retirement Date.

Termination Benefit

Eligibility: 5 years of Vesting Service.

Benefit: Monthly accrued benefit reduced by 0.4% per month that payment commences before age 62.

Death Benefits for Participants in Active Service

Eligibility: Participant is married for at least one year, is vested and dies before benefit commencement.

Pre-Retirement Benefit:

Upon the death of a participant after 5 years of Vesting Service, the surviving spouse shall receive a 50% survivor benefit computed as if the participant had terminated employment at date of death, survived to earliest retirement age and elected commencement of benefits under the Normal Form of Payment and at that time died.

Post-Retirement Benefit:

Elected form of payment plus a single sum benefit of $2,250. A participant who terminated employment before age 60 and did not commencement retirement or disability payments immediately is not eligible for a single sum death benefit.

Optional Forms

5-year certain benefit followed by either a reduced life annuity with continuing 50%, 75% or 100% joint and survivor benefit, 5-year certain life annuity followed by a reduced additional 5, 10, or 15 year certain and life annuity.

Changes in Plan Provisions since Last Actuarial Valuation
