Notes to Financial Statements
December 31, 2010 and 2009

Note 1: Description of the Plan

The following description of Walter P. Moore and Associates, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the *Plan Document* and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by Walter P. Moore and Associates, Inc. (the Company), for the benefit of its employees who have attained age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Fidelity Management Trust Company (Fidelity) is the trustee of the Plan and serves as Plan custodian.

Contributions

Participants may elect to defer a percentage of their compensation as contributions to the Plan, as allowed by the Internal Revenue Code (IRC). Participants may also elect to make after-tax contributions or contribute amounts representing rollover contributions from other qualified benefit plans. The Company may elect to make discretionary matching and profit sharing contributions as determined by the Board of Directors. For the years ended December 31, 2010 and 2009, the Company did not make any matching or profit sharing contributions. Contributions are subject to certain limitations. Forfeitures are used to reduce Company contributions.

Participant Investment Account Options

Participants direct the investment of their contributions, as well as the Company's contribution, into various investment options offered by the Plan. These investment options include mutual funds, money market funds, a common/collective trust fund and a self-directed brokerage account. The Fidelity Brokerage Link Account (self-directed brokerage account) allows participants to invest in additional mutual funds and individual stocks, subject to certain minimum balance requirements and other restrictions, as defined in the *Plan Document*.

The *Plan Document* includes an automatic deferral feature whereby a participant is treated as electing to defer 6 percent of eligible compensation unless the participant made an affirmative election otherwise.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled are the benefits that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and rollover contributions, plus earnings thereon. Effective July 1, 2008, participants are immediately vested in the Company's nonelective contributions and matching contributions. Prior to that date, vesting in the Company's nonelective contributions and matching contribution portions of their accounts, plus earnings thereon, is based on years of continuous service. A participant is fully vested after five years of continuous service. The non-vested balance is forfeited upon termination of service. Forfeitures are used to reduce future employer contributions.

Payment of Benefits

Upon termination of service, a participant's vested benefits may be paid out as a lump-sum distribution or a direct rollover.

Notes Receivable From Participants

The *Plan Document* includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50 percent of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings, unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the *Plan Document*.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Walter P. Moore and Associates, Inc.
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2010 and 2009

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices are used to value mutual funds as provided by Fidelity. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. Money market funds are valued at amortized cost, which approximates fair value.

The Fidelity Managed Income Portfolio is a common/collective trust fund that is a pooled fund of the Fidelity Management Trust Company Managed Income Portfolio. The Plan's interest in the common/collective trust fund is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end. The common/collective trust fund is recorded at contract value, which approximates fair value as estimated by Fidelity.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Plan Tax Status

The Plan obtained its latest determination letter on May 14, 2004, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the IRC and, therefore, not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. With a few exceptions, the Plan is no longer subject to U.S. Federal, state, and local or non-U.S. income tax examinations by tax authorities for years before 2007.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled $45,891 and $20,804, respectively. These accounts will be used to reduce future employer contributions.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Reclassifications

Certain reclassifications have been made to the 2009 financial statement to conform to the 2010 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Note 4: Party-in-interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee organization, or relatives of such persons.

The Plan invests in certain funds of the Plan trustee. The Company provides certain administrative services at no cost to the Plan.

Note 5: Fair Value of Plan Assets

Accounting Standards Codification Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy, which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds, money market funds and self-directed accounts. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include the common/collective trust fund. The Plan's interest in the common/collective trust find is valued at contract value, which approximates fair value. Inputs include market quotations or price, reported trade dates, broker/dealer quotes, bids offers of the underlying investments obtained from external appraisals, independent pricing sources and market research publications. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. No level 3 securities are included.

The tables on the following page present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2010 and 2009.

Note 6: Non-exempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions to the Plan, contributions of $57,825 and $77,269 were not remitted within the required time period for the years ended December 31, 2010 and 2009, respectively. Subsequent to year-end, the Company remitted the lost earnings to the Plan totaling $115 and $371 for 2010 and 2009, respectively.

Note 7: Significant Estimates and Concentrations

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with unprecedented circumstances and challenges, which, in some cases, have resulted in large declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Subsequent Events

Effective July 15, 2011, the *Plan Document* was amended to change investment options, include cash out limitations of $1,000 for distributions, include an In-Plan Roth conversion option and exclude severance pay received prior to termination of employment from compensation for non-elective employer contributions.

Subsequent events have been evaluated through October 7, 2011, which is the date the financial statements were available to be issued.
